Mutual Fire Extinguisher

The Ever-Ready Home Fire Department, $7.20

186B2517—Our Mutual Fire Extinguisher is constructed to stand high pressure. Made of heavy Copper with brass fittings. The tank is riveted, the same as high pressure boilers, making it absolutely tight and safe. Far superior to imitation seamless tubing or brazed joints. Approved by the National Fire Protection Association, under the rules of the National Board of Underwriters. Every Mutual Extinguisher bears their label. To operate the extinguisher, simply turn it upside down, this liberates the acid and chemicals. The acid is contained in glass bottle, which is held in metal cage, inside the extinguisher tank. Capacity of tank, 3 gallons. Each extinguisher is packed complete, with the necessary chemicals and full directions for use. Made of polished copper, nicely finished and ornamented. Usual $10.00 value. Weight, about 30 pounds. Our price, each..... $7.20

With Windsor Fire Extinguishers Hang a Few in Your Buildings

86B2516—Consists of a metal tube, 21¾ x2½ in., filled with a dry powdered chemical. It is to be hung on a heavy hook or nail. When needed, seize hold of the tube and pull it off the hook, leaving the cover hanging, and dash contents at the base of the fire. The powder generates carbonic acid gas, which puts the fire out. The powder will not freeze, burst, evaporate, corrode, explode or deteriorate. It will not injure hands, fabrics or anything else; does not lose its properties by time, as long as it is kept in its tightly closed tube. For Chimney fires, throw a few handfuls into any opening below the base of the fire. The metal tubes are handsomely decorated. Weight, 3⅝ lbs.
Each 45c
Per dozen $4.50

Gasoline Vapor Wall Torch (Extra Quality)

86B2514 — Gasoline Torch. Diam. of tank, 12⅜ in. Length of pipe, 19 in. Gives a flame of 7½ in. diameter. Can be used in a high wind without going out. Just the thing for campers, shows, fishing, etc. Regular $1.50 value. Wt., 4 lbs.
Each 98c

STOVE and FIRE PLACE FURNISHINGS at a SUBSTANTIAL SAVING

Sterno Kollapsible Kitchenette, 46c

The Sterno Kollapsible Kitchenette, size 5x2½ in., folded, is small enough to be conveniently carried anywhere. With it comes a can of Canned Heat (solid alcohol) in paste form, which is non-explosive, and will keep in any climate. A match touched to it instantly gives an intensely hot flame, which can be put out at once by sliding cover of can over top. Handles for carrying. Very inexpensive to operate. No need to dwell on the advantage of this little device for sick room, nursery, picnics, shaving, etc. Made of brass, heavily nickel plated and tin lined.

86B2503—Sterno Kitchenette, cap., ⅞ qt., with can of Canned Heat, wt., about ¾ lb. Price **46c**

86B2504—Extra Cans of Canned Heat, wt., about ¼ lb. Each **9c**

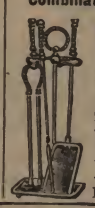
Alum Alcohol Stove

86B1008—A convenient utensil for use in the sick or nursing room. Pure aluminum, highly polished. Collapsible. Stand nests in boiler making a small, compact package. Capacity, 1 pt. Wt., about 5 oz. Price . . . **89c**

Nickel Plated Brass Glogau Alcohol Gas Stove

Burns Denatured, Wood or Grain Alcohol, **43c**

86B2501—Wickless, odorless and smokeless, absolutely safe. Stove is made of brass, with steel bottom and steel kettle supports, heavily tinned; will hold a vessel weighing 100 lbs.; size of fount, 3⅝x1⅝ in.; extreme height of frame, 4¼ in.; weight of stove, 6½ oz.; weight packed, 12½ oz. Usual retail value 75c up. Each **43c**



Fire-Place Spark Guards

86B2518 — Heavy tinned wire, lined with fine mesh wire cloth which sparks cannot pass through. Width, 24½ in. Height, 30½ in. Weight, 3 lbs. Each **75c**

96B2519 — Width, 30 in. Weight, 3¼ lbs. Each **88c**

Combination Fire Sets $2.40

86B2520 — Shovel, tongs and poker, with stand. Wrought steel finished in dull black. Height, stand, 24 in. Wt., 12½ lbs. Usual value, $2.75. Each **$2.40**

EXTRA HEAVY COAL HODS

RED STRIPED

186B2533 — Extra Heavy Galvanized coal hods. Will outlast two of the light pattern. Open top, length, 18 in. Ship. wt., 4 lbs. Each **58c**

EXTRA HEAVY COAL HODS

66c

REGISTERS, VENTILATORS AND THIMBLES

COMBINATION REGISTER AND VENTILATOR

Make one stove do the work of two; keep the upstairs room warm with heat ordinarily wasted.

Cut oblong hole in floor to fit register, white ceiling plate and black floor plate are held in position by springs.

$1.35

Adjustable to flooring 6½x13 in.; made for 6 in. pipe only.

As a stove pipe register it is a perfect safe-guard against fire and a heat saver; as a ventilator the two hinged wings can completely close ventilation if desired.

186B2521—Size, 8x10 in. Ship. wt., 10 lbs. Each . . **$1.35**

186B2522 — Size, 10x12 in. Ship. wt., 16 lbs. Each . . **$1.80**

ADJUSTABLE STOVE PIPE THIMBLES

86B2523—Perfect safeguard against fire from overheated stove or furnace pipes passing through floors or partitions. Made for 6-in. stove pipe with a screw thread for adjusting. Regular 35c to 50c retail value. Wt., 1 or 1¼ lbs. Size, 6 in. Extension, 4 to 8 in. Each **20c**
Size, 6 in. Extension, 6¼ to 11¾ in. Each **25c**

STOVE PIPE SHELF

86B2524 — Made to fasten on the smoke-pipe, above the stove. Cast iron, japanned; is 16¾ in. square; to fit 6-in. pipe. It grips the pipe securely. Weight, 6¼ lbs. Regular 75c retail value. Each **55c**

OUR GRANITE MONUMENTS

The granite used in our monuments is of the highest grade found in the United States. Quarried in the famous Barre district in Vermont. It takes an elegant mirror like polish which remains unchanged through years of exposure to the weather. One of the most permanent and also one of the most attractive materials available for monumental purposes. Enormous, costly machinery is necessary for shaping up and finishing this glass-hard granite. In the polished finish it is of a rather dark gray color and in the smooth hammered finish it is of a lighter gray color. They are of the latest designs and faultless in proportions and execution. In fact everything is of the best. We include wedge lead to go between the parts. Easy to set up. It requires from four to six weeks to finish a granite monument for shipment after order reaches us. Prices include delivery on cars at quarry in Vermont. Freight rates are nominal. Your saving is substantial and worth while.

OUR MARBLE MONUMENTS

The marble used in our monuments is of the highest grade found in the United States. It is quarried in the heart of the famous Vermont marble district. Takes a beautiful and lasting finish. More permanent than any imported marble. We furnish two kinds of marble, our White Clouded Rutland Italian Marble and our Blue Veined Marble. The preference of color is simply a question of taste, though if anything, blue marble is somewhat more permanent. Our designs are up-to-date and of perfect proportion. With the smaller designs we include metal dowels and stainless cement. Easy to set up. You are sure to be satisfied, while saving 20 to 50 per cent. It requires from two to four weeks to finish a marble monument for shipment after order reaches us. Prices include delivery on cars at quarry in Vermont. We are prepared to furnish small pieces of our polished marble, either the white clouded or the blue veined, at a cost of 15 cents each. Give color wanted.

Die	1 ft. 6 in.	1 ft.	1 ft.
Upper Base....	5 in.	1 ft. 1 in.	1 ft. 1 in.
Lower Base....	10 in.	1 ft. 4 in.	10 in.

283B9583—Blue Veined Marble..... **$58.30**
283B9584—White Clouded Marble.... **61.60**
Shipped from quarry in Vermont.

ATTRACTIVE MARBLE MONUMENT

A Plain, Conventional Design.

$16.65 Height,
18.85 3 ft. 10 in.

Made of the finest and most durable Vermont marble. The die is neatly carved at top and bottom. Corners are nicely beveled. All four sides of the die are finely polished, except the top, which is dull finished. The four sides of the upper base are finely polished. The entire lower base is dull finished. Weight, about 550 pounds.

Note—Porcelain photo miniatures, shown in illustration, are not included. For prices, see our Monument catalogue.

283B9698—Blue Veined Marble **$16.65**
283B9699—White Clouded Marble **$18.85**

	Height	Width	Thickness
Die	2 ft. 6 in.	8 in.	8 in.
Upper Base.....	6 in.	1 ft.	1 ft.
Lower Base.....	10 in.	1 ft. 4 in.	1 ft. 4 in.

Shipped from quarry in Vermont.

POPULAR MARBLE MONUMENT

Lamb and Scroll, and Gates Ajar.

$22.20 Height
25.00 3 ft. 10 in.

A favorite design. The die is highly polished on four sides, except the top surface and the lamb, which are dull finished. The upper base is polished on all four sides, except the top beveled edge, which is dull finished. The lower base is all smooth, dull finished. A higher grade of marble and workmanship than is usually obtainable at anywhere near our prices. Wt., about 600 lbs.

283B9692—Blue Veined Marble **$22.20**
283B9693—White Clouded Marble.... **25.00**

	Height	Width	Thickness
Die	2 ft. 6 in.	1 ft.	6 in.
Upper Base ...	6 in.	1 ft. 4 in.	10 in.

283B9590—White Clouded Marble.... **22.10**
Shipped from quarry in Vermont.

Windsor Stoves and Ranges

Made for Service Economical in Use

We Believe There Are None Better at Any Price

We offer in the following pages a most carefully selected variety of Stoves and Ranges. Look them over carefully. You will find the stove or range that you need and at the price you want to pay. No other house selling directly to consumers offers a wider variety or better stoves.

When you see the name Windsor applied to a stove or range, you can be sure there is no risk in buying it. The name marks it as a Montgomery Ward & Co. stove or range and assures you better quality cannot be had for the price we ask. None of the stoves or ranges we sell are just ordinary goods, picked up here and there or made from old, discarded patterns. Windsor Stoves and Ranges are of our own special design and cannot be procured anywhere else. They are manufactured expressly for us, in some of the best, modern equipped stove foundries in this country, under our own supervision. All the materials used are carefully selected and tested and are the best we can obtain for the different uses to which they are put. These foundries have been making stoves for many years, so that the workmen have grown up in the business, and know nothing but their own special line of stove building. This long continued practice makes them the most efficient workmen of their class. Not the smallest detail is overlooked in making our Windsor the Standard for all stoves and ranges. Windsors are not only long-wearing, economical and serviceable but they are attractive in appearance, and are approved by the many thousands who have bought, and are daily using, them.

Our Guarantee

We Guarantee that every article sold will be as illustrated and described in our Catalogue; will arrive in good condition; will serve its intended purpose; and will be satisfactory to you.

You may always exchange for other articles or have your money back, including, in either case, the transportation charges which you have paid.

We guarantee that every Windsor Stove or Range is faultless in material and workmanship and that it will give you the service you have a right to expect at the price you pay.

It is our desire to make trading with us so easy, so profitable, and so satisfactory, that you will be pleased not only with the goods received, but also with our service and our entire method of dealing.

One Windsor Stove or Range in a neighborhood sells a great many more

Pleased and satisfied customers are our very best advertisement. Our sales-records show case after case, hundreds upon hundreds of them, where families have bought their stoves and ranges from us, because of the fact that their neighbor had a Windsor Stove or Range and they knew, from personal observation, how economical, serviceable and satisfactory these stoves and ranges were, and know the wonderfully low price paid for them.

Windsor Stoves and Ranges are as good as can be built—there is no skimping, no cutting corners. The firepots and ovens are full, standard sizes. Every stove or range is correctly designed to every smallest detail. There is extra strength in every part that must stand an extra strain. They have all the practical, modern improvements that lessen work. They are built in best equipped foundries, located in the heart of the coal, coke and iron regions. Expert workmen mold and mount them. Best materials such as strong, durable, Stove-Plate Cast Iron, Norway Iron Rivets, pure Nickel, high-grade Steel, are used in their construction. These are some of the details that go to make the Windsor Stoves and Ranges as high-grade as any stoves or ranges sold.

Blackening and Polishing

All our Windsor Stoves and Ranges are nicely blackened and polished when they leave the foundry. We have men who do nothing else and each stove or range is in perfect condition when crated and ready for shipment. We were one of the first to have this work done at our foundries, thus saving you a lot of hard, dirty, disagreeable work. The crates for shipping are strong and well built so that the stove or range will reach you without a mar or break.

Rust-No Copper-Bearing Wellsville Polished Steel

Used in building our high-grade Windsor Steel Cooking Ranges. Especially Made for Long-Wearing Service

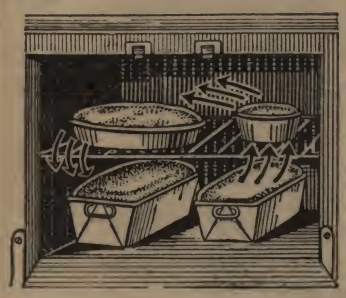
Everyone knows that the greatest enemy to the long-wearing qualities of a steel cooking range is Rust or Corrosion. How to overcome this trouble was the question we solved in selecting the materials to be used in building our high-grade Steel Cooking Ranges. After far-reaching experiments that took in all the brands of so-called "Rust-Proof" Iron and Steel, we finally decided to adopt Rust-No Copper-Bearing Wellsville Polished Steel as being the metal most suitable for our purpose.

This Copper-Bearing Steel is manufactured by one of the largest and best steel and iron producing companies in the world and, in our opinion, is their highest and best product. It is a mild steel, made after the careful and thorough manner that was followed in the old days when Quality was more the object than Quantity. In addition to this slow and painstaking method of manufacture, a copper-alloy is added, making this steel stronger, tougher and more highly resistent to rust and corrosion than steel or iron, made in any other way in sheet form.

Chemists and Metallurgists agree that there is no such thing as "rust-proof iron" or steel. Foundries that once made such a claim for their metal, now state their products are slow-rusting or rust-resisting. However it is possible by using any one of several materials (such as copper, nickel, etc.), to make an alloy with iron or steel which will rust much more slowly than pure iron. It is just such an alloy, copper combined in the form of a pure alloy with steel, that is used in the manufacture of our Rust-No Copper-Bearing Wellsville Polished Steel that makes our Windsor high grade Steel Ranges last indefinitely.

The Misleading Acid Test: Great stress has been laid on the fact that small samples of some so-called "rust-proof" iron or steel have been dipped in sulphuric acid and the effect was slight. Some have claimed that such a metal would withstand the effect of atmosphere and fuel gases longer than other brands of steel and iron. We do not believe this acid test has any importance, nor that it indicates how the metals will be effected in actual, daily use. Yet, in chemical laboratory tests that have been made, the copper-bearing steel used by us in Windsor Ranges resisted the attack of sulphuric acid much better than any other steel or so-called rust-proof iron, not containing copper. In actual service tests, which were made in the coke regions, at the sea-shore, in the mountains and in the rural districts, the copper-bearing steel showed a marked resistance to corrosion or rust and averaged from twice to three times the life of any of the non-copper-bearing steels or so-called "rust-proof" irons.

The superiority of this Copper-Bearing Steel is fully proved by every test that has been made.

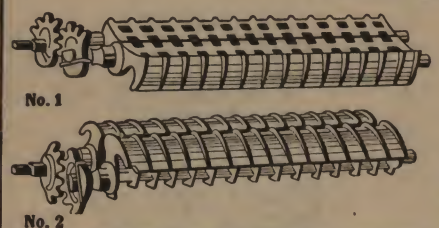


That the large and important users of sheet metal products fully acknowledge its merits, is shown by the growing demand for this slow-rusting or rust-resisting metal. It is found in the construction of the big buildings (sky-scrapers) of the city; in the roofs of barns; in fences around fields; in the nails in the house and, in fact, every place where rust or corrosion must be guarded against.

In using the Rust-No Copper-Bearing Wellsville Polished Steel in our high grade ranges, we have given you what we believe to be the best metal possible to obtain for range construction. And, we believe these ranges will outlast two or three of the ordinary so-called "Rust-Proof" iron or steel ranges.

While the long-wearing service of your range is the main feature, its appearance is also important. Therefore we use the most attractive finish that can be found. The Wellsville Polish is produced by a special patented process. Its smooth, lustrous dark blue surface grows better in use. Cooking ranges, made of this material, installed fifteen to twenty years ago and given reasonable care, look now as good as or better than when they were built.

To sum the whole matter up, we Guarantee every Windsor Stove or Range. Can anything be stronger or fairer?



Large, Roomy, Even-Baking Ovens

One of the first points every housewife takes into consideration in buying a range is the oven. All Windsor Ranges have large, roomy ovens, so constructed that they heat and bake perfectly and evenly on all sides. Owing to the perfect circulation of the heat, your pastry will be evenly browned in any part of the oven. Most of our ovens are coated with aluminum finish inside, adding to the cleanliness and rust-resisting qualities. Most of them have doors that open flat, forming a convenient shelf for turning roasts, etc., without lifting the pans. Our leading models have special spring doors, which enable you to have the door open at any angle, without dropping down and jarring cakes or other delicate pastry. For sure baking and convenience, Windsor Cook Stove and Range ovens are without a superior. Do not overlook these features in selecting your stove or range.

Duplex—No other type of Grate burns Coal and Wood without changing

The Duplex type is the only universal or reversible stove grate made. It enables you to burn any fuel with the same grate. You do not have to buy a new grate if you change fuels. You do not have to buy and install a separate grate for coal and for wood. The Duplex burns both. Don't buy a range with a grate that will burn only one kind of fuel. You may find it necessary to change fuels. In that case you are obliged to buy and install a new grate, unless your range is fitted with this type of Grate.

To change from coal to wood, you simply give the crank one turn, and take out the end plates. This gives you a perfect wood-burning grate, which will take sticks of wood up to 25 inches long. We show here the complete grate, with the separate grate bars, showing how the grate reverses for burning coal (No. 1), and for burning wood (No. 2). See how simple, convenient and labor-saving this grate is.

The Duplex Grate is fitted to all our best ranges, and costs you no more than if you bought a range with a grate that burns only one kind of fuel. The grate is extra strong, and built to withstand intense heat and long wear. It dumps the ashes at one complete revolution of the grate, leaving the fire bright and crisp. The ashes are all delivered into the large ash pans, with which all our ranges are fitted, and there is no dust or dirt, nor do any of the ashes fall outside of the ash pan. You cannot afford to buy a range that is not fitted with a Duplex type of Grate. Make your selection from the Windsor line—with the Duplex Universal Grate—the same grate for any fuel, without change of grate.

Hot Water Fronts

Illustration showing connection of Water Front with Upright Hot Water Boiler.

All our Steel and Cast Iron Ranges are built so that Water Fronts can be fitted in the fire boxes, for attachment to a Hot Water circulating boiler. These fronts can be used only in cities or towns that have a water pressure system or where your water is supplied from an elevated or air pressure tank. They can be easily put in place by taking out the front fire-box lining, attaching the water front in its place.

When Range and Water Front are ordered at the same time, **unless you otherwise instruct us,** we fit the water front in the range before it leaves our foundry. We make no charge for this work and would therefore advise all our customers to allow us to do it for them. All our Water Fronts are tested to the correct amount of Hydraulic Pressure.

Warning—If you use a Water Front never start a fire in your range until the connections between the water front and your hot water tank or boiler has been made, and the water turned on, for it will damage the water front if you do. **Do not confuse a water front with the water reservoir.**

Prompt Shipment—Little Freight

We can ship any stove or range promptly on receipt of your order. In the description of each stove or range, we state plainly from what points it can be shipped. If the stove or range you order is carried in more than one warehouse, we always ship from the one nearest you.

Freight rates on stoves and ranges are very low. At the prices we quote, you make a considerable saving, even after you pay the little extra freight charges. By shipping from warehouses nearest you, we further cut down the freight charges, as well as making shipment more promptly.

For Foreign Trade

We have an immense trade in Stoves and Ranges in foreign countries and therefore understand how to pack them to the best advantage in order to have them reach their destination in perfect condition.

In ordering Stoves or Ranges for foreign shipment (except Canada or Mexico) please allow about ten days extra time, as it is necessary for us to have these goods shipped from our foundries to our Foreign Department in Chicago, Illinois, in order to have them properly packed and crated. It will be necessary for us to charge you the freight from our foundries to Chicago on Stoves or Ranges for foreign shipment. This additional expense is more than made up by the superiority of our Export packing, for which our Foreign Department charges you actual cost only.

Repairs for Our Stoves and Ranges at any Time

Repairs for Windsor Stoves and Ranges.

We will be able to supply you with all repairs that may be needed for any of our Windsor Stoves and Ranges, at any time, and for years to come.

Our Windsor Stoves and Ranges are designed and built to give good service and last a great many years. Therefore the question of procuring such repairs as might become necessary during that length of time is an important one. You need have no fear or worry on that question when you purchase a Windsor Stove or Range, for we will always be in position to furnish you with all **needed repairs promptly** and at a **very low cost.**

A Few Suggestions in Ordering Repairs

(1) Always give full name of stove or range (not only Windsor, but Monarch-Windsor, Capital-Windsor, etc.).

(2) State whether the construction is for coal only or wood only, or for combined coal and wood.

(3) State whether it is with or without reservoir.

(4) **Give full name (not only Windsor) and all numbers** stamped on castings, such as 7-18, 8-20, or 9-20, not just 7, 8, or 9, as the latter way would not give us the correct information as to the size of the stove or range.

Advice Regarding Stoves

Do not purchase a stove too small in size to meet your requirements. A stove larger than is actually necessary is better than one too small, because a slow fire in a large heater is more economical than a forced fire in a small one. A stove that is too small and has to be forced in cold weather, consumes an unnecessary amount of fuel and gives you a big amount of extra work without producing the necessary heat. The **drafts** and **dampers** regulate the combustion and therefore the amount of fuel you use. A large stove can be checked down in mild weather until it does not consume any more fuel than a smaller size, while in severe weather the large stove can be operated to its fullest capacity to produce an abundant supply of heat without consuming an extra amount of fuel. The fire-pot determines the size of the stove; all the other parts are proportioned to fit the fire-pot. Therefore a large fire-pot will give you more heat and a greater radiating surface. This will allow you to heat a big amount of space both upstairs and downstairs where your stove is placed. See our Price Tables for the exact sizes of fire-pots.

Disconnect all cook stoves and ranges when not in use—that is, remove the stove pipe. It prolongs the life of the stove. It keeps the flues and bodies from rusting out.

Never allow the firebox of the range to be more than three-fourths full. When full, the draft is checked, a large amount of fuel is consumed and much heat is lost.

CAPITAL WINDSOR

A Range that you can use every day in the year and for years and years to come. The Pride of a Woman's kitchen. Has a perfect Baking Oven, also ample Cooking-Top surface. Convenient and Economical for a large or small family.

Our Capital Windsor Range is built with the plain Colonial design and solid construction so much desired by everyone. It has the smooth, natural black iron surface which is so easy to keep clean, and takes such a brilliant polish. There are no fussy carvings or pockets to catch and hold the dirt and grease. It is not overloaded with Nickel Plated parts.

It is built of carefully selected, thoroughly tested, special grade cast **iron stove plate, that has great wearing qualities. Every piece is thoroughly tested, and no imperfect castings are used. All the edges are ground smooth and even, and every joint is fitted true, making it tight and solid, so there is no leaking of air.**

The fuel is fully consumed—not wasted—and all the heat obtained is utilized in doing your cooking, baking, and keeping your kitchen warm and comfortable.

With just fair care, it will outlast several ordinary cast iron ranges. Our very low price will save you $10.00 to $15.00. according to the size you select. You cannot buy a better Cast Iron Range, even though you paid more money.

Six-Hole Cooking Top, Hot Water Reservoir, Warming Closet and Oven Thermometer

Scorch-less or Simmering Cover

Especially convenient for cooking cereals, rice custards, frosting for cakes, boiling milk, or in fac anything that burns easily and which ordinarily must be watched and stirred all the time. A con venience you will enjoy after using it once.

Will Burn Hard or Soft Coal, Coke, Corn Cobs or Wood

These are the Features that make the Capital Windsor so Convenient, Durable and Economical

The Cooking Top is built of heavy, durable **Cast Iron Stove Plate,** with the **Main Rim** cut in sections, to allow for the natural expansion and contraction of cast iron. The **Sectional** or **Key Plate Tops** fit this Rim firmly, solidly and tightly when in place. These Sections can be taken off, when necessary, to clean the top or right hand end Flues. This is a very convenient style of construction, and it prevents any bucking or warping from over-heat. This **Cooking Top** is always hot, as the intense currents of hot air are carried directly under it, and you have the full use of all the six cooking holes. It is also large enough so that you have plenty of room to prepare the big meals necessary when you have extra harvest help. The **Solid Lids** are firm and rigid. We furnish a **Sectional or Ring Lid** that permits you to place a cup or small vessel directly over the fire if desired.

The **Fire Box,** which is the life of any range, is so well constructed that your fuel does not go up the chimney in wasted smoke, but is fully consumed, and all the heat it contains is extracted and used for your baking and cooking.

The **Fire Box Linings** are built of durable cast iron and made to stand the wear and tear of the intense heat. They are built in sections, and can be replaced a section at a time, when necessary.

The **Feed Doors** are ample enough in size, and so constructed that you can easily put fresh fuel on the fire. The combined **End Pouch Feed** and **Broiler Door** allows you to use large chunks of soft coal. The **Front Feed Door** makes the use of wood easy and convenient.

Duplex Grate

Gives you the choice of fuel at all times. When necessary to change your fuel, you do not have to go to the expense or bother of changing your grate. If you wish to use **Wood,** just reverse this grate, leaving the **Flat Side Up,** and take out the end fire box linings. You can then use wood 25 inches long. This grate can also be removed without disturbing the fire box linings or water front.

The Ash Pit is of ample size, and the ashes are dropped through the ash chute into the strong, bailed **Ash Pan,** without spilling.

The Flues are so well built, and of such size, that they readily carry the intense heat to the **Cooking Top, Baking Oven,** and **Hot Water Reservoir,** where you want it. The Cast Iron Body radiates enough heat to keep your kitchen warm and comfortable in the coldest weather.

The Oven is large, square type, ventilated, and is quick and perfect baking; browns equally well, both on bottom and top. The **Oven Rack** doubles your baking capacity. **Oven Door** swings back out of the way when opened, and latches firmly and tightly when closed. The **Nickel Plated Outside Oven Shelf** is flush with the oven bottom. Just touch the **Automatic Opener,** or **Kicker,** with your foot, if you wish the oven door opened, and your hands are full. This saves you the bother of putting down your pies, cakes or bread.

The Oven Thermometer does away with all uncertainty, or the necessity of testing the oven, as it always records the exact degree of heat. There is no danger of spoiling your food by putting it into an oven that is either too hot or cold.

The Direct Draft, or **Baking Damper,** is placed out of the way, but in plain sight, on the cooking top. It operates easily, and has no long connecting rod to warp or burn out.

The Reservoir Tank is removable, and is lined with **White Enamel,** which keeps your water pure and wholesome. Holds 20 quarts of water, which is quickly heated, as the **Reservoir Damper allows** you to turn the heat directly under this tank, if desired. **Be sure this Reservoir Damper is shut when you wish to use the oven.**

The Wellsville Polished Steel Warming Closet is very useful and well built. The large, roomy, inside space will permit you to put a whole meal into it, where you can keep it warm and tasty without drying it up, should any of the family be late. The door rolls back out of the way. The top of this closet forms a shelf on which dishes can be warmed, or cooking vessels kept. **The Tea Shelf** extends the full length of the range, and is placed close enough to the cooking top to keep your tea or coffee pot warm. It is ornamental as well as useful. **The Nickel Plated Brackets,** which support this closet, and tea shelf, are very strong. **This Warming Closet** is heated by the hot air which rises from the cooking top, as well as the heat from the smoke pipe. It is also fitted with a joint of 7-inch pipe, that is equipped with a **Register Draft.** If your chimney hole is 6 inches, it will be necessary to purchase a joint of pipe tapering from 7 to 6 inches.

The Leg Base raises this range to a convenient height from the floor, and makes it easy to sweep underneath.

There is very little **Nickel Plating** used in the construction of this range—just enough to give a touch of brilliancy to the handsome outside appearance. This Nickel Plating is plain and durable, with a smooth, mirror surface, that is easy to keep clean and bright.

If this Range is wanted without Reservoir, but with Steel Warming Closet, deduct $3.00 from any price given in Price Table.

If this Range is wanted without Steel Warming Closet, but with Reservoir, deduct $3.00 from any price given in Price Table.

If this Range is wanted without both Reservoir and Steel Warming Closet, deduct $6.00 from any price given in Price Table.

The above models will be shipped only from foundry near Buffalo, N. Y.

Water Front—This Range can be fitted with a **Water Front,** for use in connection with a **Hot Water Circulating Boiler,** if desired. It does not interfere with the Oven in any way, and must not be confused with the Hot Water Reservoir. The **Water Front** can only be used in cities and towns with a water pressure system, or where your water is supplied from an elevated or pressure tank. The cost of this Water Front is small. **See our Price Table.**

Emery Ground and Polished Cooking Top

Every Housewife appreciates this feature. With this cooking top, no blacking is required (see large illustration). To keep it clean, simply wipe off with a cloth.

We please housewives with our kitchenware. Our prices show why

There is no secret about the popularity of this range. Every part has been designed with one object in view, that is, successful, long-wearing, economical service.

Monarch Windsor

Rust-No Copper-Bearing Wellsville Polished Steel Range

Six-Hole Cooking Top, Reservoir, Warming Closet and Oven Thermometer

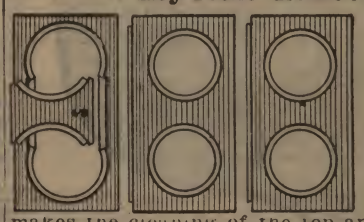
Think of the many meals which must be prepared this year and in the years to come, and arrange to do this necessary work easily, economically, and conveniently. Select for **your** Cooking Range one that is designed and built with the idea of giving good service, while saving time, labor and fuel.

The woman who uses her range every day soon learns to appreciate the many features of this range that add to her comfort and convenience. The "Rust-No" Wellsville, Polished Steel makes it unnecessary to blacken and polish the range body, while the Polished Cooking Top needs only to be wiped with a cloth. Notice the plain, smooth finish, the Colonial design, makes it specially attractive. There is no fancy filigree work to catch dust or dirt and make it hard to clean. The Nickel Plating is confined to a few broad, smooth surfaces which are easy to get at and polish.

A Size to Suit the Needs of Every Home

We build this range in enough different sizes so that we can take care of every family. The large sizes, with their big Cooking Top and extra large Oven, provide plenty of space to prepare all the food required by a large family, while the smaller sizes, with their ample Cooking Top and roomy Oven, will be able to do all the cooking and baking necessary for an ordinary size family and also to take care of any extra help or company.

Our Monarch Windsor Ranges operate just as economically for a small or large family, and you will always have a first class steel range of which you can be proud.



Large Roomy Oven

The Oven is large, air-tight and square in form. It is a sure and perfect baker. Both the big roasts of meat and the small, delicate cakes, or pies, come out well baked, tender and brown. The oven bottom plate is heavy steel, and braced so that it cannot warp, while the heavy steel oven top plate is protected by asbestos mill board and cast iron, an expensive construction seldom used by other manufacturers. The **Oven Rack** is steel, and slides in and out easily. It also holds firm and rigid under heavy roasting pans. The entire inside of the Oven is coated with **Aluminum** finish, which does away with all dark corners. The **Oven Door** is strong. Has a perfectly balanced spring hinge that prevents any jarring when opened. It also opens flush with the oven bottom, forming a solid shelf on which you can turn heavy pans without lifting them. It latches firm and tight when shut.

Rust-No Copper Bearing Wellsville Polished Steel

The much desired long-wearing service of a Steel Range is equal to its power to resist rust and corrosion while in daily use. There is no better rust-resisting metal manufactured than our Rust-No Copper-Bearing Wellsville Polished Steel which is used in the building of our Monarch Windsor Ranges. This steel is manufactured for us by one of the largest and best equipped steel mills in this country. They experimented for years at a heavy expense before finally adopting the secret patent process by which this steel is made. So perfect is this steel and so great is its rust-resisting qualities, that the demand for it has increased in a wonderful degree in the last few years. Note our full explanation of this metal given in our introductory page of Stove Section in this catalogue.

Key-Plate Removable Polished Cooking Top

The Emery-Ground and Polished Cooking Top is built of the very best grade of heavy Cast Iron Stove Plate, specially ground and polished, so that it does not require any blacking or polishing. Can be cleaned by simply wiping with a cloth. It is easy to understand how much hard, dirty work this feature of our Monarch Windsor Range saves you.

This entire Cooking Top, together with the Key Plates, can be removed, either a section at a time or altogether as desired. This makes the cleaning of the top and side flues convenient work. In most other makes of ranges, the cooking top is cast solid in one piece that cannot be removed without great difficulty.

In building the Cooking Top of our Monarch Windsor Range in sections, all danger of fire-cracking or warping is done away with. The Key-Plate directly over Fire Box is supported by a strong cast iron post which prevents any sagging that might occur as the result of the constant, intense heat to which it is subjected. We fit this Cooking Top with four strong, solid lids, one sectional or three-ring lid for use with small vessels, and our Scorchless Lid for slow or cereal cooking. Thus you have a range fully equipped for all kinds of cooking, both slow and rapid.

Scorch-less or Simmering Cover

Can be placed on any of the Six Cooking Holes and is very convenient for cooking cereals, rice, macaroni, custards, frostings for cakes, boiling milk or in fact for anything that requires slow cooking and which cooked in the usual way, would have to be watched and stirred constantly. Housewives are delighted with this convenient and labor-saving feature. Illustration shows air space between scorchless cover and kettle which is required for slow cooking.

Sectional Cover

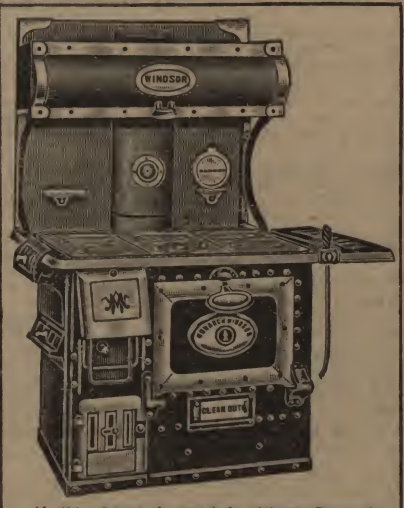
This is one of the handy features of this range. It is very convenient, especially when you wish to use small sized cooking utensils. We furnish one of these with each Monarch Windsor Range.

The Handy Oven Thermometer

The **Oven Thermometer** indicates the exact heat of the oven at all times, and tells you just when to put in your bread, cakes, pies, or meats, and whether the fire needs checking or replenishing. It saves you fuel, time and worry. Cakes, etc., often fall when the oven door is opened during baking. The thermometer makes this risk unnecessary.

Read these Further Details of Construction

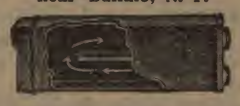
See opposite page for sizes, price table and shipping points



The Body is built of our famous Rust-No Copper-Bearing Wellsville Polished Steel of uniform color, thickness and quality. We use the Triple-Flue Wall construction, which while it is the most expensive, is also the best possible construction. We make the inner Flue-Wall of Rust-No Copper-Bearing Range Steel with an interlining of Canadian Asbestos Mill board wherever necessary. All the joints are hand riveted with strong Norway Iron Rivets, making the Body Absolutely Air-tight. A very important point and necessary to all successful range building.

Fire Box is made of heavy, strong, durable Cast Iron, correctly proportioned to produce all the heat needed and not to waste your fuel. Some fire boxes are too shallow and others too deep, but our Monarch Windsor Fire Box is perfect in every smallest detail. The Linings are very strong and are made in sections, so they can be replaced one at a time, whenever necessary.

The Quick, Reversible Duplex Grate is the only practical and successful grate that will burn the different fuels named on opposite page. When you purchase a range with any other style grate, you have to change your grate or buy a new range, when you wish to change your fuel. In burning coal or coke, leave the concave side up but when you wish to burn wood, reverse this grate, leaving the flat side up. It is not necessary to shake this Duplex Grate: One quick, full turn of the handle over as far as it will go towards oven door and then back again, will clear fire of all dead ashes and clinkers, leaving you a fresh, live fire for work. Can anything be easier or simpler?



The Ash Pit is large and deep and has a most useful Ash-Guard which drops the ashes into the strong bailed Ash-Pan below without spilling them all over the floor and yourself.

Dampers are very important in every range and there are none more conveniently placed or easier to operate than those in our Monarch Windsor Range. There are no long connecting rods that so often burn out or warp, causing untold trouble and expense. The Oven or Direct Draft Damper is in plain sight, back of Cooking Top but out of the way. There is no danger of your accidentally hitting it, thus opening the damper when you wish it closed. This is very likely to happen when this damper is placed above oven door.

If this Range is wanted without Reservoir, but with Warming Closet, deduct $3.50 from the price of any size given in our Price Table.

This style of our Monarch Windsor Range will be shipped from Foundry near Buffalo, N. Y.

Water Front—These Ranges can be fitted with a **Water Front** for connection with a **Hot Water Circulating Boiler.** This can only be done in cities or towns where there is a water pressure system, or where water is supplied from an elevated or pressure tank. Do not confuse the Water Front with Hot Water Reservoir, as they are two separate and distinct stove parts, and can be used together or separately as desired.

Reservoir casing is made of very heavy, durable cast iron, which is practically rust-proof. The inside of the Reservoir Tank is lined with white enamel, which further prevents rust and keeps the water pure, clean, and wholesome. The tank can be very easily lifted out for cleaning, etc. The Reservoir is of very generous capacity, holding five gallons of water, which insures a liberal supply for any purpose. The flue construction is so arranged as to heat the reservoir very quickly, so that there is no waiting for hot water.

The **Rust-No Wellsville Polished Steel Warming Closet** is strong and well built. It is large enough to be of real value and service. The door rolls back out of the way, and the ample interior space permits you to warm your dishes and keep the food warm and tasty for the late comers. With this **Warming Closet,** it is not necessary to run the risk of cracking your nice dishes by putting them on the hot range top, or to crowd up the Cooking Top or Oven when you need that space for the regular cooking.

The **Nickel Plated End Bracket Supports** are made of pressed steel, and are unbreakable. The **Two Nickel Plated Tea Pot Stands** drop low enough to the hot cooking top so that your tea or coffee is kept warm. These stands fold back out of the way when not in use. The **Warming Closet** is fitted with a joint of 7-in. pipe, equipped with a **Register Draft.** If your chimney hole is 6 in., it will be necessary to purchase a joint of pipe tapering from 7 to 6 in.

The **Nickel Plating** used on these ranges is plain and durable, with a brilliant mirror finish. It is not hard to keep clean, sanitary and bright. It adds much to the attractive outside appearance of this handsome range.

The **Towel Rod** is nickel plated, and drops down when not in use.

White Enamel Oven Door Panels

One of the finest examples of improved modern range building. Will stand closest investigation as to quality and price. Our famous "Rust-No" Copper-Bearing, Wellsville Polished Steel used in its construction. Built to give 365 days service, year in and year out and will outwear two or three ordinary polished steel ranges. Cannot fail to please you, so send us your order.

FAMILY WINDSOR

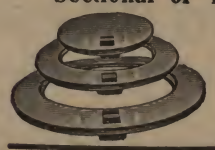
Rust-No Copper Bearing, Wellsville Polished Steel Range

Six-hole cooking top, reservoir, warming closet and oven thermometer

New improved, 1915-16 Model

Will burn hard (Anthracite) or soft coal, coke, corn cobs or wood

Emery Ground and Polished Cooking Top. No Blacking necessary. Wipe with cloth. Scorchless Cover. White Enamel Oven Door Panel. Big, roomy, sure-baking Oven. Plain, Smooth, Sanitary Colonial Finish, Leg Base.



Why pay others from $55.00 to $60.00 for a range, when you can purchase this one from us at our very moderate prices, named below? That our Family Windsor Range is a favorite with a great many of our customers, is fully shown by our sales records. One range in a neighborhood sells a great many others. With its new dress, so wonderfully attractive and labor-saving, we feel sure this range will go far ahead of its former sales records. None of its perfect cooking and baking qualities have been changed; its fuel consumption is still low; the heat produced is still steady, intense and is carried where it is needed for your work; in fact, only its outside dress has been changed and its long-wearing qualities have been added to, by reason of our using Rust-No, Copper-Bearing Wellsville Polished Steel in its construction. In purchasing this range you secure a long-wearing, rust-resisting, perfect-operating, labor-saving, economical and attractive Polished Steel Range. Nothing in your house-furnishings is so important as the Cooking Range. It is of vital interest to the whole family. You want the best quality that your money can buy and we honestly believe the Family Windsor New, Improved 1915-16 Model, is the best range value offered at the price. It is also a range that you can proudly show to your friends, no matter how critical they are. Order one and try it.

Scorch-less or Simmering Cover

Our Scorch-less Cover is furnished with each Family Windsor Range. It is very useful for cooking cereals, rice, frostings, boiling milk or anything that requires slow cooking or that burns easily. Can be placed in any of the six cooking holes and is a very convenient feature of the Family Windsor Range.

Sectional or Three-Ring Lid

A very convenient device that permits the placing of small cooking vessels directly over the fire if desired. Can be placed in any of the six cooking holes, and will prove very useful.

Without Reservoir

Our Improved 1915-16 Family Windsor is Practical, Economical and Handsome.

If this Range is wanted without Reservoir but with Warming Closet, deduct $3.00 from price of any size given in Price Table.

If this Range is wanted without Warming Closet but with Reservoir deduct $3.00 from price of any size given in Price Table.

If this Range is wanted without Reservoir and Warming Closet deduct $6.00 from price of any size given in Price Table.

268B1935—Water Front to use in connection with 30 to 60 Gallon Hot Water Circulating Boiler. Weight, 25 lbs. Price.....$2.75

We ship the above Three models of the Family Windsor Ranges from foundry near Buffalo, N. Y., only. We ship promptly.

Construction

Note the careful construction of the different parts of the Family Windsor Range

Body is built of our famous Rust-No, Copper-Bearing, Wellsville Polished Steel, with inner flue-wall of Rust-No Copper-Bearing Range Steel. These two thicknesses of steel are interlined with Canadian Asbestos Millboard wherever necessary and all three, steel, asbestos and steel, are hand riveted together with strong Norway Iron Rivets, making the Body Absolutely Airtight. This extra careful Range Body construction is not found in other make of ranges and gives the Family Windsor Ranges their long-wearing and rust-resisting qualities.

Emery Ground and Polished Cooking Top needs no blacking or polishing. Is built heavy, strong and reinforced so as to stand unlimited wear of daily use. It is of such ample size, you can accomplish all the cooking necessary. There are four Solid Lids, one Sectional or Three-Ring Lid and one Scorchless Lid. This gives a Cooking Top which is always ready for either rapid or slow cooking. The Key-Plate over Fire-Box is supported by a strong iron post which prevents any sagging that might occur as the result of constant intense heat. This cooking top is made in sections which can be removed for cleaning top and side flues.

Fire-Box is the latest improved pattern. It is made of the highest grade of cast-iron. The fire linings are made in sections. Will outlast all other kinds and can be replaced, a section at a time, when necessary.

Duplex Grate is the only grate ever constructed that will permit the use of all kinds of fuel without changing the grate.

This is a big advantage. With this one grate you can burn hard coal, soft coal, or wood. One turn of the crank clears away the dead ashes. To use WOOD for fuel reverse the grate, leaving the flat side up. Then take out the end linings and you will have a large extension firebox. Will take wood 25 inches long.

Sure-Bake, Big Capacity Oven is broad, deep and high. Square type and ventilated. No better baking can be done anywhere and by using Oven Rack, you can do a large amount of baking at one time. Top Oven Plate is carefully reinforced the proper distance with cast iron and asbestos. Bottom Oven Plate is extra heavy and thoroughly braced. Entire inside of Oven is coated with Aluminum Finish. No dark corners.

Perfectly balanced, Drop Oven Door opens flush with oven bottom, forming convenient shelf on which you can turn heavy pans without lifting. This door is strong and unusually attractive with a wide Nickel Plated Band, **inclosing the handsome White Enamel Panel.** Few ranges have such an ornamental as well as useful oven door.

Oven Thermometer has long since demonstrated its true value and service. It is accurate and durable. You can tell any change in oven-heat by looking at it. No need to bother opening the door and chilling oven. When you have used it a few times you will thoroughly appreciate its economical and satisfactory service.

Dampers do not burn out, and are easy to operate. Direct Draft or Oven Damper is extra large size, has turn handle and is protected from the fire so it cannot warp. Reservoir Damper carries the heat directly under the reservoir tank, insuring hottest water with least fuel.

Reservoir Casing is made of the very best cast-iron and will not rust out from steam or moisture. This is a very important feature. Reservoir Tank is lined with white enamel and is easy to keep clean. The tank is removable and holds **five gallons.**

Warming Closet is strong and carefully built, and has a convenient **Back Guard** on the top. This **Warming Closet** has a large and roomy inside space, so that you can warm your dishes, or keep the entire meal warm and tasty, if the family is late. The door slides back out of the way when opened. **Nickel Plated Pressed Steel End Brackets,** which support it, are **Unbreakable.** It is fitted with a joint of 7 inch pipe, equipped with **Two Nickel Plated Tea Pot Stands.** If your chimney hole is 6 inch, it will be necessary for you to purchase a joint of pipe tapering from 7 to 6 inches.

Leg Base is built substantial and strong. It allows easy access to the floor underneath, and gives ample room to sweep and keep it neat and clean.

Nickel Plating is made with unusual care and from the best quality of pure nickel. Note its smooth, mirror finish surface. There is nothing so easy to keep clean as nickel finish. There is no over ornamentation, but just enough Nickel Plated parts are used to harmonize with the general attractive appearance of this range.

Nickel Plated Towel Bar extends full length of cooking top, thus providing lots of room for drying dish towels, cloths and such things.

Prices for Range complete with Reservoir and Warming Closet, nicely blackened and polished, securely crated, ready to ship

Article No.	Price	Range No.	Size of Lids	Size of Oven. Inches			Size of Cooking Top, with Reservoir, In.	Size of Pipe In.	Average Shipping Weight Pounds
				Width	Depth	Height			
268B1920	$35.65	58-16	8	16	20¾	13½	46½x29¾	7	560
268B1921	37.30	58-18	8	18	20¾	13½	48½x29¾	7	570
268B1922	37.80	59-18	9	18	20¾	13½	48½x29¾	7	575

268B1924	39.40	59-20	9	20	20¾	13½	50½x29¾	7	595

Height, floor to top of Back Guard on Warming Closet, is 60 inches; height, floor to Cooking Top, is 30 inches; length of Fire Box, for Wood, is 25 inches; size of Fire Box, for Coal, is 18x7¾x7½ inches.

Shipped promptly from stock at Chicago, from warehouse at St. Paul, Minn., or from foundry near Buffalo, N. Y. We ship from the point nearest you, which means you will receive your range in the shortest possible time and freight charges will be reduced to the minimum.

THE RANGE DURABLE

Malleable Iron for strength. Copper-Bearing Wellsville Polished Steel for rust-resisting durability. Practically unbreakable. Nothing better made. A Range that is built to last a life-time. Saves fuel and will outwear almost any other range of its type. Why pay from $65.00 to $80.00 at retail, when you can purchase a range like this one from us at our very moderate prices?

Malleable Windsor Copper-Bearing Wellsville Polished Steel Cooking Range

Six-Hole Cooking Top, Hot Water Reservoir, Warming Closet and Oven Thermometer.

Will Burn Hard (Anthracite) or Soft Coal, Coke, Corn Cobs or Wood

Our New Improved 1915-16 Model

Not many years ago a Malleable Iron Cooking Range was a luxury. Now it is a necessity. Our very moderate prices place it within the reach of anyone.

Never was quality and low price so closely combined as they are in the building of our Malleable Windsor Range. No other Malleable Range is more carefully constructed. Realizing that the inner part of a range will rust or corrode quicker than anywhere else, we have built our Malleable Windsor Range with Copper-Bearing Polished Steel outer body, while the inner flue wall is Copper-Bearing Range Steel. In this way we give you the rust-resisting qualities where they are most needed. Such construction makes these ranges practically everlasting.

Note the many practical conveniences embodied in its construction: The big capacity Malleable Iron Cooking Top, where largest size cooking vessels can be used with comfort; the large, quick and perfect Baking Oven that will do all your baking at one time; the extra size Hot Water Reservoir which provides plenty of Hot Water for household use; the Scorchless lid for delicate cooking; the Lift-Up Fire Box Top that leaves both hands free for other work; the strong Legs raising range far enough off the floor so there is no danger of fire

Malleable Scorch-less or Simmering Cover

Made of Malleable Iron, and ideal for slow cooking or for things that burn easily and ordinarily must be watched every minute, such as cereals, custards, candy, frostings or boiling milk. A convenience fully appreciated after using it once or twice.

Lift-Up Fire Box Cover

Works easily and perfectly. It automatically holds where placed, leaving both hands free for other work, such as putting fresh coal on the fire or broiling and toasting over the live fire.

Doors are made of Malleable Iron and Copper-Bearing Wellsville Polished Steel

Unbreakable Oven Door

Oven Door is double latched and has Nickel Plated Malleable hinges and brackets, making it practically unbreakable. A man can stand on it without bending or breaking it. Also forms a convenient shelf on which the heaviest pans or pots can be turned without lifting them.

Nickel Plated Drop-Front Wood Feed Door is large and the drop Broiler Door has a check draft slide. Nickel Plated, hinged cleanout door, under oven, fastens with a positive turn buckle. Nickel Plated Ash-Pit Door swings to one side, making removal of bailed Ash-Pan an easy matter.

Notice the careful construction of our Malleable Windsor Ranges

The Malleable Iron used in these ranges can be bent, hammered and twisted at will. It is known for strength and durability. The Copper-Bearing Wellsville Polished Steel, which is one of the best rust-resisting metals made, has stood the severest practical service tests, as well as laboratory, acid tests. The combination of these two metals, together with our careful, high grade workmanship and rigid inspection, produces one of the best and longest wearing Malleable Iron and Steel Cooking Ranges manufactured.

In building the Body, we use the triple wall flue construction, making Outer Body of the famous Copper-Bearing Wellsville Polished Steel; the center is Canadian Asbestos Millboard, while inner flue wall is heavy Copper-Bearing Annealed Range Steel. This makes a combination for durability and rust-resisting that can hardly be improved upon. It is hand riveted with strongest Norway Iron Rivets and is absolutely air-tight, which means less fuel is needed to produce and maintain the proper heat.

Emery-Ground and Polished Malleable Iron Cooking Top is a great labor saving convenience. It needs no blacking or polishing and is cleaned by wiping with a cloth. This Cooking Top has Four Solid Lids; One Sectional or Three-Ring Lid and our Malleable Iron Scorch-less Lid, completely fitting it for rapid or slow cooking.

Big, Sure-Baking Oven. Every woman appreciates the importance of a good oven with plenty of baking space. A perfect oven means a perfect range and there is none better built than the oven of our Malleable Windsor Range. It is absolutely air-tight and starts to heat when fire is lighted, therefore is good and hot, ready for work, by the time fire is burning brightly. The intense hot air is carried quickly around it, heating all parts, the top, sides and bottom, alike, while the reinforced construction retains this heat within the oven, insuring an even baking temperature with little fuel. No matter where you place your bread, cakes or pies in this oven, they come out well done, brown and perfect in every way. Oven is clean and sanitary as the interior is coated with aluminum finish, doing away with all dark and musty corners. The strong, retinned Steel Wire Oven Rack holds firm under the heaviest cooking pans.

Extra Large Reservoir is built of Malleable Iron and Copper-Bearing Wellsville Polished Steel, making it strong and rust-resisting. Tank is made of genuine cold rolled, 16-oz. copper, tinned inside, and holds 44 quarts of water. This water is kept pure and wholesome and while it heats quickly, does not in any way effect the cooking or baking qualities of the range. Your fuel cost is not increased and at the same time you have a supply of hot water for household use.

Base Skirt-Band is twice as wide as is used by many others, and together with the strong nickel plated Legs, add to the substantial, well built appearance of the range.

Fire-Box has heavy, cast iron sectional linings that can be taken out a section at a time. Drafts are easily regulated, therefore fire is always under complete control.

Duplex Grate is the most economical grate that can be used. You have your choice of fuel without trouble or expense of buying a new range. One quick, full turn of grate handle, as far as it will go, towards oven door and then back, clears fire of all dead ashes, leaving it bright and fresh, ready for your cooking. Grate can be taken out without disturbing either linings or water front, if one is used.

Warming Closet is large, handsome and sanitary. Very convenient and easy of reach. Nickel Plated Malleable Iron Door Frames are hand riveted and fit snug and tight. Has a Back Guard or Top and a joint of 7-inch pipe, fitted with a Nickel Plated Check Damper; also Two Nickel Plated Tea-Pot Stands that fold back out of way when not in use. If your chimney hole is 6 inches, you must purchase a joint of pipe tapering from 7 to 6 inches.

Nickel Plated Towel Bar or Dress Guard extends full length of hot cooking top and gives ample space for wet dishcloths, towels, etc.

Oven Thermometer or Heat Indicator. Accurate and serviceable. Cuts your fuel bill and saves wasting fuel. Is exact and makes perfect baking possible for everyone. Easy to understand and does away with all worry about the heat of your oven.

If this Range is wanted **without reservoir but with Steel Warming Closet,** deduct **$3.50** from the price of any size in the price table.

If the Range is wanted **without Steel Warming Closet but with Reservoir,** deduct **$3.00** from the price of any size in the price table.

If this Range is wanted **without both Reservoir and Steel Warming Closet,** deduct **$6.50** from the price of any size in the price table.

The above three styles of our Malleable Windsor will be shipped from foundry near Buffalo, N. Y., only.

Prices for Malleable Windsor Range Complete with Reservoir and Warming Closet, nicely blackened and polished, securely crated.

Shipment

We ship promptly from stock at Chicago; from warehouse at St. Paul, Minn., or foundry near Buffalo, N. Y. By shipping from the point nearest you, we reduce the freight charges to the minimum, and your range will reach you in shortest possible time.

Water Front, Malleable Windsor Ranges are so constructed that they can readily be equipped with a Water Front for attachment to a Hot Water Circulating Boiler. The cost is low (see Price Table). This Water Front can only be used in cities or towns having a water pressure system, or where water is supplied from an elevated or pressure tank.

268B1965 **Water Front.** Heating capacity, 30 to 60 gallons. Shipping weight, 25 lbs. **Price** **$2.75**

Quality is something we never overlook in buying our Food Products

White Enamel Splashers

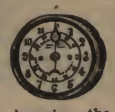
Economical, Longwearing, Serviceable. A Steel Cooking Range that is just as ornamental as useful. Something New. A rust-resisting, Polished Steel Range with White Enamel and Nickel Plated Ornamentation. Will outwear several ordinary steel ranges. Our very moderate Price will save you fully $15.00 to $20.00 and you will secure one of the handsomest, as well as one of the best operating Steel Cooking Ranges built.

DOMESTIC WINDSOR

Rust-No Copper-Bearing, Wellsville Polished Steel Range

Six-hole cooking top, reservoir, warming closet and oven thermometer

New improved, 1915-16 Model with cabinet floor base



Will burn hard or soft coal, crushed coke, corn cobs or wood
No change in grate necessary

A Range that has a big, roomy, sure-baking Oven; large Cooking-Top surface and ample Fire Box. No other range can cook quicker, more economically or satisfactorily. No other Oven can bake any better or more evenly in all parts. No other Fire Box can produce more heat from fuel used. Our construction insures Perfect Operation.

Notice the wonderful labor-saving construction of the Domestic Windsor, Improved 1915-16 Model. All the drudgery and dirty work is taken out of cooking. The White Porcelain Enamel Splasher Panels extend from cooking top up within a few inches of Warming Closet bottom and are as easily cleaned as your chinaware. **There are White Enamel Panels in Oven, Fire Box and Ash Pit Doors. The Emery Ground and Polished Cooking Top does not need any blacking or polishing.** The plain, smooth body has no pockets or creases to catch the dirt and grease. The simple, mirror-finish Nickel Plating cleans quickly and takes a lasting and brilliant shine. In fact this range embodies everything that is necessary to make the care of it easy and pleasant work for the housewife.

We could not improve on this range if we tried. There are no better materials made than those we have used in its construction. Our Rust-No, Copper-Bearing, Wellsville Polished Steel is manufactured by one of the largest and best steel producing companies of the world. Years of experiments and severe tests have proved that it is the best rust resisting metal now known. We give you double protection by making the inner flue-wall, as well as the outer body, of this wonderful rust-resisting metal. Many do not go to this extra expense, but use a cheaper inner lining. Greater range values were never offered by anyone. Send us your order for one of these ranges; give it a fair trial. We know you will be more than pleased.

Oven Thermometer

Oven Thermometer is sure and accurate guide to heat of Oven. No guesswork or chilling oven by opening the door. Saves fuel also, for, knowing the oven heat is correct, you will not replenish the fire when not necessary, which is often done, where you guess the oven heat. A few days' use will convince you of its great convenience.

Scorch-less or Simmering Cover

Patent Scorch-less Cover is furnished with each Domestic Windsor Range. It is very useful for cooking cereals, rice, macaroni, frostings, boiling milk, custards, or, in fact, anything which requires slow cooking or will burn easily.

You can place this cover on any one of the six cooking holes, and it forms a solid lid when the upper part it not raised.

This very convenient feature of our Domestic Windsor Range will be fully appreciated after you have used it a few times.

Construction

Note the careful construction of the Domestic Windsor Cooking Range

Built so heavy and strong that it will stand unlimited wear of daily use for years and years to come. The ample size provides all space you need for a very large amount of cooking. There are Four Solid Lids strongly reinforced; One Sectional or Three Ring Lid to be used with small cooking vessels and Scorch-less Lid for slow or cereal cooking. This gives you a big Cooking Top fitted for rapid or slow cooking. This Cooking Top is made in sections, therefore can be removed for cleaning top and side flues.

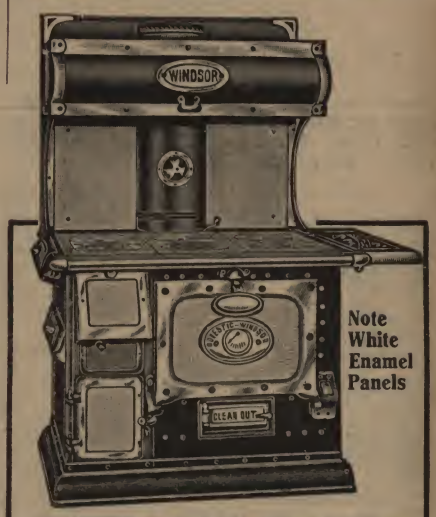
White Enamel Splasher Panels are fully as useful as ornamental. Clean as readily as any chinaware. They extend full length of cooking top and up to within a few inches of Warming Closet Bottom.

Body is built of Rust-No, Copper-Bearing, Wellsville Polished Steel, with inner flue-wall of Rust-No, Copper-Bearing, Range Steel; also interlined with Canadian Asbestos Millboard wherever necessary. All three thicknesses—steel, asbestos and steel—are hand riveted together with strong Norway Iron Rivets, making the Body Airtight. This extra careful Range-Body construction is not found in any other make and gives our Domestic Windsor Ranges their extremely long wearing and rust-resisting qualities.

Note the broad, deep, high, ventilated Oven. We believe it is one of the most perfect baking ovens built. Its large size gives you plenty of room and you can double the capacity by using Steel Wire Oven Rack. All parts are heated alike. There are no dead corners. Top Oven Plate is carefully reinforced the correct distance with cast iron and asbestos. Bottom Oven Plate is extra heavy, giving an even distribution of the heat. The Oven is one of the main points of a range and nowhere else can you find a quicker or surer baker than we have placed in the Domestic Windsor Range.

Oven Door closes tight and snug, is perfectly balanced and forms a firm shelf when open. On it heavy pans can be turned without lifting. Has handsome and pleasing White Enamel Panel, inclosed in broad nickel plated frame.

The Duplex Grate is the best construction where you wish to use different kinds of fuel without taking out one grate and putting in another one. When you wish to burn wood, simply reverse the duplex grate, leaving Flat Side Up, and take out end linings. Do not shake a Duplex Grate. One quick, full turn of the handle over as far as possible towards oven door and then back will cut out all dead ashes from the fire, leaving it bright and fresh for your cooking. This Grate can be removed without disturbing the linings or Water Front, if one is used.



Fire Box is built of heavy, strong, durable cast-iron. Fire-Linings are made in sections. Easily replaced when necessary. Heavy Cast Iron Back Smoke Flue does not rust out or corrode from moisture or creosote. Hot Air Flues carry the Hot Air entirely around Oven and heats Cooking Top and Reservoir without waste. Drafts provide perfect circulation of air up through fuel, insuring quick and complete combustion. Ash-Pit is wide and deep with large door, and strong bailed Ash Pan.

Reservoir Casing. Built of heavy cast iron and is rust-proof. It also has a moisture pocket in the bottom. Reservoir Tank is enamel lined, making it clean and wholesome. This tank will hold five gallons, and is removable.

Steel Warming Closet. Built of strong Wellsville Polished Steel. Firmly braced with steel brackets which cannot break. The revolving door slides out of the way when opened. Closet is fitted with a joint of 7-inch pipe equipped with register draft.

If your chimney hole is 6 inches, it will be necessary for you to purchase a joint of pipe tapering from 7 to 6 inches.

Nickel Plated and White Enamel Ornamentation on this range is so widely different from anything offered by others, that it stands alone. Our exclusive design cannot easily be duplicated elsewhere. The combination of plain, glossy Polished Steel, mirror-surface Nickel Plating and White Enamel Panels makes as handsome a Cooking Range as was ever offered at any price. Note our wonderfully low prices.

Note White Enamel Panels

Three Different Models of our Domestic Windsor Range that are often desired by our customers.

If this Range is wanted **Without Reservoir** but with **Steel Warming Closet**, deduct $2.50 from any size in the price table.

If this range is wanted **Without Steel Warming Closet, but With Reservoir**, deduct $3.00 from any size in the price table.

If this Range is wanted **Without** both **Reservoir** and **Steel Warming Closet, deduct** $5.50 from any size in the price table.

These style ranges are specially adapted for Water Fronts, where you wish to connect with Hot Water boiler. For price of Water Front, see price table.

If any of the above Models are ordered, we ship from foundry near Buffalo, N. Y., only.

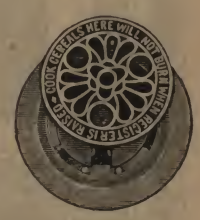
This means that your range will reach you in the shortest possible time and with the least possible freight charges.

An Ideal Cooking Range

We do not believe better materials could be put into these Ranges than those we have used. You would not hesitate about purchasing one if you could realize just what it will save you. No woman can help wanting a range of this type; especially at our very moderate prices.



Home Windsor Cast-Iron Six-Hole Cooking Range

Complete with Reservoir, Warming Closet, and Oven Thermometer. Burns Hard or Soft Coal, Coke, Corn Cobs or Wood.

Our Home Windsor Range cannot fail to satisfy anyone, and it will add greatly to the good appearance of your kitchen. Has the plain, smooth Colonial Finish which is so easy to keep clean and which takes such a brilliant and lasting polish. The addition of the Mirror-Finished Nickel Plated Parts gives this range an elegant and distinctive appearance.

You can use every inch of the big Cooking Top, as the heat is carried directly under all six cooking holes. The baking and roasting is perfect and temptingly brown because the big, Square Baking Oven is entirely surrounded by currents of intensely hot air, which are driven over, back and under it before going up the chimney. You can double its baking capacity by using the Oven Rack. Our Home Windsor Range can be used economically for either a large or small family. It is easy to operate and regulate.

A Perfect Operating Scorchless or Simmering Cover. Notice this useful feature of our Home Windsor Range. You can place this cover anywhere you wish on Cooking-Top. It is especially good for cereals, rice, macaroni, frostings or such things as require slow cooking or burn quickly unless carefully watched.

Main Points of Construction in Our Home Windsor Range

Main Body is built of heavy cast-iron with smooth, plain black iron finish. It is perfectly mounted with joints tightly cemented together, making it airtight. **Cooking-Top Rim** is made in sections, well bolted together, which prevent breaking. **Key-Plate Top** is in three sections and can be removed entirely so as to clean the top of oven and right hand flue. There are six full sized cooking holes. We furnish a Sectional or Ring Cover which enables you to put a cup or small pan directly over the fire when necessary. We also furnish a scorchless cover.

Fire Box is superior in construction. It has left end feed, or large broiler door, for coal; and front feed door, with ash guard, for wood. **Fire Box Linings** are heavy and made in sections.

DUPLEX GRATE is removable and reversible. It is simple and easy to operate and gives the best results in burning the different fuels specified above. To **BURN WOOD,** reverse this grate, leaving the **Flat Side Up** and take out the end fire-box linings. Will take wood **25 in. long. Ash Pit** is full and deep and has a large drop hearth plate, also a strong, full sized bailed ash pan. **FLUES** are the proper size and construction to carry the heat evenly to the cooking top, oven and reservoir without waste.

OVEN is large and square, and is also ventilated. The Top is cemented to prevent over-heating. Will bake evenly and quickly in all parts and has a removable inside rack. Automatic oven door opener allows you to open this door when your hands are full. Entire inside of the oven is coated with aluminum finish and the oven door is fitted with a thermometer and has a convenient shelf under it.

Oven thermometer is an accurate and convenient guide as it shows exact heat of the oven at all times.

The Direct Draft or Oven Damper is placed where it can best regulate the heat. **The Damper Handle** is placed on back of Cooking Top, out of the way, yet in plain sight. It operates perfectly, and has no long connecting rod to warp or burn out.

The Reservoir Casing is flush with the Cooking Top, which adds to your working space.

Reservoir **Tank** is removable and is lined with white enamel. Will hold **5 gallons** and heat the water rapidly. The **Polished Steel** used in the construction of the **Warming Closet** is the best quality. The closet is large, carefully and strongly made, and the door rolls back out of the way when opened. This closet is fitted with a joint of 7-in. pipe equipped with a register draft. If your chimney hole is 6 in. it will be necessary for you to purchase a joint of pipe tapering from 7 to 6 in.

The **Plain Mirror-Surface Nickel Plating** is extremely bright and durable, and no hard labor is required to keep it clean and shining.

When Any of these Models Are Ordered, We Ship from Foundry in Western Pennsylvania only.

If this Range is wanted without Reservoir but with Steel Warming Closet, deduct $3.25 from the price table.

If this Range is wanted without Steel Warming Closet, but with Reservoir, deduct $2.75 from the price table.

If this Range is wanted without both Reservoir and Steel Warming Closet, deduct $6.00 from the price table.

Shipment

When ordered complete, with Reservoir and Warming Closet, the Home Windsor Cast Iron Range will be shipped promptly from stock at Chicago, or from warehouse near Buffalo, N. Y., whichever is the nearest to your shipping point.

An Old Favorite and Always a Wise Choice. We have sold in the neighborhood of 50,000 of these ranges and are still selling them. Is not that a positive proof that they are all and more than we claim for them? Try one and see for yourself.

Kitchen Windsor

Black Japanned Steel Cooking Ranges

Complete with Reservoir and Warming Closet. Built with Six or Four-Hole Cooking Top, as desired. See Illustrations.
Burns Hard or Soft Coal, Coke, Corn Cobs or Wood.

Our Kitchen Windsor Range was one of the first satisfactory operating Steel Ranges manufactured and they have never lost their popularity and usefulness. We are proud of this record and do not believe it can be equalled by any other steel range.

The ample cooking, baking and hot water facilities of our Kitchen Windsor Ranges, together with their easy operation, small fuel consumption and long lasting quality will delight and satisfy any woman. If given practical care, these ranges will outlast three or four ordinary steel ranges.

You cannot purchase a range at retail that is the equal to our Kitchen Windsor without paying from $10.00 to $15.00 more than our prices.

Study These Important Points of Construction

Main Body is built of cold rolled steel having the entire outer surface **Japanned in Black Thoroughly Baked in. Needs no Blacking or Polishing. Simply wipe with a wet cloth.** One continuous steel plate makes back and both ends while another plate forms front. There are only two outside joints and they are interlocked, making body absolutely airtight. An interlining of thick Asbestos Board is placed where necessary.

Fire-Box is of the correct size and construction to produce the greatest possible amount of heat from the fuel used.

The **Ash-Pit** is deep and roomy and the door is large enough to permit the easy removal of the strong bailed ash-pan.

The **Back Flue** is made of **cast-iron** which will not burn or rust out from the creosote which might accumulate there from the chimney and smoke-pipe.

The Oven is large and square, and is built of heavy steel. It is ventilated by means of a damper set in the wall, and also has a patent removable bottom which is proof against warping or burning out. Bakes and cooks equally as well on top or bottom. The weighted-balanced oven door forms a solid shelf when open. **The Oven Thermometer** registers accurately the slightest change in the heat, so that you can regulate your drafts accordingly.

Hinges supporting Oven Door are Malleable Iron. Practically unbreakable.

The **Oven or Direct Draft Damper** controls the heat perfectly. It is placed in front directly over the oven door, thus doing away with the trouble of reaching over the hot cooking top to operate the damper. **This one Damper is all that is needed to regulate the heat for cooking and baking, as well as heating the water in the Reservoir Tank. The fire can be checked, whenever wished, by means of the Check Damper, which is placed in the pipe-section.**

Patent Incased Hot-Water Reservoir is placed next to the fire-box and heats the water by the contact system. An abundant supply of hot water is furnished with no other attention than keeping the tank filled. **This tank** is made of copper, heavily tin lined, and can easily be removed for cleaning.

The High Warming Closet is the largest that is placed on any range. It extends the **full length of both range and reservoir,** thus providing ample space for keeping cooked food or dishes warm. The **Six-Hole Ranges** are built with a **low-closet directly under the reservoir.** No other Range gives you more convenient closet room. **The Nickel Plated Tea Pot Stands** fold back out of the way when not in use.

The Nickel Plating is made even and smooth and has a **mirror-surface finish** that is not found on all makes of ranges. It does not catch the dirt, and is very durable and sanitary.

Hot Water

Our Kitchen Windsor Ranges are so constructed that they can easily be fitted with an L Water Back, for use in connection with a Range Circulating Boiler. See our low price in Price Tables given on this page. These L Water Backs can only be used in cities or towns having a water pressure system, or where your water is supplied from an elevated or pressure tank. In ordering these L Water Backs, or Straight Water Fronts, kindly give Range Number you intend to use it with, as well as article Number.

Price Table for Six-Hole Range with Reservoir and Warming Closet

Article Number	Price at Warehouse	Range Number	Size Lids	Size of Oven, Inches: Width	Depth	Height	Size of Cooking Top, Inches	Average Ship. Wt., Lbs.
268B2085	$33.25	82-57	8	18¼	21½	13	44 x30	540
268B2086	35.75	82-77	8	20	22	13	46½x30	580
268B2087	35.95	92-77	9	20	22	13	46½x30	600

Length of Fire Box for wood is 20 inches. Height from floor to Cooking top of Range, 30 inches. Height from floor to top of warming closet, 59 inches. Size of Smoke pipe required, 7 inches.
268B2097—L. Water Back for use with the Kitchen Windsor Ranges, with Reservoir, specified in Price Table above. To be used in connection with Range Boilers. Shipping weight, 32 lbs. Price.... **$2.75**

Lower Freight Rates—Quicker Service
Article Nos. 268B2085, 268B2086 and 268B2087 are shipped direct from the nearest of the following points:
Chicago, Ill.
St. Paul, Minn.
Cleveland, Ohio.

Interlined Walls with Interlocked Joints

The End Walls, together with the walls around the Reservoir, are built of two sheets of Steel, with an interlining of genuine Asbestos Board an eighth of an inch thick. Joints interlocking.

These features insure durability and economy in operation. Durability, for the reason that interlocking joints give the strongest construction possible. The Asbestos Interlining keeps the outer, or surface walls, from becoming too highly heated, and makes the operation of our Kitchen Windsor Ranges very economical.

If this Kitchen Windsor Range is wanted without Reservoir, but with Warming Closet (see small illustration) deduct $5.00 from the price of any size given in the above Price Table.

This makes a very desirable six-hole range for those who appreciate the many fine points of our Kitchen Windsor Ranges, but who do not desire, or need a Hot Water Reservoir.

This Model of our Kitchen Windsor Range will be shipped from warehouse at Cleveland, Ohio, only.

268B2099—Straight Water Front. To be used with Range Circulating Boiler, for Kitchen Windsor Ranges without Reservoir. Average shipping weight, 32 lbs. Price..... **$2.75**

Six Hole **Kitchen** Cooking Range
Windsor

Reservoir Capacity, 10 Gallons

In design, and also the materials used in its construction, this **Kitchen Windsor Steel Range** is exactly the same as our Article No. 268B2085 with the exception that it is built larger and has an extra large Reservoir. Capacity, 10 Gallons.

This Model of the Kitchen Windsor (see small illustration) will be shipped from our Cleveland Warehouse only

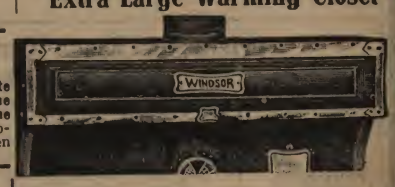
All our Windsor Stoves and Ranges are nicely Blackened and Polished, ready to ship on receipt of order.



Oven Thermometers

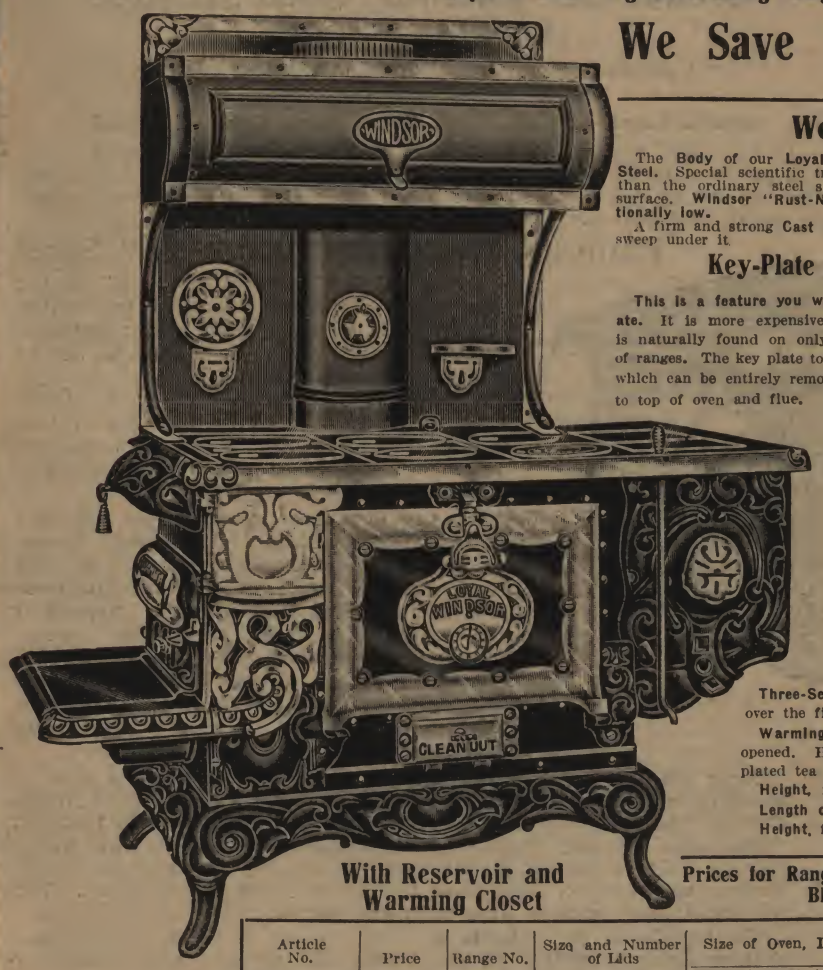
The handy, easy, accurate way to tell just how hot the oven is, without opening the oven door. You will appreciate this feature when baking or roasting.

Handy, Extra Long Towel Rod

Extends almost full length of range. Enables you to dry a large number of towels, etc., at a time. Keeps your clothes away from the range when standing in front of it.

Extra Large Warming Closet

No other range has so large a Warming Closet. It extends clear across the entire width of range, and hot water reservoir. It is not necessary to point out the big advantage of this feature, especially where you wish to keep a great many dishes warm at a time.



Don't overlook the offerings we make on our kitchenware pages

No Matter How Much Cooking, Baking, Washing and Ironing There is, it Can be Easily, Economically and Satisfactorily Done When You Use Our

Loyal Windsor Polished Steel Six-Hole Cooking Range

It Burns Hard or Soft Coal, Coke, Corn Cobs or Wood, With Equally Good Results

This Range is our exclusive design and sold only by us. Nowhere else can you secure better value in a moderate priced steel range. Its economical operation, satisfactory results and long service make this range a very popular model. In purchasing it, you secure a good looking range as well as a good cooking range.

We Save You Fully $10.00 on the Purchase Price

Is that not worth considering?

Wellsville "Rust-No" Steel

The **Body** of our **Loyal Windsor Range** is built of the famous **Wellsville "Rust-No" Steel.** Special scientific treatment makes this steel better able to resist rust or corrosion than the ordinary steel stove plate generally used, and also gives it a highly polished surface. **Windsor "Rust-No" Steel Ranges are not only long-lived, but our prices exceptionally low.**

A firm and strong **Cast Iron Base** and **Legs** raise the Body off the floor. You can easily sweep under it

Key-Plate Top

This is a feature you will surely appreciate. It is more expensive to produce, and is naturally found on only the better grade of ranges. The key plate top is in two pieces, which can be entirely removed to give access to top of oven and flue.

Duplex Grate

The only grate that can be made a coal or wood grate by a turn of the crank, without trouble or additional expense of an extra grate. The Duplex grate is not built into most ranges at the prices we quote for this Loyal Windsor Range. See detailed description and illustrations of this valuable, convenient grate, on first page of this Stove Section.

Other Special Features of Construction

Oven has removable inside rack. Bakes perfectly in all parts. Tight latching door, fitted with accurate and convenient **Oven Thermometer.**

Ash Pit has draw hearth slide, and deep, full size bailed ash pan.

Reservoir Casing of cast iron. Tank lined with white enamel; holds 15 quarts; can be easily lifted out for cleaning.

Fire Box scientifically constructed, to secure greatest heat from least fuel.

Three-Section Lid permits use of very small cooking utensils directly over the fire.

Warming Closet, with Back Guard on top. Door slides out of way when opened. Has 7-inch pipe joint, with register check draft. Two nickel plated tea pot stands, which fold out of the way when not in use.

Height, floor to cooking top, 30½ in.
Length of Fire Box, for wood, 20¾ in.
Height, floor to top of warming closet, 62 in.

With Reservoir and Warming Closet

Without Reservoir

Loyal Windsor Steel Range

If wanted without Reservoir, but with steel Warming Closet, deduct $2.00 from the price of any size quoted in the price table.

268B2181—Water Front. For range boiler. Shipping wt., 17 lbs.

Price $2.50

Prices for Range Complete with Reservoir and High Closet Nicely Blackened and Polished. Securely Crated

Safe Delivery. Low Freight Charges. Quick Shipment. All Models of our Loyal Windsor Range are Shipped from warehouse near St. Louis, Mo., only.

If you desire an abundant supply of Hot Water, together with a Range of superior cooking and baking facilities, you cannot do better than to purchase this range. Select the size that is best suited to your family's needs and send us your order. Price Table below gives the measurements and weights. You have your choice of a Copper or Galvanized Iron Reservoir.

Princess Windsor

Wellsville "Rust-No" Steel, Six-Hole Cooking Range

Complete with Extra Large Reservoir, Warming Closet and Oven Thermometer. You can burn Hard or Soft Coal, Coke, Corn Cobs or Wood, just as you wish. No changing of grates is necessary.

Famous Duplex Grate

The only grate that will burn any kind of fuel without changing from one grate to another. Why buy the kind of range that makes it necessary to buy a new grate if you want to change fuels? The Duplex can be used for coal or wood burning by one turn of the crank. Needs no shaking. One turn of handle dumps all dead ashes, and leaves fire bright and clear.

Convenient Warming Closet

Easy height to reach. Door rolls back out of way, giving free access to inside. Plenty of room to keep your dishes and food warm and gives full use of Cooking Top and Oven for regular work of preparing the meals. Tea-Shelf is ornamental and useful. Extends full length of Cooking Top and gives plenty of room for Tea and Coffee Pots. There is a 7-inch joint of pipe with a Register Check Draft on this Closet. If your chimney hole is 6 inches, you must buy a joint of pipe tapering from 7 to 6 inches.

Extra Large Capacity Hot Water Reservoir

This big 60 Quart Hot Water Reservoir is heated by direct contact with the Fire-Box Wall and is so constructed that it can be pushed away when the water is hot enough for your use. No extra fuel is necessary to give you a practically unlimited supply of hot water. Just keep the Reservoir Tank filled, and pushed tightly against fire-box wall. This Reservoir-Tank is made of **Copper—heavy tin lined, or of Galvanized Iron,** your choice, **both hold full 60 Quarts** and both operate quickly and satisfactorily.

Note These Good Princess Windsor Features

Body is made of **Wellsville "Rust-No" Steel.** No better Steel is made than this special process steel which is made for our use. It is specially rust-resisting and long-wearing.

Key Plate Top—All parts removable. Gives easy access to all parts at top of oven and flue.

Three-Section Lid—For convenient use of small utensils directly over the fire.

Fire Box—Constructed to get most heat from the fuel used.

Ash Pit—Large and deep, with bailed ash pan.

Back Flue—A very important point. Made of cast iron, which prevents rusting or corroding.

Clean-Out—Under oven door the clean-out makes it easy to remove soot from bottom flue.

Cast Iron Leg Base—Permits easy sweeping of floor under range.

Height, floor to cooking top, 30½ in.
Size of End Shelf, 7¼x28 in.
All sizes take 7-in. pipe.

Large, Roomy Oven

Bakes and browns evenly on all sides, top and bottom. Has removable inside rack. Fitted with special tight latching drop door, which forms a solid, flat, convenient shelf when opened. Accurate oven thermometer.

Our Washing Machines are easy running—prices are very low

Makes Housewives enjoy their kitchen work. An excellent baker. Economical in fuel use. Durable and wear-resisting. A good, big, satisfactory Steel Range at a moderate price. Full Satisfaction assured. If you are interested in saving time, labor and money, then read carefully our full detailed description given below.

Imperial Windsor

Wellsville "Rust-No" Steel Six-Hole Cooking Range

Complete with Reservoir, Warming Closet and Oven Thermometer

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood

An attractive appearing as well as a satisfactory operating range. You will be proud to show your friends your Imperial Windsor. Our many customers write us that they find it to be a very quick heater and baker. Easy to operate and control.

Famous Wellsville "Rust-No" Steel

To use "Wellsville 'Rust-No' Steel" in the construction of any stove or range means that we have used one of the best known materials for that purpose. "Rust-No" is the product of a special process which cannot be duplicated by others. It makes steel particularly proof against rust and very durable. This steel takes a very high polish. Acid tests mean little, as not one range in a thousand is ever put to such test. It is the durability and rust test that counts.

Uses less fuel than other similar ranges, and lasts longer. Oven bakes perfectly in all parts. Browns satisfactorily, both on the bottom and top. The whole inside of the Oven is coated with Aluminum finish, so there are no dark corners. Oven door forms a useful and steady shelf when opened. Latches tightly when closed. The Large End Pouch Feed permits the easy placing of fresh fuel over the entire fire surface. You can also broil without disturbing the cooking top. You will have plenty of Hot Water without extra labor or fuel cost.

For a range of equal quality and design you would pay from $8.00 to $10.00 more than our prices. This saving combined with the small freight charges, makes our Imperial Windsor an unusually worth-while purchase.

The plain Polished Steel Body is handsomely trimmed with Nickel Plating, which is smooth, durable and has a bright mirror-surface finish. There is no carving or scroll work to catch and hold dirt or grease. You will find it easy work to keep clean and bright.

The Big Towel Bar extends the entire length of range. Keeps your clothing away from the hot range body and provides ample space for drying wet towels.

Details of Construction

Body. Made from high-grade Wellsville Rust-No Polished Steel, with all parts exposed to the heat double walled with an interlining of asbestos. **HAS CAST IRON BACK FLUE which is rust proof. Cooking Top** is cut in four pieces, to allow for expansion from heat and contraction from cold. **Has Key Plate Top.** One Sectional Cover for use with small utensils. **Fire-Box** is well proportioned and strongly built. The **Coal Feed Door** at the left end is ample. The Wood or Front Feed Door swings out of the way when open.

Ash-Pit. Fitted with a full-sized, well-made bailed Ash-Pan.

Reservoir Casings. Made of cast iron. The top is flush with the cooking top of range. Reservoir Tank is removable, lined with white enamel; holds 15 quarts.

A Handsome Warming Closet and Tea-Shelf Combined

Very convenient and useful. A very satisfactory way of warming dishes or keeping food warm. Easy height to reach. The door rolls back fully out of the way, so you have free access to the interior. The top of this Closet forms a shelf for pots and pans and the Back Guard keeps them from falling off. Tea-Shelf extends full length of range, about half-way between the Closet and the Cooking Top. Your Tea or Coffee Pots will be out of the way, yet keep nice and hot. Strong Nickel-Plated Brackets hold this Closet firm and rigid. The section of 7-inch pipe has a Register Check Draft. If your chimney hole is 6 inches, you must purchase a joint of pipe tapering from 7 to 6 inches.

Large, Roomy, Even-Baking Oven, with Spring Balanced Door

Oven is square and of good size. Bakes and cooks perfectly in all parts. The measurements given below are actual. Has inside slide rack and the whole interior of oven is coated with **aluminum finish.**

Oven Door is well balanced, and opens flush with the oven bottom, forming a solid shelf on which you can turn your pans without lifting them. This door latches firmly and tightly when closed.

The door is supported by a special door spring which prevents it from dropping down when opened, and keeps it open at any angle, until opened flat.

The **Oven or Baking Damper Handle** is on the **Cooking Top** in plain sight. No danger of accidentally knocking against it and closing it when you want it open. It has no long connecting rod to warp or burn out.

Oven Thermometer

Oven Thermometer registers the oven heat accurately at all times, and you do not have to guess when it is time to put your bread, pies, cakes or meat into the oven. A glance at this Thermometer will tell if the oven is the correct heat. You will find this a great convenience and a time saver.

Duplex Grate

The only grate that can be made a coal or wood grate without being taken out. A turn of the crank makes the change, without trouble or additional expense for a new stove or a new grate. The Duplex is not built into most ranges at the prices we quote for this Imperial Model. See detailed description and illustrations of this valuable, convenient grate on first page of this stove section.

Imperial Windsor Cooking Range Without Reservoir

If this Range is wanted without Reservoir, but with Warming Closet, deduct $2.50 from the prices of size given in price table. This model of our

Imperial Windsor

is shipped from warehouse near St. Louis only.

Water Front

If desired, these Ranges can be equipped with water front for attachment to range circulating boiler. Water fronts can be used only in cities and towns with a water pressure system, or where water is supplied from an elevated or pressure tank.

268B2241—Water front, for use with range boiler. Shipping weight, 17 lbs. Price **$2.50**

Prices complete with Reservoir and Warming Closet. Nicely Blackened and Polished. Securely Crated.

Good for years of service. Will do excellent work and give best satisfaction. A Sure Baker. Always proves a winner

Select Windsor

Refined Steel Six-Hole Cooking Range. Burns Hard or Soft Coal, Coke, Corn Cobs or Wood

A Satisfactory Operating Steel Range at a Low Price

No better Range of its type manufactured at the price. Has ample Cooking-Top. Fire Box does not waste either heat or fuel. Also has a good, big, perfect Baking Oven, that heats as soon as the fire is kindled. The Solid Lids are strong. The Sectional, or Ring Lid, permits you to place a cup or small pans directly over the fire when you want to cook something quickly. There is no poking or shaking necessary with our Duplex Grate. One quick turn of the handle will clear the fire of all dead ashes, leaving it bright and clear, ready for your cooking. The Ash Chute drops the ashes directly into the Ash Pan, without spilling. The Warming Closet is large, and keeps both food and dishes warm and nice. Its convenience more than offsets the small increase in price. Many thousands of our Select Windsor Steel Ranges are being used daily—year in and year out—by our delighted customers. This Range operates satisfactorily and economically; and keeps your kitchen comfortable.

Details of Construction of The Select Windsor

Main Body is built of durable, refined polished steel, and does not require any **blacking or polishing.** The parts exposed to the heat are double-walled, with an inner lining of asbestos, all tightly riveted together.

Polished Steel Warming Closet. The polished steel warming closet is both useful and ornamental. The door rolls back out of the way when opened. Closet is equipped with a joint of 7-in. pipe fitted with our register draft and two teapot stands which fold back when not in use. If your chimney hole is 6 in., you will need to purchase a joint of pipe tapering from 7 to 6 in.

Fire-Box is equipped with a Duplex Grate which can be used satisfactorily with any of the different fuels specified above. To burn wood, reverse the grate, leaving the **Flat Side Up,** and take out the end fire-box lining.

Ash-Pan is bailed, and extends the full length under the fire-box.

OVEN is square formed and has inside rack. Door has a perfect latch, with Nickel-Plated handle, is always cool, and forms a convenient shelf when open. No lifting of pans or dishes. The flues are of the sheet flue type, and insure quick and even baking. Oven damper is at the right hand side of pipe collar. Clean-out is under oven door.

DRAFT SLIDE in lower left hand end door gives ample air to the fuel so that it will burn freely.

RESERVOIR CASING is made of Cast Iron and will not rust. The Reservoir is well made and the damper carries the heat directly under the tank. It heats the water quickly. **The Reservoir top is flush with the cooking top of range. The lids are black enameled.** The Reservoir Tank is removable and is lined with White Enamel. It will hold 15 quarts.

NICKEL PLATED PARTS: On Range are as follows: Oven Door Panel and Handle. On **Warming Closet** they are as follows: Front upper, lower and side bands; Name Plate and Handle; Bracket Support; Teapot Stands and Register Draft.

These Ranges can be fitted with a Water Front for attachment to Range Circulating Boiler, if desired, at a slight additional cost. It is placed in the front end of the fire-box and does not interfere with the oven. Do not confuse water front with Reservoir.

Cooking Top is made in sections, to allow for expansion and contraction. **Has Key Plate Top and a Sectional Cover.**

Smoke-Flue is made of CAST IRON. Does not rust or corrode from creosote. This feature is a great deal more important than it looks at first glance. Cast iron is specially rust resisting, and far superior to the sheet steel lining so often used in this part of the Range. Sheet steel is often used because it is not seen. Cast iron adds many years to the life of the range.

Price for Range complete with Reservoir and Warming Closet. Nicely Blackened and Polished. Securely Crated.

Article Number	Price	Range No.	Size of Lids Inches	Size of Oven, Inches: Width	Depth	Height	Size of Cooking Top with Reservoir Inches	Height Floor to Cooking Top, Inches	Size Pipe Inches	Average Shipping Weight, Pounds
268B2251	$19.95	1-82	8	18	20	12½	41x28	29	7	410

Length of Fire Box for Wood, 20 inches. Height, floor to top of Warming Closet, 55 inches.

Shipment

In ordering complete with reservoir and warming closet, see large illustration. Select Windsor will be shipped promptly from stock at Chicago or from Warehouses at: St. Paul, Minn., or near St. Louis, Mo., or Buffalo, N. Y. This means that your range will reach you in the shortest possible time and the freight charges will be reduced to a minimum.

Water Front

268B2259—Water Front, Weight, 17 lbs. Price, $2.25

If this range is wanted without Reservoir (see small illustration) but with Warming Closet, deduct $2.00 from price given in Price Table.

If this Range is wanted without Warming Closet but with Reservoir, deduct $1.50 from price given in Price Table.

If this Range is wanted without Reservoir and Warming Closet, deduct $3.50 from price given in Price Table.

The above three Models of the Select Windsor Range will be shipped from warehouse near **St. Louis, Mo.,** only. They are nicely Blackened and Polished and securely crated.

The neat design of this Range, together with the fact that it is extremely well built assures satisfaction to its users. It pays to purchase a good cooking range. Our price for this one is very moderate.

Gem Windsor Polished Steel

Six-Hole Cooking Range. Complete with Reservoir, Warming Closet and Tea Shelf. Burns Hard or Soft Coal, Coke, Corn Cobs or Wood. No change of Grate necessary.

A durable, Polished Steel Range with semi-plain outside finish. In building this range we have paid strict attention to the useful and practical parts, rather than to the fancy, unimportant trimmings. There is just enough plain, mirror-finished Nickel Plating on the range and warming closet, to give it the needed touch of cheerful brightness. The cooking top is ample.

The heat is perfectly distributed. The baking oven sure and quick. No burned bread or spoiled cakes or pies when you use this range. You can safely choose this range, if the style and size suits your needs. Those who have purchased one tell us of their satisfaction in its economical operation and successful cooking and baking.

Some Special Details of Construction

Main Body is durable polished steel that needs no blacking. A double wall interlined with Asbestos Board protects parts directly exposed to the fire.

Cooking Top is in sections, preventing warping or fire-cracking. In addition to the Solid Lids, we furnish a Sectional Lid to be used with small vessels.

Fire-Box is correctly proportioned and built. Heat produced is steady and intense.

Duplex-Grate gives the choice of fuels named. To burn Wood, just reverse this grate leaving Flat Side Up.

Oven, a sure and quick baker. Heats directly fire is kindled. You will be proud of your baking if you use this range.

Cast Iron Reservoir Casing does not rust out. Reservoir Tank is White Enamel lined, holds 15 quarts and is removable.

Ash-Pan is good size with bailed handle.

Steel Warming Closet and Tea-Shelf is very useful. You will not regret purchasing a range thus equipped. You have ample room to keep dishes and food warm, and out of the way of other cooking.

Strong Leg-Base raises the range high enough off floor for easy sweeping.

If your chimney hole is 6-inch, you will have to purchase a joint of pipe tapering from 7 to 6 inches.

If this Range is wanted without Warming Closet but with Reservoir, deduct $2.00 from price given in Price Table.

If this Range is wanted without Reservoir and Warming Closet, deduct $4.00 from price given in Price Table.

The above three models of the Gem Windsor will be shipped, nicely blackened and polished, securely crated, from warehouse near **St. Louis, Mo.,** only.

Furnish your kitchen with a Cooking Range that you can depend upon. It is always a pleasure to cook with this Range. It satisfies in every way—cooking, baking and in keeping your kitchen warm and comfortable. Note our low prices. Do not pay more for a Range of similar style, size and construction.

Advance Windsor

Cast Iron Six-Hole Cooking Range

Complete with Reservoir, Warming Closet, Tea-Shelf and Oven Thermometer

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood

Notice these extremely serviceable features that are not usually found, except in much higher priced ranges. The Lift-Up Cooking Top—that part directly over Fire-Box; the Big Nickel-Plated Towel Bar, the useful Tea--Shelf. You will find this range a Good, Paying Investment.

Lasting, Serviceable, Economical and Ornamental. With it you can Cook, Bake, Roast or Broil with success and comfort. Your kitchen will be kept warm and comfortable, at a low cost for fuel. The big, roomy Baking Oven is a sure and even baker, as it is entirely surrounded by currents of intensely hot air, which are driven over, down, under and back of the oven before going out the chimney, thus heating the oven evenly in all parts.

Our Advance Windsor Cast Iron Range takes the drudgery away from cooking. You are not cramped for Top Cooking space or Oven capacity. It is easy to operate and regulate. The smooth, plain surface finish of the black iron makes the work of cleaning very light. The big, sanitary Warming Closet gives you additional convenience and space, while the top of this closet forms a shelf for your dishes or utensils.

If this Range is wanted without Reservoir but with Steel Warming Closet, deduct $3.00 from the price of any size in the Price Table.

If this Range is wanted without Steel Warming Closet, but with Reservoir, deduct $2.50 from the price of any size in the Price Table.

If this Range is wanted without Reservoir and Steel Warming Closet, deduct $5.50 from the price of any size in the Price Table.

The above three Models of the Advance Windsor are good models of Range to connect to Hot Water Boilers. Will be shipped from Warehouse near St. Louis, Mo., only.

Detailed Construction of Our Advance Windsor

With Reservoir and Warming Closet

Range is well proportioned and built of especially selected cast iron.

Cooking Top is cut and fitted to allow for expansion and contraction, without any danger of fire cracking. Key plates are properly braced to prevent sagging.

The Leg Base raises the range high enough from the floor, that it is easy to sweep under it.

Fire-Box is proportioned to secure the greatest amount of heat from the different styles of fuel used. The linings are made of strong cast iron, of the proper weight and thickness.

Ash Pit is large, deep, and perfectly fitted. It is also furnished with a strong, full-sized bailed ash pan.

Oven is broad, square formed, deep, very roomy and ventilated. The Top Oven Plate is cemented, to prevent overheating. This oven will bake or roast perfectly, evenly and quickly, at both top and bottom. Has removable inside rack. Oven Door is latched and balanced.

Oven Thermometer tells you how to manage your fire and save fuel; also when your oven is the correct temperature for baking.

Nickel-Plated Parts: Ash-Door Screw Draft; Fire Door Handle; Oven Door Handle; **High Closet Front** upper, lower and side rims; Bracket Supports; Register Draft; Name Plate and Handle.

Reservoir Casing is built the proper weight and strength. Reservoir Tank is well made and is lined with White Enamel. This tank will hold 15 quarts.

The Wellsville Polished Steel Warming Closet is supported by strong, nickel-plated cast-iron brackets.

The door rolls back out of the way, and gives easy access to the inside of closet. These closets are fitted with a joint of 7-inch pipe. If your chimney hole is 6-inch it will be necessary for you to purchase a joint of pipe tapering from 7 to 6 inches.

This Warming Closet enables you to keep your dishes, pots and pans, as well as food, warm, and at the same time gives you the full use of the entire cooking-top and oven for the regular work of preparing the meals.

Notice the Useful Lift-Up Cooking Top

That part directly over Fire-Box. It is easy to operate and when raised is held firmly in place, leaving both hands free. Enables you to reach all parts of the fire when you wish to replenish it. Also to broil and toast directly over the live fire. You will appreciate this convenience after you use it.

A Big, Useful Nickel Plated Towel Bar

It is most useful and convenient as well as ornamental. Extends full length of Cooking-Top, thus giving you lots of room to dry dishcloths, towels and other articles. Also protect your dress from contact with the hot range body. A valuable precaution. The Nickel Plating is durable and easily kept clean and bright.

Prices

Prices for Range complete with Reservoir and Warming Closet. Nicely Blackened and Polished. Securely Crated

Article Number	Price	Range Number	Size of Lids	Size of Oven, Inches			Size of Cooking Top with Reservoir, Inches	Size Pipe Inches	Average Shipping Weight, Lbs.

Shipment

When ordered complete with reservoir and warming closet (see large illustration) the Advance Windsor will be shipped promptly from stock at Chicago or from our warehouse at St. Louis, Mo., whichever is nearest you.

This means that your freight charges will be reduced to a minimum, and that your range will reach you in the shortest possible time.

WATER FRONT—This Range can be fitted with a Water Front for connection with circulating Hot Water Boiler. Do not confuse this Water Front with the Reservoir, as they are two different and distinct parts, and can be used together, or separately with a range, as desired.

268B2280—Hot Water Front for connection with Hot Water Boiler. Shipping weight, 25 lbs. Price $2.75

A Sure- Baking, Fuel-Saving, Service-Giving, Practical Colonial Type Cast Iron Range. One that will satisfy the most critical, and at a price that is far below the regular retail value. A Range that we can fully recommend, as we have sold thousands of them, and all our customers are satisfied that they got the best of the bargain, by far, when they purchased this range.

"Colonial" Windsor

Cast Iron Six-Hole Cooking Range

Complete with Reservoir, Warming Closet, Tea-Shelf and Oven Thermometer

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood

Every home needs a good cook stove or range. Your health demands it. Our prices make it unnecessary for you to spend a great deal of money when you purchase one. Note our prices carefully: From **$45.00** to **$50.00** is not an unusual price for ranges, similar in style and construction, but no better. Our Colonial Windsor Range is modern, practical, well built and very economical in fuel consumption, a point that needs to be carefully watched. Settle your cooking troubles once and for all time by purchasing one of these ranges. Use it every day in the year. You will find it will prove a source of genuine satisfaction. It is a range you will be proud of as long as you own it.

Every essential that is necessary to make a range economical, satisfactory and serviceable is employed in the building of our Colonial Windsor. The stove plate cast iron used is made from a special scientific mixture of different irons. Its durability and strength make it particularly suitable for use in the manufacture of high grade cast iron cook stoves and ranges. Castings are smooth, well ground and fully inspected before they are mounted together. The fittings are true, making joints airtight. The Natural Plain Black Iron with its smooth, glossy surface, is easily and quickly polished. There are no fancy carvings to catch dirt and grease. No hard work digging it out.

Superior Fire-Box and Grate Construction

Realizing that the **Fire Box** is the **Life of a Range**, we have given much attention to the question of its design and construction, in order to overcome any possible waste of heat. In building our **Colonial Windsor** we have paid special attention to this point, and also have constructed the flues just the correct size to carry and distribute the heat to the different parts of the range where it is needed.

The **Fire Box** is constructed to give perfect combustion, and produce all the heat necessary for the successful operation of the cooking top, oven, and reservoir, and also to keep your kitchen warm and comfortable in the cold weather. The **Fire Box Linings** are well made and well fitted. It is not necessary to pile the coal above the top of the fire box in our **Colonial Windsor** in order to secure good results. You only waste your fuel by doing so.

The **Duplex Grate** allows you to use any of the fuels named above without changing your grate. You will find this a very convenient and economical feature, should it become necessary for you to change your fuel at any time. If you wish to burn **Wood**, just reverse this Grate, leaving the flat side up, and take out the front end lining.

Special Features

The **Oven Thermometer** operates perfectly, and shows the exact heat of the oven at all times. There is never any failure in your baking when you use one. It also saves you time and labor.

The **Direct Draft, or Oven Damper,** is placed on the cooking top, but out of the way. It is easily reached, and has but two positions—open and closed. There are no long connecting rods to warp or burn out.

The **Reservoir Top** is flush with the cooking top, and adds to your working space. The **Reservoir Tank** is removable, and holds 15 quarts of water. It is lined with **Enamel**, which keeps the water pure and wholesome. **Be sure the Reservoir Damper is closed when you wish to use the oven.**

The Wellsville "Rust-No" Polished Steel Warming Closet is very serviceable. You can warm your dishes without cracking them and still have the use of the entire cooking top for your regular meal. The late comers' dinner can be put into it and be warm and tasty—not dried up—when they do come. There is a **Register Check Draft** in the joint of 7-inch pipe. The **Tea Shelf** extends the entire length of Cooking Top; Gives abundant space for your Tea or Coffee Pots. It is ornamental as well as useful. Both **Warming Closet** and **Tea Shelf** are strong and firm and are as good as those found in ranges that cost a lot more money. If the chimney hole is 6 inches, you will have to buy a joint of pipe tapering from 7 to 6 inches.

A **Leg Base** raises the range a good height from floor.

The big Nickel Plated Towel Bar extends full length of Cooking Top. Is useful for drying dishcloths or towels and protects your dress from contact with hot stove body. It is bright and pleasing as well as useful.

The End Pouch Feed allows you to use chunks of soft coal, and it is easy to replenish fuel when necessary. The **Front Feed Door** is for **Wood.**

The **Hearth** is wide and deep, with an ample **Ash Pit** and bailed **Ash Pan.**

The **Oven** is roomy and correctly proportioned. It heats quick and evenly, both bottom and top. You can bake or roast in all parts of this oven. The **Top Plate** is cemented, which gives a steady, even heat. The most delicate cake, as well as your big Thanksgiving turkey, comes out well baked, tender and brown. The **Wire Oven Rack** is removable. The **Automatic Oven Door Opener**, or **Kicker**, is especially convenient when your hands are full, and you want to put something into the oven. Just touch this **Kicker** with your foot, and the door swings back out of the way. The **Outside Oven Shelf** is flush with the oven bottom.

The **Cooking Top** is a convenient working height from the floor, and of such ample size that you can readily prepare the meals even with the addition of the extra "harvest help," without being cramped up. **It is also cut to allow for the natural expansion and contraction of the cast iron. There are six Cooking Holes. The Solid Lids** are heavy and well braced. We furnish a **Sectional, or Ring Lid,** that is very useful when you wish to place a cup or small vessel directly over the fire.

268B2346—Water Front for Range Boiler. Shipping weight, 17 lbs. Price..... **$2.25**
Shipped only from Warehouse near St. Louis, Mo.

If this Range is wanted without Reservoir, but with Warming Closet, deduct $2.00 from any price given in Price Table.

We do not furnish cooking utensils, stove boards, or pipe with any of our stoves or ranges at the prices quoted.

Water Front: This Range can be fitted with a **Water Front,** for use in connection with a **Range Circulating Boiler.** This Water Front can only be used in cities and towns where there is a water pressure system, or where water is supplied from an elevated or pressure tank. See our Price Table for small additional cost of this Water Front.

These Ranges are nicely blackened and polished, ready to set up when they leave foundry. Securely crated. Shipped promptly. Safe delivery assured.

All sizes and models of this Range shipped only from warehouse near St. Louis, Mo.

Just What You Need, A Plain Finished, Colonial Type Cooking Range, and At A Very Moderate Price. Has That Smooth, Black, Ebony Finish so much desired and so easily kept clean and sanitary. Gives you ample room for all your cooking and baking without taking up too much of your kitchen space. Send for one.

Ebony Windsor

Six-Hole Cast Iron Cooking Range

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood. Built with a Polished, Steel Warming Closet, Hot Water Reservoir, Accurate oven Thermometer and Leg Base.

Exactly the style of range so many people have been wanting, but were unable to find except at a very high price. There is no need to wait any longer. It is hardly possible that our very moderate price will be equalled by anyone.

No matter what part of this great, big world you move to, you can still use this range. It has our perfect Duplex Grate—the only grate ever constructed which will permit the burning of all kinds of fuel, with equal success and economy. You will be surprised and delighted with the small amount of any fuel it will require for good cooking, perfect baking, roasting or broiling, when you operate any one of the different sizes of our Ebony Windsor Cooking Ranges.

You would not wonder at the perfection of this range if you could see how we manufacture it. Only the best Stove Plate Cast Iron is used. All the parts are ground smooth, fitted true, making air-tight joints. Nothing but perfect castings are mounted together. The plain, natural black iron surface quickly and easily takes a smooth ebony finish. There are no pockets or creases to catch and hold the dirt or grease. No Range you can purchase will give you more permanent satisfaction than one of our Ebony Windsor Ranges.

A High Shelf is oftentimes desired in place of the Warming Closet. You will not find any better value for the money we ask than this model of the Ebony Windsor Range. The strong Cast Iron High Shelf is convenient, roomy and just the right height for comfortable work. It has two Nickel Plated Teapot Stands. If you wish the Ebony Windsor Range with Reservoir and High Shelf (as illustrated just above) deduct $3.00 from price of any size given in Price Table. This model of Ebony Windsor will be shipped from Warehouse near Buffalo, N. Y., only.

Details of "EBONY" WINDSOR Construction

The Six-hole Cooking Top is cut to allow for the natural expansion and contraction of cast iron. It is fitted with heavy cross centers and cooking lids. **One Sectional or Ring Lid** is furnished, which enables you to put a cup, or small vessels, directly over the fire, if desired. The ample size of this cooking top gives you plenty of room to prepare your meals without crowding. It is always hot, as the currents of heat are carried directly under it. You can use all six cooking holes with equal advantage.

The **Fire Box** is large enough to produce all the heat necessary for successful cooking, baking, roasting, and also give you plenty of **Hot Water**, while your kitchen will be warm and cosy in the coldest weather. Your fuel is not wasted up the chimney, and you have a hotter fire, with more heat than is produced by any similar range manufactured. **It is not necessary to pile the coal above the top of the fire box to secure good results with our Ebony Windsor Range.**

The **Heavy Cast Iron Fire Box Linings** are made in sections, and can be replaced, a section at a time, whenever necessary.

The **Feed Doors** are large enough so that the feeding of fresh coal or wood on the fire is easy and convenient.

The **Ash Pit** is of good size, and has an ash chute which allows the ashes to drop into the strong, bailed **Ash Pan** without spilling. Do not let the ashes accumulate and bank up against the Grate, as it not only chokes the draft, but burns out the grate.

The **Baking Oven** is well built, tight, roomy and square in form. It heats evenly and quickly, as there is a steady flow of intense hot air over, down, under, and back of it, which enables you to bake or roast perfectly in all parts of the oven. The **Oven Rack** slides in and out easily, and holds firm and rigid under the weight of your heavy roasting pan. You can use this **Oven Rack**, as well as the bottom of the oven, for your baking, which doubles the capacity. The **Oven Door** swings back out of the way when opened, and latches firm and tight when closed. The coated Aluminum finish inside of the oven does away with all dark corners. The **Automatic Oven Door Opener, or Kicker**, is very convenient when your hands are full, and you want to put something in the oven. Just touch this Opener with your foot, and the door opens at once.

The **Accurate Oven Thermometer** guides your baking to perfect success, whether you are an experienced cook or beginner. It always gives you the exact degree of oven heat, so that you know just when to put in your meat, bread, cakes, or pies; also, whether the fire needs checking or increasing.

The **Polished Steel High Warming Closet** is strong, useful, and ornamental. Its roomy interior gives you plenty of space to keep the food warm and tasty without drying it up. You also can warm your dishes without cracking them, which often happens when you put them on the hot range top. You also have the full use of both cooking top and oven to prepare the meal. It costs nothing extra for fuel to heat the Warming Closet, as it is heated by the hot air that rises from the cooking top as well as by the smoke pipe. The top of this Warming Closet forms a convenient shelf for holding your pots and pans. The **Brackets** which support this closet hold it firm and rigid. The **Tea Shelf** extends the full length, under the Warming Closet, and is both useful and ornamental. This **Warming Closet** has a joint of 7 inch pipe, fitted with a **Register Draft**. If your chimney hole is 6 inches, it will be necessary for you to purchase a joint of pipe tapering from 7 to 6 inches.

The strong **Leg Base** raises this range a convenient height from the floor, and you can sweep under it very easily.

Very little **Nickel Plating** is used on this range. It has just enough nickel plated parts to add to its appearance, without detracting from the natural beauty of the perfect, smooth, plain black iron surface.

If this Range is wanted without Reservoir, but with High Closet, deduct $3.00 from any price given in Price Table.

If this Range is wanted without High Closet, but with Reservoir, deduct $3.75 from any price given in Price Table.

If this Range is wanted without Reservoir or High Closet, deduct $6.75 from any price given in Price Table.

The above models of the Ebony Windsor Range will be shipped from foundry in Western Pennsylvania only.

Water Front

Water Front. This Range can be equipped with a **Water Front** for connection with a range circulating boiler, if desired. It does not interfere with the Oven, and must not be confused with the Hot Water Reservoir. This **Water Front** can be used in cities and towns only having a water pressure system, or where the water is supplied from an elevated or pressure tank. See our Price Table opposite, for small additional cost of water front.

Low Freight Charges and Quick Shipment

All sizes of The Ebony Windsor Range, complete with Reservoir and Steel Warming Closet, will be shipped from stock in Chicago or warehouse near Buffalo, N.Y.

If you are looking for a practical and perfect operating, long wearing Cast Iron Cooking Range, you will make no mistake if you choose and purchase our Noble Windsor. There is no need to pay from $35.00 to $40.00 for a Range built on similar lines.

Noble Windsor Cast Iron Six-Hole Cooking Range

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood

Built with a Strong Leg Base and Roomy Hearth

Take your choice of the size Oven and Cooking Top which best suits your family needs. You will find that it operates perfectly, bakes well and uses less fuel than any similar range sold by others. You do not have to spend half your time in the kitchen, yet there will not be any better baked Bread, Cake or Pies than yours, if you use one of our Noble Windsor Ranges. Order one, give it a fair trial and you will soon be fully convinced that we do not say enough in praise of this range.

Special Features

The Big-Capacity Wellsville "Rust-No" Polished Steel Warming Closet is always convenient. Needs no blacking or polishing. Wipe with a wet cloth to clean. Door is strongly pivoted and rolls back out of way when opened, giving free access to inside of closet. The 7-inch pipe joint attached to this closet has a Register Check Draft.

The Tea-Shelf extends full length of Cooking Top and is useful in a great many ways. Holds your Tea or Coffee Pots or your pans and dishes if desired.

Keeps them warm but out of the way.

Oven Heat Thermometer—The Guide to Good Baking

Our Oven Heat Thermometer saves fuel. They are no experiment as thousands of them have been in daily use for years. Many a loaf of bread or roast has been spoiled by the oven being too hot or too cold when put in. All this worry and loss is done away with when you have our Oven Thermometer. They make better baking possible, and give the most inexperienced cook confidence.

Extension Reservoir. Removable. Lined in White Enamel. Holds 15 quarts. Will not rust or burn out.

Ash Pit wide and roomy. Has full sized bailed ash pan. Patent ash chute guides ashes into ash pan, without spilling them. Prevents dust and dirt.

Famous Duplex Grate. You can use the same grate for either coal or wood.

Generous Oven

Oven is square, and correctly proportioned. The top plate is cemented, which prevents overheating, and gives a steady and even degree of heat to the top and bottom. Has removable inside rack, and Automatic Oven Door Opener. Inside of door is coated with aluminum finish.

The Oven Damper is placed where it can best control and regulate the heat. The handle is on the back of the cooking top, out of the way, but in plain sight. This damper operates perfectly. It has no long connecting rod to warp or burn out.

Prices for Range complete with Reservoir and Steel Warming Closet. Blackened and Polished. Securely Crated.

The door rolls back entirely out of way when opened. Tea-Shelf is large enough to hold a Teapot or Coffee Pot and keep them warm.

Nickel Plated Parts add to the beauty of this range. They are durable and are easy to keep bright and shining.

A Very Attractive, Compact Cooking Range, that is especially convenient where your kitchen space is limited. Perfect Baking and Cooking. Fuel Saving. Roomy, Sanitary Warming Closet. Useful Tea-Shelf

Charm Windsor Cast Iron Four-Hole Cooking Range

Burns either Hard or Soft Coal, Corn Cobs, Coke or Wood

A Four-Hole Cast Iron Range that is the best money value we know of. Has stood the practical test of daily use in thousands of kitchens with perfect satisfaction to the users. You cannot purchase a range of this quality anywhere else for less money than we ask.

Note These Good Points Carefully

The Cooking Top is of ample size to take care of the needs of even a large family. The Oven heats quickly and evenly, bakes thoroughly, and browns perfectly, both on bottom and top. Oven, or Direct Draft Damper, is correctly placed to fully control the heat, and has no long connecting rod to burn out. Note the wide, deep hearth has bailed ash pan.

Body is built of specially selected cast iron. It is scientifically designed and proportioned. Carefully fitted and mounted together.

Linings are built strong and of the proper weight.

Fire-Box is constructed to give the greatest possible heat from the least fuel. End pouch feed for coal; front feed for wood. Strong, heavy linings.

Cooking Top and Center cut to allow for expansion and contraction.

Flues carry heat to proper parts of range without waste or excessive use of fuel.

Oven

Large oven. Cemented top-plate, to prevent overheating or burning out. Inside of door is coated with aluminum, anti-rust finish. Fitted with Automatic oven door opener, and removable oven rack.

Ash Pit is very deep. Has drop hearth slide and full size bailed ash pan.

Extension Reservoir. The 15-quart Tank is enamel lined and can be lifted out for cleaning.

Prices for Range complete with Reservoir and Steel Warming Closet. Blackened and Polished. Securely Crated.

Water Front can be fitted in this range to be used in connection with a **Range Circulating Boiler.** Do not confuse the Water Front with the Reservoir. They are two distinct and separate parts of the range and can be used together or singly, as desired.

268B2371—Water Front weight, 17 pounds. Price $2.25

Iron Windsor

Six-Hole Cast-Iron Cooking Range

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood

Other Good Features
Main Points of Construction

Range and High Shelf made of cast-iron of the proper strength and quality, with smooth, natural black iron finish.

Cooking Top made in sections to prevent fire cracking.

Fire-Box is strongly and carefully built and has durable sectional Fire-Linings.

Ash-pit is of ample size and has a bailed ash-pan and swing hearth slide.

High Shelf is well built and is ornamental as well as useful. It will be found extremely convenient for food and other articles you wish to keep warm.

Extension Reservoir is strongly and carefully built, with top level with the Cooking Top of the Range. Reservoir Tank is lined with white enamel. Can be removed for cleaning. It will hold 12 quarts.

The Panel which encircles the Thermometer on Oven Door is Nickel-Plated.

Teapot Stands are serviceable as well as ornamental and are **nickel-plated.** Hinge-pin tips and Knobs are also **nickel-plated.**

Height, floor to Cooking Top, is 28½ inches. Height, floor to top of High Shelf, is 45 inches. Length of Fire Box, for Wood, is 17½ inches.

Prices for Range Complete with Reservoir and High Shelf. Nicely Blackened and Polished. Securely crated.

With Reservoir and High Shelf

When ordered complete, with High Shelf and Reservoir, this range shipped promptly from stock at Chicago or from the warehouse nearest you. Warehouses near St. Louis, Mo.; Buffalo, N. Y.

A Plain Mission Type Modern Cooking Range, at a Low Price

Excellent value for the money we ask. Similar Cooking Ranges usually sell at $10.00 to $15.00 more than we ask, according to size. We can fully recommend it as a Range that will prove satisfactory in every way. It is economical in fuel consumption, and with Cooking and Baking qualities unsurpassed. Notice the full sized Six-hole Cooking Top; also the wide, deep Hearth, with its Bailed Ash Pan; and the well proportioned Oven. The plain, smooth surface of this stove is easy to keep clean and polished. No pockets to dig the dirt and grease out of.

Well Proportioned Oven

Will cook and bake evenly and well on bottom or top. Removeable inside wire rack, and automatic door opener. Inside oven door is coated with aluminum, anti-rust finish. Fitted with accurate Oven Thermometer.

If wanted **without Reservoir,** but with **High Shelf,** deduct $2.00 from price of any size in Price Table.

If wanted **without High Shelf,** but **with Reservoir,** deduct 75c from any price in Table.

If wanted **without Reservoir,** or **High Shelf,** deduct $2.75 from any price in Table.

The above styles will be shipped from warehouse near St. Louis, Mo., or Buffalo, N. Y. We ship promptly and assure safe delivery.

Just the Cast-Iron Range You Need, Especially If Your Kitchen Space is Small. Cooks Well. Looks Well. Wears Well.

Crystal Windsor Four-Hole Cooking Cast-Iron Range

A Good, common sense Four-hole Range. Moderate in price. Dependable in every way. Warms your Kitchen, and at the same time cooks your meals. Has a quick and sure Baking Oven, with roomy Cooking Top. Heats water quickly. Will give you good service and satisfaction for a great number of years.

Has Hot Water Reservoir, and High Shelf.

Construction

FIRE BOX is adapted for use with either **Hard or Soft Coal,** or wood. **The Left end Pouch Feed** allows you to use chunks of soft coal without the labor of breaking them up.

THE GRATE is of the flat, shaking and dumping pattern, a very reliable and durable style for burning either hard or soft coal. It is easy to understand and to operate. **We also pack a wood grate** with each of our **Crystal Windsor Ranges** so that if you desire to burn wood the fire-box can be instantly changed to wood burning.

OVEN is roomy and correctly proportioned to be a perfect baker. Oven is fitted with an adjustable slide rack and has pedal oven-door opener. The inside of the oven-door is coated aluminum finish. Outside oven shelf is good size and richly carved.

If this Range is wanted without Reservoir, and high shelf, deduct $3.50 from the price of any size given in our Price Table.

Shipped from our warehouse near St. Louis, Mo., only.

Excellent Value. Carefully and Honestly Built. Easy to Manage. Consumes Little Fuel for the Amount of Work Done.

Union Windsor Cast-Iron Four-Hole Cook Stove

Has Four-hole Cooking Top, and Hot Water Reservoir. Burns Hard (anthracite), or Soft Coal, Coke, Corn Cobs or Wood.

With Reservoir

Without Reservoir

Construction

Cooking Top and Long Centers are cut, to prevent fire cracking or warping.

The Fire-box is fitted with our dumping grate for coal. We also furnish a Wood Grate with each Stove.

When you wish to use wood, take out the (two) fire-box end linings and the coal grate, and then put in the wood grate. **This Fire-box has a large Pouch Feed for coal.**

Oven is well proportioned, bakes perfectly on both top and bottom, **and has two doors, one on each side.** The inside of both these doors is aluminized. The right hand door has an **automatic oven door opener (or kicker),** which allows you to open that door without bending when your hands are full.

Ash-Pit is deep, has draw-slide, and is fitted with a bailed ash-pan.

Reservoir Tank is lined with **Enamel,** and can be removed for cleaning. This tank holds 12 quarts.

The Reservoir Damper should be turned **up** when you wish to use the **Oven,** and turned **down** when the heat is wanted directly under the **Reservoir Tank.**

The Flue Clean-Out is located in the **Hearth,** back of the **Ash-Pan. This Flue should be cleaned out frequently.** We furnish a **Sectional Cover,** which is useful for small cooking utensils.

All models of the **Union Windsor** will be shipped direct from the warehouses near the following cities:

St. Louis, Mo.

Buffalo, N. Y.

This means that the freight charge will be reduced to a minimum, and that your stove will reach you in the shortest possible time.

A Cook Stove That Has Won Many Friends For Us Wherever We Have Sold It

Crown Windsor Cast-Iron Cook Stove

Four-Hole Cooking Top and Hot Water Reservoir

Burns Hard or Soft Coal, Coke, Corn Cobs, or Wood

With Reservoir

Without Reservoir

Crown Windsor

If wanted without Reservoir, like this small illustration, deduct $2.00 from price of any size in Price Table below.

Prompt Shipment

All Crown Windsors shipped from warehouse near St. Louis, Mo.

Our Crown Windsor is a satisfactory and economical modern cook stove. It is correctly designed and honestly built. It has perfect cooking and baking qualities. **Oven door on each side.**

Construction of Crown Windsor Cook Stove

FIRE-BOX is of the correct proportions and burns either Hard or Soft Coal, Wood or Corn Cobs with equal facility.

We furnish a Sectional or Ring Lid for use with small cooking vessels.

GRATE is our patent Duplex Grate which can be used for either Coal or Wood. To burn Wood, take out the end linings, then reverse the Duplex Grate, leaving the **flat side up.**

ASH-PIT is deep and fitted with a strong, bailed ash-pan. Hearth is broad and has large drop hearth slide.

OVEN is of good size and ventilated. Has cemented top which prevents any overheating, while its baking and cooking qualities are perfect. Oven has a door on each side. The right hand door is fitted with a kicker or foot opener. Very convenient when your hands are full. The doors are coated with Aluminum finish inside. Oven also has a removable inside rack.

RESERVOIR Tank will hold 14 quarts and is enamel lined. The water heats quickly and the damper allows perfect control of the heat. Stove rests on an ornamental carved Leg Base.

NICKEL PLATED PARTS consist of: Teapot Stand; Panel on Oven and Front Doors; Towel Rod.

Prices are for stove complete with Reservoir. Nicely Blackened and Polished. Securely Crated.

Without Reservoir

Choice Windsor

Low Freight Charges

We Ship Promptly

The Choice Windsor Cook stove is shipped from warehouse near St. Louis, Mo., only. We can make immediate shipment of your order.

You will find that this stove uses little fuel, cooks and bakes perfectly, and is very easy to keep clean. The natural black iron finish takes a high polish. There are no fancy carvings to clean out. **At our price this is a worth-while purchase.**

Cooking-Top has ample cooking space. **Fire-Box** is well proportioned. **Flues** arranged to carry the heat without waste to cooking top, oven and reservoir. **Ash-Pit** well built. Has a draw hearth slide. **Oven** bakes and cooks perfectly and evenly on top and bottom. **Has two doors, one on each side.** The inside of these doors is aluminized to prevent rusting. The right hand door is fitted with an **automatic door opener** or kicker, which enables you to open door with your foot when your hands are full, and without stooping. **One Sectional** 3-piece lid is furnished with each stove.

The Reservoir Tank is lined with **Enamel** and can be removed for cleaning. This Tank will hold 10 quarts.

The Reservoir Damper must be turned up when you wish to use the **Oven.** When you turn this damper down you throw the heat directly under the **Reservoir tank.**

The **Flue-Clean-Out** is under the hearth. **This flue should be cleaned out very often.**

Our Dandy Windsor is a very satisfactory, durable and economical Cook Stove. It bakes quickly and successfully. It consumes very little fuel.

Note These Features

The **Cooking-Top, Centers, Covers, Front Damper, Fire Box,** and **Linings,** together with the **Feed, Ash Pit,** and **Oven Doors,** are built of the best grade of cast iron stove plate, of the proper thickness and weight. The **Oven Bottom, Back, Left Side,** and **Front,** are built of refined polished steel. The Stove has a **Dumping Grate for coal, and we furnish an extra grate to be used when you wish to burn Wood.** The **Flues** are correct in size, and the **Draft Slide** is larger than in ordinary cook stoves. It is located in front. **Ash Pit** is large, and has a strong **Ash Pan.**

The **Oven** is well proportioned. The top plate is protected with asbestos. This Oven is a sure and perfect baker, both bottom and top. Has an inside Slide Rack, and one door, which is located on the right side.

Strong Legs raise this stove a convenient height from the floor.

Galvanized-Iron Reservoir is detachable and will hold 5 gallons. The top and lids are made of cast-iron and are flush with the main top of stove. The water is **heated by contact system. This Reservoir can be removed from the end of stove and placed on the top.** In this way you will secure **boiling hot water in a very few minutes.**

Price complete with Reservoir. Nicely Blackened and Polished. Securely Crated.

The Reservoir, complete, will be found securely packed in oven.

An Extra Large Oven. No Failure With Your Baking When You Use This Oven. Note Our Wonderfully Low Prices

Forest Windsor Cast-Iron Four-Hole Cook Stove

With Reservoir

Without Reservoir

Burns Wood Only

Neatly finished and easy to keep clean. Stoves of equal quality retail as high as $30.00.

Read These Details of Construction Carefully

COOKING TOP AND LONG CENTERS are cut to prevent warping or fire cracking. FIRE-BOX is wide and long, and will take wood 30 inches in length. This is a very convenient feature, as it will save you much labor in cutting your wood. The fire-box is also proportioned to heat the oven without waste of fuel. **THE FLUES are of perfect proportion** and give the best of service, heating the oven quickly and evenly. **THE ASH-PIT** is ample and is made to allow the easy and quick removal of the ashes. The hearth is broad and has a swing top slide. **OVEN is EXTRA LARGE** and will bake evenly on top and bottom. The measurements given below are the exact inside measurements, and do not include the swell of the door. **Oven has two doors.** The right side door has a kicker, or foot opener, which is very convenient when your hands are full. This door is coated with aluminum finish inside. Oven Rack slides in and out easily. The outside shelf is well made, neatly carved, and of good size. **One Sectional Cover** is furnished with each stove.

Reservoir Casing is well made and is rust-proof. **Reservoir Tank** is enamel lined and holds 5 gallons. The water in this tank heats quickly and thoroughly. The tank is removable for cleaning.

Nickel-Plated Parts are neat. They are thoroughly polished and buffed, which give them a bright, silvery shine. They consist of: Panel on Oven Door, Knobs and Towel Rod.

Our "Kayser" 172B2820 is one of the few Inlaid Linoleums 12 feet wide

A New Model in a Semi-Plain Finish Cast Iron Cooking Range. For attractive appearance and ease with which it is kept in order, this style finish is the best to be had. We recommend this Range as a good baker, fuel-saver and long wearing range, yet offered at our usually low prices.

Magic Windsor Four-Hole Cast-Iron Cooking Range

Complete with Reservoir and High Shelf.

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood. Good Satisfaction with any Fuel

If you want a neat, attractive, and satisfactory operating cooking range in your kitchen, you cannot do better than to select the Magic Windsor of the size best suited to your needs. You cannot afford to experiment in your Cooking Range; it means too much to you. Our Windsor Stoves are correctly designed and built. No lower prices can be made on a range of this quality.

DETAILS OF CONSTRUCTION

Magic Windsor Special Points of Construction. Cooking Top has Four full size Cooking Holes fitted with three solid and one ringed lid. It is cut to allow for natural expansion and contraction of the iron.

Fire Box is so built that little fuel is needed to secure the desired heat. Has a Flat Dumping Grate for coal. We furnish an extra Wood Grate with each range.

Roomy Hearth is smooth and deep and has bailed Ash-Pan. It is easy work to take out ashes.

The Oven, a very important feature, is a delight to all who use it. Good baking is the rule. No worry or trouble. No burned bread or spoiled pies.

When your hands are full, open the oven door with your foot. The Automatic Kicker works perfectly.

White Enamel Lined Reservoir Tank holds **12 quarts.** Keeps water pure, clean and piping hot. Removable for cleaning.

Strong Cast Iron High Shelf is just right height for average person and is very useful.

For the money we ask, you cannot do better than to purchase the Magic Windsor Cooking Range. It is very neat, compact and a wonderful space saver, in a small kitchen.

MAGIC WINDSOR WITHOUT RESERVOIR, BUT WITH HIGH SHELF

If wanted without Reservoir, but with High Shelf, deduct $1.50 from price given in Price Table for any size.

If wanted without High Shelf but with Reservoir, deduct $1.60 from price given in Price Table for any size.

If wanted without High Shelf and Reservoir, deduct $3.10 from the price given in Price Table for any size.

Prices for Range with Reservoir and High Shelf. Nicely Blackened and Polished. Securely Crated.

Height, floor to Cooking Top, 27½ inches. Length of Fire Box for Wood, 20 inches. Size pipe 6 in.

Two Popular Plain Steel Ranges at Very Low Prices

Excel Windsor Steel Six-Hole Cooking Range

Complete with Reservoir and Warming Closet.

A Plain, Honestly Built Steel Range Offered at an Extremely Low Price. Less than is frequently asked for small, ordinary cook stoves.

Burns Coal Corn Cobs Chips Shavings or Wood

Price for Excel Windsor Range, complete with Reservoir and Warming Closet Nicely Blackened and Polished Securely Crated

Article No.	Price	Range No.	Size of Oven, Inches Width	Depth	Height	Size of Cooking Top Inches	Average Shipping Wt., lbs.
268B2604	$12.40	8-16	16	18	11	29¼x20½	215

Takes 6-inch pipe. Height, floor to Cooking Top, 26¾ inches. **Has six 8-inch lids.**

Fire Box for Wood, 17½ inches.

We do not furnish Water Front for Excel Windsor Range.

If wanted without Reservoir, but with Warming Closet, deduct $1.10 from the price given in Excel Windsor Price Table.

If wanted without Warming Closet, but with Reservoir, deduct $1.35 from the price given in Excel Windsor Price Table.

If wanted without Reservoir and Warming Closet, deduct $2.45 from the price given in Excel Windsor Price Table.

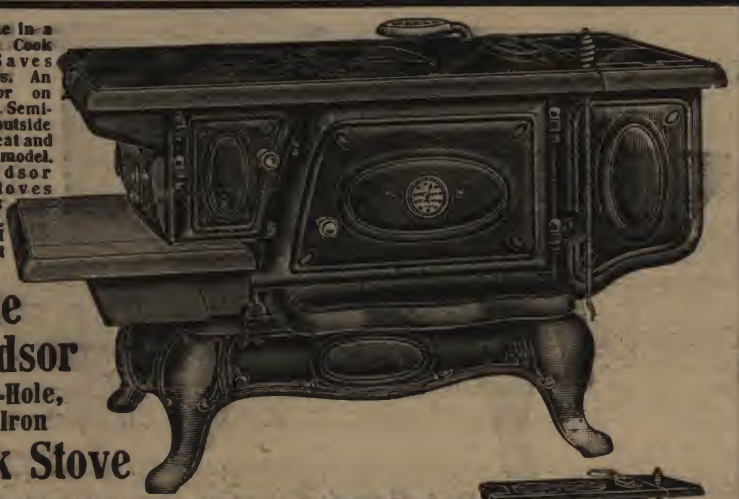
The materials used are durable, and heavier than are generally used in low-priced steel ranges. There is no fancy ornamentation or nickel plating to add to the cost. The saving is worth considering. We do not claim they are equal to our high grade ranges but for the money asked we believe there are no better values.

Detail Construction of both Excel and Pilot Windsor Ranges

BODY is built of cold rolled steel, **electrically welded together,** making it firm, strong, and airtight. This construction is not usually found in low priced steel ranges.

COOKING TOP AND COVERS are made of strong, durable stove plate. Ample size for a large amount of cooking.

FIRE BOX is well built, and has cast iron linings. Also a flat, dump style grate. We furnish an extra grate, to be used when **wood** is burned.



BACK SMOKE FLUE IS CAST IRON, and will not rust or corrode. **ASH PAN** has a draw-out handle.

OVEN is satisfactory size, and bakes quickly and well in all parts. Has a Wire Rack, which doubles its capacity. **OVEN DOOR** swings to the right, and fits firmly and tightly when closed.

WARMING CLOSET is of ample size, clean and sanitary. It is very useful for warming dishes.

RESERVOIR. Made of **Galvanized Iron,** which does not rust or corrode. It heats water quickly without extra fuel cost. You can **use it on either end of the range, or on the Cooking Top, as you prefer.** This **Reservoir** is much larger than is found in a great many higher priced ranges. Holds 5 gallons. In shipping this range we pack this Reservoir in the oven.

Good Value in a Cast-Iron Cook Stove. Saves Your Steps. An Oven Door on each side. Semi-plain outside finish. Neat and attractive model. Our Windsor Cook Stoves always BakeWell, Cook Well and Last Well.

Eagle Windsor Four-Hole, Cast-Iron Cook Stove

Complete with Reservoir and Oven Thermometer. Will Burn Hard or Soft Coal, Coke, Corn Cobs or Wood.

Every purchaser of our Windsor Stoves is assured of stove satisfaction. We design each stove; have them manufactured strictly according to that design and up to our high standard of construction, both in materials and workmanship. No care is spared to make your purchase satisfactory in every way.

SPECIAL DETAILS OF CONSTRUCTION

Cooking-Top has Four Holes, giving plenty of room for all cooking needed. Little fuel is necessary for successful operation.

Fire Box is correct in every way. Duplex Grate is perfect operating. When you wish to burn Wood, just reverse this grate leaving Flat Side Up.

Oven is quick and sure baking. You will take great pride and pleasure in the cakes, pies and bread baked in this oven. All parts of oven heat evenly. Oven Rack doubles capacity. The Two Oven Doors are a most convenient feature. Saves steps. No walking around stove to look into oven.

Automatic Oven Door Opener, or Foot Kicker, is very useful when your hands are full.

Oven Thermometer is a great labor and worry saver. You always know exact heat, there is no guesswork.

Reservoir Tank is lined with White Enamel. Keeps water sweet and clean. Lifts out for cleaning. Holds 14 quarts.

The Semi-Plain-Finish of this cook stove greatly lessens the work of keeping it clean. Blackens easily and takes a lasting and very brilliant polish. It is a very Modern Cook Stove at a very Moderate Price.

EAGLE WINDSOR STOVE WITHOUT RESERVOIR

Especially Good Value for the money we ask. If wanted without Reservoir, like small illustration, deduct $2.00 from price given in price table for any size. When ordered without Reservoir, we fit this stove with a handy Back Shelf.

SHIPMENT

A Heating Stove of Superior Value. No better, full nickel trimmed, modern Base Heater ever offered at such a low price. The safeguard against cold weather in thousands of homes. Perfect in every detail. Extra strong, heavy fire pot. Equal to stoves sold at retail for $8.00 to $12.00 more than we ask. Built to last practically a lifetime.

Superb Windsor Heater

Self-Feeding, Double Heating Base Burner. Will Burn Hard Coal or Crushed Coke.

The Economical Heater that gets as much heat from a ton of coal as some heaters would from two tons. Many people prefer a heating stove to any other method of heating, if they can secure a good one. There are none better made for the price than our Superb Windsor. Start your fire in the Fall; there is no necessity for it to go out until Spring, if you regulate the dampers correctly. You can have a big volume of heat or it can be checked down as low as you wish. The big undivided Base Flue gives quick and powerful radiation of heat. The circulating Flues take the cold air from the floor and discharge it out through the top intensely heated. Heat your Upper Room without extra fuel cost by using the Double Heater Attachment on our Superb Windsor. Think how nice it is to have a warm bed room, bath room or nursery without extra heating cost or work. You can secure this and be comfortable in the zero weather if you purchase one of our Superb Base Heaters.

Detailed Construction of Our Superb Windsor

FIRE-POT is heavy, strong and durable. It can be easily removed, when necessary, through the front of the heater by removing the front frame. All bolts and nuts which hold this frame are on the outside, thus preventing any burning off and giving free access to them.

GRATE is the improved combination **SHAKING** and **DUPLEX PATTERN**, which we have found cannot be excelled in a **HARD COAL BASE BURNER.** The shaking ring makes it easy to clear out the ashes and clinkers, as by shaking it to the right and left they are brought to the duplex center from where they are easily dumped into the ashpan below, leaving you a clear, live fire.

DAMPERS are well constructed and fitted. They are easy to understand and operate perfectly. Direct Draft Damper, Check Damper and a Draft Slide Damper in ashpit door.

SELF-FEEDING MAGAZINE is strong and well made and has an automatic top cover. It is large, which makes the work of keeping it filled with coal easy.

FLUE CONSTRUCTION is ample, of the correct size for the fire-pot and utilizes all the heat produced. The CIRCULAR BOTTOM FLUE is large and has a greater direct radiating surface than most stoves of this type.

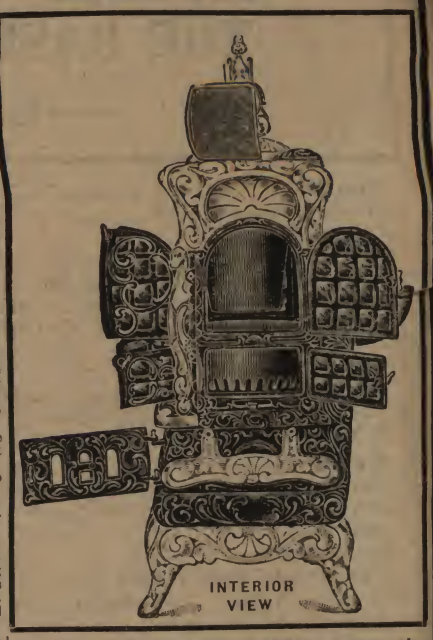
HOT AIR CIRCULATING FLUES are two in number: One located at each back corner of the main bottom, extending into the **HOT AIR CHAMBER** in the **NICKEL-PLATED DOME.** The cold air is drawn from the floor into these flues and passing upwards along back of the fire-pot and magazine it becomes intensely heated and is then discharged into the room by circulation through the ornamental cap on main top. No heat is wasted, as the Heater has a large radiating surface and most powerful circulation of heat.

THE ASHPIT is deep and large and is air and dust tight. It is fitted with a large, strong, bailed ashpan. The clean-out is of ample size and is located in front, which makes it easy of access.

CAST-IRON ELBOW fits close and tight to the collar.

AUTOMATIC COVER which is under the Swing Top Cover, fits tightly and does not allow the escape of gas or dust.

MICA DOORS are large and eight in number. They extend from the ashpit to Nickel-plated Dome and permit full and free radiation of heat and a bright and pleasing illumination. **THE CASTINGS** are smooth and the carving is neat, pleasing and carefully made.



NICKEL-PLATED ORNAMENTATION is very elaborate and highly artistic. The nickel-plating is done by experts and nothing but pure nickel is used, which makes the lustre extremely brilliant and lasting. In appearance this heater is much more imposing and elegant than other medium priced heaters.

NICKEL-PLATED PARTS are as follows: Nickel-plated Swing Top Cover; Large Carved Deflector Dome; Massive Artistically Designed Side Wings; Name Plate; Foot Rails and Brackets; Leg Base and Legs; Turn Keys, Knob and Hinge Pin Tips.

TOP ORNAMENT is of a very pleasing design.

Fire pot measurements are the actual inside and outside measurements, and show how durable and strong we build our Fire Pots.

You can run the Smoke-Pipe into the chimney above the stove or, by taking off the Cast Iron Elbow, you can run it into the fire place or chimney, directly back of the stove.

DOUBLE HEATER ATTACHMENT is a very valuable addition to this stove, as it enables you to heat the room or hall above where the heater is placed without extra cost of fuel or extra work. When you desire to make the Double Heater Attachment all that is necessary to do is to attach a 6-inch pipe to the Hot Air Circulating Flue at the back of the Nickel-plated Dome on the main top of the Heater.

It has been demonstrated by scientific and practical experiments, that Chestnut size of Anthracite (Hard) Coal is the best fuel to use in any Hard Coal, Self-feeding, Base Burner. It will produce a more steady and intense heat from a given amount of fuel than any other size of coal. It will also feed more evenly, easily and freely from the magazine.

DIMENSIONS AND PRICES

Article Number	Price	Number Stove	Diameter of Fire Pot, in. Outside	Diameter of Fire Pot, in. Inside	Height Floor to Top of Urn Inches	Floor Space, Inches	Size of Pipe Inches	Average Shipping Weight

——SHIPMENT——

All sizes of the SUPERB WINDSOR are carried in stock at Chicago, Ill., and in warehouses at St. Paul, Minn., and near *Buffalo, N. Y.*

Your stove will be shipped from stock nearest your shipping point.

No one can sell so good a stove at a lower price. A Handsome, Attractive, Perfect Operating, Airtight Base Heater. The Popular Colonial Style Construction and Plain Finish that harmonizes with any furniture. A Full View of the bright, cheery fire through the Big Mica Windows. Comfort and Warmth with little Fuel.

Golden Windsor Heater

A Self-Feeding Base Burner that burns Hard Coal or Crushed Coke.

Produces the quick, steady, continuous and intense heat you need in zero weather but can be checked down on the mild days. Built to stand steady use and give satisfactory service for a great number of years. Manufactured for us according to our exclusive pattern, by mechanics who have done nothing but make Hard Coal Base Burners all their lives. Every part is perfect and when mounted together, makes a Heating Stove that cannot be improved upon by anyone at near our price. Why pay from $28.00 to $35.00 for no better stove?

Special Features

The **Tea Kettle Top**, which is at the back of heater, is very convenient. It has a 6-inch lid, and will hold small pots and pans, as well as a kettle of water.

Cast-Iron Elbow fits close and tight to the collar. The smokepipe can be run into the chimney directly back of the heater, or above it, as desired.

Top Ornament is artistic in design and has nickel plated trimmings.

Nickel Plated Parts have a smooth, mirror-surface finish, and add a bright touch to the attractive and elegant appearance of the heater. Nickel plated parts are: Front panel, foot rails, turn-key, hinge-pin knobs and screw draft in ash pit door.

Body is built according to the popular Colonial Style with plain, smooth finished castings.

Large Mica Doors give a full view of the bright and cheerful fire. The Castings have a smooth, glossy surface that permits the free radiation of heat.

The Self-Feeding Magazine is built strong. Also in one piece. The correct size for the proper feeding of the fuel. **The Automatic Cover** fits tightly and does not allow the escape of gas into the rooms.

DAMPERS are easy to understand and operate perfectly. There is the **Direct Draft Damper, Check Damper and Damper in Ash-Pit Door. Flue** is of circular construction, which allows the products of combustion to pass easily and freely around the bottom without being divided by flue-strips.

Ash-Pit is deep and tightly built, making it air and gas tight. Has full sized bailed Ash-Pan. Ashes should be taken out often, because if they are allowed to accumulate in the ash-pan, it will check the draft as well as burn out the grate.

We give the actual inside and outside measurements of the **Fire Pots.** We build them strong and durable, to stand the heavy wear they necessarily receive.

The **Smoke Pipe** can be run into the chimney above the stove. By taking off the **Cast Iron Elbow,** you can run this pipe into the fireplace or chimney, directly back of the stove.

DIMENSIONS AND PRICES

Article No.	Price	Heater No.	Diameter Fire Pot Inches Outside	Diameter Fire Pot Inches Inside	Floor Space Inches	Height Floor to Top of Urn Inches	Size of Pipe Inches	Average Shipping Weight Pounds

——SHIPMENT——

We carry both sizes of the GOLDEN WINDSOR in stock at Chicago, Ill., and in warehouses near Buffalo, N. Y., and at St. Paul, Minn. The stove will be shipped from the nearest point to you. We ship promptly. Our stoves are nicely blackened and polished when they leave the warehouses.

Quick Removable Grate and Fire Pot

Fire-Pot and Grate is heavy and durable. Can be easily removed whenever necessary by taking off the large front, which is fastened by four bolts placed on the outside.

Grate is the improved combination of Shaking and Dumping model. The shaking ring brings the ashes and clinkers to the duplex center where they can be easily dumped into the ash-pan below and leave a clear, live fire.

Grand Windsor Heater

THE BASE BURNER THAT GIVES DOUBLE SERVICE —GIVES FULL HEATING—SAVES FUEL

Heating his home is a problem that has caused every householder a great deal of care and thought. You want plenty of heat and at the lowest cost for fuel.

We have solved that problem for you by building Hard Coal Base Burners that are not surpassed either in the production of heat, the radiation and circulation of heat, economy of operation, convenience in work, cleanliness, attractive appearance or long wearing qualities. We offer these heaters to you at extremely low prices. Send us your order. We ship promptly and assure you Safe Delivery.

Grand Windsor Self-Feeding, Double Heating, Hard Coal Base Burner. Burns Hard (Anthracite) Stove Size or Chestnut Coal or Crushed Coke.

A Modern Base Burner built on Simple and Elegant Lines.

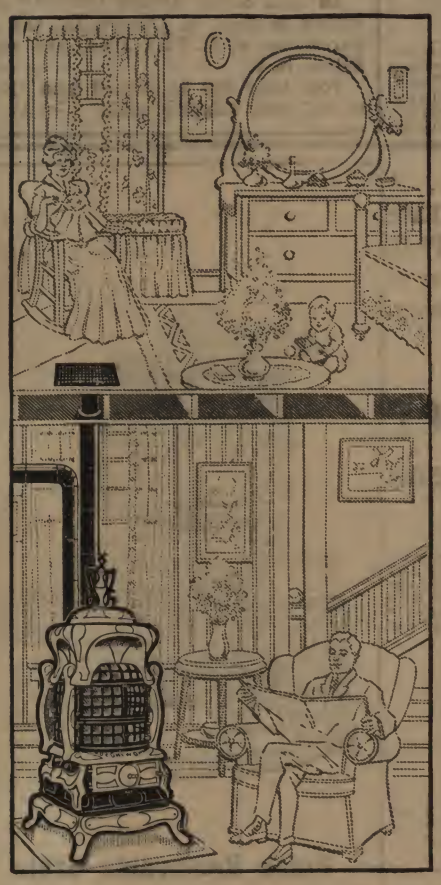
We believe there is no higher class or more perfect heating stove manufactured than the Grand Windsor. Note its elegant form and the plain, smooth surface of the cast-iron parts. It is full trimmed with Nickel-Plated Parts. Notice the plain and elegant finish of these parts and its artistic line-marking.

The Grand Windsor Base Heater combines all the qualities necessary to economical Warmth and Comfort in the Winter. In it you get:

1—Great heating power.
2—The perfect fire-keeper.
3—Great fuel saving.
4—Extra large radiating surface.
5—Quick and sure circulation of heat.

It is a floor-warmer, heating all parts of the house alike. We do not believe there is a better heating stove made. It is correctly designed, correctly built and priced very low.

We have had this Hard Coal Base Burner built after our own design and exclusively for us. We know that every part of it is exactly what it should be, to give you the best and most economical service. The foundry at which this heater is built is one of the oldest and largest in the country. As they have been building heaters for almost a century, they know how to build Hard Coal Base Burners. The mechanics employed in this work have grown up in the foundry and know nothing so well as stove building. We see that our designs and instructions are followed strictly. Therefore, we know each Windsor Stove will give you the service you have a right to expect.



The prices we make are much less than you would be asked at retail for heaters of similar design but of no better quality.

Purchase this heater and you will experience such comfort and freedom from cold rooms, cold corners and cold floors as you had not thought possible. Your fuel bill will be noticeably less. You will not have to work so hard to keep your heating stove going. We know you will be proud of a Grand Windsor. It will prove an elegant addition to your parlor furniture. It is handsome enough to harmonize with any style of furnishings.

See color page opposite for illustration, prices and shipment of our Grand Windsor Heater

Double Heating Attachment

A Wonderful Convenience That Is Much Appreciated by Everyone

It will keep your upstairs room warm without extra cost or work. It uses only the surplus heat and the downstairs part of the house does not suffer in the least.

The cold air is drawn from the floor into the hot air flue at the back of heater and, passing upwards along the hot firepot and magazine, becomes intensely heated before it is expelled through the perforated lid on Main-Top.

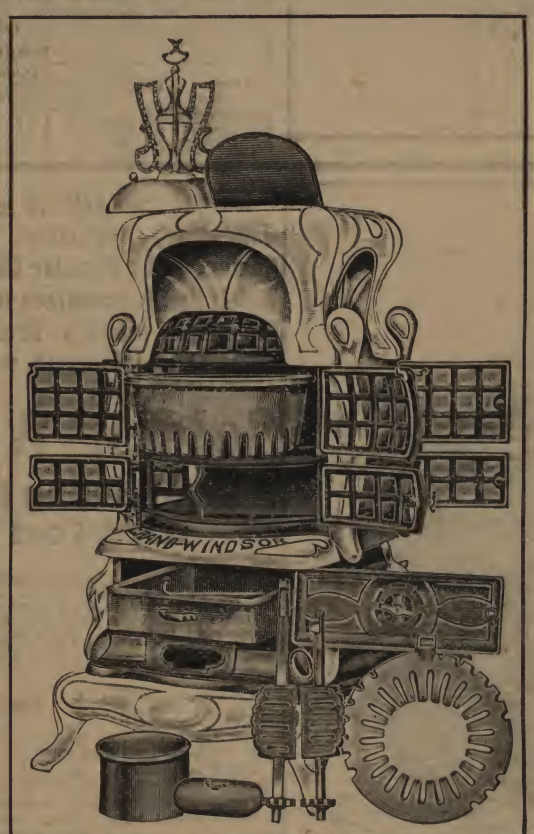
To heat the upstairs room, you must attach a 7-inch pipe to this pipe collar and then extend pipe up to floor of the room and connect with a register. This room will be warm and comfortable at all times and with no loss of heat downstairs. Think of it! No coal or wood to carry upstairs. No ashes to lug down. Much time and labor as well as money is saved right here in using our Grand Windsor.

By means of a perfect fitting and easy operating cup-damper, the heat can be turned on or off the upstairs part as desired. In this way you easily regulate this heater and have heat just where you want it.

Complete Description of the Different Parts of this New, Modern Self Feeding, Double Heating, Hard Coal Base Burner

Heat Equally Distributed

You can sit in the farthest corner away from the heater and yet be comfortable.



Materials and Workmanship

Nothing but a Special Stove Plate Cast Iron Mixture, the best that can be obtained, is used in the construction of our Grand Windsor. The plain, smooth castings are without blemish and take a wonderfully high polish.

A Full Sized Fire-Pot

The Fire-Pot is perfectly constructed, heavy and strong. Built with the idea of standing the intense heat that it is subjected to. Such big heat-producing capacity is not found in many heaters. Nothing is easier, if it is ever necessary, than to remove this Fire-Pot. Just unlatch the big front Mica Doors and you can take the fire-pot out without effort.

Our Popular Duplex Center Grate with Shaking Ring. Nothing better for Hard Coal Heating Stoves has yet been invented. It is easy to operate. The Shaking Ring turns from side to side, throwing all the ashes and clinkers to the Grate Center. From there they are quickly dumped into the large bailed Ash-Pan below, leaving you a clean, live fire with perfect circulation of air through grate and fuel.

Grand Windsor Dismantled to Show Ease of Removing Grate and Fire Pot

Ash Pit and Ash Pan

Well built, deep and air-tight. So ample in size that it cuts down the work of removing ashes. Strong Bail Handle makes it easy to carry Ash-Pan.

Our Circular Flue Construction

The best known for successful base heating. Our Flues are extra large, so as to take care of the big fire-pot. The descending flue carries the smoke and products of combustion to base. Here it circles Hot Air Flue and then ascends, passing out of smoke-flue exit. The Hot-Air Flue is very large and is located near rear center of bottom of heater. Cold air is drawn from floor into this flue, and, passing upwards between descending and ascending Smoke Flues, it comes in contact with back of Fire-Pot and Magazine. It becomes intensely heated before it is circulated into the room through perforated exit on Main-Top.

Self-Feeding Magazine

Strongly and well built. The weight of coal automatically replenishes fire as fast as coal in fire-pot is burned.

Nickel-Plated Dome Swing Top is swung off Main Top in refilling Magazine.

Tea-Kettle Attachment is ample size and placed at back of heater. It has removable 6-inch lid.

Cast-Elbow, into which stovepipe fits, is built strong and gas-tight. Smoke-Pipe can be run directly into chimney back of heater or above it. Nickel-Plated Legs and Base are heavy and form a strong foundation for heater.

Mica Illuminating Doors

Are large, perfectly fitting and gas-tight. Solid, tight gripping, Nickel-Plated Turnbuckles hold these doors so firmly that they cannot be sprung out of place when expanded by the intense heat.

Nickel Plated Parts

Lasting and brilliant. Note the line-marking that gives the needed relief to the plain surface. There are Four magnificent Side Ornaments. Big, impressive Reflector Dome with Swing Top Cover. Fender Name Plate, Side Foot Rails, Ash-Pit Door, Base and Legs, and all crowned with as pleasing and artistic Top Ornament as any one can desire.

GRAND WINDSOR

Double Heating, Self-Feeding, Hard Coal Base Burner

Burns Hard (Anthracite) Stove Size or Chestnut Coal; also Crushed Coke.

Warmth and Comfort in zero weather. No cold corners and no cold floors. Test it in your own home. Your satisfaction is assured.

Note our very low, economy prices that save you from one-third to one-half the usual retail price—From $50.00 to $70.00 has often been paid for no better stove.

Our Grand Windsor Heater is always under perfect control. You can regulate it to suit the weather conditions and save your fuel, yet always have the amount of heat required. The perfect construction assures this. You will not find a more powerful heater, one that will give more heat from less fuel, nor one of the same size that will supply more heat upstairs. Complete description is given on opposite page. Read it carefully.

PALACE WINDSOR HEATER

A Big, Capable, Full Nickel Trimmed, Handsomely Carved, Self-Feeding, Double Heating Hard Coal or Crushed Coke Base Burner

Is as pleasing in appearance, as it is useful and economical

An old favorite that has successfully kept thousands of homes warm and comfortable in the coldest weather. Test it in your own home. No matter what price you are willing to pay for a heater, none will give you longer or more satisfactory service than our Palace Windsor. It represents full heating value for every dollar of cost and means a saving of a full third on the purchase price alone. It will give you better, more economical, more reliable, and longer-wearing service than other heating stoves often sold at from $10.00 to $20.00 more than our low, economy prices. You can have a Big Fire or a Small Fire, just according to the weather conditions: Your Heater is always under perfect control; therefore your fuel bill is smaller than it would be with less carefully constructed Heaters. Each and every Palace Windsor Heater is perfect in every detail. Read carefully our full description of this heater given on opposite page. Our improved shipping facilities means only a small amount of freight added to our money-saving price. You could not make a better or more satisfactory heater purchase.

Shipped promptly from stock at Chicago, Warehouse in St. Paul, Minn., or from Foundry near Buffalo, N. Y.

We ship from the point nearest you. In that way the freight charges will be reduced to a minimum and your stove will reach you in the shortest possible time.

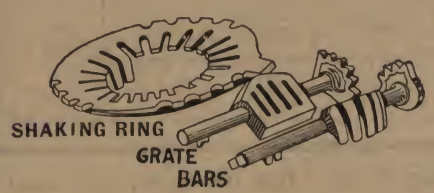
Complete Description of Different Parts of the Palace Windsor Heater



Fire Pot — Large, Easily Removed

REMOVABLE FIRE POT

You can see for yourself the ample size we have made this Fire-Pot—one of the vital points in the construction of a reliable Heater. Bottom of fire pot is nearly as wide as the top. Built extra heavy and strong, with special care, so as to withstand the intense heat which the superior construction enables the **Palace Windsor** to produce. No heater made has a fire pot that is easier to remove. It is so simple that it can be done in a few minutes. Just unlatch the big front Mica Doors, and you can take the fire pot out without effort. This point illustrates the simplicity of construction. Our Price Tables give actual inside and outside measurements of fire pot.

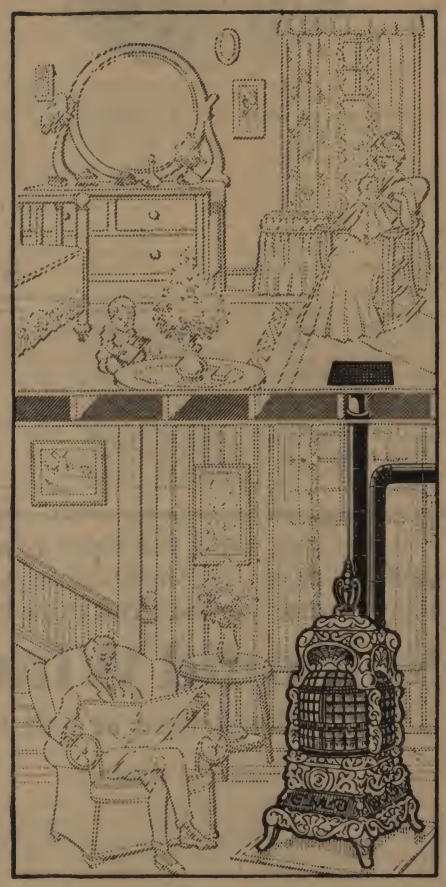
Patent Duplex Center Grate

Our popular Duplex Center Grate with Shaking Ring: Operates perfectly and easily. The Shaking Ring turns from side to side and throws ashes and clinkers to the center, then one single turn of the crank, dumps them into the big bailed Ash Pan below. This gives you a live fire, clear of all refuse and with free circulation for air through grate and coal. It is not hard work, almost anyone can do it.

Large, Self-Feeding Magazine with Automatic Magazine Cover

Much of the great comfort and convenience of Palace Windsor Heaters is due to the fact that they require so very little attention to keep the fire going. The Magazine is of unusual capacity, and when filled, will keep feeding the fire without further attention for a long stretch at a time. The magazine cover, or lid, opens up by itself when the swing cover is drawn back, and closes tightly when top is again pushed into place, keeping out dust and possible coal gas.

Base and Legs



The strong and heavy Nickel Plated Base and Legs form a firm foundation for the stove to rest upon. They are beautifully carved and fully nickel plated, making them handsome as well as durable. The Stove is raised just far enough off the floor to give the perfect circulation of cold air that good heating and good health demands.

Ash Pit Door With Damper

This door is fitted with a special, tight-fitting turnbuckle handle, which closes tightly, and cannot work loose when shaking grate, etc. Keeps dirt, dust and gas from escaping into the room. Highly nickeled and polished, and handsomely ornamented.

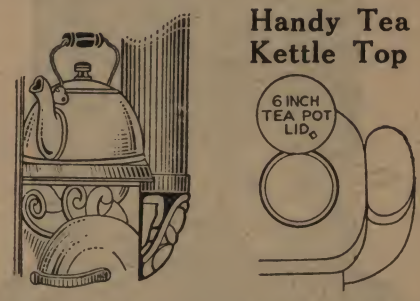
The Palace Windsor

is truly a Double-Comfort, Double-Economy Heater

Palace Windsor

Double Heating Attachment

As illustrated above, the Palace Windsor can be made to heat an extra room on the floor above, without any additional expense for labor or fuel. This means almost double the heat for the same amount of fuel, and comfort and warmth in rooms which would otherwise have to be heated by a separate stove.



The Double Heating Attachment can be put on in a very short time, by attaching a 7-inch pipe to the extra pipe collar on the main top, at the back of the Swing Top Cover. The pipe is then led to the room above, and connected with a register. By means of a special large Cup-damper, the heat can be turned on or off, as desired. A cap covers this Hot-Air Exit when it is not connected with this upstairs room. You then have all the heat for the downstairs part of the house.

Read carefully the detailed description of the **Flue Construction**, and especially the **Hot Air Flue.** That tells why the Palace Windsor Heater produces such an unusual amount of heat with so little fuel. The superior, improved construction of these parts, and the scientific principles on which they are built, make it possible to get so much extra heat and warm air circulation by use of the Double Heating Attachment.

You need not hesitate to send us your order for the Palace Windsor Heater you need, as we Fully Guarantee every article we sell, and you take no risk in purchasing. You will be comfortable, day and night, after you have this heater set up and going.

The Palace Windsor Heaters are nicely blackened and polished, and securely crated. We ship promptly and assure you Safe Delivery.

Handy Tea Kettle Top

On the main back top we have built a special 6-inch tea kettle heating top, with removable lid, so that water can be conveniently heated—a feature constantly in demand, and much appreciated by every housewife.

BAILED ASH PAN

Large, Easily Removed Ash Pan

Don't overlook the importance of this point. If the ash pit is not extra large, the ashes in the ash pan soon fill up and bank themselves against the grate, increasing the danger of its quickly burning out. All this danger is removed by our special construction. The Ash Pan is extra large, so that it will take an exceptional quantity of ashes without filling up too close to the grate.

Points You Should Not Overlook

The Palace Windsor Hot-Air Flue

This is the secret of the superior heating capacity of the Palace Windsor. Built unusually large, near rear center of the bottom of the heater. The cold air is drawn from the floor into this flue, and passes upward, between the descending and ascending smoke flues. It is then brought in direct contact with the back of the fire pot and magazine. Here the air becomes intensely heated, and is then circulated into the lower rooms through the perforated top on the back of main top. By fitting a pipe to the extra pipe collar of this main top, you secure the Double Heating Feature, illustrated on this page. You can, therefore, appreciate why **Palace Windsor Heaters** are a favorite in thousands of homes, where they provide extra warmth and comfort year after year, at no extra expense, except the pipe needed for connecting it to a register.

Flue Construction

We use the circular flue construction, acknowledged the best known for base burners. The **Flues** are extra large, and in correct proportion to the size of the fire pot, so as to get the greatest amount of heat from the least amount of coal. The descending flue carries the smoke, etc., to the base. There it circles the **Hot-Air Flue,** after which it ascends and passes out of the smoke flue exit. Don't overlook this important point in selecting your heater—it means that you get every bit of the heat from the fuel consumed.

Large Mica Doors

The Mica Doors extend the full length of the fire chamber, and are not obstructed by any elaborate trimming or ornaments. This allows the full, cheerful glow to go out into the room—one of the home-like, cozy features of the **Palace Windsor.** These doors are furnished with solid, tight-gripping turnbuckles, which hold them securely shut when closed. This makes it impossible for them to spring out when expanded by the intense heat.

DAMPERS are made strong and durable and are carefully placed. They are easy to understand and control and consist of the following: Direct Draft Damper, Check Damper and Cam Draft Damper in ash-pit door.

THE ASH-PIT is mounted tightly, so that there is no leakage of dirt or ashes. It is fitted with a strong, well-bailed, full-sized ash-pan.

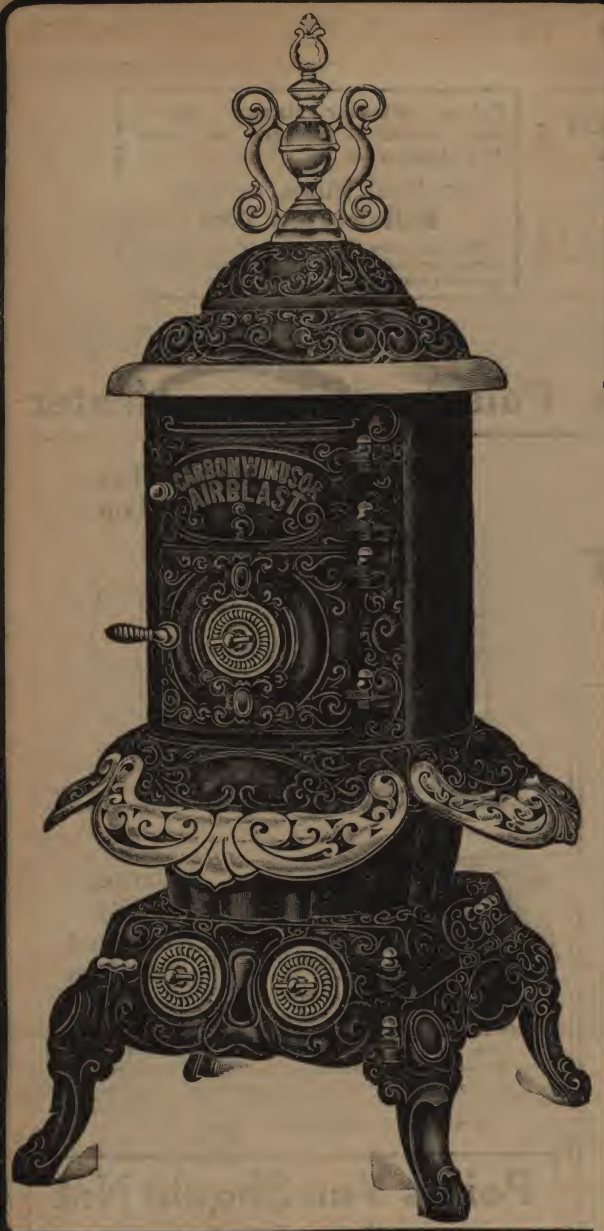
THE CLEAN-OUT is conveniently placed with its opening under the ash-pit door, thus allowing the lower flue to be easily cleaned.

It is very important that **this Flue** should be cleaned out thoroughly and regularly.

THE TEA-KETTLE HEATING TOP is large. Is situated at the back of the heater and is fitted with a 6-inch removable griddle.

THE CAST ELBOW, with which the stove is equipped, is strong and gas-tight.

THE SMOKE-PIPE can go into the chimney directly back of the **Heater** or above it as desired.



THE CARVING is of artistic design and is neatly and carefully executed.

THE NICKEL-PLATING is heavy and durable, and with the handsome swell front, the reflector dome, and the thorough blackening and polishing, gives the heater an attractive and pleasing appearance.

NICKEL-PLATED PARTS are as follows: Elegant Swing Top Cover, large Dome, with Reflectors in front and sides, and four Corner Ornaments, Side Wings, Name-Plate, Ash-Pit Door, with Cam Draft and Handle, two Foot Rails and Brackets. Base and Legs, Door Knobs, Hinge Pin Tips and Shaker.

THE URN, or Top Ornament, is of very elaborate and appropriate design. It is made of the best quality of metal and is thoroughly artistic.

Can you beat 100 per cent value in sweater coats? Look them up

You can secure all the heat you need in zero weather from any kind of coal siftings or from any grade of slack or lignite. The results will be as good as you would expect from a hard coal base burner. The fire pot makes this possible. We have tested and retested this fire pot until we know there is no greater nor more economical slack or lignite burning heating stove made. This fire pot has stood harder tests at our hands than you will ever put it to—that's why we can guarantee it as we do.

Carbon Windsor Air Blast Heating Stove

Fire Pot Guaranteed for Five Years

In addition to our general guarantee we positively guarantee that the Fire Pot of our CARBON WINDSOR will not burn out in five years' time, even if used every day. With ordinary use it is practically indestructible.

Specially Efficient with Soft Coal

The walls of our CARBON WINDSOR FIRE POT are built with a number of self-cleaning cells or slots. They extend from the bottom to the top. Through them the air is heated and forced, thus causing the fuel to burn in a circle from the fire pot to the center. This encloses the fuel with a circle of intense heat, having the largest possible fire surface against the pot with nothing to obstruct the radiation of heat. The heat is also radiated downwards, thus heating the floor. The hot air from the draft slots or cells mixes with the smoke and gases and burns fiercely, thus greatly increasing the intense heat produced. Our **Carbon Windsor Fire Pot** is practically indestructible on account of the air circulating through its walls.

Burns all Grades of Soft Coal, Lignite, Slack or Coal Siftings.

Will Not Burn Hard Coal

Our scientific design secures the greatest heat from the fuel used. The smoke and gases that in ordinary stoves are wasted, are consumed in our Carbon Windsor. You can readily understand the saving this will mean in your fuel cost. At the same time you will be warm and comfortable even in the coldest weather. Our prices are just about what is usually charged for ordinary heating stoves.

The Fire Pot is Not the Only Strong Point of the Carbon Windsor Construction—Read Detailed Descriptions of Parts

BODY is built of Blue Steel of a uniform color. It is air tight, does not warp or buckle or lose its color with the heat.

GRATE is our special Draw Center Grate designed for burning coal only.

ASH PIT is deep and is fitted with a full size, strong bailed ash-pan. Ash Pit Door is fitted air tight and has our special steel screw drafts. You do not have to open the ash pit door to shake the grate; by using the shaker which is placed at the right hand end side of ash pit, you can easily clear the grate of ashes and at the same time no dust is allowed to escape into the room.

FEED DOORS are large and are built of heavy cast iron. They allow the feeding of large chunks of soft coal and are also fitted with a **Smoke Curtain** which prevents the escape of any gas or smoke when opened. They are made air tight and have a check draft in the lower part.

DEFLECTOR RING is wide and is placed above the fire pot. This ring is especially useful in making the stove a very powerful floor-warmer as well as radiator.

BASE is square and is made of cast iron, carved. The legs are substantial.

TOP and SWING COVER are made of cast iron richly carved and ornamented with an artistic metal urn.

NICKEL PLATED DECORATIONS are neat, artistic and make a pleasing addition to the appearance of the heater.

NICKEL PLATED PARTS are as follows: Wide Top Rim, Carved Foot Rails, Screw Drafts, Handles, and Hinge Pin Tips.

Carbon Windsor will be shipped promptly from stock at Chicago or from either of the following warehouses: St. Paul, Minn., or near Buffalo, N. Y. This means a distinct saving in time and freight. We Ship Promptly.

Dimensions and Prices for Carbon Windsor, Nicely Blackened and Polished. Securely Crated.

A Semi-Plain Finish, Full Nickel Trimmed Heating Stove. Just the Heater you want for Good, Big Rooms, especially where good appearance and good Fire-Keeping Qualities are desired. Note our Wonderfully Low Prices. The same quality cannot be sold for less.

Splendid Windsor Heating Stove

Burns Hard or Soft Coal, Coke, Corn Cobs or Wood.

The Splendid Windsor

Is an Oak Pattern Heater, illustrating the simplicity and refinement of the popular Mission design. We consider it one of the finest heaters of its type ever sold, and our price is a distinct saving. Will burn a wide variety of fuels with economy. Gives a quick, steady heat. The tight-fitting doors and drafts give perfect control of the fire, making it easy to regulate your fire to suit your needs.

Polished Steel Body

The body of our Splendid Windsor is made of Polished Sheet Steel. The excellent quality of this material permits the use of a special polish of unusual smoothness and uniformity, which very few other steels can take. The use of this polished steel is an assurance of long service, when combined with such thorough workmanship as we have put into the **Splendid Windsor Heating Stove.**

Construction of the Splendid Windsor

Body is built of durable **Polished Sheet** Steel, with a smooth uniform finish.

Firepot is made of cast-iron, deeply corrugated, which adds to its strength as well as increases its radiating surface.

Deflector Ring is wide, and so placed at the top of the firepot that it deflects a portion of the heat to the floor, which makes the Heater a good floor-warmer.

Grate is the draw-center, shaking type, which has proved satisfactory for burning coal. We furnish an **extra Disc** to be used when you wish to **burn wood.** By placing the **Disc** on the **coal grate** you can then **burn wood** with as much ease and facility as you can **coal.** Be sure and remove this **Disc** when you wish to use coal. **Grate** can be operated from the outside by means of a **shaker** which is placed at the right hand side of the ash-pit. This prevents any dust or ashes escaping into the room.

Ash-Pit is deep, well built and fitted with a full sized **Bailed ash-pan.**

Drafts are well made, **fit tightly** and operate perfectly. There is a check screw draft in front **feed door,** a **check slide-draft** over feed door and a positive draft in ash-pit door.

Large Front Feed Door, which is very convenient, as it permits the use of large **chunks of soft-coal or wood** without the labor of breaking them up. The Smoke-Curtain, which is inside this door, prevents the escape of smoke when the door is opened.

Base and Legs are made substantial and strong and are the plain **classic Mission design. Heater** rests on the **Leg Base.**

Dome Cover can be swung out of the way. There is a lid underneath it which can be used for heating a **kettle of water if desired.**

Nickel Plating is bright and durable and adds to the artistic appearance of the heater. **Nickel-Plated Parts** are: Rim around Dome; Panel on upper part of Feed Door; **Wide Foot Rail** around **Deflector Ring; Drafts** in **Feed** and **Ash-Pit Door;** Hinge Pin Tips and Lever Handles.

Ornamental Urn on top of Heater is artistic.

Shipment

Splendid Windsor will be shipped promptly from stock at **Chicago** or from either of the following Warehouses:

Near St. Louis, Mo. Near St. Paul, Minn. or near Buffalo, N. Y.

This means a distinct saving in time and freight.

Make Your Heating Stove Save You Money. Use Less Fuel To Secure the Heat You Need. A Perfect Heating Stove, Useful, Ornamental and without an Equal. Notice our very low prices.

Victor Windsor Oak Pattern Heater

Burns Hard or Soft Coal, Crushed Coke, Corn Cobs, Wood Chunks, Roots or Knots

Notice the Semi-Plain-Colonial Finish which gives such an elegant appearance to this heater. You can be proud of your stove and we know that it will prove satisfactory in every way, as we have seen to it that everything has been done to make it strictly high grade, economical in fuel use and capable of standing long years of steady, hard use. It works so easily that anyone can operate it.

A Few Important Details of Construction

Body is made of heavy refined blue steel. A better quality than is ordinarily used.

Main Top swings off, thus giving free access to a cooking lid which is very useful for holding a kettle or other vessels.

Big Feed Door makes the replenishing of the fire easy.

Fire Pot is deeply corrugated and strongly made. You will always have perfect combustion and plenty of heat.

Cast Iron Bottom is airtight; gives perfect control of fire.

Patent Draw Center Shaking Grate works perfectly with coal. If you burn wood, you can put the cast iron disc (which we furnish with each heater) on coal grate and have a perfect wood burning grate. An ideal arrangement, as you have a choice of fuel at all times.

Ash Pit is big and deep. Has strong bailed Ash Pan. Do not let the ashes bank up against grate. It will choke the draft and check fire.

Drafts are so placed as to give complete control of fire.

The Four Nickel Plated Foot Rails are very handsome and useful.

Nickel Plated Parts add greatly to beauty of heater and are as follows: Main-Top Rim, Name Plate, Drafts, Lever Handles and Four Foot Rails.

An Artistic Top Urn crowns this heater.

A Windsor Heating Stove that combines the following points: Great Radiating Surface; Great Heating Power; Great Fuel Saving and Perfect Fire-Keeping. All parts of the room are heated alike. This Heater can be relied upon to make you comfortable in the cold weather. Big Double Feed Doors. Easy to Replenish Fire.

Thorne Windsor Oak Pattern Heater

Will Burn Hard (Anthracite) or Soft Coal (in large chunks) Crushed Coke, Corn Cobs, Wood Chunks, Knots or Roots

A Heating Stove That Will Fill Every Need. Time saved. Fuel saved. Labor saved. Warmth and comfort secured. Why pay more than we ask (according to the size selected) for an oak Pattern heating stove, when you can purchase a Thorne Windsor at these prices? You cannot buy a better stove of its type, even if you pay more money.

You will not notice the zero weather when you have a Thorne Windsor Heater in your home. Notice the Corrugated Fire Pot which is very deep and heavy, like the fire pot of a furnace. It is fully exposed, giving quick, steady and continuous radiation of every bit of heat contained in the fuel used. The air-tight cast iron base is low enough so that the heat is thrown to the floor, as well as the upper part of the rooms. The perfect fitting doors and dampers give you control of the fire at all times. The elegant polished steel body is more durable and stronger than is generally found in similar stoves.

Our Thorne Windsor is not only considered the best Heating Stove of its type manufactured, but it is a very attractive design, so tastefully ornamented that it will harmonize with the furnishings of even the most elaborate home.

With Our Thorne Windsor Heater you can heat several small or large rooms (according to the size heater you buy) and be warm and comfortable in the winter months.

Construction of the Thorne Windsor

Body is made of heavy polished steel of the correct weight. Is easy to keep clean and sanitary.

Fire-pot is built of durable, strong cast-iron, very deeply corrugated, with the outer surface fully exposed, which allows the quick and powerful radiation of heat.

Deflector-Ring is wide, and being placed at the top of the fire-pot deflects a portion of the heat to the floor, thus making this Heater a very powerful floor-warmer.

Grate is our Anti-Clinker Draw Center Grate for burning Coal only but we also furnish (free of charge) with each of these heaters, an extra Disc to be placed on the Coal Grate when you wish to burn wood. This equipment makes this Stove either an exclusive Coal or Wood Heater, as desired. Always remove the extra Disc when you wish to burn Coal. It is not necessary to open the ash-pit door to shake the grate as it is so constructed that you can operate it from the outside by a shaker at the right hand side of the ash-pit.

Double Feed Doors are Large and permit the feeding of large chunks of Soft Coal or Large Sticks of Wood. Also has our patent turn check draft. Has a Smokeless Curtain inside Feed Doors which prevents smoke escaping into the room when door is opened.

Drafts are of our patent turn check type, which can be opened or closed instantly and are air tight.

Ash-Pit is large, deep and perfectly gas and air-tight. It is fitted with a strong, full sized bailed ash-pan.

Base and Legs are very substantial and tastefully carved. The Foot-Rails are firmly fastened on with bolts.

The Urn or Top Ornament is made of metal and is an artistic and elegant design.

Nickel-Plating is smooth and even and of a very durable quality.

Each Heater is furnished with a Shaker and Poker. Pipe Collar is 6 inches below Urn.

Pipe to fit collar on Nos. 12 and 14 is 6 inch. On Nos. 16 and 18 is 7 inch.

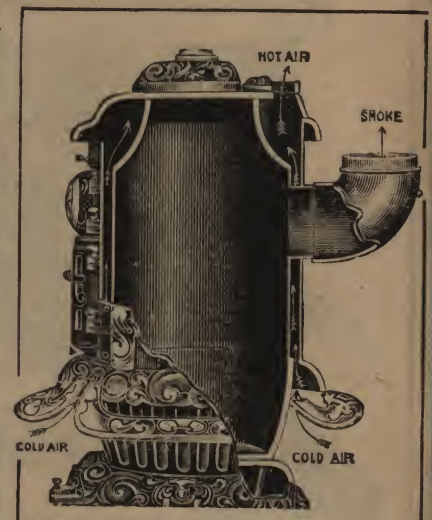
We can save you money on your poultry equipment. See Index

A Successful Double Heating Stove that has won a lasting place for itself in every home where used. Heats upper as well as lower floors with one fire. We believe it to be the best and most economical Heat Producing Stove of this type manufactured. Considering our very low prices this Heater is surely a bargain for everyone.

Ventiduct Windsor Double Heater

Burns Hard or Soft Coal, Coke, Lignite, Corn Cobs or Wood



The Special Double Heating Feature makes a big saving in fuel, and the Double Feed Doors enable you to use large chunks of Soft Coal or big knots of Wood without the work of breaking them up.

Study These Special Ventiduct Features

BODY—Made with outside and inside casing, with air chamber between.
OUTSIDE CASING—Heavy planished steel, of uniform color.
INSIDE CASING—Extra heavy, refined, cold rolled steel.
GRATES—Our Ventiduct is built with special anti-clinker, draw-center grate, for burning coal only. We furnish, free of charge, an extra disc for this coal grate to use for burning wood. Converts this stove into an exclusive Wood or Coal burning heater, as desired.
ASH-PIT—Deep and fitted with full size bailed ash pan. You need not open ash-pit door to shake the grate. You can easily clear our Ventiduct Windsor of ashes by using shaker at right of ash-pit.
NO DIRT OR DUST CAN ESCAPE INTO THE ROOM.
DOUBLE HEATER ATTACHMENT—Can be easily made by fitting a pipe to the Hot Air Pipe collar on the main top of the stove, at the back of the swing cover. Stove No. 14 takes 6 inch pipe. Stoves No. 16 and 18 take 7 inch pipe.
NICKEL PLATED PARTS—Screw Drafts in ash-pit door; Front Panel; Front Side Wings; Encircling Rim on main top; Name Plate; Carved Foot Rails.

Ventiduct Double Heating Feature

The Ventiduct opening under Fire Pot Ring takes the cold air into chamber, between outer and inner body casings. Then it passes into the extra large circulating superheating chamber under main top. From there it is discharged through Hot Air Collar on main top of stove, either into the room or it can be passed into the room above through a Hot Air Pipe, thus heating two rooms without extra fuel.
MICA ILLUMINATION adds cheerfulness and coziness.

Size of pipe to fit smoke collar is 6 inches for all sizes
Prices for Ventiduct Windsor, nicely blackened and polished, securely crated.

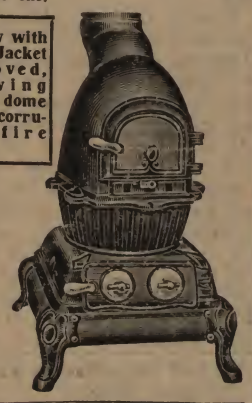
Safe Delivery Assured

Built like a Furnace and has a Large Heating Capacity. Made to stand steady and hard use for a great number of years. Has the attractive Semi-Plain Colonial Design and Finish. Is an air-tight, smoke and gas consuming, Hot Blast Heating Stove with the Double Heater Attachment, which we sell at ordinary Heating Stove Prices.

Herald Windsor Double Heater

A Coal-Burning Heater, but Especially Efficient with Soft Coal



It is an ornamental as well as a useful heater. Plain and Elegant with no fancy carvings for you to clean. It is built with the idea of circulating and radiating all the heat the fuel contains.

Some Important Points in Construction

Built with an inner and outer body. The principle of a furnace. The inner body is in two sections; a Dome Combustion Chamber and a heavy corrugated cast iron Fire Pot, joined air tight. Cold Air is taken in at the top of Fire Pot and circulates entirely around the intensely hot Dome Combustion Chamber, and becomes very hot. It then circulates out, through the double heater register, either into room or is carried through double heater pipe to room above. The well built Draw-Center Grate operates satisfactorily. A special Hot Blast Device distributes cold air over top of the live fire in Fire-Pot and consumes all the Carbon, Gases and Smoke that are wasted by many heaters. A great saving to your fuel bill. Strong bailed Ash Pan makes removing ashes clean work. Double Heater Attachment, a very valuable feature, is made by fitting a 6-inch pipe to the pipe collar just back of the ornamental Swing Top Cover, and then extending it to the room above. In this way you heat this upper room without extra cost for fuel and with no extra work.

Nickel Plated Ornamentation is plain, elegant and durable. Swing Dome Top and Urn are very attractive.

We are proud of this Heater and know that you will admire its appearance and enjoy its comfort when you purchase one.

View with outer Jacket removed, showing heavy dome and corrugated fire pot.

Prices for Herald Windsor, nicely blackened and polished. Securely crated.

A Double Heating Stove that is making thousands of homes warm and comfortable in the cold weather. Note our Special Low Prices and take advantage of them. Such prices on a Heater of this quality and size are unusual.

Banner Windsor Double Heater

Burns Hard or Soft Coal and Crushed Coke

Operates with little trouble and at small fuel expense, but with Big Heat Returns. You secure a Double Heater for the price of an ordinary Heating Stove.

You need not hesitate to purchase one of these stoves. They are perfect heaters, and fully up to our rigid, high standard of construction.

The Banner Windsor Heaters require little fuel and attention and have an unusual heating capacity. The intense heat produced is thrown so strongly out into the rooms, that by means of the Double Heater Attachment, you can heat the upper as well as lower floor.

Study These Features

FIRE-POT is large and strongly built.

THE GRATE is one of the draw center types.

THE CARVED OPENWORK on the OUTER JACKET is elaborate and artistic, as well as strong and durable.

THE ASH-PIT is roomy and deep and is fitted with a full-sized, strong ash pan.

THE COLD AIR enters the heater through the screw-draft register in the ash-pit door. This register is large enough to admit just the correct amount of air to insure an even, steady and intense fire.

THE DOUBLE HEATER ATTACHMENT will be found very useful in heating the room or hall above where the heater is placed. In this way it does not cost you anything extra for fuel to heat these rooms. When you wish to make the double heater connection, adjust a joint of 6-inch pipe to the pipe collar, just back of the ornamental swing top cover. This manner of attachment will be found to be a great improvement over the old way, where you have to remove the swing top cover in order to attach your double heater pipe. **The BANNER WINDSOR will require a 6-inch pipe in making this double heater attachment.**

NICKEL PLATED ORNAMENTATION is elaborate and adds greatly to the bright, cheerful and artistic appearance of the stove.

Prices for Banner Windsor, nicely blackened and polished, securely crated.

We have a full line of Musical Instruments, from Harmonicas to Pianos

A Windsor Heating Stove that is Noted for its Fuel Economy and Fire-Keeping Qualities. We Believe Our Prices are the Lowest that Can Be Made.

Derby Windsor Oak Pattern Heater

Burns Hard or Soft Coal in Large Chunks, Crushed Coke, Corn Cobs, Wood, Chips, Knots or Roots.

There is no way for you to secure heat more economically than by purchasing a Derby Windsor. Select the size that best suits your rooms. Large sizes heat good sized rooms perfectly. Smaller size is ideal where space to be heated is not so large.

These Heaters are built in a practical and substantial way; are easy to operate and use less fuel than most similar stoves. Combustion is perfect and no heat or fuel is wasted. **Heater has four Nickel Plated Foot Rails, instead of three as generally used.**

Give it proper care and our Derby Windsor will hold fire continuously all day and all night.

Construction of Derby Windsor Heater

We build this heater in three sizes. Article No. 268B2820 and Article No. 268B2822 have only one Screw Draft Register in the ash-pit door. Article No. 268B2824 is larger and has two.

BODY
is made of heavy Polished Steel.

FIRE-POT
is built of durable, strong corrugated cast-iron, which, being partly exposed, radiates the heat quickly.

GRATE
is the draw center shaking type for coal. To burn **wood** use the cast-iron disc we furnish to cover the coal grate. When coal is used exclusively, be sure to remove disc.

A shaker is placed at the right hand side of the Ash-Pit, so that the grate can be operated without opening the Ash-Pit door.

ASH-PIT
is full sized and is fitted with an ash-pan.

FEED-DOOR
is large and will allow the easy feeding of fresh fuel.

DRAFTS
are correctly placed to give perfect control over the fire. The check-draft damper is in the front-feed door, while the screw draft register is placed in the ash-pit door.

SWING TOP COVER
is handsomely carved.

NICKEL PLATED PARTS
are: Wide Band encircling Main Top; Name Plate; **Four Foot Rails** and Screw Draft Register. **Top Ornament or Urn is of a pleasing design.**

Prices for Heater, nicely blackened and polished, securely crated.

Article Number	Price with Coal and Wood Grates	Stove Number	Diameter Fire-Pot Inches	Height Floor to Urn Base Inches	Floor Space Inches	Size of Feed Door Opening Inches	Size Pipe Inches	Average Shipping Weight Pounds

Plain Colonial Style. Easy to Clean. A Practical, Serviceable, Low-Priced Heating Stove. Honestly Constructed. Is Economical to Operate. Radiates Intense, Continuous Heat.

Elite Windsor Heating Stove

Burns Hard or Soft Coal (in Chunks), Coke, Corn Cobs, Wood, Knots or Roots.

Details of Construction

Body is built of **Polished Steel**, with a strong cast-iron **Front, Top, Bottom and Legs.** The smooth, glossy finish makes it easy to keep clean, bright and sanitary. No little pockets to dig the dirt out of.

Fire-Box is well built. Has cast-iron linings.

Duplex Grate is the only economical and successful style of grate to use to burn the different kinds of fuel with one grate. To burn **Wood**, reverse the Grate, leaving the **Flat Side up.** This saves the work of taking out a dirty, dusty grate and putting in another when you wish to change fuel.

Front Feed Door is ample in size and permits the use of large chunks of soft coal or wood. This saves much labor.

Ash-Pit is deep and has bailed **Ash-Pan**, making the removal of the ashes an easy matter. The **Ash-Pit Door** has nickel-plated screw drafts.

Swing-Top-Cover has an opening under it, fitted with an 8-inch lid. You can use this for holding a kettle of water, or other cooking utensils.

Pipe-Collar is Reversible. The smoke-pipe can be run into the chimney directly back of the stove, or above it, as desired. You will quickly appreciate this convenience.

There is just enough **Nickel-Plated Trimming to be very attractive.** The **Nickel-Plating** has a smooth, bright mirror surface. The nickel plated parts are: Side-Wings, Front Fender; Drafts in **Ash-Pit Door**; Top Band; Knob on Swing-Top and Door Handles. **The Metal Top Ornament** fully harmonizes with the handsome appearance of the stove.

Top-Feed Opening in No. 268B2880 is 19x11 in. The Front Feed-Door is 12x5½ in. The Top-Feed Opening in 268B2881 is 23x11 in. The Front Feed Door is 14x6 in.

Prices for Heater nicely blackened and polished, securely crated.

Secure Heat from Smoke and Gases that are Wasted by Ordinary Heating Stoves. We Believe This Heater to be the Cleanest and Most Satisfactory Hot Blast Heating Stove Sold at Our Price. Why Pay More Money Than We Ask?

Apollo Windsor

Hot Blast Heater

Burns Hard or Soft Coal, Slack, Lignite, Siftings, Crushed Coke or Corn Cobs.

Gives you same satisfactory results you would expect from Hard Coal in a Base Burner. We do not believe that you can purchase a better built Air Tight Hot Blast Heating Stove for the same price. It is built with a Hot Blast that burns all the fuel, smoke and gases and produces and radiates intense, continuous heat, day and night.

Construction

Body is made of refined, smooth sheet steel. The Top Swing Cover, Ash-Pit Door Frame and Door are made of strong cast-iron. **Bottom** is made of heavy steel, double seamed, making a perfectly air-tight joint.

Feed-Opening has a hinged cover, flush with the main top of Heater, so that when the swing top is moved aside, the main top can be used to heat a pot or kettle.

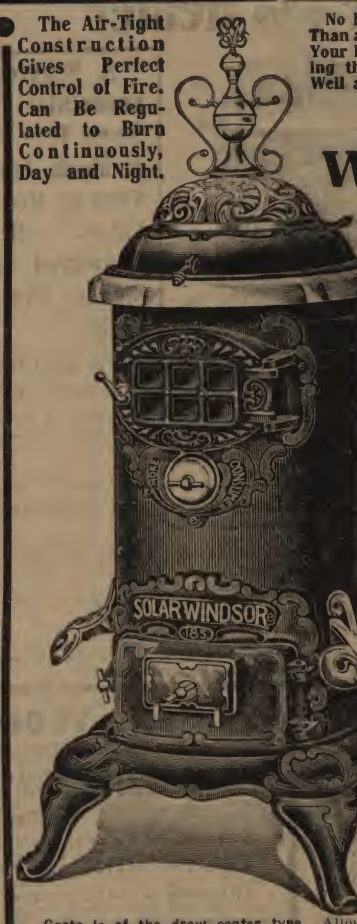
Fire-Pot is made of heavy cast-iron and has a cast-iron coal guard above it.

Grate is the draw center type. Has two **drafts** to the fire, one in ash-pit door and one through the hot blast tube which hangs down from the main top through the center of the heater, regulated by a slide in the top. With the lower draft closed and the slide in the tube draft open, the air is drawn in through this hot tube and is discharged, intensely heated, directly over the burning surface of the coal. Combining with the gases and smoke it increases their volume and consuming them, adds greatly to the amount of heat radiated from the heater. This hot blast tube is so constructed that it swings out of the way when feeding fuel.

Ash-Pit is deep and the wide door allows the easy removal of the ashes.

Heater is full nickel trimmed.

Prices for Heater nicely blackened and polished, securely crated.



Article Number	Price	Stove No.	Diam. of Body In.	Ht. Floor to Top of Urn Inches	Size Pipe Inches	Average Shipping Weight Pounds

Shipped promptly from stock at Chicago or Warehouse near Buffalo, N. Y.

The Air-Tight Construction Gives Perfect Control of Fire. Can Be Regulated to Burn Continuously, Day and Night.

Solar Windsor

Hot Blast Heater

Burns Any Kind of Hard or Soft Coal, Slack, Siftings, Lignites, Crushed Coke or Corn Cobs.

A Handsome, Clean and Sanitary Heater that is Built with Two Hot Blast Drafts. No Other Similar Heater Will Consume Less Fuel or Give Out More Heat.

Construction

Body is made of smooth polished steel. The **Top** and **Bottom** are made of cast-iron. The steel body is fitted onto the bottom (made from a solid piece of cast-iron) with broad flanges, carefully cemented, making it perfectly air-tight.

Fire-Pot is made of heavy cast-iron, with a cast-iron coal guard above it.

Grate is of the draw center type. Allows free and easy cleaning out of the dead ashes.

Feed Doors. The front Door has Mica illumination. The Feed opening is located underneath the swing cover and is flush with the main top.

Ash-Pit is fitted with a full sized ash-pan.

The nickel plated cover with its top ornaments can be swung aside, leaving the flat Main Top on which you can place a kettle of water or other vessels.

It is full nickel trimmed.

The Mica Illuminated Feed Door measures as follows:
12-in. body—5¼x7⅛ in.; 14-in. body—5½x7¾ in.; 16-in. body—6½x9 in.; 19-in. body—6½x9¼ in.

Prices for heater nicely blackened and polished, securely crated.

No More Trouble to Operate Than a Hard Coal Heater. Cuts Your Fuel Bill Down by Burning the Smoke and Gases as Well as Fuel Itself.

Steady, Powerful Heating Capacity with Very Low Cost for Fuel. Exposed Corrugated Fire Pot Gives Quick and Powerful Radiation of Heat.

Hot Blast Windsor

Burns Hard or Soft Coal, the Cheapest Grade of Siftings, Slack, Lignite, Crushed Coke or Corn Cobs.

From $10.00 to $20.00 is Not An Unusual Price for Similar Heating Stoves.

Construction

Body is made of polished sheet steel and is built firm and tight. Has a heavy cast-iron ventilated inner lining, just above the fire-pot.

Fire-Pot is made of heavy corrugated cast-iron. It is fully exposed and gives a quick radiation of heat.

Grate is of the draw center, shaking pattern. Can be operated from the outside at the right hand side of the ash-pit.

Ash-Pit is deep and fitted with full sized ash pan.

Drafts are carefully made and fitted. The front Screw Draft, underneath the feed door, admits the cold air between the body and lining; the Hot Blast Tube, which extends downward from the main-top, discharges the heated air directly over the fire and by consuming the gas and smoke, greatly increases the heating capacity of the stove. It also makes it a smoke and gas consumer as well as hot blast heater. The Hot Blast Tube Damper can be operated from the outside without removing the Swing Cover. Has Screw Draft Register in Ash-Pit Door.

Heater is full nickel trimmed.

Built in Three Sizes. Article No. 268B2922 has Two Screw Drafts in Ash-Pit Door. Article No. 268B2921 and Article No. 268B2920 have but one.

The Pipe Collar is six inches below the urn base.

Height, from floor to urn base: Article No. 268B2920, 36 in. Article No. 268B2921, 40 in. Article No. 268B2922, 47 in.

Prices for Heater nicely blackened and polished, securely crated.

Wise builders buy our Sheathing Papers and keep out the cold

An Ideal Parlor Heating Stove. Equal Distribution of Heat. Base Circulating Flue Heats Your Floor Almost Like A Hard Coal Base Burner. The Popular Semi-Plain Colonial Design and Finish. Easily Cleaned and Polished. The Choice of A Great Many of Our Customers Every Year.

Birch Windsor Base Heater

Will Burn Big Knots, Roots, and Wood in Big Chunks. You Do Not Have To Split Them. (Will not burn coal.)

We believe this to be the best heating stove value for the money asked. Handsome cabinet style body. Mica Illuminating Panel with Nickel Reflector. This Heater is simple to operate and can be regulated so that it will keep fire continuously day and night. An ornament in any home as well as a useful necessity.

The Birch Windsor Heater is one of our tried models: One that is giving satisfaction in thousands of homes every winter. When the cold, snowy days come there is nothing so good as sufficient, steady heat. You need it and you want it with as little fuel cost and labor as possible. You will find the Birch Windsor Heater will answer these requirements. It is manufactured exclusively for us and there is nothing cheap or shoddy in its construction. We know that this heater will give you satisfaction in every way. Such wonderful value at the prices we ask is unusual.

Construction

BODY is made of heavy, superior grade cast-iron. Castings are smooth and even. Molding is perfect. The mounting is made with air-tight pocket joints which cannot leak. Has a mica illuminated window with a colonial design reflector above it.

GRATE is our Special Design, Shaking Register Grate for **Exclusive Wood Burning.** Made strong and durable.

CLEAN-OUT DOOR is located in front.

FIRE DOOR is extra large. Protected by a smoke curtain.

BOTTOM is cast in one piece, making it firm and solid.

FRONT and **BACK LININGS** are extra heavy and are vertically corrugated. They can be easily replaced.

FLUE: The Front Diving Base Flue is large and constructed to carry the heat down to the base, distributing it equally to all parts of the front, bottom and back, thus giving an immense amount of radiating surface and also making the heater a powerful floor warmer.

DIRECT DRAFT DAMPER is opened and closed automatically by the fire-door. This prevents any smoke escaping into room whenever the fire-door is opened.

DRAFTS. Screw Draft Dial has ground seat which makes it **Absolutely Air-tight.** Check Draft Register is located in the back of main body of heater.

MAIN-TOP lifts up to admit large chunks of wood, and is also fitted with one 8-inch lid. Also has a **Swing Top Dome Cover.**

ASH-PAN is large, strong and bailed. Easy to remove and replace.

NICKEL-PLATED ORNAMENTATION is simple and elegant. Just enough of it to give the heater a satisfactory and pleasing outside appearance without detracting from its plain, simple and elegant design.

NICKEL PLATED PARTS are: Colonial Reflector; Screw Dial and Turn Key Door Knobs and Turn Keys; Foot Rail and Shaker.

TOP ORNAMENT OR URN artistic in design.

Wood Windsor

Well Worth More Than Our Low Prices. A Powerful, Exclusive Wood-Burning Direct-Draft Heater. The Triple Refined, Cold Rolled Sheet Steel Body will not Peel or Flake. It is Air Tight and Keeps Fire Well in Addition to Producing Strong and Steady Heat. No Cold Rooms or Chilly Floors.

Parlor Windsor Base Burner

Will Burn Wood in Big Chunks, Knots or Roots. (Will not burn coal.)

Special Features

Built with a Full Return, Base Circulating Flue which Heats the Floor Like a Hard Coal Base Burner. Air Tight. All the different parts are carefully molded and mounted together. The Doors and Dampers are tight fitting. This gives you perfect control of the fire at all times. You can regulate it to burn continuously, day and night. We have sold this Heating Stove for a great number of years, and our many customers write us telling of the comfort and satisfaction they have experienced in their purchase of one of our Parlor Windsor Heaters. The Square, Cabinet Style Body is built of strong, durable stove plate cast iron. No stove of similar type has a larger amount of direct radiating surface. All the different parts have the edges ground smooth, and are tightly fitted together, making it **Air Tight.** The fuel is fully burned and not wasted. All the heat it contains is radiated and circulated out in your home. Uses a small amount of **Fuel.** Requires little attention or care. The handsome and ornamental **Dome Top** can be swung aside, leaving the **Main Top Flat. This Flat Main Top** is removable, and has **two 8-inch Cooking Holes, which will be found very convenient for heating water, flat irons, or for use with cooking vessels.**

Details of Construction

THE GRATE for burning wood is of the shaking register pattern. Made heavy and durable.

THE FLUE CONSTRUCTION is the full return flue pattern which has been found to practically give the same results in base heating when wood is used, as is obtained from a hard coal base burner.

ASH-PIT is large and deep. Fitted with a strong, full sized, bailed ash-pan.

DOORS—A large right hand side feed door; large front mica illuminating door with ash guard. Ash-Pit door is large, allowing easy removal of ash-pan.

DAMPERS are simple and easy. Consists of Automatic draft damper. Check damper and check draft slide in ash-pit door.

NICKEL PLATED ORNAMENTATION is elaborate and thoroughly artistic in design. Pure nickel used makes it very bright and durable.

NICKEL PLATED PARTS. Urn base; front panel; foot rails and brackets; hinge pin tips and door knobs. **URN or top ornament is handsome and of pleasing design.**

Wood Windsor Heater

Will Burn Wood in Large Chunks, Knots, Roots, Chips, Shavings, and Corn Cobs. (Will not burn coal.)

No better constructed heating stove of its type manufactured. Our illustration, which is made from a photograph of the actual stove, can only give you a faint idea of its attractive appearance.

Detailed Construction of Wood Windsor Heater

Its economical use of fuel, and its thorough construction make our Wood Windsor a highly profitable purchase. You will find this stove to be one of the best models in an exclusive wood-burning heater.

MAIN TOP, BOTTOM AND FRONT are made of heavy, high-grade cast iron. Richly carved. The bottom is cast in one piece, without cement joints, making it air-tight.

THE BODY is made of triple refined, cold rolled sheet steel, and will not flake or peel. It is mounted with air-tight socket joints which will not open. The fitting of each of the different parts to the other is perfect and air-tight. Will not buckle or warp.

GRATE is of the flat, register type, which can be opened or closed at will.

DRAFTS are of the register type, shutting off the air perfectly when closed.

FRONT FEED-DOOR is extra large. This heater is also furnished with a 13-inch opening in the top, under the swing cover, through which wood can be fed to the fire. Large chunks of wood can be used with as good satisfaction as small ones, thus saving you labor in cutting them. The top opening is also fitted with an 8-inch griddle, allowing the heating of your tea-kettle if desired.

ASH-PIT is large and deep. Fitted with a strong, full sized, bailed ash-pan—a feature you will appreciate.

NICKEL PLATED ORNAMENTATION is neat, and is thoroughly in harmony with the appearance of the heater. It is carefully made and is bright and durable.

NICKEL PLATED PARTS. Foot-rails and brackets; register drafts, hinge pin tips and door-knobs.

URN or top ornament is of an attractive design.

Do not purchase a stove too small in size for your requirements. **The large sizes** can be checked down in mild weather and do not consume any more fuel than the smaller sizes, while in extreme cold the large sizes will produce an abundant supply of heat.

A Powerful Wood-Burning Heater. Keeps the floor as well as the other parts of the rooms warm. The Diving Return Flue construction gives it a very large radiating surface, much more than is found in many wood-burning heaters. Notice our very low prices. None are lower, quality taken into account.

Rosemont Windsor

Diving Return Flue Wood-Burning Heater

Will Burn Wood in Large Chunks, Knots, Roots, Chips, Shavings or Corn Cobs.

Details of Construction

The large **full diving** return flue carries the heat entirely around the body between the inner and outer walls. This also throws the heat downward which makes it a good floor warmer.

Body is built of heavy, polished steel. Does not flake or peel off when overheated. The **Ends, Base, Legs,** and **Base** of **Dome** are built of durable stove plate cast iron. The **Hearth** is wide, and allows the quick and easy removal of ashes. The **Front Feed Door** is large and well made. Measures the same in all the different sizes of this heater. The **Foot-Rail** is ornamental as well as useful. The **Dome-Top Cover** adds greatly to its attractive appearance.

The **Nickel Plated Dome Cover** can be swung aside, leaving a flat surface, on which you can heat water or use for cooking.

The **Nickel Plated Ornamentation** on the Rosemont Windsor is elaborate and adds greatly to its pleasing and artistic appearance. Nickel plated parts are as follows: Two End Crown Name Pieces; Foot Rail; Screw Draft; Feed Door Handle; Name Plate and Dome Top.

The **Urn or Top Ornament** is attractive and artistic in design and is made of fine spun metal.

Prices for Heaters, nicely blackened and polished. Securely crated.

Has Proved that No Other Heater of its Type Can Heat More Space with Less Fuel. Will Burn Wood, Knots, Roots, Chips, Shavings, Corn Cobs or Anything that is Burnable, except Coal and Coke.

Pine Windsor Heater

Direct Draft, Hot Blast, Air Tight. Lined inside with Sheet Steel. A Very Practical, Convenient and Economical Heating Stove, which we Offer at a Very Low Price. These Heaters will give Satisfaction wherever Used. The Smooth Steel Body Does Not Require any Blacking.

IT IS MADE OF SHEET STEEL and is lined inside half way up; the bottom is double seamed and furnished with a front screw draft register and also has a front hot blast draft near the top of the heater. This Hot Blast Draft is connected with a flue. With this device the air that passes through the hot blast draft is heated before it strikes the fire, thus giving better combustion than cold air through a direct draft. The lower draft cap is removable for taking out the ashes. Has a check draft damper alongside of the pipe collar.

It is manufactured in three sizes and in smooth or polished steel as given below. The nickel parts are: Urn and register draft handles.

Heating Stove Air-Tight

Will Burn Wood, Knots, Roots, Chips, Shavings, Corn Cobs, or Anything That is Burnable Except Coal or Coke. Lined Inside with Sheet Steel.

An Economical and Practical Heating Stove. Radiates Heat Quickly. Does not Waste Fuel. With Proper Care, Will Hold Fire All Day or Night.

This Direct Draft air tight heater is made of smooth sheet steel. Lined inside half way up. It is made with air tight joints. The bottom is double seamed. Has a front screw draft register with a locked clean-out drawhead which will not fall off. This Heater also has our patent check draft in the top near the pipe collar; the bottom draft cap is removable for taking out the ashes. A few corn cobs put into it will radiate heat quickly. So perfect is the combustion of the gases in this stove that it pays for itself in a very short time by the fuel it saves you. It requires little care and you will appreciate its cleanliness. It is manufactured in three sizes as given below. It has an artistic nickel-plated urn, screw draft register.

Dixie Windsor Heater

Burns Wood, Corn Cobs, Chips or Anything that is Combustible, Except the Different kinds of Coal or Coke.

A Splendid Heating Stove that is satisfactory in price, and has such an attractive outside appearance that it can be used anywhere in your home, as it will harmonize with any style of household furnishings.

It is built with the same care as our higher priced heating stoves. Will last a long time, and give good and economical service. You will keep warm and cosy during the cold Winter weather if you purchase and operate one of these heaters. We have sold a great many of them, and our customers in writing us, all agree that our Dixie Windsor Stoves operate satisfactorily in every respect and that a stove similar to it, could not be ordinarily bought for our prices. You can readily select the size suited to your needs, as we give the correct measurements in our Price Table.

The top, front legs and corrugated bottom are made of strong cast iron. It is well constructed and carefully put together, which makes it firm and rigid. **Has front feed door,** also **feed opening under the swing-top cover.** Both are ample size to allow the use of good sized pieces of wood without the labor of breaking them up. **Ash-pit Door** is fitted with a nickel plated screw draft. **Has swing-top cover with a 7-inch lid.**

Body is Built of Smooth Polished Steel.

Size of Top Feed Opening is as follows:
Stove No. 22, 14⅜x11⅛ in.
Stove No. 25, 17⅜x12½ in.
Stove No. 28, 17⅜x12½ in.

Just the Heater Needed for a Large Space. Great Heating Capacity. Fire is always under control, therefore requires very little attention. Does not waste your fuel. Offered at our very low price.

Chief Windsor

Cast Iron Cannon Heater

Will Burn Hard (Anthracite) or Soft Coal, Corn Cobs or Wood

Produces quick and intense heat. Is used very successfully and economically in all parts of the country where soft coal is the principal fuel. Has great amount of direct radiating surface, and is especially desirable for heating large rooms, churches, schools, depots, halls, factories, garages, laundries, or other large places. Our Article No. 268B3071 is built with a 22-Inch Fire Pot, and is one of the largest Cannon Heating Stoves manufactured. It is especially adaptable and economical for heating extra large halls, schools or churches.

Body is Heavy, Strong and **Durable** with large and powerful radiating surface. **Fire-Pot** produces all the heat possible from the fuel. Makes operating expense small. The **Grate** is built very strong and is of the dumping type. The **Ash-Pit** is very deep and roomy. The **Front Sliding Feed Doors** are large and operate easily and securely. The Top has a convenient Cooking Hole which can be used for heating water or for other cooking as desired.

We build this Heater in five different sizes. Note carefully our table of measurements as it gives you the exact size and weight of each heater. Estimate accurately the amount of space you wish to heat and then purchase your Heater large enough to supply your wants. **Remember a large heater** can be checked much more economically than a small heater can be forced.

Windsor Wickless Kerosene Blue-Flame Oil Stoves

Burns ordinary kerosene oil, such as is used in common house lamps. Lights like gas. Cooks and bakes quickly and economically. Costs little to operate. These stoves are reliable and will give good satisfaction.

Windsor Low Cabinet Wickless Blue-Flame Kerosene Oil Cook Stoves. Built with one, two, or three burners, as shown here.

168B3160—One Burner

168B3162—Two Burner

168B3163—Three Burner

THE CABINET FRAME is made of sheet steel, japanned in black and neatly decorated. The inclosed back and sides protect the burner from drafts.

THE CIRCULAR BURNERS are made of leaded steel and have two distinct circles of intense blue flame. These burners are so scientifically designed and constructed that they burn the fuel properties in the air together with the gas generated from the oil, and thus lessen the cost of operation.

THE OIL-TANKS are made of non-corrosive leaded steel, japanned in black and neatly decorated. These tanks are well made and firmly braced in place, and will hold 3 quarts of oil.

THE VALVE, which controls the flow of oil to the burner, is located in front, easy of access.

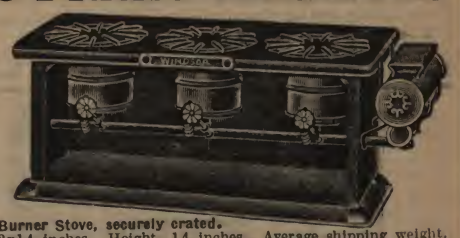
Windsor Medium Height Cabinet Wickless Blue-Flame Oil Stoves



Built with two or three burners, just as illustrated below. Has Removable Brass Burners that will never rust or corrode. Stove, 14 inches high. Second only to our New "Ever-Ready" Wick Stoves illustrated in colors on foregoing pages.

Steel Cabinet Frame is well built and strong. Finished in black japan, which is easily cleaned, and very sanitary. Inclosed back and sides protect burners from drafts.

CIRCULAR BURNERS are made of brass and have two distinct circles of blue-flame which produce a powerful heating capacity. **Burner-Drums** are made of polished steel. The fuel properties of the air are consumed together with the oil and in this way greatly decrease the cost of operation. **These burners can be easily removed for cleaning.** We furnish a useful Burner-Shield free with each stove.

OIL-TANKS are strongly made and are firmly and tightly braced in position. Upper or Storage-Tank is made of leaded steel neatly japanned in black and can be removed for re-filling. **The Lower or Sub-Tank** is made of brass and will not corrode. Tank will hold 3 quarts of oil.

THE VALVES are in front and regulate perfectly the flow of the oil from tank to burners.

Windsor Cabinet Wickless Blue-Flame Kerosene Oil Cooking Range.

Operates satisfactorily and with little fuel cost. Good baking and cooking can be quickly done, and in cool comfort. Can be placed anywhere. No pipe or chimney connections necessary. They are all-the-year-around ranges but especially fitted for the hot weather. Always ready for use. Heat under perfect control.

Construction

Main Body and Frame are built of steel with smooth surface. Cast-Iron Legs raise range convenient height from floor.

Cooking Top has two burners, which are placed far enough apart to allow use of large vessels without crowding. Also has removable cast iron Grates. One Steel Lid, with Lifter, is furnished with each Range.

Burners are placed close to Cooking Top, and are of latest improved type that will burn Kerosene Oil with perfect combustion. The flame is bright and clean, with quick, steady intense heat. Each Burner has a separate valve for lighting.

Burner-Drums are blue enameled, which prevents rusting. The Supply-Tank is made of glass. The Automatic Valve connecting this Glass Tank with the Sub-Tank, allows just the correct amount of oil to be fed to each burner. Supply Tank will hold about one gallon. The Supply Pipe is fitted with a Spirit Level that shows when the Range is properly set, as it must be Level to secure satisfactory operation.

Oven has two burners, with separate feeding valves. Also has a glass window in the door, so that you can watch your baking and regulate the heat accordingly. The two small mica windows show flame. Oven Bottom Plate can be removed, and the two oven burners used for ordinary cooking.

Warming Closet is placed directly over the oven and saves all worry over a cold meal if some of the family are late. High-shelf extends the entire length of the range, and will keep the dishes warm without cracking them.

Windsor Cabinet-Frame, Wickless Blue-Flame Oil Range

With Removable Glass Door Baking Oven and High Shelf, just as illustrated

Does not make dirt or heat the kitchen like a coal or wood range, yet there is plenty of steady, intense heat. You have heat where you want it and when you want it. A big saving in your fuel bill. No trouble to operate.

Note carefully the features of this new model. Strong Steel Cabinet Frame has smooth, hard baked black enamel finish. No blacking or polishing necessary. Cooking Top ample in size with burners set far apart so your cooking vessels are not crowded together.

Cast Iron Grates are removable.

Burners are made of brass and produce a steady blue flame free from smoke or odor. The mixture of air and oil vapors burn with intense, steady heat that is easily regulated. Burner Drums are steel finished in rust-proof blue enamel. Both burners and drums can be removed for cleaning. We furnish one fluted steel burner shield free with each range.

Valves are in front, easy of access.

Glass upper tank holds four quarts and is removable for filling.

High Shelf is firm and useful.

Sure-Bake Steel Oven has Glass Panel in Drop Door. Stops all guesswork and worry regarding bread, cake or pies. Watch them without opening door. Oven goes over Two Burners and can be removed, leaving a Four-Burner Cooking Top. Oven Measurements, Outside: Width, 20¾ in. Depth, 16 in. Height, 16¾ in. Inside: Width, 18 in. Depth, 14⅛ in. Height, 12 in.

Height, floor to top of High Shelf, is 52¾ in.

The "Ever-Ready" Windsor Blue-Flame Wick Oil Stove

Economical and convenient the entire year. Indispensable in Summer

Burns kerosene (coal) oil—the cheap and convenient fuel. Full description of Wick Oil Stoves on this and the two following pages.

Place them anywhere. No pipe or chimney connections necessary. Produces a True-Blue-Flame which strikes directly on bottom of cooking vessel and spreads entirely over it. No Smoke. No Odor. No Soot. No Complicated Air-Mixers to fuss with. Short Turquoise Blue Enameled Burner Chimneys convert the oil into a true blue, smokeless gas. Gives the comfort and convenience of Gas cooking at less expense. Lights as easily as your house lamp.

Cleanliness and Convenience is the preference of every woman. Nothing will lighten her kitchen duties and take away the many disagreeable features of cooking in summer as one of our "Ever-Ready" Windsor Wick Oil Stoves. They are ready for use almost the minute you light them. No long waiting for a fire to burn or a wick to light. Entire wick lights quickly as there is no flame spreader to interfere.

Save Time and Lessen Your Work

Save the time you now spend bringing in coal or wood and carrying out ashes. Strike a match, light the burners of your "Ever-Ready" Stove. You will have immediate, steady, even heat with no waste of time or hard work. Could anything be easier?

As Good in Winter as in Summer

A time comes when you need hot water without delay. There is no time to fire up the coal or wood range. Your "Ever-Ready" Stove will help you out. Put the kettle of water on when you light burner and in a very short time the water will be boiling. No anxious waiting. It will indeed prove to be an "Ever-Ready" Stove when there is sickness or when unexpected company comes to the home.

The Ideal Summer Stove

You need not dread the hot summer months, with their additional burden of canning, preserving, pickling or extra harvest help. If you have one of these stoves you can do all the work that you would do on a coal or wood range, just as well and with less expense. Certainly, with a great deal less trouble and inconvenience. Our "Ever-Ready" Stoves operate just as economically whether you prepare only a little tea and toast or a big meal.

Superior Construction

There are many points of superiority in our "Ever-Ready" Windsor Stove, which make them leaders in quickness and economy of operation. Here are a few of them:

1—Short Blue Enamel Burner Chimneys. The heat does not have far to travel. Less oil is used.

2—Chimney diameter full 6 inches. Gives highest and largest flame.

3—High Flame almost the minute burner is lighted.

4—Enamel Chimneys easily lifted and replaced by Chimney Lifter. No soiling hands as where you have to touch the chimney itself.

5—When chimney is lifted, the wick is fully exposed for cleaning. No flame spreaders to be removed.

6—Brass Burners—can never rust. Built to last a lifetime.

7—Cooking can be placed directly over center of flame.

8—Stove operates at very low cost for fuel.

Our Perfect Baking, Ventilated, Heat Retaining Ovens. We furnish them with a Glass Panel or Solid Door. These Ovens will do your baking just as well as the oven of any coal or wood range. There are no better baking ovens built. They heat evenly and quickly in all parts. They are of ample size to take care of the needs of a large household. They are just a comfortable working height. No stooping or bending to look into these ovens. They are fitted with two removable Wire Racks that can be placed at different heights as wanted. You have plenty of space for your bread to rise.

One Oven has a plain steel Drop Door which forms a useful shelf when opened. You can turn your pans around without lifting them out. The other Oven has a Glass Panel set in the door. The Glass Panel is set in a Blue Enamel Frame that matches the Blue Enamel Chimneys, adding much to the beauty of the stove. Through the Glass Panel you watch your baking without stopping your other work. No need to worry about your cakes or pies. You will appreciate this convenience, after you have used one of these ovens. This Oven can be removed and put away when not in use, leaving whole cooking top for other cooking.

Lowest Prices

These Stoves are manufactured exclusively for us. Nothing imperfect or of poor quality is allowed to be used in their construction. We know they are well built in every way and that lower prices than ours can not be made, quality considered. We are proud of our "Ever-Ready" Windsor Wick Oil Stoves; they always prove satisfactory. No other article of kitchen, household or farm furnishing will give you quicker returns for the money invested.

Get Your Meals Comfortably and Quickly.

Shut off the heat when through.

Details of Construction

FOR STOVES ON THIS AND FOLLOWING PAGES

Frame and Legs are built of heavy steel, braced where necessary, making it firm and strong, capable of holding big wash boilers of clothes.

Cooking Top is just a convenient working height from the floor. Is large enough so your vessels are not jammed together.

Polished Brass Burners will never rust, cannot leak as they are drawn seamless. These burners produce a clean, intense Blue-Flame that is free from soot, smoke or odor. The flame can be turned high or low as desired. One gallon of oil will run a burner for 20 hours at full flame.

Burner-Chimneys are steel, **heavily Turquoise Blue enameled;** they are rustproof, sanitary and easy to clean. They are short and bring the flame directly against bottom of cooking vessels. They require less oil to operate than if the heat had to travel up a long chimney.

Our Patent Chimney Lifter allows the chimneys to be lifted and replaced without touching with your hands. When lifted the wick is fully exposed for quick lighting or cleaning. The Lifter holds chimney up until you are through, leaving both hands free. When the stove is not in use, all Chimneys should be kept raised off the burners.

Glass Oil Tank is made extra heavy and clear. Your fuel supply is in plain sight. No guessing whether you have enough. This Tank is firmly braced and removable for refilling. Holds one gallon of oil. No danger of over-flowing.

Cabinet High Shelf is firm and steady. It is finished with Black Enamel and is very useful for keeping food and dishes warm or for holding oven or cooking vessels. The inclosed back keeps grease from spattering on the wall.

Quick-Heating, Sure-Bake Oven will do your baking as well as the oven of your coal or wood range and with less trouble and work; no better baking can be done. Inside measurements are: Width, 18 in. Depth, 12 in. Height, 12 in.

Price for Stove, just as illustrated, securely crated. Made in Two, Three and Four Burner sizes, as given below.

Article Number	Price	Stove No.	No. of Burners	Size of Cooking Top Inches	Height Floor to Cooking Top. Inches	Average Shipping Weight Pounds

Wicks and Wick Carriers

For "Ever-Ready" Windsor
Can not be used on Wickless or other makes of Oil Cook Stoves
Wicks for use on Windsor Wick Kerosene Oil Stoves are fitted with a perforated carrier. In ordering these Wicks and Carriers, always give the Article Number or the Number of the Stove. Weight, each, packed in carton, 4 oz. Weight, per dozen, 4 lbs.

68B3120—Wicks and Carriers. Price, each **$0.15**
Price, per dozen..... **1.50**

Notice how the flame strikes directly on bottom of kettle and spreads all over it. A very important reason why it takes so little oil to successfully operate these stoves.

This also shows just how our Patent Chimney Lifter operates. You can readily appreciate its great convenience.

Do your cooking and your baking on this stove at a double saving

Save time
Save fuel

The original cost of any size or any style is very small. You save fully enough in a year to pay for the stove

The general details of description for this stove are given on the opposite page. Read carefully about the special features of these new fuel and time-saving models.

You get genuine service out of the Ever-Ready Windsor Blue-Flame Kerosene Oil Stove. Lights as easily as an ordinary oil lamp; no odor, no soot, no smoke.

Ever-Ready Windsor
Blue Flame Kerosene Oil Wick Stove

The Clean, Convenient, Easy Way to Do Your Family Cooking and Baking

The Ideal Stove for All Purposes

For cooking and baking requirements, the Ever-Ready Windsor will give you the same service and satisfaction you would get from almost any high-priced stove or range.

To begin with, it costs only a small part of what a good range would cost. It is built strongly and durably, so that it will last for years. There is not a feature about it that isn't easy to operate. It is sanitary and easy to get at. Nothing complicated anywhere. Lights as easily as an ordinary oil lamp. A gallon of common, cheap kerosene oil will keep a burner going 20 hours. Consider the economy; you need only one-half to two-thirds as much oil as you do with almost any other stove. The short chimneys throw the flame directly against the bottoms of the cooking utensils; there's no waste of heat between the wick and the burner top.

Watch your baking through the handy glass panel in oven door. No need to chill your pies, cakes, biscuit or bread by opening the oven door. The peep-holes below make it easy to watch the flame under the oven. Regulate the heat to suit any needs. Make it high, low or medium with a turn of the wrist. The Ever-Ready Windsor is the **convenient, simple, economical** stove for you.

The Ever-Ready Windsor Blue-Flame Kerosene Oil Wick Stoves

Prices complete with cabinet high shelf and glass panel oven door, just as illustrated. Securely crated. Made with two, three or four burners, as given below.

Article Number	Price	Stove No.	No. of Burners	Size of Cooking Top, Inches	Height, Floor to Cooking Top, Inches	Average Shipping Weight, Pounds

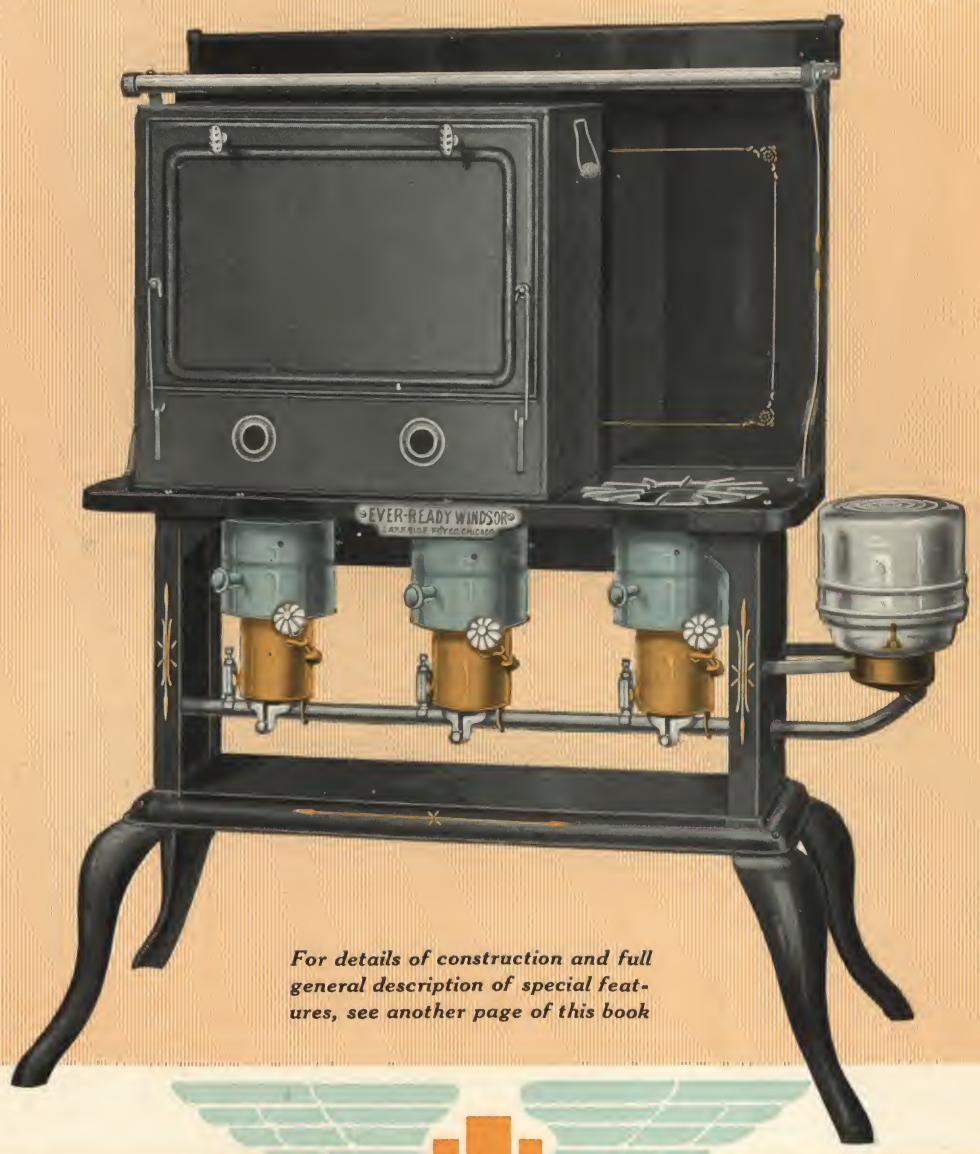
168B3114	**15.95**	4W5	4	43 x15½	28¾	138



Shipped promptly from stock at Chicago

The burners of Ever-Ready Kerosene Oil Stoves are specially constructed to throw the heat just where you want it. They put the heat into the cooking, not out into the room. The flame is right under the cooking vessel—not from 4 to 6 inches below it, where much of the heat would be lost and wasted.

The Right Idea in Oil Stoves at Last

No waiting for the fuel to heat up the stove. Simply turn the valve, raise the wick, strike a match and you get a clean, hot, quick, blue flame almost instantly. None but a blue flame produces all the heat out of the oil consumed. With the Ever-Ready, the burner always insures a perfect blue flame—the only kind of flame that gives you all the fuel value of the oil.

No kindling; no coal, ashes, smoke, soot, odor or dirt. It assures you good cooking and a clean kitchen. It will do everything that can be done with a cooking stove. You can turn your heat up or down, just as you need it. Costs only a fraction of a cent per hour for each burner. It's the real **economy** stove to have.

For details of construction and full general description of special features, see another page of this book

You May Pay a Good Deal More, but You Can't Buy a Better Stove

You can't buy more comfort and convenience at any price. You can't secure more satisfactory baking and cooking qualities in any range. No matter what fuel you use, you can't operate any other stove on any other fuel nearly as cheaply as you can the Ever-Ready Windsor on common kerosene oil.

There isn't a necessary feature that's omitted. You'll find features and advantages about these Ever-Ready models that are found on few other stoves of the kind. The short, direct-flame burner is a big time and fuel saver. Don't overlook this one feature—it keeps the oil from seeping and creeping all over the burner while the stove is not lighted. This is one of the features that keeps it so clean and sanitary.

Read all about ALL the features on another page

Stovepipe Radiators

Practical Fuel-Savers

For Use on Pipe of Any Coal or Wood Stove or Range.

Without a Stove Radiator a good share of heat generated goes up and out the chimney and is wasted. These Radiators take from the smoke, as it passes up the pipe, enough heat to comfortably warm one or two good sized rooms. They give comfort and save money. Our Prices Save You $1.00 to $1.50—according to size Radiator you purchase from us.

Square Model Radiator

For Hard Coal or Wood Stoves Only

These Radiators can only be used on floor of upper room through which stovepipe extends. **Cannot be used with Soft Coal Stoves.** They are gas tight and cause no stoppage of draft. Easily cleaned and replaced. Cast Iron Head, Base and Legs coated with aluminum finish. Base, 17½x13¾ in. Height, with legs, 37 in. Average Shipping weight, 60 lbs. Use with 6-in. Pipe.

168B3215—Radiator No. 36. Made of Smooth Steel. Price $4.10

168B3216—Radiator No. 46. Made of Planished Iron. Price $4.60

Round Model Radiator

WITH LEGS

Has Damper. Use with Hard or Soft Coal or Wood Stoves. It does not clog pipe in anyway. Use with 6-inch Pipe. Cast Iron Head, Bottom and Legs coated with aluminum finish. Diameter, 12 in. Height, 30½ in. Average shipping weight, 30 lbs.

168B3218—Radiator No. 76—Cold Rolled Steel Body. Price, each $2.70

168B3219—Radiator No. 86—Planished Iron Body. Price, each $3.30

Round Model Radiator

Has Damper but without Legs. Use with Hard or Soft Coal or Wood Stoves. Place on pipe in room with stove or in room above, as desired. Cuts fuel bills and gives more heat. Cast Iron Head and Botton coated with aluminum finish. Use on 6-inch pipe. Diameter, 10 inch. Height, 28 inch. Average shipping weight, 27 lbs.

168B3220—Radiator No. 56—Cold Rolled Steel Body. Price $1.75

Heat—In any room you want it. The minute you want it. No waiting. Windsor Portable Smokeless Kesosene Oil Heaters

Ready for instant use anywhere in City or Country House, Summer Camp or Cottage. Lights Instantly and Does Not Smoke or Smell. Burns same kind of Kerosene Oil used in house lamps and requires no more care. Quick and convenient heat for chilly nights and mornings. Can be placed in any room upstairs or downstairs. Good for hard-to-heat north rooms. Turn out burner when comfortable. No unnecessary expense. We offer these Heaters at far less than usual retail prices.

168B3222 168B3223 168B3224 168B3225

Drums are made of Wellsville Polished Steel. The Top, Middle Rim, Base and Legs are Japanned in Black. Oil Tank is made of leaded steel, drawn seamless from one piece. Can be removed for cleaning and filling. Tank will hold 3 quarts of oil. Circumference of burner wick, 9 in. Also has a brass flame spreader which forces the flame to the outer surfaces and produces an even flame without odor. The lock shaft prevents the wick being turned up too high and in this way makes the heater smokeless. Mica Window allows a view of the flame. Heater has register top.

168B3222—Heater No. 101. A heater that will give excellent service and prove highly satisfactory. There is no better heater of the same size made nor one that is lower priced or cheaper to operate. Height, 22½ inches. Shipping weight, crated, about 18 pounds. Price $2.48

168B3223—Heater No. 102. Design and construction exactly same as our Article No. 168B3222, with Top and Middle Rims, Base and Legs Nickel Plated. Tank holds 3 quarts of oil. Height, 22½ in. Shipping weight, crated, about 18 lbs. Price, each $2.95

168B3224—Heater No. 201. Built same as our Article No. 168B3222, only larger. This gives it more radiating surface and greater volume of heat. Has Register Top that can be opened or closed. Tank holds 3¾ quarts of oil. Height, 24 in. Shipping weight, crated, about 20 pounds. Price, each $3.00

168B3225—Heater No. 202. Same design and construction as our Article No. 168B3222, only larger in size, with Top, Middle Rim, Base and Legs, Nickel Plated. Register Top will hold kettle or other cooking vessels. Tank holds 3¾ quarts of oil. Height, 24 in. Shipping weight, crated, about 20 pounds. Price $3.40

We furnish a Windsor Kerosene Oil Heater, built same size and construction as our 168B3225, with the exception that the upper and lower drums are blue enameled inside and outside; burner is made of brass; and oil tank is brass, drawn seamless. Oil tank will hold 3¾ quarts.

168B3226—Heater No. 175. Height, 24 in. Shipping weight, crated, 21 pounds. Price $4.40

Wicks for Windsor Kerosene Oil Heaters

It is very important that the wick in an oil heating stove is of the correct weave and texture, and also of the proper thickness to suit the burner. Our heaters will give perfect satisfaction if the wick is furnished by us. Always mention Article Number of Heater or the Number on the Name-Plate when ordering wicks. Weight, each, 2 oz.

Per dozen, 20 oz.

68B3228—9-inch Wicks for our Windsor Kerosene Oil Heaters.
Price, each 9c
Per dozen 95c

Quick-Heating, Sure-Bake, Portable Polished Steel Ovens

Built especially for use with our Kerosene Oil, Gasoline, Gas Stoves and Hot Plates. We consider them the most satisfactory Ovens manufactured. Will Bake and Roast as well as the oven in a big coal or wood range. You will find them useful in all seasons of the year, but especially convenient and economical in the hot summer months. Full sized: Clean and Sanitary: Roomy inside, will take care of big bakings or large roasts. Our prices are far less than regular retail values. We fully recommend these ovens to give satisfaction wherever used. Both inside and outside measurements are given. All Ovens are shipped well wrapped and strongly crated.

For Use Over One Burner

Made of refined steel. Sides and door lined with corrugated tin. Door swings to side, and has a malleable iron turn-key.

168B3230—Oven No. 11. Has Swing Door and Wire Handles. Outside measurements: Width, 12½ in. Depth, 13½ in. Height, 14¾ in. Inside measurements: Width, 11 in. Depth, 13 in. Height, 12 in. Shipping Wt. crated, 14 lbs. Price $1.10

For Use Over One Burner

Made of polished steel. Has decorated japanned steel top. Lined with corrugated tin and asbestos. Drop door forms a convenient shelf when opened.

168B3231—Oven No. 13. Has Drop Door and Alaska "Ever Cool" Handles. Outside measurements: Width, 13½ in. Depth, 13⅝ in. Height, 18½ in. Inside measurements: Width, 11 in. Depth, 12¼ in. Height, 13 in. Shipping weight, crated, 18 lbs. Price $1.37

For Use Over Two Burners

Made of polished sheet steel. Has decorated japanned top. Lined with corrugated tin and asbestos.

168B3233—Oven No. 16. Has Drop Door, and Alaska "Ever Cool" Lifting Handles. Outside measurements: Width, 20½ in. Depth, 13½ in. Height, 18½ in. Inside measurements: Width, 18 in. Depth, 12 in. Height, 12 in. Shipping weight, crated, 23 lbs. Price $1.70

Sure-Bake Oven with Glass Window in door. No more guess work about your baking. Watch it through this glass window without stopping your other work. Built of Polished Steel, with decorated japanned top. Lined with asbestos and corrugated tin. Ventilated by means of a circulating flue, which gives perfect heat, both top and bottom. Drop oven door and cool Alaska Wire Lifting Handles.

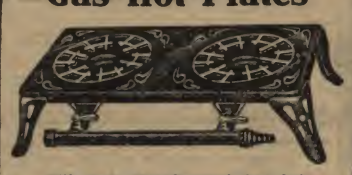
For Use Over Two Burners

168B3235—Oven No. 64. Has Glass Window in door. Outside measurements: Width, 21 in. Depth, 13¾ in. Height, 18½ in. Inside measurements: Width 18 in. Depth, 12 in. Height, 12 in. Shipping weight, crated, 26 lbs. Price $2.15

Polished Steel Baking Oven for Use Over One Burner

168B3237—Oven No. 34. Built the same as our 168B3235, excepting that it is smaller in size, and for use over One Burner Only. Outside measurements: Width, 14½ in. Depth, 13¾ in. Height, 18½ in. Inside measurements: Width, 12 in. Depth, 11¼ in. Height, 13 in. Shipping weight, crated, 20 lbs. Price $1.85

Convenient and Economical Kerosene Oil Lamp Stoves



These Lamp Stoves are very useful and convenient. Can be used economically in the nursery, to keep food warm; or bath room, to heat a little water for shaving, or other purposes. They are well built. The iron oil fount is cast in one piece, with the brass burners soldered to it. Chimneys are tin, and tip back for lighting. Top grates are japanned in black. Mica frames are nickel-plated. Burners take 4-inch flat wicks. Flame can be turned high or low as desired. **We build these Lamp Stoves with one, two or three Burners, as illustrated.**

Made in lengths of 4, 6, 8 and 10 feet. Weights, 8 oz., 10 oz., 14 oz. and 16 oz., respectively.

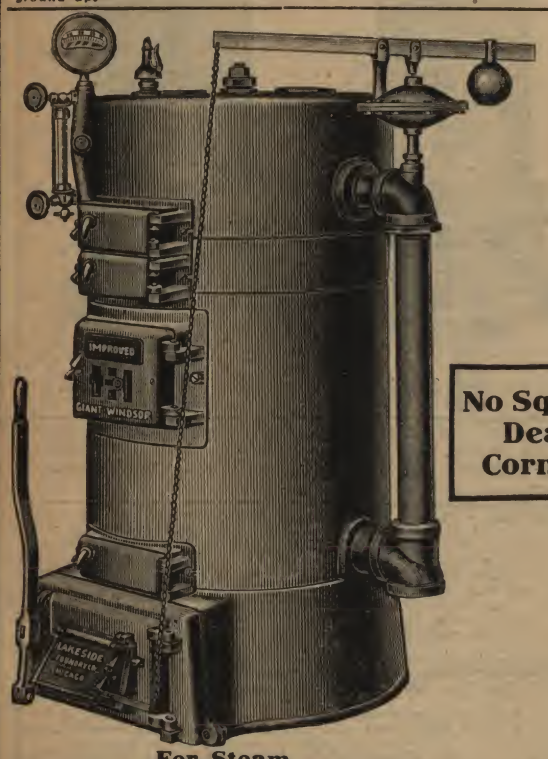
68B3297 — Price, per foot 6c

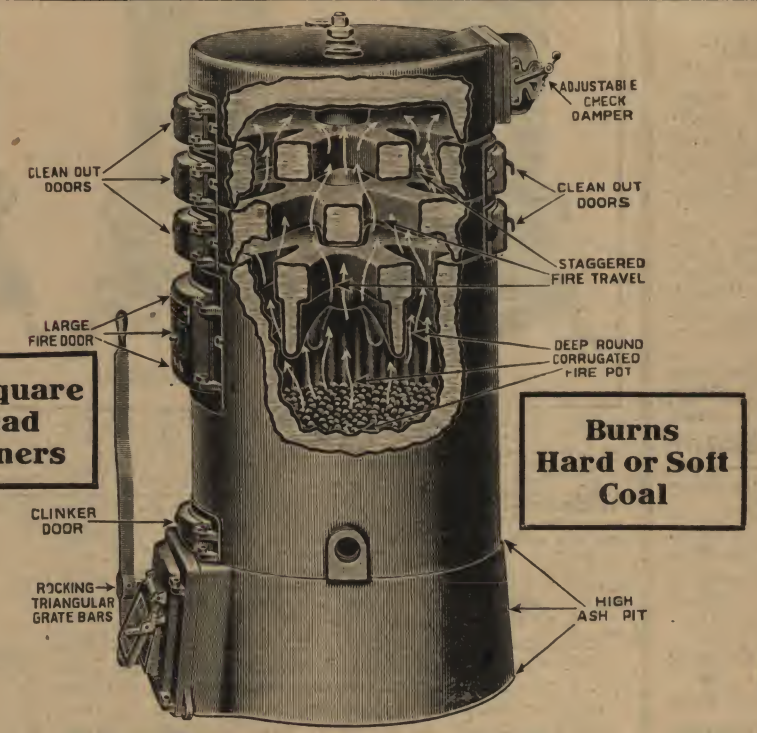
Giant Windsor Home Heating Boilers

Economical in Fuel



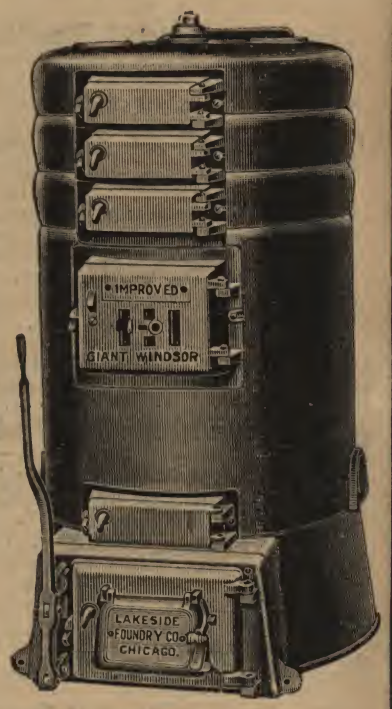
Our Giant Windsor Boilers are, without a doubt, as efficient as any home heating boilers ever placed on the market. Every line in the design of these boilers has been wrought out to a point of absolute perfection. The deep round fire pot heavily corrugated on the inside, insures a steady evenly burning fire which will run twelve hours without attention.

The great advantages of a round fire pot in a home heating boiler are so self evident that they cannot be disputed. **The dead corners in the fire with the attendant inefficient heating surfaces and great fuel waste which are inseparable from the square pot boiler are entirely eliminated in these round boilers.** The basic principle in the design of these boilers is right but that is not all, **they are right from the ground up.**



An Efficient Heater

We pride ourselves not only in having a round boiler, but in having one of the most perfect and correctly designed round boiler that it is possible to produce.



A careful analysis of the center illustration shown below will convince anyone with a practical knowledge of the requirements of a home heating boiler, of the truth of this statement. **Note the large flue space,** easily cleaned and kept clean, **liberal number of clean out doors, staggered fire travel, rocking grate bars** and **high ash pit** which insures an even distribution of draft and preserves the grates, **the large fire door, clinker door,** etc., in fact, every single feature that could possibly be desired in a home heating boiler is embodied in the design of our Giant Windsor boiler. **It is a boiler brought to the very highest point of efficiency it is possible to obtain.**

BOILERS ARE ALL IN STOCK READY FOR PROMPT SHIPMENT FROM OUR FACTORY NEAR BUFFALO, N. Y.

Atlas Windsor Warm Air Furnaces

with Steel or Cast Iron Radiator

Our Atlas Windsor Warm Air Furnaces, contain the most advanced features of furnace construction.

This furnace has innumerable individual features which place it in a class by itself. The design adopted for this furnace is the result of many years of experimenting and perfecting by one of the oldest and most reliable furnace manufacturers in the country, and it is offered to you with the absolute assurance that it will give you satisfactory service.

This furnace is very economical in the use of fuel and will burn hard coal, soft coal, or wood. The very deep radiator, highly corrugated fire pot with ribbed fire dome, are features which increase its efficiency to a wonderful extent.

In design, workmanship, finish and material, this furnace is unsurpassed. It is a high grade furnace in every sense of the word. Every modern improvement that could be wished for in a home heating furnace has been embodied in its construction, and no expense was spared to give our customers in our **Atlas Windsor** as good a warm air heating furnace as it is possible to produce.

The high ash pit permits the ashes to be easily removed and preserves the grate bars. It is equipped with perfectly designed three faced, triangular revolving grate bars.

These are only a few of the big points of superiority in this furnace. You will certainly make no mistake in ordering our **Atlas Windsor.**

These furnaces can be furnished with either steel or cast iron radiator. Prices on both types given in table below. The cast iron radiator is, of course, the more durable and will last a lifetime, and if properly cared for, there is no reason why a good steel radiator should not last from 15 to 20 years.

All parts are interchangeable, and parts for this furnace may be procured from us at any time at reasonable prices. Each furnace equipped complete with double lined casing with sheet asbestos between the lining and pitched top bonnet, check damper, etc.

It is all complete, ready for immediate setting up when it reaches you.

For more complete description, see our special heating catalogue.

INSTALL YOUR OWN HEATING SYSTEM

This Book Tells You How

Sent Postpaid On Request

Our Special Heating Catalogue, "Modern Home Heating," tells all about our great home heating proposition. This book contains much valuable information on every phase of the home heating problem. No one owning or building a home of his own should be without a copy of this valuable book. Goes fully into detail, explaining the workings of the different systems and the relative advantages of each; tells you which heating system is best adapted to suit the conditions of your building, so that you can select the best heating system for your home; how to connect the radiators on steam and hot water heating systems; how to set up the boiler; explains the use of the various tools, warm air heating furnaces, best methods of making connections, etc. We want you to have a copy of this book, whether you wish to order or not. **Why not write for it today? We will send it to you postpaid, on request.**

Our Heating Systems Are Easily Installed

It does not require an expert steam fitter to install our heating systems. Any ordinary mechanic can easily do this work if our simple plans and instructions are followed. Seventy-five per cent of our customers install their own heating plants, and we sell hundreds of these systems every year. The big majority of our customers who have installed their own heating systems have had no previous experience in this work. **We cut and thread all the larger size pipe for you, 2½-in. and larger, so that all you have to do is to fit it together on the job.**

Galvanized Expansion Tanks

181B7905—Heavily Galvanized Expansion Tanks for hot water heating systems. Strongly made with heavily riveted seams. Each tank furnished complete with solid brass gauge cocks, gauge glass, guard rods, etc. Connecting pipe and pipe fittings shown in illustration not included. Tanks are galvanized after riveting so that all parts exposed to water are thoroughly coated to prevent rust. Tank should be placed at highest point in system.

Capacity In Gals.	Complete as Described	Size Inches	Radiation Sq. Ft	Shpg. Wt. Lbs.
8	$3.10	10x20	300 to 400	36
10	3.50	12x20	400 to 500	40

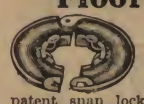
20	4.80	14x30	600 to 700	60
26	5.40	16x30	700 to 900	74
32	5.75	18x30	1000 to 1300	88

Hot Water Radiator Valves

81B7900—Made of solid brass, heavily nickel plated. One-half turn opens or closes valve. Allows water to circulate slightly when shut off. This prevents radiator from freezing when shut off.

Size, in..	¾	1	1¼	1½
Wt., lbs..	1¼	2	2½	3
Each	.45c	56c	78c	$1.08



Steam Radiator Valves

81B7901—Solid brass heavily nickel plated. Has special composition Jenkins disc. Not affected by the high temperature of steam. An easy working, sure-closing valve.

Size, in..	¾	1	1¼	1½
Wt., lbs..	1½	2	2¾	4½
Each	.58c	72c	95c	$1.24

Floor and Ceiling Plates

81B7907 — Adjustable Split Hinged Nickel Plated Floor or Ceiling Plates. Can be put on after pipe is in place. Have patent snap lock and springs which hold plates firmly in position.

Size, inches	¾	1	1¼	1½	2
Weight, oz.	3	4	5	6	7
Each	7c	8c	9c	10c	11c

Asbestos Cement

281B7931—Asbestos Cement for covering cast iron boilers, elbows, tees, etc., over which the regular sectional moulded covering cannot be applied on pipe systems of steam and hot water heating plants. Makes a very good heat insulator and is fire-proof. Mixed with water to a plastic thickness. Applied with a trowel. Can be used for plastering wooden walls and ceilings which come in close contact with hot smoke pipes.

Comes in 100-pound bags.
Price, per bag $1.20
Shipped from factory in Chicago.

Steam and Hot Water Radiators

All Heights, Patterns and Sizes

Our Cast Iron Steam and Hot Water Radiators are manufactured in one of the most modern and completely equipped radiator plants in the country. These radiators should not be confused with the cheap unfinished product which is so often found on the market. Every radiator is filed smooth and finished clean with the stay bolts trimmed close. They are fully tested before leaving our factory, so that they are steam and water tight, and perfect in every way.

These radiators are cast from the very best quality of soft gray iron. The sections are smoothly and accurately reamed. All sections are interchangeable. The sections are assembled with tapered steel push nipple joints which eliminate the use of any gaskets whatever in their makeup. When once assembled these radiators are good for a lifetime.

We have a complete line of radiators. Owing to limited space we do not attempt to show all patterns here but refer you to our **Special Heating Catalogue,** a copy of which we will be pleased to send you on request. In it you will find a complete assortment of all our patterns fully illustrated and described. **We can furnish 6 column pattern, single column or special window seat radiators, wall and ceiling radiators, etc.**

The 38-inch, 3-column pattern listed below is generally used in home heating systems.

Price List and Sizes Windsor Three Column Radiators

	Weight 7 lbs. per sq. ft.	Length 2¾ in. per section	Height 45 in. 6 sq. ft. per section	Height 38 in. 5 sq. ft. per section	Height 32 in. 4½ sq. ft. per section	Height 26 in. 3¾ sq. ft. per section	Height 20 in. 2¾ sq. ft. per section

281B7883—For Hot Water. Per sq. ft.			18c	18c	20c	21½c	25c

Two and four column radiators same price per sq. ft. as three column. Shipped from factory near Buffalo, N. Y.

Hot Water Radiators are Tapped as Follows Unless Otherwise Specified:
Up to 50 ft., 1-inch feed and return.
50 ft. to 75 ft., 1¼-inch feed and return.
Over 75 ft., 1½-inch feed and return.

Steam Radiators are Tapped as Follows Unless Otherwise Specified:
Up to 24 ft., 1-in. supply.
24 ft. to 50 ft., 1¼-in. supply.
50 ft. to 100 ft., 1½-in. supply.
Over 100 ft., 2-in. supply.

Windsor Heat Regulator

Windsor Thermostat or Heat Regulator. Automatically controls the temperature of your rooms so that you can keep your house heated to any desired temperature regardless of changes in the weather. Can be attached to steam, hot water or warm air heating systems and will make a big saving in your fuel bill. Perfect comfort all winter long—never too hot or too cold.

Furnished with or without clock attachment. When furnished with clock attachment the regulator can be set so that the dampers will be kept closed during the night when heat is not wanted. By setting the time attachment at whatever hour you wish, the regulator will automatically open the dampers so that the house will be nice and warm for you when it is time to get up. **Special pamphlet, describing this regulator in detail, sent on request. Full instructions for operating packed in box with every regulator.**

81B7898 — Windsor Heat Regulator without clock attachment. Weight, 27 lbs. **$15.00**
81B7899—Windsor Heat Regulator, complete with clock attachment. Weight, 30 lbs. .. **$18.75**

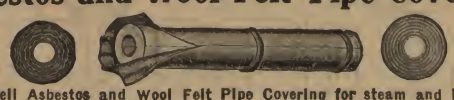
Hot Water Thermometers

Used to indicate temperature of water in hot water heating systems. Usually mounted on boiler. Can also be attached to one of the riser pipes at any convenient point in the system. Bottom stub is filled with mercury and projects down into water, insuring direct contact between bulb and water. Registers up to 260 degrees Fahrenheit. Accurately tested and adjusted. Weight, 1⅛ pounds.
81B7910—Each 75c

Compression Air Valves

For hot water radiators. Opened and closed by hand. For steam radiators we recommend the automatic type of valve listed below. The loose key feature prevents valve from being tampered with by children. For ⅜ in. pipe tap. Weight, 1 oz.
81B7912—Valves only, without key. Each 5c
81B7915—Keys, extra. Each 3c

Automatic Steam Air Valve



For steam heating systems only. Used on radiators, and at end of return lines. Permits free escape of air. Will not get out of order or give trouble. Made of solid brass highly nickel plated. Tapped for ⅜ in. pipe. Weight, 4 oz.
81B7911— $0.40

Altitude Gauges

Indicates height of water in hot water heating system at boiler. Avoids necessity of going up to expansion tank to look at water gauge in order to tell when system is filled. Durably constructed. Japanned iron case. Glass is held in place with highly polished lacquered brass ring. One of the best altitude gauges on the market.
81B7909—Wt., 3¾ lbs. Each $1.25

Asbestos and Wool Felt Pipe Covering

Air Cell Asbestos and Wool Felt Pipe Covering for steam and hot water heating pipes, etc. A highly efficient heat insulator. This covering applied to the piping system of your steam or hot water heating plant will save its cost in fuel in two winters. No steam or hot water heating plant should be without this covering. We recommend the air cell asbestos for steam heating systems and the wool felt for hot water heating systems. Comes in lengths of 3 feet. We do not cut a length.

For Pipe size	281B7927—Air Cell Asbestos ¾ inch thick Price per foot	¾ inch thick Weight per length 3 ft.	1-inch thick Price per foot	1-inch thick Weight per length 3 ft.	281B7926—Wool Felt ¾ inch thick Price per foot	¾ inch thick Weight per length 3 ft.	1-inch thick Price per foot	1-inch thick Weight per length 3 ft.

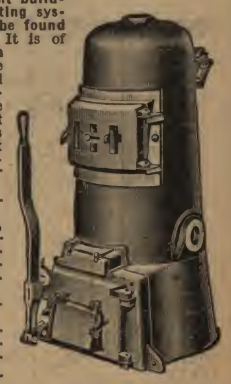
Note—Be sure to state thickness wanted.
Shipped from factory in Northern Illinois

Heat Intensifiers



81B7906—Heat intensifier for hot water heating systems. This device keeps a constant pressure of about ten pounds on the water of a hot water heating system so that the water can be heated to as high as 235 degrees Fahrenheit, without boiling. This gives a much greater range of temperature within which to operate your heating system, and increases the efficiency of the plant to a very marked degree. Can be attached in a few minutes to any hot water heating system.

If you have a hot water heating plant which is giving you trouble or on which too small radiation surface has been figured, this heat intensifier, if properly attached, will, in most cases, remedy the trouble. Saves fuel and increases the circulation. Made of solid bronze throughout. Will last a lifetime. Will not rust, stick nor get out of order. Connected to the system near the boiler. Separate branch pipe is carried to expansion tank at highest point of system. For more complete description see our Special Heating Catalogue. Wt., 5 pounds. Each $9.50

We have a complete stock of pipe and pipe fittings for heating plant installations. You will find these listed elsewhere in this book. See index.

Giant Windsor Tank Heaters

For heating water in large quantities for any purpose, such as swimming pools, small apartment buildings, baths, etc., or for small hot water heating systems, our Giant Windsor Tank Heaters will be found highly satisfactory. It is very economical. It is of very substantial construction, equipped with improved rocking grate bars. Has a deep fire pot which will carry a good bed of coal and requires very little attention. **The tank capacity given in the table below indicates the amount of water that the heaters will heat per hour from 40 degrees to 200 degrees Fahrenheit. Heaters will take care of about one-half their rated capacity in actual radiation, as it is necessary to make allowance for mains, etc.**

	Art. No. 281B7878	Art. No. 281B7879

CARPETS — RUGS — LINOLEUMS

Window Shades

LACE CURTAINS

Curtain Hardware

Carpet and Rug Sundries

Portieres and Draperies

Linoleum Accessories

On the following pages we illustrate in actual colors the various styles of carpets, rugs, linoleums, lace curtains, draperies, window shades and curtain hardware that we can furnish you. You can safely order direct from the pages of this Catalogue without seeing the actual samples, as we will satisfy you in every way. You can therefore feel with full certainty that everything will be exactly as illustrated.

Our colored illustrations are faithful, exact reproductions of the merchandise listed in this Catalogue. Our policy is to give you the best merchandise that we can for as little money as possible. We never sacrifice quality for price. The merchandise on the following pages is selected by experts, and made from the finest products obtainable by the foremost and largest manufacturers in the country. We are sure you will be entirely satisfied in every way. You will be more than pleased with the handsome designs, rich colorings, and the saving of money. You are perfectly safe in buying from the descriptions and illustrations on the pages following.

The saving we make you is from 20 to 50 per cent. The quality is equal to that carried in the better retail stores everywhere. The illustrations and color pages make it easy to decide upon your selection. The prices make a distinct saving to you, while buying from us makes every purchase safe.

On the following pages you will find the greatest assortment of high class Home Furnishings we ever got together in one department. In our rug line you will find any number of pleasing patterns, made in all regular sizes; also a great variety of odd and larger sizes that you cannot find in your own stores.

A glance through the following pages will give you an idea of the capacity of our enormous department.

Under each rug or carpet the description tells you the size which we can supply and the price and shipping weight of each. The larger number of our Brussels, Velvet and Axminster Carpets are all shown with borders, giving you a good, fair idea as to exactly how they will look. In Linoleums we carry only standard grades, made from pure cork and linseed oil. We call your special attention to one pattern in Inlaid Linoleum, which we carry in the full width of 12 feet. Look carefully over each page. You will find many items to interest you. All are quoted at a considerable saving compared with goods of equal standard sold elsewhere.

Care of Rugs

Don't sweep Axminster, Velvet or Wilton rugs very hard at first. Always sweep **with the nap, and never against it,** and with a new broom, if possible. Or better still, use a carpet sweeper. These qualities are sheared when finished, and some of the shearing falls into the back of the rug or carpet, and will sweep out. The loose shearing is no part of the rug. It is a feature of the fabric, and not a defect. We offer you this explanation so that those unfamiliar with the manufacture of rugs will understand that what appears to be minor defects do not lessen the value or wearing qualities of the rug.

Brussels carpets or rugs should not be swept for at least 10 days after being laid. The loops which form the pattern should be flattened down from wear before being swept. If loop fabrics are swept hard with a stiff broom they are liable to sprout. If loose threads appear on the face of your carpet, cut them off, but never, under any circumstances, pull them out.

All pile carpets, such as Velvets and Axminsters, are liable to shade—that is, show light and dark spots in places. This is caused by unequaled crushing of the nap, and cannot be avoided.

Important Linoleum Information

When ordering Linoleum in cold weather, be very careful when you receive it, as it is very sensitive to changes in temperature. It must not be unrolled when cold, or it will crack and be ruined. When thoroughly chilled, roll should be placed where it will have steady heat for forty-eight hours, which is thoroughly sufficient to permit goods to get into fit condition to handle. In very severe weather care and caution are still more necessary.

Linoleum should not be allowed to fall or drop when cold. In extreme warm weather Linoleum will sometimes bulge and stretch, and should be carefully treated when first laid. If a trifle soft, it will harden in a few weeks after it becomes thoroughly seasoned.

On new Linoleums particularly, tilting back in chairs should be avoided.

Linoleums should be cleaned with warm suds made with good soap. Use soft woolen cloths. Strong washing powders are injurious. If Linoleum is flooded with water, it will be ruined. Under no circumstances must any quantity of water be permitted to work through the seams and reach the back, as water will loosen the burlap foundation from the goods.

With proper care all Linoleums will give perfect satisfaction.

How to Order Carpets and Room Size Rugs

Measure your room, to find how much carpet you need. We know it is a somewhat difficult task to figure out the number of yards of carpet necessary to cover a room. In order to simplify matters for our friends and relieve them of the trouble of figuring out just how much carpet they need, we print on the bottom of this page a table showing the amount of carpet that will be required for various sized rooms. Before you start, it is essential to have the following information:

Brussels Carpets, Tapestries, Velvets and Axminsters. The carpet width is about 27 inches. The border width is about 22½ inches.

Ingrain carpets, rag carpets, and hemp carpets, unless specified otherwise, are 36 inches wide.

Measure the length and width of your room in feet. Then refer to the table printed below and you can quickly tell just how many yards of carpet you need. To guard against possible errors when ordering, it is best to send us a diagram of each room you wish carpeted. On this diagram mark plainly the length and width of your room, in feet and inches. If your measurements are correct, there can be no errors on our part in filling your order.

In ordering, be sure to state which way of the room you wish the strips to run. Mark the front of the room, so that the better Velvets and Axminster carpets, which have high pile, may be cut so that you can sweep them the right way of the room. In case there are any bay windows, fire-places, alcoves, or projections, include them on your marked diagram, showing their exact location and be careful to give us exact measurements of such irregular places. If you feel that you cannot figure the exact amount of carpet, if your room is odd shaped, having a bay window, fire-place, or alcove, give us the measurement in feet and inches. Be sure to enclose a diagram. We will be pleased to quote you the price on any quality of carpet that you may select from our Catalogue.

PRICES FOR SEWING CARPETS

For 2c a yard extra, we will cut, match, and sew ingrain, rag, or granite carpets to fit any room.

For 3c a yard extra, we will cut, match, and sew any of our Brussels, Velvet, or Axminster carpets, without a border, to fit any room.

For 10c a yard extra, we will cut, match and sew any Brussels, Velvet or Axminster carpet ordered with a border.

PRICE FOR SIZING CARPET RUGS

For 5c a yard extra, we will thoroughly size with a heavy coating of glue the back of any special size carpet rug ordered from us. We strongly advise the latter as it will help your rug to lie flat on the floor, and will not permit it to curl.

In remitting these extras be sure to state in your order that you wish to have this work done.

SMALL MITERED MATS OR RUGS

When ordering Carpet and Border, there are always ends of the border left which we will sew up into a small mat or mitred rug, at $1.00 a piece extra. These rugs made up in this way are a great protection to your large rug, or can be used in vestibules, or bedrooms, or any odd corner through your home. Be sure to state when you order a bordered carpet, if you wish us to make up the odd mitred rug. Remit $1.00 extra for each mat.

We always cut carpets to match perfectly, with the least possible waste. But it is best in making your allowance to us to figure about an extra yard and a half for every 25 yards you buy. **We charge you only for what you get.**

On all carpets with borders, this waste must be cut off in order to make up the carpet to fit your room exactly. On carpets without borders this excess is left on end of carpet, and can be turned under when laid. For those who do not thoroughly understand why there should be a waste in cutting the carpet we submit the following:

The pattern on each strip must match exactly. In other words, the figure on the edge of one strip of carpet must match the figure in the portion of the strip adjoining. If several strips of carpet were to be cut a given length it might happen that on one strip the figure would be close to the end, while on the next strip the figure might come anywhere from six to eighteen inches from the end. You can readily see that the figure would not match at a given length, hence the necessity of cutting the carpet at the next figure that will match, resulting in a small waste of material. But bear in mind, we always cut from a number of rolls at a time, with the least possible waste obtainable. The necessary waste for matching has been included in the figures given below.

In ordering any carpet, if you do not wish us to sew or make it for you, **we will cut and match the carpet free of charge.**

HOW TO MEASURE FOR ROOM SIZE RUGS OR CARPETS MADE WITH A BORDER

We give below a table showing you how to figure a bordered carpet. Measure the distance around the room in yards. This gives the number of yards of border required. To get the number of strips of carpet necessary to go inside of the border, deduct the width of two strips of border (or 45 inches), from the width of the room. Divide by 27 inches (the width of one strip of carpet). This will give you the number of strips of carpet needed. To get the length of strips, deduct the width of two strips of border (45 inches), from the length of room. This gives the length of the strips.

If your rooms should require more than an equal number of strips, and still not over one-half a strip, we can split a strip and cross join it. But if it takes more than half an extra strip, a full extra strip is necessary. If there is any waste, we will send it to you with your carpet.

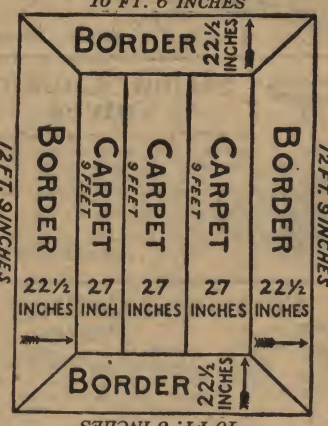

Diagram showing the Number of Lengths of Carpet and Border needed to cover a Room 10 feet 6 inches wide by 12 feet 9 inches long.

Table of Room Sizes

Showing the Approximate Number of Yards of 36-inch Ingrain Carpet and the Number of Yards of 27-inch Axminster, Velvet or Brussels Carpet, made Plain or with Border, that would be Required for Different Sized Rooms. If the Size of Your Room is not Given, Select the Next Larger Size to Avoid Delay in Filling Your Order.

Room size in feet	Ingrain Carpet width 36 in. Number Yards Required	Brussels or Velvet Carpet Without Border, width 27 in. No. Yards Required	Brussels or Velvet with Border—Total Amount Carpet Required Inc. Border

Every home needs a few door mats—why not select ours for durability?

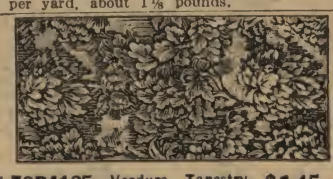
Beautiful Drapery Fabrics and Furniture Coverings in an Unusual Variety

72B4082—Plain Dyed Burlap. Width, 36 inches. An artistic long wearing wall covering. Well made and of durable quality. Used also as a lower treatment for dining rooms, dens, halls and libraries. Can be effectively used as a border around rugs. Takes the place of hardwood floors. Very popular for draperies. Colors: **Red, green or brown. State color wanted.** Shipping weight, per yard, about 12 ounces. **14c A Yard**

72B4081—Sorento Figured Denim. Width, 32 inches. An attractive fabric, adapted to a great number of decorative uses. Very popular for inexpensive draperies of all kinds, curtains, pillow tops, covers, etc. This reversible figured art denim is priced at a considerable saving to you. Colors: **Green, blue, red or brown. Mention color wanted.** Shipping weight, per yard, about 6 ounces. **13c A Yard**

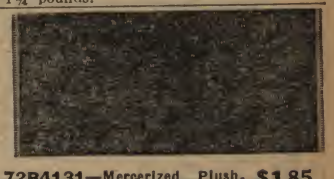
72B4127—Verdure Tapestry. Width, 50 inches. A high class foliage pattern, which is very rich in effect. For upholstering fine furniture it is just the thing. Also elegant for table scarfs, pillow tops, screens, and many other purposes around the home. One combination of colors only, a subdued mixture of brown, green and blue. Shipping weight, per yard, about 1⅛ pounds. **$1.20 A Yard**

72B4129 — Verona Embossed Plush. Width, 27 inches. A handsome design in embossed plush for upholstering purposes. An inexpensive showy fabric that will give much better service and satisfaction than you would ordinarily expect at the price. Furnished in two colors: **Green or brown. State color wanted.** Shipping weight, per yard, about 13 ounces. **60c A Yard**



72B4108—Mohair Car Plush. Width, 27 inches. An upholstery fabric that offers service and quality. This same grade is used in Pullman cars, and in leading hotels. Colors are solid and absolutely fast. The nap is long, thick and silky. Will outwear anything else manufactured in the furniture covering line. Colors: **Green, red or brown. Mention color wanted.** Shipping weight, per yard, about 1¼ pounds. **$1.50 A Yard**

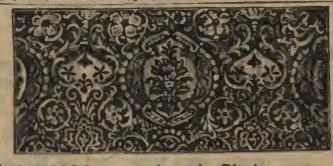
72B4088—Plain Art Denim. Width, 36 inches. Best quality, yarn dyed and is very serviceable. Can be used for draperies, pillow tops, table covers and fancy work. Also for border around rugs. Our price is much lower than you would pay elsewhere. Your choice of these colors: **Red, green or brown. Mention color wanted.** Shipping weight, per yard, about 12 ounces. **21c A Yard**



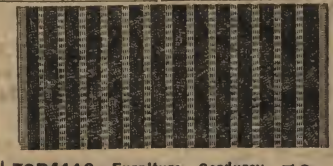
72B4086—Reversible Roman Striped Persian Drapery Goods. Width, 50 inches. Suitable for draperies of all kinds, couch covers especially. This inexpensive drapery is an ideal material that will liven up your home, and will harmonize with practically any color decoration. Comes in one color effect only. A combination of green, yellow, red, old gold and white stripes. Shipping weight, per yard, about 8 ounces. **31c A Yard**

72B4125—Verdure Tapestry. Width, 50 inches. One of the best grades and newest designs manufactured in a Verdure Tapestry. An upholstery fabric, that will give splendid service and any amount of hard wear. This number is a very high grade article and we recommend it strongly. Comes in one combination of colors only, a subdued mixture of green, brown and blue. Shipping weight, per yard, about 1¼ pounds. **$1.45 A Yard**

72B4102—Crushed Mohair Plush. Width, 27 inches. Best quality long wearing Crushed Mohair Plush. An unexcelled upholstery material at anywhere near the price. Its thick, soft, silky pile offers splendid wearing qualities. The colors are lasting. Made especially for furniture that is to receive hard wear. Also very popular for loose chair cushions. Colors: **Green, red or brown. State color wanted.** Shipping weight, per yard, about 1⅛ pounds. **95c A Yard**



72B4131—Mercerized Plush. Width, 50 inches. The finest mercerized plush manufactured. Has all the lustre of real silk and will give absolute satisfaction. Will make the most beautiful portieres or drapes you could desire. Your choice of these colors: **Green, red or brown. State color wanted.** Shipping weight, per yard, about 1⅛ pounds. **$1.85 A Yard**



72B4090—Plain Rep Tapestry. Width, 50 inches. Fine, closely woven quality. One of the most popular selling drapery fabrics. Suitable for drapes of all kinds, table covers, pillow tops, furniture covers, etc. Its soft, restful colorings form an especially pleasing contrast in rooms with a striking color scheme. Colors: **Red, green or brown. Mention color wanted.** Shipping weight, per yard, about 13 ounces. **48c A Yard**

72B4091—Figured Armure Tapestry. Width, 48 inches. An unusually heavy serviceable quality. Comes in a very fine rep weave. Perfectly reversible. Will make elegant portieres or drapes of any kind, and will also make excellent furniture coverings. Shrewd buyers who appreciate drapery values find our price on this article very attractive. Colors: **Green or brown. State color wanted.** Shipping weight, per yard, about 1¼ pounds. **47c A Yard**

72B4096 — Embossed Plush. Width, 27 inches. A splendid Furniture Plush in a very attractive design. When recovered with this durable and tasteful fabric, your old furniture will look like new. A most satisfactory and serviceable upholstery material, priced at a good saving. Colors: **Green, red or brown. State color wanted.** Shipping weight, per yard, about 13 ounces. **45c A Yard**

72B4110—Furniture Corduroy. Width, 27 inches. A good quality Corduroy, with a wide stripe. Is durable and attractive, and makes a tasteful furniture covering. Used frequently in making separate cushions. This material will give unusually satisfactory service considering the low price asked for it. These solid colors: **Green, red or brown. State color wanted.** Shipping weight, per yard, about 12 ounces. **50c A Yard**

72B4105 — Fabrikoid Leather. Width, 50 inches. Best grade of artificial leather. Will not crack or peel. It is as nearly water-proof as any artificial leather can be made. Popular for furniture covering, separate cushions, or for recovering your old buggy. Comes in **dark brown or black. State color wanted.** Shipping weight, per yard, about 1½ pounds. **84c A Yard**

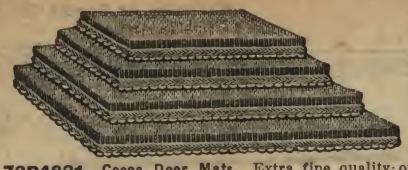
20x30 inches	6½ pounds	**95c**

72B4841—Wire Door Mats. Strong, durable, well woven wire mesh over a heavy one-piece metal frame. A sanitary and very serviceable mat that will wear for a long while.

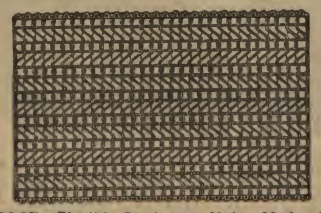
Size	Shipping Weight Each About	Price, Each
16x24 inches	5¼ pounds	**48c**
18x30 inches	7 pounds	**68c**
22x36 inches	10 pounds	**98c**

72B4835—Rubber Door Mats. Made of an extra good quality of rubber. Heavy weight. Will prove very satisfactory in every way. We offer these mats at a very reasonable price for either size and thereby save you money.



Size	Shipping Weight Each About	Price, Each
18x30 inches	5 pounds	**74c**
18x36 inches	6 pounds	**98c**

72B5125—Bamboo Porch Shades. Best quality Bamboo Porch Shades. Very popular and useful where you wish to partly exclude the sun from porches or verandas. Every porch needs at least one of these shades. Made of strips of bamboo, firmly bound together with strong cords. Come in natural bamboo color. Furnished complete with cord and pulley, in the following sizes:



Width	Length	Shipping Weight, Each, About	Price
6 feet	6 feet	12 pounds	**$0.80**
6 feet	8 feet	14½ pounds	**1.05**
8 feet	8 feet	19 pounds	**1.43**
10 feet	8 feet	26 pounds	**1.78**

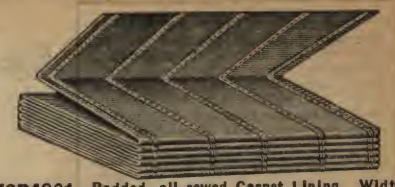
Comparisons will quickly show you that on porch shades our prices certainly save you money. If you want something better in quality and make than above, see our automatic Porch Shades 72B5127, in column to right.

72B4831—Cocoa Door Mats. Extra fine quality of plain cocoa door mats which come about 1¾ inches thick. The greater amount of wear these give will certainly warrant the difference in price.

Size	Shipping Weight Each About	Price, Each
14x25 inches	3½ pounds	**$0.69**
16x27 inches	4½ pounds	**.84**
18x30 inches	5¾ pounds	**1.12**
20x33 inches	7 pounds	**1.48**

72B4845—Flexible Steel Door Mats. Made of thoroughly galvanized steel to prevent rust. They lie perfectly smooth. Can be rolled up like a carpet. Will not curl or warp and are self cleaning.

Size	Shipping Weight Each, About	Price, Each
16x24 inches	6 pounds	**$0.75**
18x30 inches	8¾ pounds	**1.10**
22x36 inches	10¾ pounds	**1.50**



72B4851—Corrugated Rubber Matting. A heavy grade of corrugated rubber matting about ⅛ inch thick. Makes a very satisfactory covering for halls, stairs, passageways and wherever a noiseless and sanitary carpeting is wanted. Can be used to great advantage in many homes. This is a very superior quality of rubber matting which we highly recommend for satisfactory service. We have found the cheaper grades very unsatisfactory and not at all desirable. Width 36 inches. Shipping weight, per yard, about 8 pounds.
Price, per yard **$1.07**

72B5127—Automatic Porch Shade. There are several imitations, but only one automatic porch shade that will give entire satisfaction. This number will meet the most exacting requirements and is one which we highly recommend. Made of ⅛ inch sawed basswood slats, kiln dried, which are woven together with an Italian flax twine. Will not warp nor get out of shape. Colored with creosote wood preserver, which will not fade, and preserves both wood and twine. Woven so as to exclude sun or rain, but permit free circulation of air. **Comes in dark green color only.**

Width	Length	Shipping Weight Each, About	Price, Each
4 feet	7 feet 7 inches	10 pounds	**$2.00**
6 feet	7 feet 7 inches	16 pounds	**3.00**
8 feet	7 feet 7 inches	19 pounds	**4.65**

With one of these Automatic Porch Shades, you can add a very pleasant, cool sitting or sleeping room to your home at a small expense. **In ordering be sure to state size wanted.**

72B4861—Padded, all sewed Carpet Lining. Width 36 inches. Made of good paper; has jute filling. Five rows of stitching. Put up 200 yards in a bale. Shipping weight per bale, about 115 pounds; per yard, about 10½ ounces.
Price, per yard **$0.02**
Price, per full bale of 200 yards **4.00**

72B4865—Our Special Heavy Carpet Lining. Width 36 inches. Extra heavy paper, strongly sewed. Has a thick layer of cotton filling. Will wear longer than carpet. Put up 200 yards in a bale. Shipping weight, per yard, about 12 ounces; per bale, about 125 pounds.
Per yard **$0.04**
Price, per bale of 200 yards **7.25**

72B4855—Cedar Felt Carpet Lining. Width, 36 inches. Put up 50 yards in a roll. Shipping weight per roll, about 32 pounds. Sold only in full rolls.

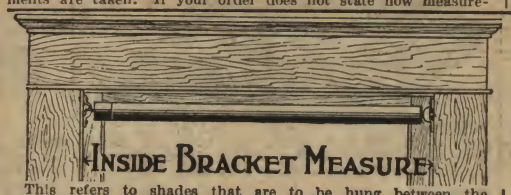
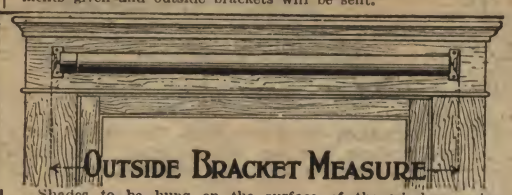
Splendid quality white gauze netting, put up complete with pulley, cord and frame as shown in the illustration. Length of shield 90 inches. Shipping weight complete, about 3 pounds.
Price, each complete **$1.50**



72B5121—Mosquito Netting. An extra good quality of fine mosquito netting, made of selected cotton. Has a very fine mesh that will exclude the smaller insects. This is an article for those wishing something a little better than the ordinary. Will give absolute satisfaction. Width, about 68 inches. Put up 8 yards in the piece. Sold only in the full piece. **White only.** Shipping weight, per piece, about 1½ pounds.
Price, per piece **78c**

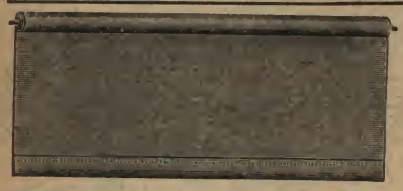
Our Window Shade Department Offers Every Advantage of a Factory



Our Window Shades Are Made of the Best Materials We Can Obtain. They are all mounted on dust-proof, self-acting spring rollers. We could quote lower prices by using cheaper cloth and rollers, but consider the best to be the cheapest, and believe our customers will appreciate this fact. Each shade is wrapped separately with slat, brackets and nails included. Lengths given on all shades are for the cloth before hemming or putting on the rollers, except 372B5035, 372B5065, 372B5071. Outside brackets will be sent with all shade orders, unless otherwise stated. Always mention the color and size wanted.

Measuring for Special Size Made to Order Window Shades

When giving width of shades be sure to state how measurements are taken. If your order does not state how measurements were taken, the cloth will be cut according to measurements given and outside brackets will be sent.



This refers to shades that are to be hung between the jambs of the window frame as shown above. When measuring for curtains to be hung with inside brackets be very careful to give in inches and fractions of an inch the exact distance between the jambs of the window frame.

Shades to be hung on the surface of the window casing as shown above, are hung with outside brackets. Measurements for shades to be hung in this manner should be taken exactly from center of jamb to center of jamb. State in inches and fractions of an inch the exact distance.

We are one of the largest handlers of Window Shades, and are closely affiliated with a fully equipped and model Shade Factory—complete in all its details, being therefore able to fill all orders quickly, and at the very lowest possible prices. By sending us your Shade Orders you will profit by exceptional savings in price and be sure of absolute satisfaction.

We suggest your ordering window shades with other goods or with your neighbors' orders and having the entire lot come by freight. In this way you will make an additional saving to that made by our exceptionally low prices.

Made to Order Window Shades for Special Sized Windows

372B5035—Made to Order Window Shades. These special shades are made of best hand-made opaque cloth, mounted on dust-proof, spring rollers. Each shade is finished with eyelet through slat, and a mercerized pull. Be very particular to give the correct width and length of each shade. Also state whether your measurements are width of cloth, or length of roller from tip to tip. If inside brackets are wanted, give the length of the roller from tip to tip. If the exact size of shade is not shown on the following list, next largest size will be charged for, but the shade will be made the size wanted. Read carefully at top of page: Measuring for Special Size Made-to-Order Window Shades.

Made-to-Order Window Shades furnished in the following colors: **Dark green, dark olive, light olive, terra cotta, or light buff. Be sure to state color and size wanted.** Three or four days required to make up these shades. Remember, the lengths given are for the finished shade. For example: a six foot shade is long enough for a six foot window. **These cannot be returned if sent as ordered.**

Price Each, including slat, brackets, nails and pull. Each shade wrapped separately. Order these shades by number 372B5035

Hand Made Duplex Cloth Window Shades

Duplex Opaque Cloth Window Shades Are Very Popular. Made with a different color on each side. They are also made of the best quality of cloth. Where you wish a shade in a dark color on the outside, to harmonize with the color of the house, you can have a light color on the inside to brighten up your room. Duplex Shades are furnished in the following colors: **Dark green and white, or dark olive and white.** The light color will always be on the inside of the shade. These shades are mounted on dust-proof, self-acting rollers. All Hand-Made Duplex Cloth Window Shades are wrapped separately. Prices include slat, brackets and nails. These sizes carried in stock ready for shipment.

Bancroft Sunfast Holland Shades

372B5071—These shades are made to order, and cannot be matched in color with opaque shades. In these shade goods, the art of the manufacturer has been brought to a point of perfection far beyond anything heretofore attained in this country or in Europe. The colors of these shades will stand exposure to the sun and will not fade. They are, however, not as opaque, or, in other words, they do not shut out the light as the opaque cloth shades do. They are made to order, and require about three days' time after receiving the order. Furnished in the following colors: **White, cream, linen, or olive green. Always mention color wanted. Cannot be returned, if sent as ordered.**

Prices, each, including slat, brackets, and nails. Each shade wrapped separately. Order these shades by number 372B5071.

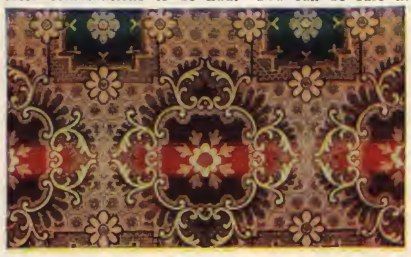
372B2075—Empress Quarter Wool Ingrain Carpet. A light colored Brussels effect pattern. This design is sharp, clear cut, and very decorative. Quarter wool filled, on a heavy cotton warp. Note our very low price for this superior article. Shipping weight, per yard, about 1¼ pounds. **34c A Yard**

372B2081—Newark Half Wool Ingrain Carpet. Width, 36 inches. One of the best green and oak colorings in a carpet of this quality on the market. Note the rich green ground. A most durable, reversible carpet, firmly woven and has full half wool filling. Shipping weight, per yard, about 1½ pounds. **37c A Yard**

372B2101—Breslin Half Wool Ingrain Carpet. Width, 36 inches. A good, serviceable, half wool carpet, that will surprise you for wear and satisfaction. Fine half wool filling, with a cotton warp. Sprays of begonia leaves, and ferns, on a light scroll background. Shipping weight, per yard, about 1½ pounds. **40c A Yard**

372B2105—Sussex Half Wool Ingrain Carpet. Width, 36 inches. Medium size floral and conventional figures in shades of tan and wine. None but the choicest materials enter into the construction of this carpet and we strongly recommend it as a value of exceptional merit at the price. Shipping weight, per yard, about 1½ pounds. **36c A Yard**

On Ingrain Carpets, always allow 1½ yards in every 25 yards for matching. Read carefully all instructions on the introductory page to carpets and rugs and note the large list of room sizes, showing approximate number of yards of any carpet, for different sized rooms.



We display on this page, in their natural colors, the choicest selections of carpet patterns on the market. They are manufactured of high quality yarns, insuring long and satisfactory service. All yarns scoured, and honestly dyed and woven up to our high standard. Have stood the test of time, and are always in demand by our customers. We try to procure for you the most pleasing designs and artistic color combinations to be had. You can be safe in sending us your order, with every assurance that you will receive a choice value, and one on which you are making at least twenty-five per cent saving.

By buying here you get a carpet of standard quality—one that combines honesty of material and cleanliness of manufacture, with all of the beauty and design in colors known to American manufacturers. Send us your order. We will surely please you. This is your opportunity to get unusually desirable carpets at the right prices.

We will cut, match and sew ingrain, rag or granite carpets to fit any room for 2 cents a yard extra. In ordering any carpet, if you do not wish us to sew or make it for you, we will cut and match the carpet free of charge.

372B2115—Amsterdam Half Wool Ingrain Carpet. Width, 36 inches. A very attractive semi-floral and Oriental pattern, a copy of a high grade Axminster carpet. Carefully woven from choice yarns and we recommend it for long service. Reversible. Shipping weight, per yard, about 1½ pounds. **40c A Yard**

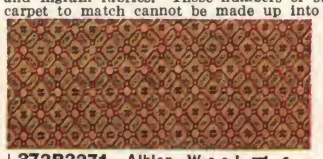
Hall and Stair Carpets of Ingrain, Tapestry Brussels and Velvet Fabrics

If your room is odd-shaped, and you cannot find a rug made in the size you desire, let us make one for you. We will turn one out in first-class shape, with or without border, fitted and cut by experts. Sewed on our powerful, electrical machines, sized and stretched before leaving us, and rolled upon a pole, so that it will reach you all ready to roll out upon your floor.

Those wishing to have their stair, hall and room carpets all in the same pattern can do so by selecting from any of our stair carpets, having a hall carpet to match. We will make to order carpets, without borders, room sized rugs with borders, or hall runners from any of our stair and hall carpets on this page, excepting the granite, hemp and ingrain fabrics. Those numbers of stair carpet not having a hall carpet to match cannot be made up into a room sized rug or carpet.



In making a bordered rug, the stair carpet is split lengthwise through the center and is used for the border. The price for sewing a rug with border made of stair and hall carpet is 10 cents a yard; for a carpet without border, 3 cents a yard. When ordering hall runners made of stair carpets, allow ¾ of a yard extra for mitering the ends, and add 50 cents to cover cost of sewing. When ordering carpets note carefully instructions for ordering on carpet introductory page.

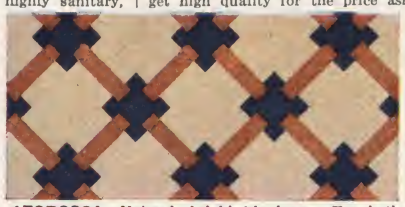
Our Inlaid Linoleums are in constant demand because the designs are fresh, and meet all requirements of a clean-looking, decorative and serviceable, work-saving floor covering. The designs in our Inlaid Linoleums go straight through to the back, and retain their pleasing, clean appearance to the last. The prices at which we offer these goods mean actual savings of twenty-five to forty per cent. The positive assurance to the thrifty housewife that an inlaid linoleum once bought from us will maintain its fresh, clean appearance and will save hard work, through years of wear, means very much.

Linoleum is without a doubt one of the best and most durable floor coverings made. In reality it is more than a floor covering—it is a flooring material. In many places it is used instead of hardwood floors, a great many preferring it for its highly sanitary, easy cleaning and great work saving qualities. Its decorative qualities are practically unlimited, as there are patterns to suit every individual taste and appropriate for the floor of any room.

All of our Inlaid Linoleums are made of the finest materials, and are manufactured by the most up-to-date methods. They are made especially for a sanitary, decorative floor covering. With proper care they will wear indefinitely. When buying linoleums, be sure to read "Important Linoleum Information" on introductory page of the carpet, rug and curtain section.

We offer an extensive assortment of handsome tile patterns, wood grain and parquetry effects, the productions of world-famed factories. You can rest assured that in each particular grade you will get high quality for the price asked.



WE CUT LINOLEUM TO FIT YOUR ROOMS

When ordering linoleums for any room, please remember that we will cut the linoleum to fit your room without any extra cost whatever. This is extra additional service, but it is absolutely FREE. We are always anxious, in filling your orders, to serve you to the best advantage. Where you wish us to cut linoleum to fit your room, be sure to send us a diagram of the room. Make the diagram very plain and be sure to mark or indicate any offsets, bay windows, odd corners or projections of the room. Also be very sure to state accurately and clearly all dimensions or distances. The better the diagram the more accurately we can cut the linoleum, to insure a perfect fit. Remember there is no charge for this service at all. It is entirely FREE and we are glad to accommodate you.

Price, per running yard.....**$1.42**

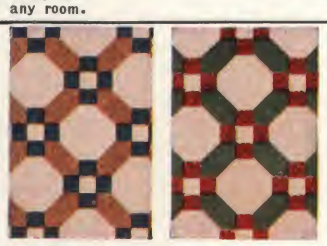
NOTE:

Our prices and average shipping weights are per running yard of each width. Running yard refers to the length only as unrolled from the piece. By this way it will be easier for you to figure amount of linoleum for any room.

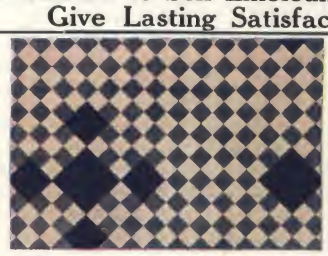
We Cannot Afford to Sell Linoleums That Will Not Give Lasting Satisfaction



172B2871—La Salle Inlaid Linoleum. One of the most popular inlaid linoleums on the market. Extra quality. Heavy weight. Our price is very low for this quality, and, therefore, the saving is noteworthy. Comes in **one width only, 6 feet.** Shipping weight, per running yard, about 14 pounds.

Price, per running yard.....**$1.95**

172B2805—Thistle Inlaid Linoleum. A splendid, large figure pattern. Good, heavy weight of inlaid linoleum. Cover your floors with this linoleum and add to the comfort of your home for years to come. Furnished in **one width only, 6 feet.** Shipping weight, per running yard, about 14 pounds.



Price, per running yard.....**$2.20**

Albany Inlaid Linoleums. Heavy, durable grade at a very moderate price. Your choice of two colors in the same pattern. **One width only.** Shipping wt., per running yard, about 14 pounds.

172B2810—Blue Cross. Width, 6 feet. Price, per running yard.....**$1.92**

172B2813—Maroon Cross. Width, 6 feet. Price, per running yard...**$1.92**

172B2815—Newark Inlaid Linoleum. One of our finest and best qualities. Made of high grade stock. Heavy and durable. Better than imported goods. Straight line effect. Solid colors through to the back. Comes in **one width only, 6 feet.** Shipping weight, per running yard, about 16 pounds.

Price, per running yard.....**$2.45**

172B2820—Kayser Inlaid Linoleum. High grade, extra heavy quality. No better inlaid manufactured. One of the few inlaid linoleums made in 12-foot, as well as 6-foot width. **State width wanted.**

Width	Shipping Weight Running Yard	Price per Running Yard
6 ft.	About 14 lbs.	$2.44
12 ft.	About 28 lbs.	5.60

172B2903 — Blue. Width, 6 feet. Per running yard **$1.45**

172B2905 — Tan. Width, 6 feet. Per running yard **$1.45**

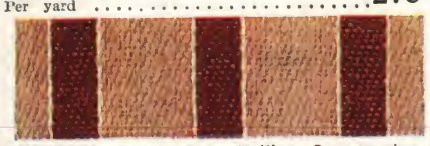
Belmont Printed Linoleum One-Piece Rugs

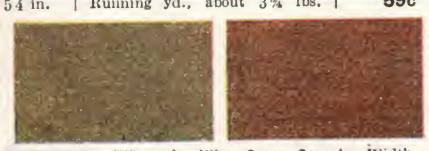
172B2932—Solid, one-piece rugs of genuine linoleum composition—finest quality, ground cork and oxidized linseed oil. These rugs come to you, ready to unroll on your floor. Put them down just like an ordinary rug. No tacks needed. Will lie perfectly flat and smooth. Corners are rounded to prevent turning up and breaking off. Perfectly practical. Attractive, sanitary, save work and will give indefinite wear. Two sizes. **State size wanted.**

Size	Shipping weight	Price, each
6x 9 feet	About 28 lbs.	$ 4.95
9x12 feet	About 55 lbs.	9.25



172B2943—Hardwick Rug Border. A regular weight of floor oilcloth for covering entire floors, or for a very handsome border around rugs. Made on good serviceable quality of burlap, with a highly finished surface, and a painted back. Neat oak plank pattern as illustrated. A comparatively new, yet highly satisfactory and long-wearing floor covering, which, if occasionally cleaned and varnished, will give tremendous wear. Easily laid. Requires no experience. Furnished in two widths. **State width wanted.**

Width	Shipping weight, running yard.	Price per running yd.
24 in.	About 2¼ lbs.	26c
36 in.	About 3¼ lbs.	37c



372B2361—American Extra Heavy Fiber Matting. Width, 36 inches. Best quality. Is more sanitary, lays smoother, and is more attractive than the straw floor mattings. Reversible. **Red and tan; or green and tan. State color wanted.** Shipping weight, per yard, about 1 pound. Per yard **27c**

372B2381—Rancoco Cocoa Matting. Long wearing, durable matting for aisles in public places. Three widths. **State width wanted.**

Width	Shipping weight	Running yard
27 in.	Running yd., about 1⅞ lbs.	30c
36 in.	Running yd., about 2⅜ lbs.	39c
54 in.	Running yd., about 3¾ lbs.	59c

372B2371—Wisconsin Wire Grass Carpet. Width, 36 inches. Splendidly woven, from genuine Wisconsin wire grass. It is appropriate for any room in the house, and will make a very good, inexpensive floor covering—cool in summer, warm in winter. Will give good service. We have sold thousands of rolls of this fabric, and it has always proven satisfactory. **Brown or green. State color wanted.** Shipping weight, per yard, about 2⅝ lbs. Price, per yard **39c**

372B2365—Patchoque Fiber Matting. Width, 36 inches. Extra fine quality. Perfectly reversible. Is one of the best and neatest matting floor coverings made. Two colors: **Tan effect, or green effect. State color wanted.** Shipping weight, per yard, about 1¼ pounds. Per yard **29c**

372B2385—Glenfield Cocoa Matting. Extra heavy. Double twilled. Best grade for public use. Three widths. **Be sure to state width wanted.**

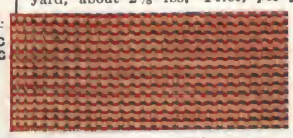
Width	Shipping weight	Running yard
27 in.	Running yd., about 2⅛ lbs.	39c
36 in.	Running yd., about 2⅞ lbs.	49c
54 in.	Running yd., about 4¼ lbs.	77c

72B2377—Wisconsin Grass Carpet. Used largely for runners in aisles of churches, business places and all public buildings. Equally suitable for any home. Grecian key border design. **Brown or green, in each width. State width and color wanted.**

Width	Shipping weight, running yard	Price per running yard
27 inches	About 2⅛ pounds	35c
36 inches	About 2⅞ pounds	50c

Belmont Printed Linoleum One-Piece Rugs

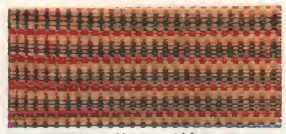
172B2934—Same quality as No. 172B2932, on opposite side of the page. Thoroughly practical rugs for any floor of your home. Attractive, highly sanitary, easy to keep clean, and will save hard housework. Solid one-piece rugs with rounded corners which prevents them from turning up and breaking off. Will lie perfectly flat and smooth on your floor and are as easy to put down as an ordinary rug. No tacking required. Two sizes. **State size wanted.**



Size	Shipping weight	Price each
6x 9 feet	About 28 lbs.	$4.95
9x12 feet	About 55 lbs.	9.25

172B2947—Fargo Wood Finish Filler or Rug Border. Takes the place of a hardwood parquetry floor. Very effective around the edge of rugs. Will give any room a very attractive appearance. Made upon a solid burlap foundation, with painted water-proof back and has a brightly finished surface. The front is treated with five coats of ochre, in pure linseed oil, followed by several coats of wear-resisting varnish. Looks like real hardwood parquetry floor. Can be revarnished at a small expense. Comes in a roll with border along one edge. **State width wanted.**

Width	Shipping weight, running yard	Price, per running yard
24 inches	About 2½ pounds	30c
36 inches	About 3½ pounds	39c



172B2950—Japanese Matting Rugs. Size, 9x11½ feet. Real imported matting rugs, of very fine quality. Firmly woven, from the best hand-palmed rice straw, with a strong, heavy cotton warp. Fine, even, close weave, and smooth finish. The high-grade materials, combined with skillful workmanship, make this matting rug a value which will interest shrewd buyers. **One side in similar designs and colors as illustrated; reverse side plain tan.** One size only. Shipping weight, each, about 13 pounds. **$2.45 Each**

9 x12 ft.	About 34 lbs.	20.95

172B1745—Osborn Axminster Seamed Rug.

A rug that will outwear any competing fabric at anything like the price. Our price makes it a value very hard to duplicate. Small, neat, all-over colorings, representing the highest development in weaving an Axminster fabric. Has full length regular Axminster pile and is a splendid rug for the money.

One size only	Shipping weight	Each
9x12 ft.	About 35 lbs.	$16.35

172B1757—Perfection Axminster Seamed Rugs

This Perfection, Seamed Axminster Rug is the ideal quality to meet the demand for an Axminster rug of very moderate cost. It has an all-wool surface of long pile. The pattern stands out clear and clean, with no bleeding colors or uneven setting. Colors all steam boiled into the face of the fabric. A rug that will surprise you with the amount of wear and service it will give.

One size only	Shipping weight	Price, each
9x12 feet	About 29 pounds	$15.40

172B1785—Cashmere Axminster Seamed Rug

A handsomely designed rug, favored not alone because of its rare quality, beautiful, harmonious shades, and high class appearance, but on account of its firmness of weave, and the depth of the facing, or pile. Increased wearing quality and longer life is assured in this rug by its firm weave and long pile.

One size only	Shipping weight	Each
9x12 ft.	About 28 lbs.	$15.75

172B1787—Quaker Axminster Seamed Rugs

A most handsome floor rug. Note the splendid arrangement of floral clusters and scrolls. Extra fine in texture, soft to the tread, and yet low in price. Each size offered at a price that means an actual money saving. Two sizes. **State size wanted.**

Size	Shipping weight	Each
9 x12 ft.	About 34 lbs.	$18.50
11¼x12 ft.	About 49 lbs.	24.25

172B1790—Berkley Axminster Seamed Rugs

One of the finest types of domestic floor coverings in Oriental design. Combines richness of colorings, decorative effect, and quality of texture in a standard grade. Colors are dyed in the yarn, producing superior effects. Four sizes. **State size wanted.**

Size	Shipping weight	Each
6 x 9 feet	About 20 pounds	$10.50
8¼x10½ feet	About 29 pounds	15.25

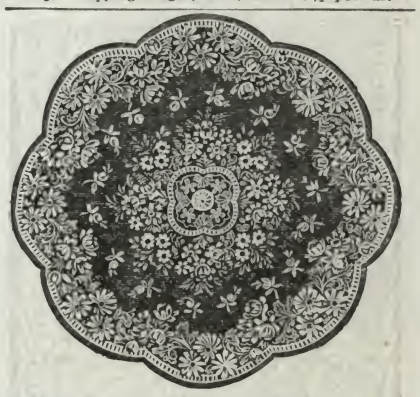
Upon comparison you will find we have priced this splendid portiere very low considering its excellent quality. Furnished in the following color combinations: **Red and green; or green and gold. Be sure to state color combination wanted.** Shipping weight, each, about 2½ pounds.

72B6060—Fringed Tapestry Table Cover. Size not including fringe, 31x31 inches. A very handsome tapestry table cover woven from the best cotton yarns. A beautiful oriental style of design with handsome medallion center. Color combination is of red, green and gold. Neatly finished with knotted fringe. Reversible. Shipping weight, each, about 1 pound. **75c Each**

Same table cover made in size, 52x52 inches not including the fringe. Shipping weight, each, about 2½ pounds. Price, each **$1.60**

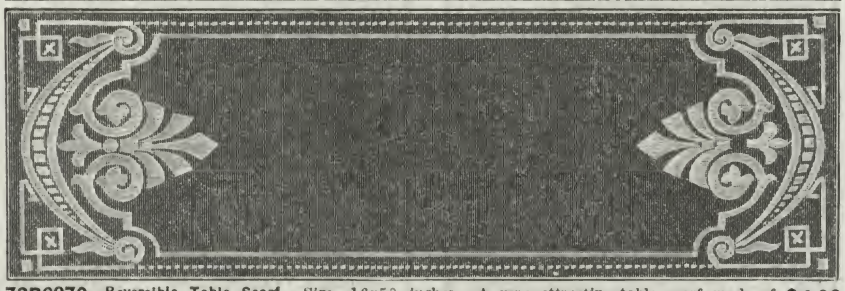
72B6035—Reversible Chenille Table Cover. Size not including fringe, about 42x42 inches. This is a very attractive chenille table cover, and is reversible allowing you to use either side. Comes in an unusually handsome color combination of bright yellow figures on a rich red background. At our price this is a most remarkable money saving value. Shipping weight, each, about 1¼ pounds. **85c Each**

72B6015—Velour Rope Portiere. Size to fit opening up to 6 feet in width. Length, 7 feet. A portiere simple in design and style, but one which is a splendid decoration for the home. Will prove very practical in every way. Made of an extra heavy plush cord and is draped in a pleasing manner. The cords are finished with beautiful tassels. We will furnish this portiere in the following colors: **Plain green; plain red; or plain brown. State color wanted when ordering.** Shipping weight, each, about 3¾ pounds.



72B6040—Armure Tapestry Table Cover. Size not including fringe, 50x50 inches. This beautiful Armure Tapestry Table Cover is suitable for the library or dining room table, and is an article which every home finds use for. Made of a splendid quality of Armure tapestry material and finished with a neat fringe. Comparisons will show you that we offer you this handsome table cover at a considerable saving. Your choice of the following color combinations: **Red and green; or two tone green. Be sure to state color combination wanted.** Shipping weight, each, about 1½ pounds. **75c Each**

72B6045—Mission Band Rope Portiere. Size to fit opening 5 to 6 feet wide. Length, 7 feet. This beautiful Mission Portiere is made of a combination of bands and cords and is finished with neat tassels. The rich velour cords are about ⅞-inch thick. Width of bands, 4 inches and have neat floral figures. The popularity of arts and crafts and mission style treatments for interior decorations has created a very strong demand for this class of merchandise. This number furnished in the following three good color combinations: **Green and red; green and tan; or green and brown. Be sure to state color combination wanted.** Shipping weight, each, about 3½ pounds.



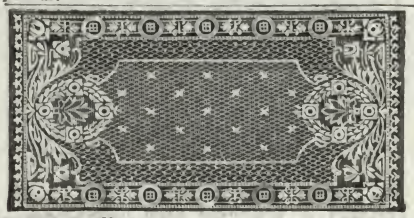
72B6030—Handsome Tapestry Band Portiere. Size to fit opening 5 to 6 feet wide. Length, 7½ feet. The appearance of this portiere is very stylish and the coloring unusually artistic. Made of eight 4-inch imported tapestry figured bands with a plush cord between each of the bands. Bands and cords are neatly trimmed with tassels. You will find this an excellent value not only in quality but in price, and comparisons would show you that we save you a considerable amount on your purchase. Furnished in the following color combinations: **Green and red; green and gold; or green and brown.** Shipping weight, each, about 4¼ pounds.

72B6055—Belgium Tapestry Table Cover. Size, 62x62 inches. A very beautiful table cover of the best quality of Belgium tapestry material. It is made in round style, to preserve the finish of highly polished mahogany or oak tables when not in use. A very ornamental article having an elaborate medallion center and attractive floral border. The scalloped edge is finished with overlocked thread stitching. Your choice of two color effects: **Green effect, or brown effect. State color effect wanted.** Shipping weight, each, about 2½ pounds. **$2.00 Each**

72B6010—Mission Style Rope and Band Valance. Size to fit opening 4 to 5 feet wide. Length, 30 inches. A very pretty mission style valance made of ¾-inch rich velour cord and has two wide imported tapestry bands in prettily figured design. Bands and cords nicely finished with tassels. This number makes an unusually handsome style of decoration for the home and will surely please you in every way. Your choice of two color combinations: **Green and brown; or green and red. State color combination wanted.** Shipping weight, each, about 2¼ pounds.

72B6070—Reversible Table Scarf. Size, 16x36 inches. A very attractive table scarf made of fine quality fiber silk, very firmly woven and is nicely finished in every respect. A simple design which is carried out in handsome color effects. This is a most unusual value at the price we ask. Furnished in the following colors: **Old rose, Nile green, Copenhagen blue, or golden brown. State color wanted and mention second choice.** Shipping weight, about 12 ounces. **$1.00 Each**

72B6025—Tapestry and Velour Rope Valance. Size to fit opening up to 6 feet wide. Length, 36 inches. This number is the best valance we offer and is a most remarkable money-saving value at the above price. Made with ⅞-inch plain plush cords, beautifully draped and has four very handsome imported tapestry bands. This valance will give you complete satisfaction and you will find it a most attractive decoration for the home. Color combinations: **Red and green; or two tone green. State color combination wanted.** Shipping weight, each, about 3 pounds.



72B6020—Beautiful Mission Valance. Size to fit opening up to 6 feet wide. Length, 42 inches. A most beautiful style of valance, which is a combination of bands and cords. Made of a full ¾-inch velour cord and has four handsome tapestry bands which harmonize perfectly in color with the ropes. This is one of the most popular styles of drapery novelties now in use and makes a very effective article for home decoration. Color combinations: **Green and gold; or green and red. State color combination wanted.** Shipping weight, each, about 2½ pounds.

72B6046—Mission Band Rope Portiere. Size to fit opening up to 7 feet wide. Length, 7½ feet. This is a very high grade Mission Band Rope Portiere entirely new in arrangement and unusually artistic in design. One of the best and most decorative styles made and we strongly recommend it on account of its elegance. Made with 22 strands of ¾-inch velour cord and five imported figured tapestry bands, each of which is 4 inches wide. Cords are trimmed with 6-inch tassels and bands with 5-inch tassels. Your choice of three color combinations: **Red and green; green and tan; or green and brown. Be sure to state color combination wanted.** Shipping weight, each, about 4½ pounds.

72B6047—Mission Band and Rope Portiere. Size to fit opening 5 to 6½ feet wide. Length, 7 feet. One of the finest portieres we have to offer and we know you will find it to be a surprisingly big value, far beyond your expectations. Made with 13 strands of ¾-inch velour cord, trimmed with 6-inch tassels, and has 6 imported handsomely figured heavy tapestry 4-inch bands, which are also trimmed with tassels. You will notice it is heavily festooned and over-draped in the center. One of the best and most decorative draperies manufactured. Your choice of these color combinations: **Green and red; two tone green; or green and tan. State color combination wanted.** Shipping weight, each, about 4¼ pounds.

72B6065—Mersil Silk Fiber Table Scarf. Size, 24x48 inches. A perfectly reversible table scarf, with a lustrous, silky effect. Made in an exclusive design, and color treatment, and is an excellent quality of material. Furnished in two colors: **Green or golden tan. When ordering be sure to state color wanted.** Shipping weight, each, about 12 ounces. **$1.75 Each**

72B6050—Silk Library Table Scarf. Size, 19x54 inches. A very handsome reversible table scarf which, because of its exceptionally good quality at the price, is a very special value. Comes in attractive conventional design and is furnished in three color effects: **Amethyst effect; green effect; or brown effect. State color effect wanted and mention second choice.** Shipping weight, each, about 10 ounces. **$1.47 Each**

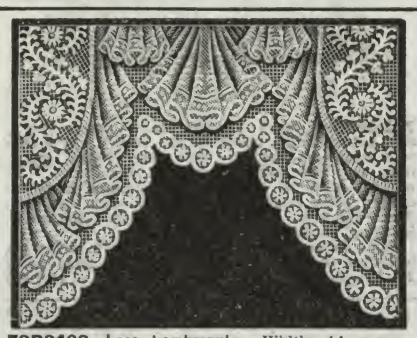
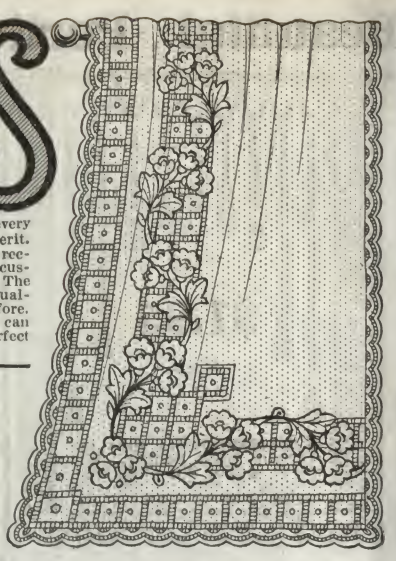
LACE CURTAINS

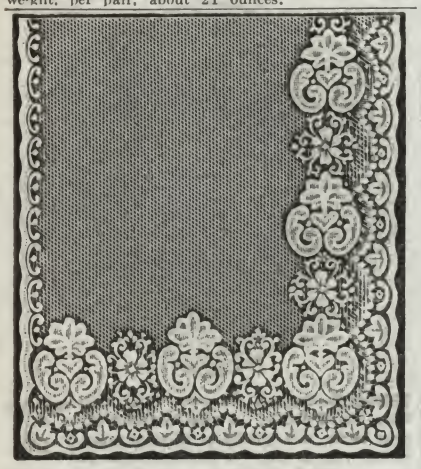
On this and the following pages



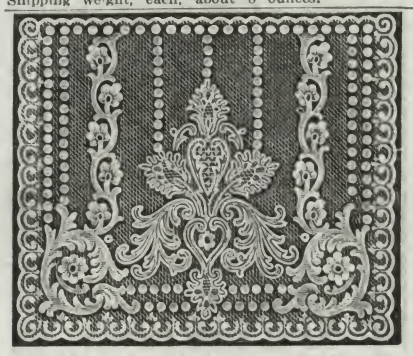
we place before you an attractive array of one of the largest lines of lace curtains and curtain materials in America. This line comprises the choice of the foremost curtain markets. There is a style for nearly every purpose; there is a pattern for nearly every taste, even the most exacting; and there is a price to suit every purse. This selection of lace curtains has been prepared with great care. Back of it are all the resources of the largest manufacturers. These many features combined with our exceptional purchasing facilities and immense quantity buying, means that every item we quote is a value of greatest worth and merit. Constant and heavily increasing sales are the highest recommendations this section can receive. Thousands of customers are ordering almost daily from these pages. The savings made by our prices are pleasant surprises—the qualities proving to be much better than expected. Therefore, when you send us your orders for lace curtains you can do so with absolute confidence of being assured perfect satisfaction in every way.



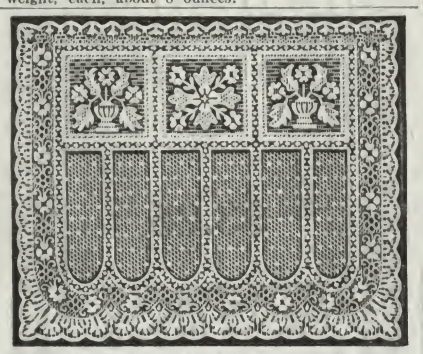
72B3473—Nottingham Lace Curtains. Width, 45 inches. Length, 3 yards. This special floral design is a pattern which will please nearly every one, with its delicate tracery of flowers and foliage. Made of very good yarns. Neatly finished. Everything about these curtains is just right. **White only.** Shipping weight, per pair, about 21 ounces. **$1.00 A Pair**



72B3400—Lace Lambrequin. Width, 50 inches. Length, 38 inches. A very handsome window decoration woven in an attractive floral and bar design. The price is really very low, but you will be pleasantly surprised at the splendid quality. Comes in **white only.** Shipping weight, each, about 8 ounces. **22c Each**

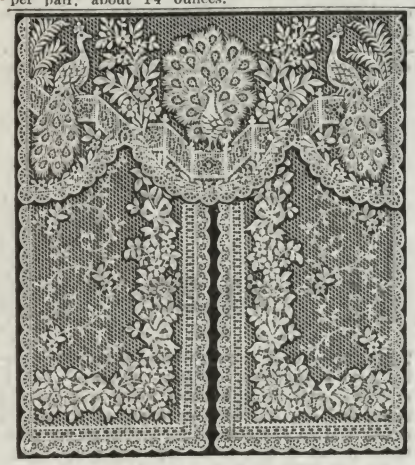


72B3402—Lace Lambrequin. Width, 44 inches. Length, 46 inches. Woven to give the appearance of a flounce or dainty ruffle effect. To offer this beautiful lambrequin at 35 cents means a saving of approximately thirty per cent. Comes in **white only.** Shipping weight, each, about 8 ounces. **35c Each**



72B3447 — Nottingham Lace Curtains. Width, 50 inches. Length, 3 yards. A very attractive style of Nottingham Curtains with plain center and having imitation applique Egyptian floral border which is produced by three distinctive weaves; very strong and durable curtains. **White only.** Shipping weight, per pair, about 22 ounces. **90c A Pair**

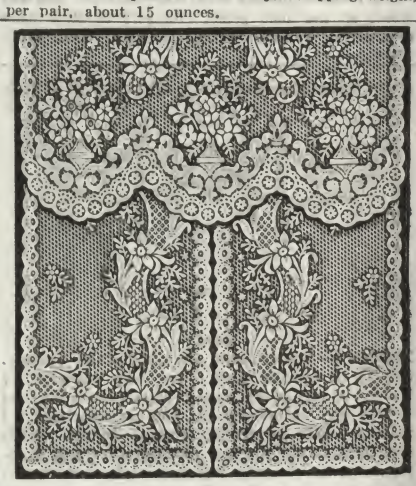
72B3404—Nottingham Curtains. Width, 33 inches. Length, 2½ yards. A net insertion with distinctive motif repeated all along the border, making very artistic curtains and always in good taste. Our lowest priced Nottingham Curtain, which for quality will beat all competition. **White only.** Shipping weight, per pair, about 14 ounces. **45c A Pair**



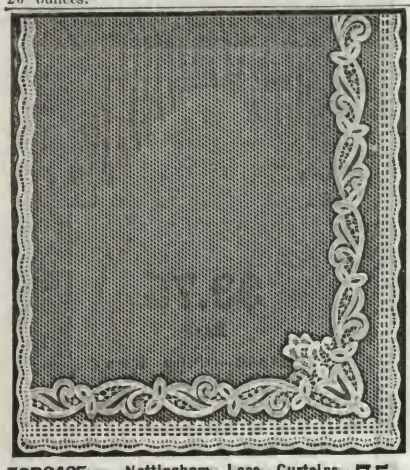
72B3765—Arabian Sash Curtain. Width, 39 inches. Length, 35 inches. A neat and up-to-date design in attractive sash curtain, all ready to hang. Finished at the top with a neat hem for the rod. There is an individuality in this curtain not generally shown in curtains of this class. Comes in **white only.** Shipping weight, each, about 8 ounces. **32c Each**

72B3771—Colonial Sash Curtain. Width, 39 inches. Length, 35 inches. One of the newest effects in a handsome Colonial style dining room sash curtain. Has finished hem for the rod to pass through and is all ready to put up when you receive them. An innovation in curtain designing of exceptional merit. **White only.** Shipping weight, each, about 8 ounces. **24c Each**

72B3425 — Nottingham Curtains. Width, 36 inches. Length, 2½ yards. A very distinctive style of curtain with a rich deep border of leaf and scroll design. Double-threaded throughout. Has a durable, double-worked border. Most unusual value is represented in these curtains at our price. **White only.** Shipping weight, per pair, about 15 ounces. **60c A Pair**

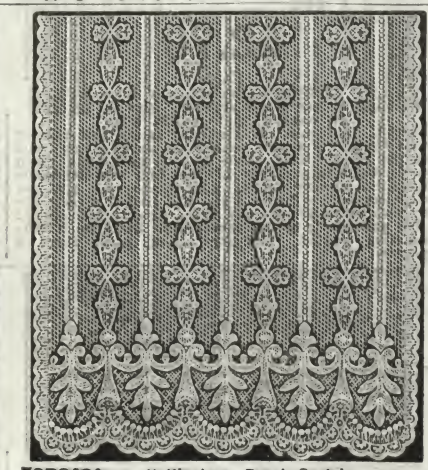


72B3403—Nottingham Curtain. Width, 60 inches. Length, 3 yards. A strictly new and up-to-date novelty. Lambrequin style at the top. Made of a good quality Nottingham lace. Has the appearance of a very expensive curtain. Made to hang one at a window. Comes in **white only.** Shipping weight, each, about 20 ounces. **74c Each**



72B3405—Nottingham Curtains. Width, 33 inches. Length, 2½ yards. An unusually handsome style of very inexpensive Nottingham Curtains. Distinctive for the attractive Arabian design and border. Curtains that are of an exceptionally good texture. The border is finished with a durable corded edge. **White only.** Shipping weight, per pair, about 14 ounces. **50c A Pair**

72B3407 — Nottingham Lace Curtains. Width, 36 inches. Length, 2½ yards. These are curtains of better quality than usually shown at this price. Material is of exceptionally good texture and will give a surprising amount of service. Plain center effect with a rich oak leaf border. Durable corded edge. **White only.** Shipping weight, per pair, about 16 ounces. **55c A Pair**

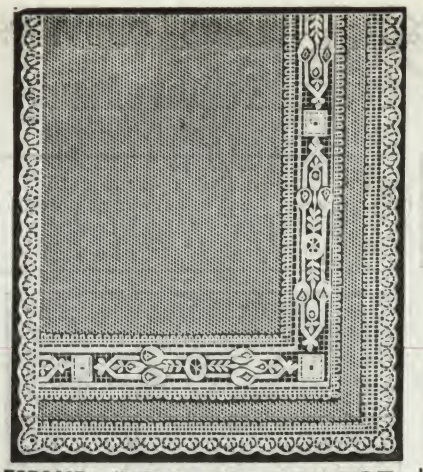


72B3411 — Nottingham Curtain. Width, 58 inches. Length, 3 yards. A rich, showy, inexpensive curtain and a very good curtain at an extremely low price. It is one of our best selling numbers. One piece, made to hang one at a window. This curtain furnished in white only. Shipping weight, each, about 17 ounces. **59c Each**

72B3435 — Nottingham Lace Curtains. Width, 36 inches. Length, 2½ yards. A very simple but refined pattern that will appeal to a great many. A neat border, woven to give the effect of a Battenberg design. When hung at the windows, these curtains are unusually attractive. **White only.** Shipping weight, per pair, about 16 ounces. **75c A Pair**

72B3420 — Nottingham Lace Curtain. Width, 60 inches. Length, 3 yards. A very beautiful curtain, woven in one solid piece. Has the appearance of a pair of curtains with a separate under curtain. Made to hang one at a window. One of our own patterns—famous for their originality. This curtain furnished in **white only.** Shipping weight, each about, 17 ounces. **56c Each**

72B3421 — Nottingham Panel Curtain. Width, 50 inches. Length, 3 yards. A very inexpensive panel curtain, made of a good quality Nottingham Lace. These curtains can be hung one at a window where desired and are sold separately. A style that has the much desired Bonne Femme effect. Come in **white or beige. State color wanted.** Shipping weight, each, about 17 ounces. **62c Each**



72B3437—Nottingham Curtains. Width, 45 inches. Length, 3 yards. Beautiful combination of floral and conventional border, with figured background. Makes a very pleasing effect, in the Nottingham weave. Curtains of this kind have proven very popular sellers. **White only.** Shipping weight, per pair, about 20 ounces. **83c A Pair**

Buy a cedar chest and protect your clothing and blankets from moths

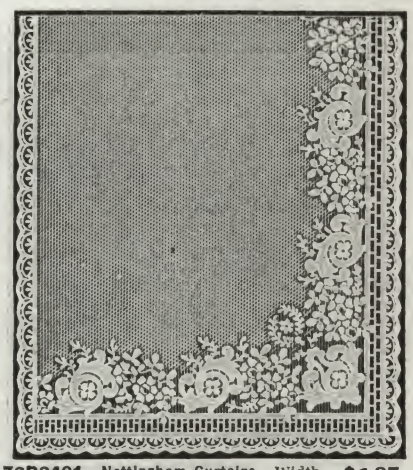
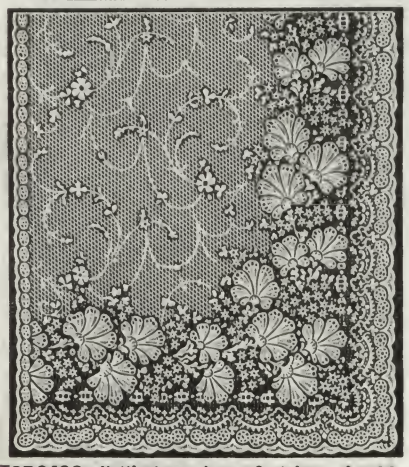
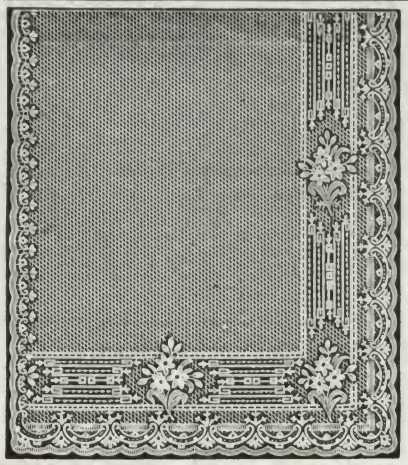
Plain, closely woven center and an exquisitely handsome floral border with vines and flowers. At our price these curtains are incomparable values. **White only.** Shipping weight, per pair, about 18 ounces. **$1.35 A Pair**



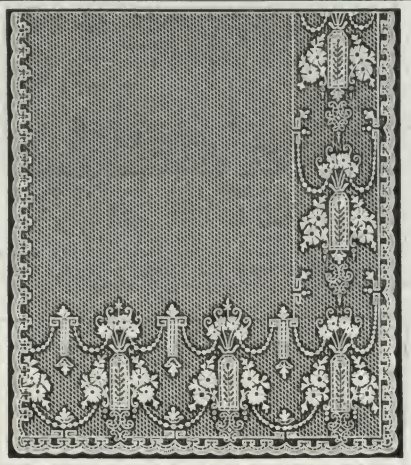
72B3485—Nottingham Lace Curtains. Width, 53 inches. Length, 3 yards. A new Egyptian panel effect is shown in these Nottingham curtains, making them very attractive draperies for the windows of any home. The panels are outlined by delicate scroll border and the center ground is neatly ornamented with small floral clusters. Furnished in **white or beige. State color wanted.** Shipping weight, per pair, about 21 unces. **$1.05 A Pair**



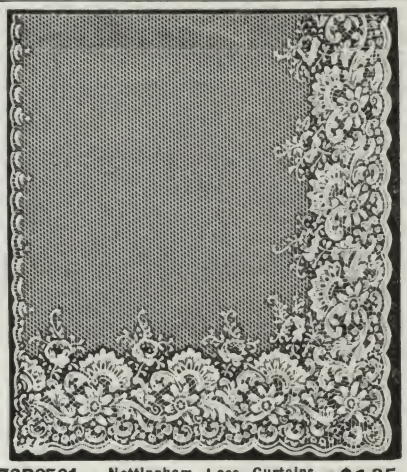
72B3487—Nottingham Lace Curtains. Width, 48 inches. Length, 2½ yards. A very distinctive style of Nottingham Curtains. Combine unusual beauty with splendid quality to a degree not generally found in curtains at the price we ask. A beautiful floral rose border with a double insertion effect. You are sure to be very well pleased with every pair of these curtains. **White only.** Shipping weight, per pair, about 18 ounces. **$1.32 A Pair**



72B3489—Nottingham Curtains. Width, 45 inches. Length, 3 yards. These curtains are the exact reproduction of a fine Brussels Curtain. They are made on a foundation of strong Nottingham net and covered with dainty Dresden figures, in a scattered floral border. You will find these much out of the ordinary. For richness of quality and artistic lines, they have no superior. Come in **white only.** Shipping weight, per pair, about 24 ounces. **$1.30 A Pair**



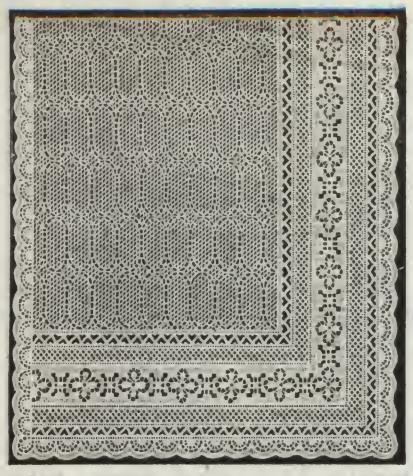
72B3491—Nottingham Curtains. Width, 46 inches. Length, 2½ yards. An exceptionally attractive pair of lace curtains with a beautiful scroll and floral border on plain field. These curtains will serve very well for the parlor or living room and will make most artistic draperies. They will launder well and give good service in every respect. **White or beige. State color wanted.** Shipping weight, per pair, about 20 ounces. **$1.27 A Pair**



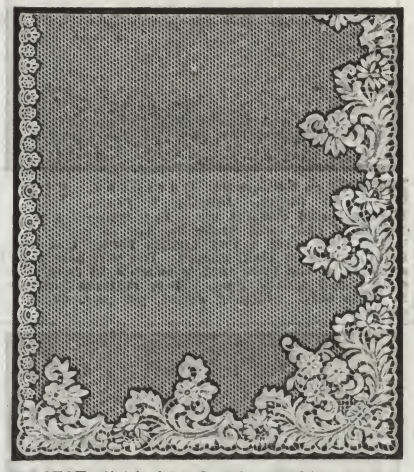
72B3493—Nottingham Lace Curtains. Width, 58 inches. Length, 3 yards. A high class, distinctive style of choice Nottingham Curtains. A reproduction in design of a popular Renaissance curtain, with a Brussels net center. Extra large. Made especially for wide windows. Furnished in **white only.** Shipping weight, per pair, about 27 ounces. **$1.60 A Pair**

72B3497—Nottingham Curtains. Width, 46 inches. Length, 2½ yards. You will find this Nottingham Curtain has every element that goes to make an effective window decoration. An unusually attractive border effect in conventional design and a plain body of firmly woven Nottingham net. A perfect imitation of a high grade imported curtain. **White only.** Shipping weight, per pair, about 17 ounces. **$1.40 A Pair**

72B3499—Nottingham Lace Curtains. Width, 50 inches. Length, 2½ yards. A very attractive Nottingham Curtain. The design has an individuality not usually shown in curtains at this price. It is really an innovation in curtain designing. You will find these curtains of exceptional merit in quality as well as in style. Furnished in **white only.** Shipping weight, per pair, about 17 ounces. **$1.70 A Pair**



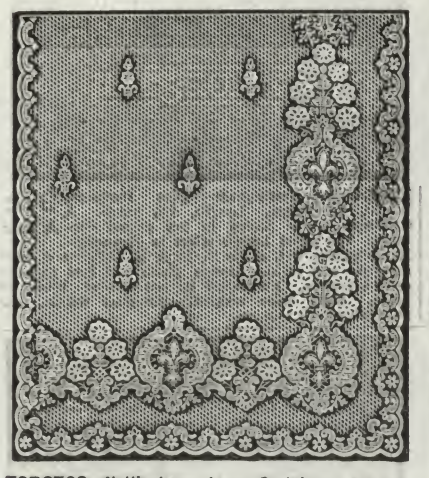
72B3501 — Nottingham Lace Curtains. Width, 44 inches. Length, 3 yards. The entwined scrolls and flower sprays mingling with the roses, give a pretty effect to this handsome Nottingham Curtain, making it a design always in demand. At our price this is an excellent value and one hard to equal. **White only.** Shipping weight, per pair, about 20 ounces. **$1.35 A Pair**



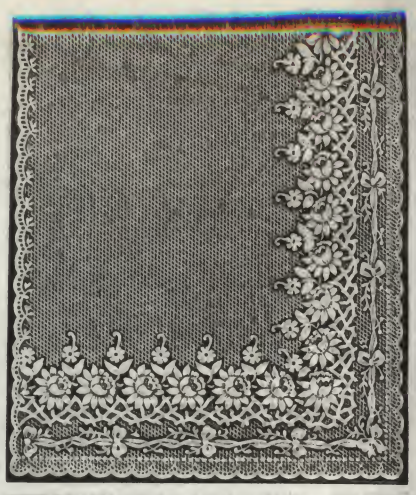
Our Line of Nottingham Curtains Provides Styles Suitable For Every Requirement

We will sell half pairs of any of our curtains. The price for half pairs is one-half of the price per pair.

A whole page is devoted to a complete line of curtain poles, rods, fixtures and trimmings. See Index.

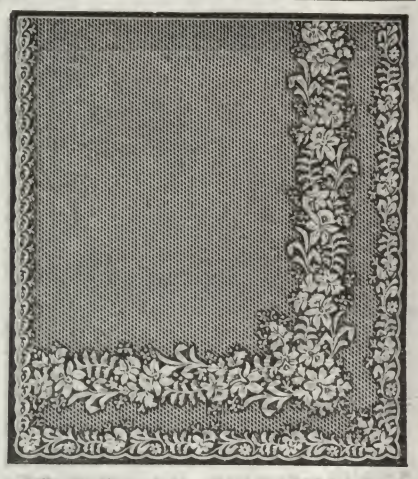


72B3503—Nottingham Curtains. Width, 44 inches. Length, 2½ yards. This number is one of the newest novelties of the season in Nottingham curtains, an imitation of a real handmade filet, with a stained glass effect for a field. When hung at the window it makes an unusually attractive drapery. **White only.** Shipping weight, per pair, about 20 ounces. **$1.10 A Pair**



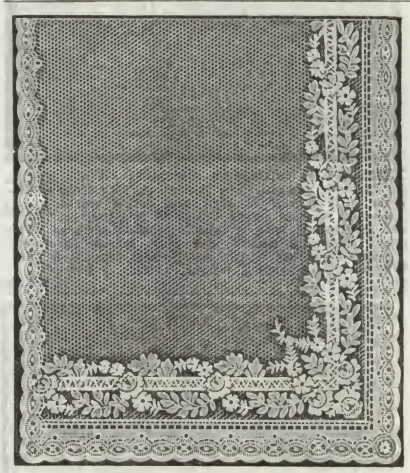
72B3507—Nottingham Curtains. Width, 48 inches. Length, 3 yards. Genuine Renaissance designed Nottingham Lace Curtains. A style that has all the appearance of a drape that would sell usually from $5.00 to $8.00 a pair. **White only.** Shipping weight, per pair, about 25 ounces. **$1.70 A Pair**

Same curtains. Width, 48 inches. Length, 3½ yards. **White only.** Shipping weight, per pair, about 29 ounces. Price, per pair **$1.85**

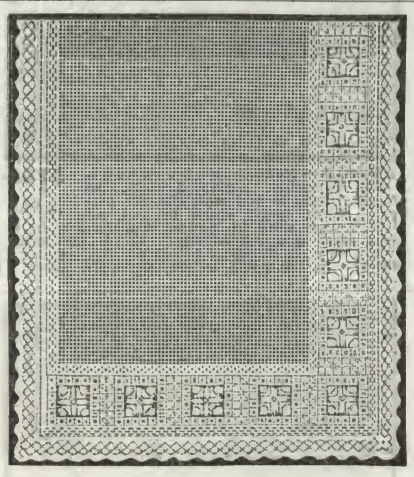


72B3509—Nottingham Lace Curtains. Width, 50 inches. Length, 2½ yards. A very attractive style of curtain in which the design is of rather bold character, making them a handsome window drape quite out of the ordinary. Excellent quality of Nottingham net ornamented with neat small figures in the field and having a splendid arrangement of figures in the border. **White only.** Shipping weight, per pair, about 19 ounces. **$1.58 A Pair**

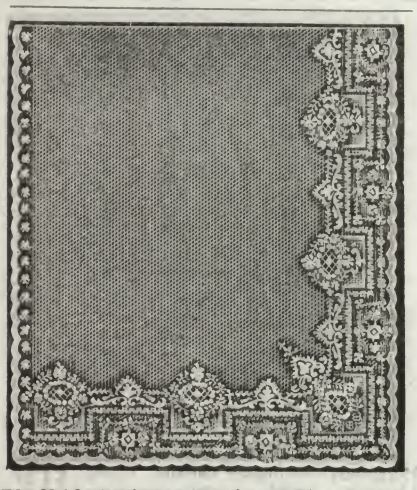
72B3504—Nottingham Lace Curtains. Width, 46 inches. Length, 3 yards. Curtains that will give you an immense amount of service and will look exceptionally well in any window of your home. One of our special values which at the price means a splendid saving in your favor. A very attractive flowered style on a plain field. **White only.** Shipping weight, per pair, about 19 ounces. **$1.65 A Pair**



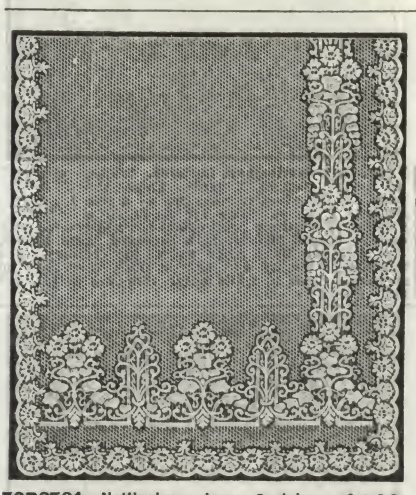
72B3505—Nottingham Lace Curtains. Width, 46 inches. Length, 3 yards. These Nottingham Curtains are very much out of the ordinary style in regard to design and arrangement of figures. Made with alternate openworked squares and bordered panels with a neat flower and scroll decoration, having a plain field. Very serviceable and durable curtains. **White only.** Shipping weight, per pair, about 22 ounces. **$1.35 A Pair**



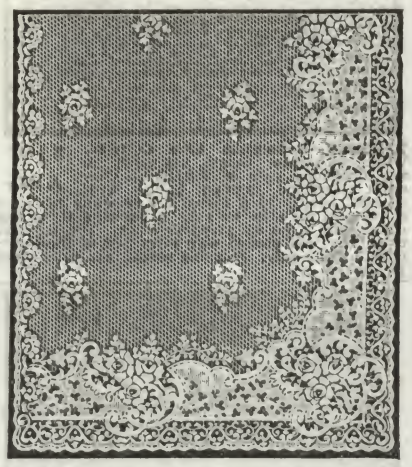
72B3511—Nottingham Lace Curtains. Width, 50 inches. Length, 2½ yards. A most graceful style of beautiful Nottingham Curtains. A design especially appropriate for use at parlor windows. **White only.** Shipping weight, per pair, about 21 ounces. **$1.65 A Pair**



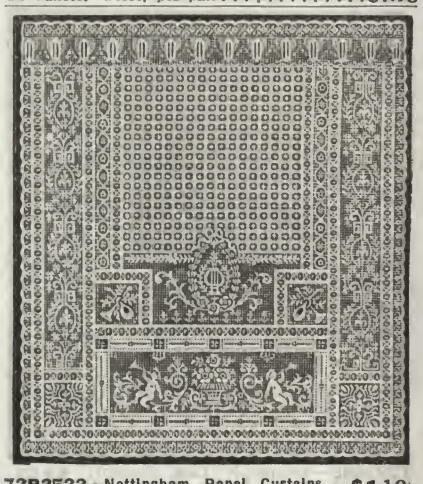
Same curtains. Width, 50 inches. Length, 3 yards. **White only.** Shipping weight, per pair, about 24 ounces. Price, per pair **$1.75**



72B3517—Nottingham Curtains. Width, 44 inches. Length, 2½ yards. A very attractive design in a net weave, having beautiful corner motifs with an elaborate leaf scroll border. This curtain will certainly appeal to every housewife who is looking for a value of uncommon merit. **White only.** Shipping weight, per pair, about 17 ounces. **$1.30 A Pair**



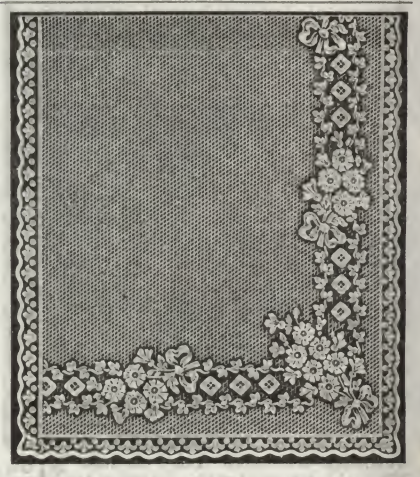
72B3519 — Nottingham Net Curtains. Width, 41 inches. Length, 2½ yards. Made in square mesh weave in imitation of hand-made filet and English eyelet embroidery design. Woven of the best Egyptian yarn. Curtains of this character are seldom reproduced in qualities at so reasonable a price. **White only.** Shipping weight, per pair, about 20 ounces. **$1.45 A Pair**



72B3513—Nottingham Curtains. Width, 45 inches. Length, 3 yards. This well figured border design is woven on a Nottingham ground, and the proportion and lines of this pattern are characteristic of the latest developments in curtain designing. A value of exceptional merit. Comes in **white only.** Shipping weight, per pair, about 20 ounces. **$1.60 A Pair**

72B3531—Nottingham Lace Curtains. Width, 49 inches. Length, 3 yards. These Nottingham Curtains are a modern adaptation of the newest German art and have an individuality of their own. Firmly woven net. Very durable and will launder perfectly. **White only.** Shipping weight, per pair, about 23 ounces. **$1.90 A Pair**

72B3533—Nottingham Lace Curtains. Width, 50 inches. Length, 3 yards. Made of very select and extra heavy yarn throughout. A curtain of great durability. The pattern is brought out in scroll and floral effect in splendid contrast. Medium sized detached figured center. **White only.** Shipping weight, per pair, about 24 ounces. **$1.75 A Pair**

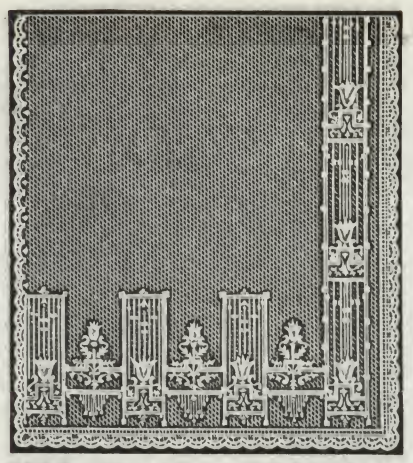


72B3523—Nottingham Panel Curtains. Width, 36 inches. Length, 2½ yards. This panel curtain by character of design and work might well be placed among higher priced goods. Self-headed, ready to hang. Elegant for the dining room or library. **White only.** Shipping weight, each about 11 ounces. **$1.10 Each**

Same curtain. Width, 52 in. Length, 2½ yds. **White only.** Shipping weight, each about 15 oz. Each **$1.55**

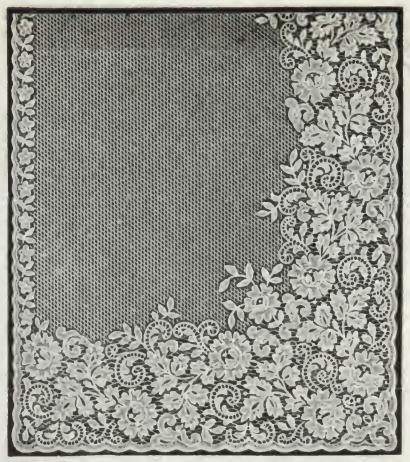
72B3527—Nottingham Lace Curtains. Width, 44 inches. Length, 2½ yards. Very pleasing effect in Nottingham weave. A pattern entirely out of the ordinary. A combination of floral and conventional border with floral figured background. Very desirable in style of design and quality of material. **White only.** Shipping weight, per pair, about 17 ounces. **$1.35 A Pair**

72B3537—Nottingham Net Curtains. Width, 47 inches. Length, 3 yards. A perfect reproduction of the fine curtains of the Fifteenth Century. Very beautiful, extremely dainty and charming in effect. Firm in weave and of very durable quality. **White only.** Shipping weight, per pair, about 20 ounces. **$1.80 A Pair**



Regarding Colors

In order to make clear the relation between the different shades of color in curtains, we give this explanation: Going from light to dark colors, white is first. Cream is the next shade darker than white. After cream comes ecru, having a slightly yellowish cast. The next in order is beige, a soft warm shade of light tan. Then champagne, a trifle deeper than beige. The darkest color is Arabian, which is a dull dark tan. Keeping these points in mind will eliminate any confusion as to the exact shade of the different colors when ordering.



Parcel Post Shipments

Many will find it a great convenience to have their curtains shipped by Parcel Post. When you wish your curtains shipped this way, be sure to include postage extra according to shipping weight given and postage rate in your zone. For other information on Parcel Post rates and shipments, see page 4, "How to use the Parcel Post." To make the greatest saving, we strongly advise you to include your curtain orders with orders for other goods or your neighbors' orders, and have them shipped by freight.

The ideal way to keep books is in one of our Sectional Bookcases

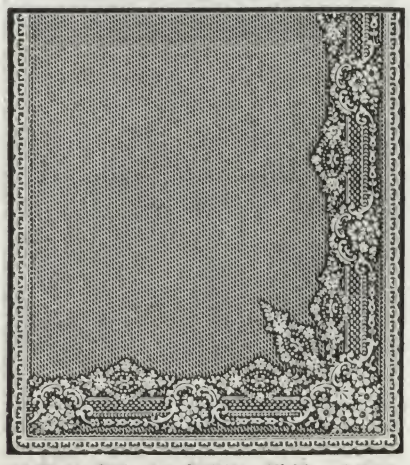
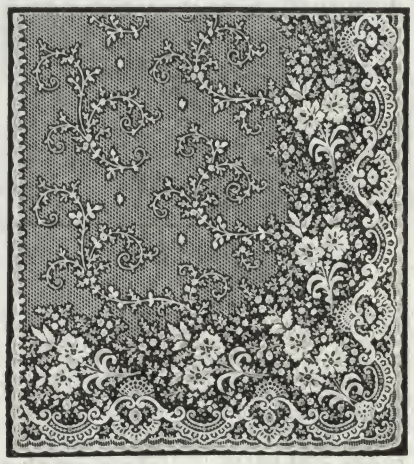
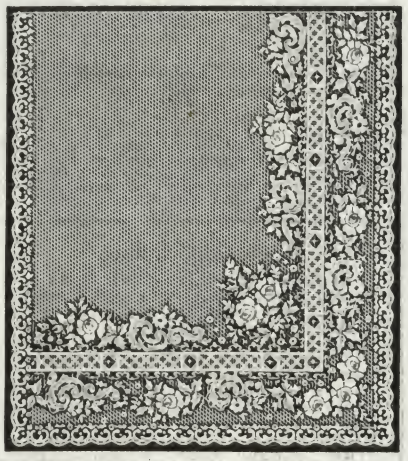
You can readily see that these curtains have a well balanced insertion of open work and floral design which is carried out in beautiful proportions. **White only.** Shipping weight, per pair, about 21 ounces. **$2.15 A Pair**



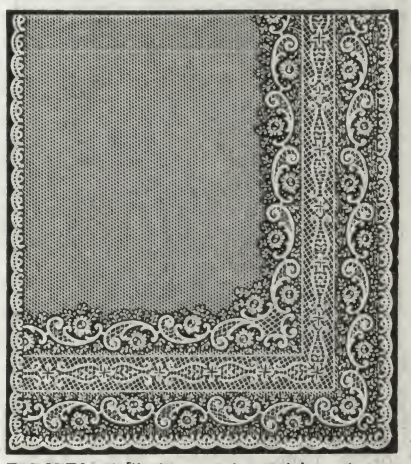
72B3553—Nottingham Lace Curtains. Width, 51 inches. Length, 3 yards. A Nottingham design that is different from the average style, making a most attractive window drape. These have proven very popular curtains owing to the interweaving of the various designs into a very harmonious pattern. **White only.** Shipping weight, per pair, about 23 ounces. **$2.60 A Pair**



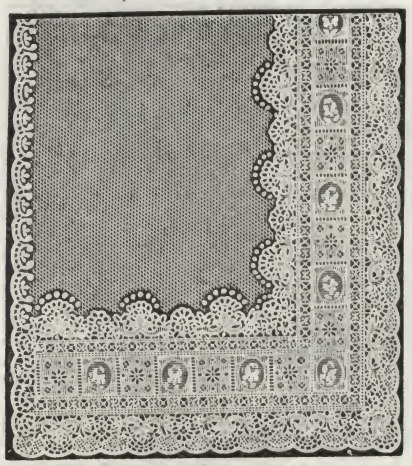
72B3557—Nottingham Lace Curtains. Width, 46 inches. Length, 3 yards. A well balanced design with a very effective floral scroll border. The plain field is well relieved by small floral clusters. We highly recommend this dainty pattern. Comes in **white only.** Shipping weight, per pair, about 20 ounces. **$2.20 A Pair**



72B3559—Nottingham Curtains. Width, 54 inches. Length, 3 yards. This illustration represents a copy of one of the choicest importations of the season. Fine of texture and latest in design with a tone of elegance found only in the Bavarian laces. **White only.** Shipping weight, per pair, about 25 ounces. **$2.35 A Pair**

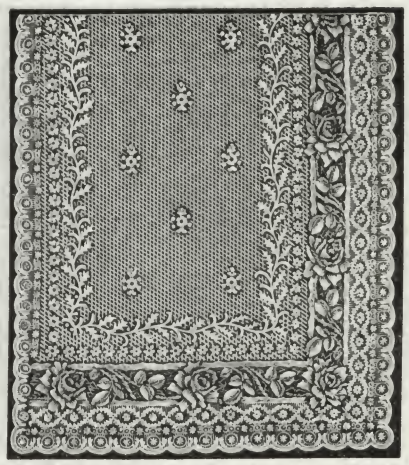


72B3563—Cable Net Curtains. Width, 43 inches. Length, 2½ yards. These curtains are made of extra heavy cable net in firm mesh and have a very dainty insertion and border design. The striking borders give them an unusually rich appearance. Furnished in **white only.** Shipping weight, per pair, about 17 ounces. **$2.80 A Pair**

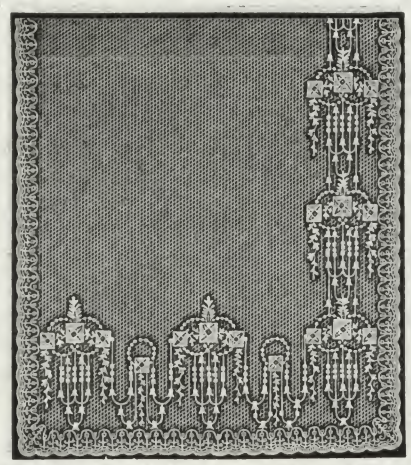


72B3567—Nottingham Lace Curtains. Width, 49 inches. Length, 3 yards. The above illustration represents one of the choicest copies of real Brussels net curtains. Fine texture. This pattern merits your attention and marks a return to a well-covered center. **White only.** Shipping weight, per pair, about 27 ounces. **$2.90 A Pair**

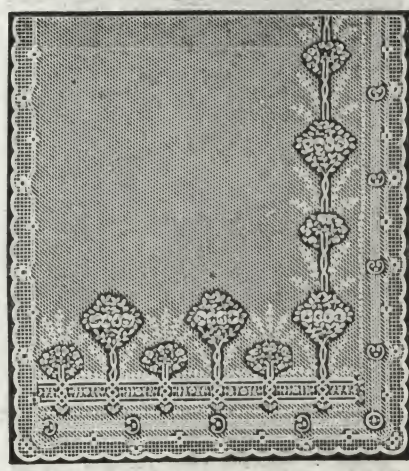
72B3569—Nottingham Net Curtains. Width, 50 inches. Length, 3 yards. One of the newest filet and floral effects with a type of border that is appropriate for this character of net. Fine quality net curtains that will give unusual satisfaction and make a most attractive home decoration. **White only.** Shipping weight, per pair, about 23 ounces. **$3.80 A Pair**



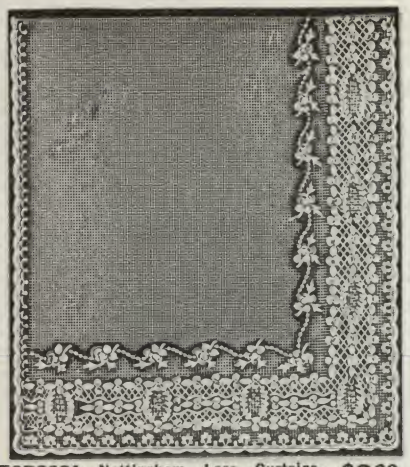
72B3571—Nottingham Net Curtains. Width, 52 inches. Length, 3 yards. These curtains are some of the choicest of our line of high grade curtains. A very desirable style. Good scroll border with a plain center. Elaborate but very dainty. One of the best wearing curtains made. **White only.** Shipping weight, per pair, about 21 ounces. **$4.25 A Pair**



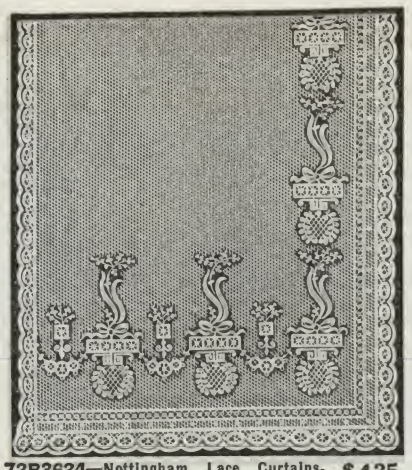
72B3583—Nottingham Net Curtains. Width, 45 inches. Length, 2¼ yards. Made with a very elaborate border with scrolls and filet insertion. Correct in both design and finish. **White only.** Shipping weight, per pair, about 15 ounces. **$1.90 A Pair**



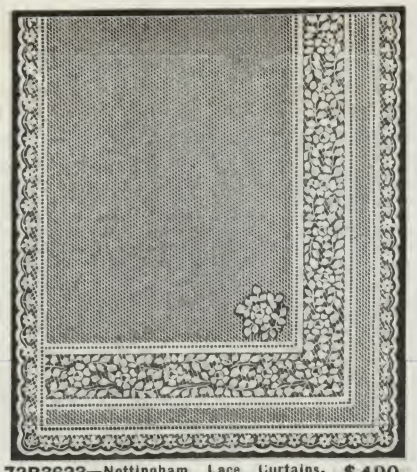
Same curtains; width, 45 inches; length, 3 yards. **White only.** Shipping weight, per pair, about 17 ounces. Price, per pair **$2.10**



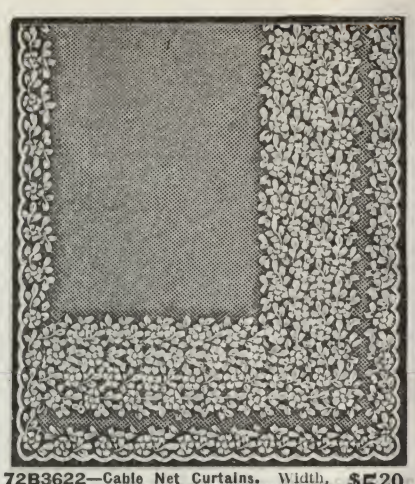
72B3587—Nottingham Lace Curtains. Width, 52 inches. Length, 3 yards. One of our best curtains in the famous Nottingham weave. A decided bargain at the price. This beautiful floral design has been greatly admired by all who have seen it. Very attractive parlor curtains for any home. Come in **white only.** Shipping weight, per pair, about 27 ounces. **$3.25 A Pair**



72B3591—Nottingham Lace Curtains. Width, 45 inches. Length, 2½ yards. Select, dainty curtains of the latest type. Something very exclusive at a moderate price. If you are looking for curtains of exceeding daintiness these will meet every requirement. A firmly woven, durable net. **White only.** Shipping weight, per pair, about 15 ounces. **$2.00 A Pair**



72B3595—Nottingham Lace Curtains. Width, 54 inches. Length, 3 yards. Made in a filet weave; of unusual design. Different from anything we have ever shown in lace curtains. A touch of originality puts them in a class by themselves. The price does not represent their real value. **White only.** Shipping weight, per pair, about 24 ounces. **$3.15 A Pair**



72B3621—Nottingham Lace Curtains. Width, 50 inches. Length, 3 yards. A handsome curtain, very tasteful in design and durable in texture. Square mesh weave. If you want a curtain of character, style and individuality, this number should be your choice. Thousands of customers have found it to be a superior value. **White only.** Shipping weight, per pair, about 20 ounces. **$2.60 A Pair**

72B3624—Nottingham Lace Curtains. Width, 45 inches. Length, 3 yards. A very elegant style of Madras weave Nottingham Curtains in an odd but select high-class pattern. Will make most beautiful drapes and will be the pride of every housewife who places them at her window. We cannot recommend these curtains too highly. **White only.** Shipping weight, per pair, about 19 ounces. **$4.25 A Pair**

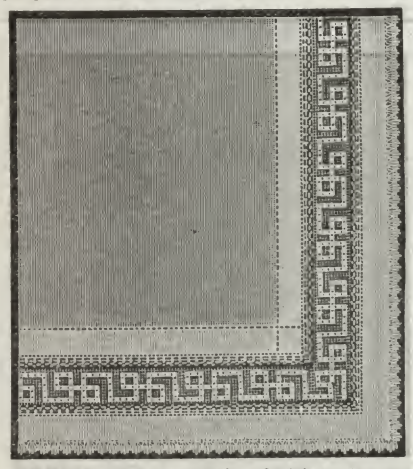
72B3623—Nottingham Lace Curtains. Width, 52 inches. Length, 3 yards. Unusually high grade Madras weave Nottingham Curtains of a particularly individual style. Made with beautiful edges and inside panels of leaves and roses. Has handsome floral motif in the corner. Furnished in **white only.** Shipping weight, per pair, about 18 ounces. **$4.90 A Pair**

72B3622—Cable Net Curtains. Width, 54 inches. Length, 3 yards. Our finest Cable Net Curtains. One of the most up-to-date pair of curtains we have had the pleasure of presenting. Of all the elegant designs brought out this season in fine curtains, this easily takes the lead. A floral effect entirely different. **White only.** Shipping weight, per pair, about 21 ounces. **$5.20 A Pair**

Values in Voile, Scrim and Marquisette Curtains

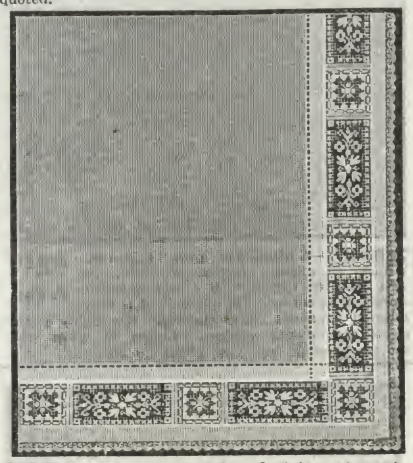
That are Unquestionably Worth While

Scrim and Marquisette Curtains are exceptionally popular at the present time. They are very appropriate for most every window in the home and are in very good taste.



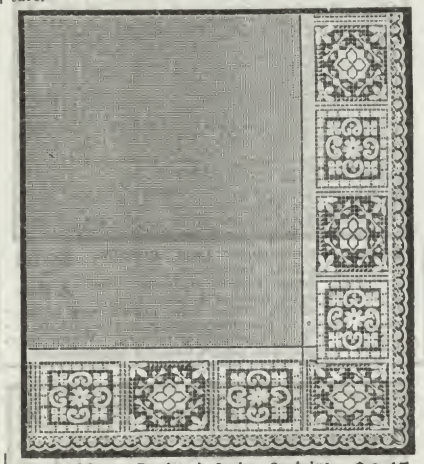
The Curtains on this page are all new and original designs with us.

Not only the buying power of our great organization, but its creative ability and its educational force in transmitting our customers' ideas, and our own, to manufacturers, explains, in part, the quality of the merchandise on this page at the low prices quoted.

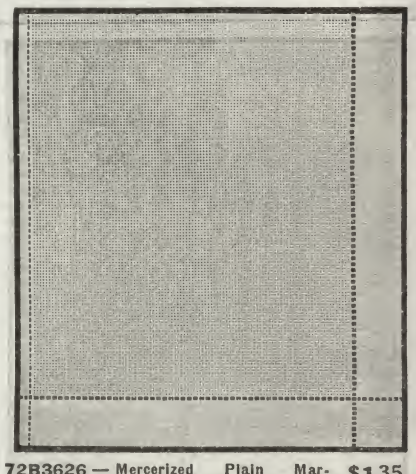


You have certain preferences in curtains; so have thousands of others. We have recorded these preferences year after year, and upon this page we offer you merchandise that is suitable for your home.

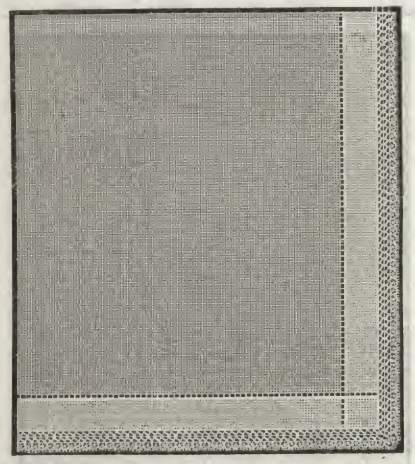
In every instance, the pricings are so moderate that they convey only a slight idea of the values offered.



The various qualities of scrims and marquisettes used in these curtains, represent most careful studies of construction and exacting processes of manufacture.



72B3625 — Bordered Scrim Curtains. Width, 34 inches. Length, 2½ yards. Made of a very good quality of scrim, with a Duchess lace insertion and a good quality of lace edging. There is a row of hemstitching on the inside of the insertion which adds greatly to its attractiveness. A great money-saving value at our price. **White only.** Shipping weight, per pair, about 15 ounces. **$1.10 A Pair**



72B3629 — Bordered Scrim Curtains. Width, 34 inches. Length, 2½ yards. These curtains are made of a good grade of scrim and have genuine 3½-inch filet insertion with machine-made cluny edging. The M-W Wall Paper Trimmer

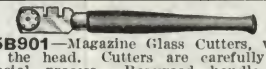
With Brass Bound Straightedge

Do Your Own Papering and Save Over Half the Cost



The big job in papering a room is trimming the paper, but by using this remarkable trimmer, the big job is a little one. Not a minute's experience is necessary; simply lay the straightedge that goes with the trimmer (and included with the price) on the paper with the zinc strip under the paper, and push it across. This outfit is made under our special supervision and exclusively for us, and bears our name which assures you of its great merit. Made of steel nicely nickel plated. Will cut several thicknesses of paper. The rotary cutting blade made of the best tool steel, diameter 2 inches. Will last a lifetime. The straightedge is made of several different kinds of wood to prevent warping. Bound with brass. Has an accurate scale which enables you to measure paper while cutting.

75B827—6-ft. Straightedge, trimmer and zinc strip. Shipping weight, 8 lbs. Each **$2.75**
75B828—7-ft. Straightedge, trimmer and zinc strip. Shipping weight, 9 lbs. Each **$2.90**

Glass Cutters

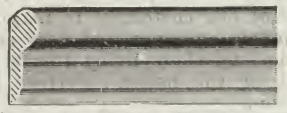
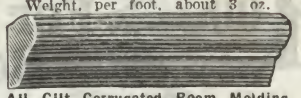
Moulding, Beading, Plate Rails and Chair Rails

Imitation Oak, Georgia Pine, and Genuine Oak Moldings. Perfect grain, and highly polished. Can be used with any color paper or decoration. Weight, per foot, about 3 oz.



176B6035—Imitation Oak. Width, 1½ in. Per foot 1½c
176B6041—Imitation Georgia Pine. Width, 1½ in. Per foot 1½c
176B6045—Genuine Oak. Width, 1½ in. Per foot 2c
176B6051—Genuine Oak. Same as above. Width, 2 in. Per foot 2½c

176B6101—Per foot, 1½c
Width, 1½ in.
Weight, per foot, about 3 oz.



Highly polished White Enameled Molding. There is none prettier than an all white for bed room, parlors, etc., where you have light colored wall paper or decorations.

176B6075—Per foot, 2½c
Width, 1½ in. Weight, per foot, about 3 oz.

Burnished Gilt Molding. The design is perfectly plain, all gilt, of the highest polish, which makes it the finest obtainable. The finish is very lasting, and can be used with any color wall paper or decoration.

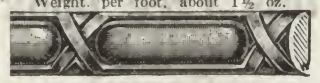
176B6085—Per foot, 2c
Width, 1½ in.
Weight, per foot, about 3 oz.

An All Gilt Corrugated Room Molding. Extra heavy, Roman-finished gilt. This is a neat design, and the effect is very charming. If you order this number, you are sure to be pleased with it.

176B6081—Per foot, 2c
Width, 1½ in.
Weight, per foot, about 3 oz.

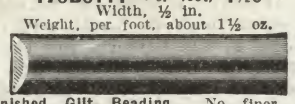
Fancy all gilt molding, in one of our choicest patterns. This is a very effective design, and can be used perfectly with any style of decoration, or on any color walls.

176B6095—Per foot, 2c
Width, 1½ in.
Weight, per foot, about 3 oz.



Any one possessing an eye for art will appreciate the artistic effects marked out in this exclusive design. The lower part is finished in gold bronze with a brown tint, and the upper part is a bright gilt.

176B6055—Per foot, 2c
Width, 1½ in. Weight, per foot, about 3 oz.

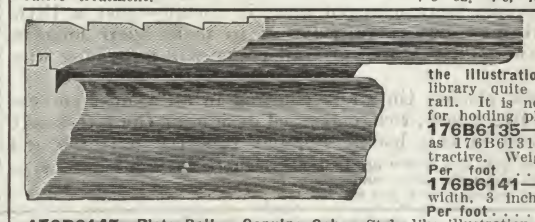


This is a very Handsome and Decorative Molding, in design like illustration. The background is green, with gilt design and is very attractive when used with green wall paper.

176B6105—Per foot, 1½c
Width, ½ in.
Weight, per foot, about 1½ oz.

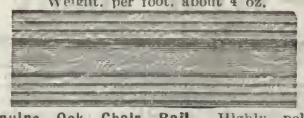
Fancy All Gilt Beading, in design like illustration. Used by decorators for panel work on walls or ceiling. It can be used with any color walls, and the effect is very pleasing.

176B6111—Per foot, 1½c
Width, ½ in.
Weight, per foot, about 1½ oz.

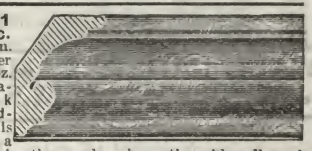


Burnished Gilt Beading. No finer made. Makes a lovely finish for any wall, ceiling paneling, or any other decorative work.

176B6115—Per foot, 1½c
Width, ½ in.
Weight, per foot, about 1½ oz.



A very neat and attractive all gilt flat beading, in the pyramid design. The background is the pebbled effect, with the design polished smooth, which makes handsome paneling or decorative treatment.



176B6145—Plate Rail. Genuine Oak. Style like illustration, and finely polished. Shelf width, 4 in. Weight, about 17 oz. Per foot 10c

176B6151—Per foot, 4c
Width, 2½ in.
Weight, per foot, about 4 oz.

Genuine Oak Chair Rail. Highly polished. It is used to divide the dado from the upper wall paper in dining rooms, halls, etc., and prevents the backs of chairs from defacing the walls. The moldings and rails shown on this page are used largely by city decorators.

176B6121
Per foot, 6c.
Width, 3½ in.
Weight, per ft, about 6oz.

Imitation Oak Cove Molding. This is used as a decoration in the angle where the sidewall and ceiling meet. Can be used with any style or color of wall paper. Pictures can also be hung from this style of molding. Cove moldings are becoming very popular, for they give a very complete finish to any room.

176B6125—Same style as 176B6121, only finished in a plain burnished gilt which is the best made, and will harmonize with any decoration. Width, 2½ in. Weight, per foot, about 5 oz. Per foot 7c

176B6131—Per foot, 7c
Width of shelf, 3 in. Weight, per foot, about 9 oz.

Imitation Oak Plate Rail, like the illustration. There is no dining room or library quite complete unless fitted with plate rail. It is not only ornamental, but very useful for holding photos, china, etc. Highly polished.

176B6135—Plate Rail. Same grade and style as 176B6131. Shelf width, 4 in. Is very attractive. Weight, per foot, about 11 oz. Per foot 9½c

176B6141—Plate Rail of Genuine Oak. Shelf width, 3 inches. Weight, 14 oz. Per foot 8½c

Floor Oil

Especially prepared oil for use on floors of kitchens, pantries, offices, stores, etc. Easily applied with a cloth. Dries quickly and does not leave the surface sticky or greasy. Floors so treated are easily kept clean. Do not require frequent scrubbing. Shipping weight, per gallon, 8 pounds.

75B8230—Quart cans, per can $0.14
75B8231—Half Gallon cans, per can 23
75B8232—One Gallon cans, per can 34
175B8233—5 Gallon cans, per can 1.45

Floor Reviver

A superior article for refinishing and brightening varnished or waxed surfaces. Adapted for floors and wainscoting and may be used on furniture. Applied with a cloth. Dries quickly and leaves the surface in a condition easy to keep clean. Shipping weight, per gallon, about 8 pounds.

75B8255—Pint cans. Per can $0.20
75B8256—Quart cans. Per can 35
75B8257—Half gallon cans. Per can 65
75B8258—One gallon cans. Per gallon . . 1.20

Floor Wax—Pound Can 25c

This wax is a very fine grade and color. May be used on interior wood work and furniture, as well as floors. It produces a rich, durable finish that will not mar or scratch. Applied with a cloth. Dries hard and may be rubbed to a high polish finish.

75B8235—1 pound cans. Per can $0.25
75B8236—4 pound cans. Per can 90
75B8237—8 pound cans. Per can 1.80

Finest Dancing Floor Wax

This wax is in powder form. Simply sprinkle lightly over the floor and the feet of the dancers will do the rest. Will not spoil the most delicate fabric. May be used on the finest floors. This is an especially fine wax preparation.

75B8242—One pound sprinkler-top can . . . 24c

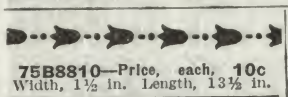
Waxelite

A splendid preparation for floors, furniture and woodwork. Also excellent for oilcloth and linoleum. For floors it is remarkable, because it keeps the floors bright, and doubles the life of the wood. When used on Maple it preserves the whiteness of the wood. This is a liquid and dries quickly. Apply with a cloth or rag. When dry, may be polished with a cloth to a smooth glazed surface. One gallon will cover 600 square feet. Shipping weight, per gallon, 8 pounds.

75B8250—Pint cans. Per can $0.26
75B8251—Quart cans. Per can 42
75B8252—Half gallon cans. Per can . . .75
75B8253—One gallon can. Per can 1.40

Floor Finishing Brush for Waxing Floors

These brushes are made on a solid block, which prevents the bristles from working up and down. A piece of heavy cord around the outer edge of the block to prevent marring the wood work. The castings are finished with bright aluminum. Handles are nicely polished, and swing from center of casting. Length of bristle, ⅞ inch.

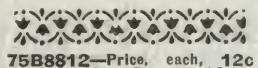


75B8270—15 pound, Family Size, 4½x8½x3⅝ inch. Each $1.25
75B8271—25 Pound, Large Size, 4½x9¾x4 inch. Each $1.55

Decorators' Stencils

Popular and artistic Stencil Designs, for painting and decorating. Walls and ceiling finished with our Flat Wall Finish, or Pur-E-Tone Hot Water Kalsomine and Fresco Colors are particularly well adapted for stenciling. To get the most artistic effect in stenciling, the colors must blend perfectly. This you can accomplish easily. Simply take some of the same paint, or kalsomine used on the walls and add a few drops of brown at a time, being careful not to get it too dark. If too dark there will be too much contrast to be artistic. If your wall color is a gray, use for stenciling the same material adding a little black for a darker shade, or a little white for a lighter shade.

The stencils are made from heavy oiled paper. Also are used on plain or ingrain wall papers, portieres, curtains, table covers, etc. Weight, 3 oz. to 16 oz.



When ordering Stencils, mention Article Number, as shown below.

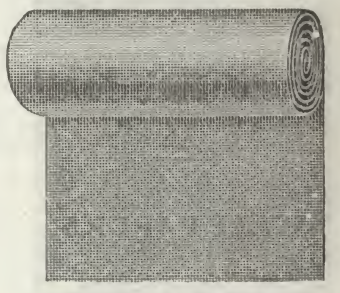
Diamond Wall Paper Cleaner

75B856—A scientifically prepared Cleaner for wall paper, fresco or calcimined walls and window shades. Will not spoil surface. It does not get hard. Full directions with each package. One package will clean one ordinary size room. Weight, per package, 15 oz.

Price, per package $0.10
Price, per dozen packages . . 1.00



Reliance Wall Paper Paste

No better or more economical paste for Paper Hangers, Bill Posters, or for any one who needs good paste quickly. It is simply mixed in cold water until required thickness is secured. It is not intended to be made in bulk, but is mixed at the job, ready for immediate use.

75B854 — Price, per package, 15 oz. 10c
75B855 — Price, per package, 2½ lbs. 20c

"Grip-Tite" Wall Sizing

75B858 — New plastered walls, whether smooth, rough or painted, should be sized before papering. The walls being porous, absorb the paste, causing the paper to peel off. Use our sizing, which is easily mixed with cold water. Then your wall paper, if hung properly, will always be smooth and tight to the wall. One package (1 lb.) will make a gallon of sizing. Price, per package . . 15c

Prepared Burlap

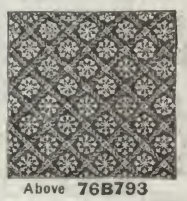
Dyed for Wall Decorations

Elegant and durable wall decorations. This burlap is of superior quality having a filled backing which gives support and strength to the goods. Hang it the same as wall paper. Made in plain colors. Samples furnished on request. Width, 36 inches. Weight, about one pound per yard.

76B760—Golden Brown, per yard 22c
76B762—Dark Brown, per yard 22c
76B764—Green, per yard 22c
76B766—Red, per yard 22c

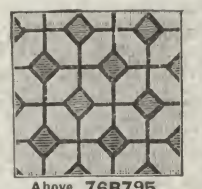
Vitrophane

To meet the demand for a transparency for the decoration of windows, transoms, and sash doors, we list Vitrophane. This is a tough paper, treated by a secret process, to render it partially transparent. Designed and colored to imitate stained glass.



Takes the place of window shades. Admits the light in a very pleasing effect. For sash doors, the glass, when covered with 76B793 (white) has the appearance of a lace curtain.

Vitrophane will last for many years. Will not blister, peel or fade. Not affected by heat or cold. May be cut to fit any glass surface and without waste. Easy to apply, anyone can put it on.



Put up in rolls. Length, 13 ft. 6 in. Width, 18 in.; containing 20¼ sq. ft. Also in half rolls. Length, 6 ft. 9 in., or 10⅛ sq. ft.

76B793—White lace effect. White lines.
76B794—Same, with diagonals in blue.
76B795—Diamonds, alternating red and green.
76B797—Red Roses, green leaves, Black lines.
76B796—Same as 76B797 (no colors). White lines.
76B798—Purple grapes, green leaves. Black lines.

Price, per full roll (20¼ sq. ft.) 60c
Per ½ roll (10⅛ sq. ft.) 30c
Weight, per roll, 12 oz. Per half roll, 8 oz.

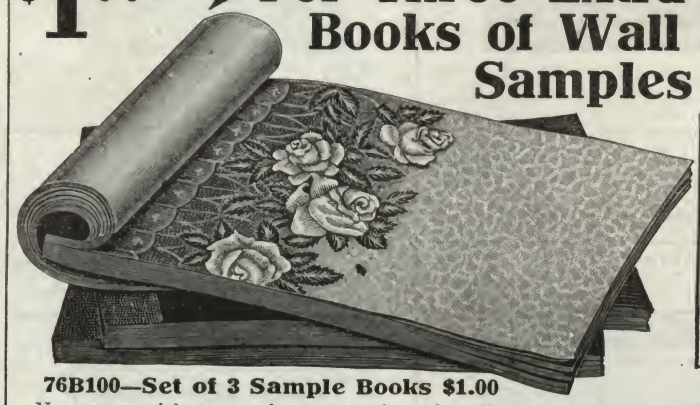
Attractive Wall Decorations

→ Write Today for this Free Book of Wall Paper Samples

From Factory to You



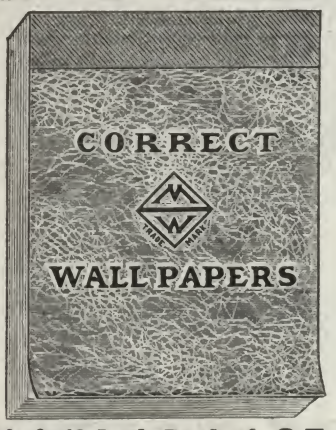
It shows almost 100 actual samples of the very latest wall papers. Some of the patterns are the finest work of leading artists and colorists. Every pattern is fresh and new, as we do not carry any patterns over from the previous season. In this book we explain the application of each design of sidewall, ceiling and border, with price on each sample. You will find it easy and pleasant to make your selections. When you order from us you are sure of receiving the pattern you selected. The quality furnished and the artistic merit of our paper is sure to please you, especially when you consider the money you save in buying of us.

Most people spend at least half their lives right in their own homes, day in and day out. A good many homes would look twice as bright, cheerful and inviting if the paper on the walls were changed once in awhile—just a little oftener than usual. You certainly owe it to yourself to make your home a pleasant place to live in. A few dollars' worth of wall paper will go a long way towards making it so.

In this book we show the new shades, tints and coloring in an almost endless combination of effects. If you like a new, rich, embossed design, or the latest soft aerochromes, you will find them in this book. Popular tapestry patterns and imitation mosaics are shown; also elegant fruit and flower decorations. This book also tells you how to do your own papering, giving you instructions which are simple and easy to follow.

Don't buy a single roll of paper, or any material, until you get this book. Write for your copy.

$1.00 → For Three Extra Large Books of Wall Paper Samples



76B100—Set of 3 Sample Books $1.00

Your Dollar will be Refunded or Credited to you when you Order $10.00 Worth of Wall Paper

You may wish to see large samples of wall paper, ceilings and borders. The books will give you a perfect idea of color schemes for any room you wish to decorate, as they contain actual samples of cretonnes made to exactly match many of the wall paper patterns that are sampled in this book. You will be surprised at the wonderfully large assortment shown. These books contain room interiors in colors to illustrate the harmonious effects that may be obtained. These prove to be a pleasing guide to many of our customers in making their selections, not only of wall paper, but of window hangings and floor coverings. These illustrations of room interiors and colorings show living rooms, parlors, dining-rooms, bedrooms—in fact, every part of the house. Perfect ideas of color schemes are carried out in each illustration.

Remember, these books are sent you on a nominal deposit of $1.00. This dollar is returned to you or credited to you when you order wall paper to the amount of $10.00 or more.

This 9x12 Inch Book of Wall Paper Samples 25c

We return your 25c to you or place it to your credit when you order wall paper amounting to $3.00 or more.

This book contains samples of our entire line of wall paper. Being of larger size than our free wall paper book it gives you a little better idea of each pattern. It also shows the majority of our cut-out borders in colors, and contains a number of colored illustrations of furnished rooms, showing not only the wall paper decorations, but the window hangings and floor coverings which will serve as a guide for you in decorating and furnishing your entire home. It contains instructions for the proper hanging of wall paper, and suggestions for painting. This Special Book, including the postage, costs us over 50c. The small charge of 25c is made just to discourage people who would ask for a copy out of mere curiosity. When you send us an order for wall paper amounting to $3.00 or more, we will refund your 25c, or you can deduct the 25c from your remittance when you send in the order.

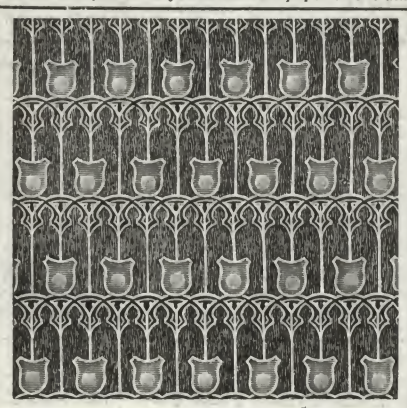
Just enclose 25c and say, "Send me your book

76B25—Correct Wall Paper, postpaid.....**25c**

Heavy Pressed Paper

This pattern contains three shades which blend together in a satisfying manner. Two of the shades are tan and the other deep brown. It is a splendid imitation of pressed leather; many people will take it to be real leather. An excellent substitute for Lincrusta. Made in single rolls of 8 yards, only.

76B772—Per roll of 8 yards.....**35c**



Weight, per roll, about 2 pounds.

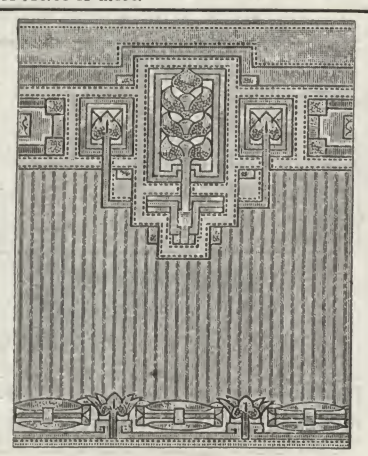
We have also a number of other patterns of this heavy pressed paper. Write for samples and prices.

No description can possibly convey to the reader's mind the great beauty of this material. That is why we want you to write for samples.

This material being water-proof, is easily cleaned with a damp cloth. Hence is thoroughly sanitary. Suitable for any room and has almost no end to its decorative possibilities.

For the living room or parlor, it is customary, when using pressed paper, to run it up to the picture moulding. In dining room, or hall, it is usually used as a wainscoting and may be worked into panel effects.

Lincrusta Relief



A decorative material recognized as one of the very finest wall coverings. A remarkable imitation of carved wood. Is tough and leathery, impervious to water, and practically indestructible. The colors are fast and may be washed with soap and water, thus being thoroughly sanitary. It may be repainted with ordinary paint or varnished same as wood. Will not crack or shrink on the wall. Splendid for wainscoting in dining rooms, halls, kitchens and bath rooms.

Lincrusta must be seen to be fully appreciated. To hang Linerusta requires no expertness. You put it onto the wall the same as wall paper, using a heavy paste, mixed with about one-seventh glue. This is a permanent material, once on your wall, it is there to stay as long as the house stands.

76B780—Tan. Width, 18 inches. Per yard..**13c**
76B782—Brown. Width, 18 inches. Per yard.**13c**
76B784—Red. Width, 18 inches. Per yard..**13c**

Weight, per yard, about 1 pound.

We also carry another design. Samples to show quality and colors sent on request.

This sidewall pattern is our high grade prominent color oatmeal wall paper with a narrow but faint two tone stripe (light brown and tan). Is artistic and pleasing. In the cut-out border the flower figure is a rose color with blocks of green, outlined in two shades of brown. The ceiling in flat colors completes the color scheme and will make any room in your home attractive. The cut-out base which comes with the border contains the same coloring as the border.

Weight, per double roll, about 2 pounds.

76B626—Sidewall pattern. Per double roll of 16 yards.....**20c**
76B1627—18-inch cut-out border, including base. Per yard.....**4½c**
76B682—Ceiling pattern. Per double roll of 16 yards.....**15c**

For those who prefer a plain tan oatmeal for sidewall, we quote this paper as follows:

76B630—Tan sidewall. Per double roll of 16 yards.....**20c**

For prices on other wall paper patterns write for one of our sample books, as described on this page.

Sanitas Oil Cloth Wall Covering---Very Sanitary

This wall covering is desirable because it is permanent. Being washable, it is thoroughly sanitary. The colors are permanent so that after the first cost there is no painting expense. It is easy to hang, in fact, as easy to put on as wall paper. The assortment shows designs that are suitable for any room in the house. Samples gladly sent you on request.

In addition to the patterns shown, we can also furnish the plain or solid color Sanitas. These are in dull finish and in effect look very much like leather. These are particularly well adapted for ceilings, wainscoting or panel work in halls or dining-rooms. May be used also for general wall covering. This Sanitas covering in solid colors, made in the following colors:

76B4011—White. Per yard.....**$0.20**
76B4012—Tan. Per yard.....**.20**

Per double roll.....**20c**
76B2930—9-in. Border. Weight, 1 oz. Per yard.....**1½c**
76B931—Ceiling to Match. Weight, 1½ lbs.
Per double roll.....**20c**
A very interesting shade of green certain to be popular. Stripes and medallions produced in white, tan and varnished gold. Gives a room a cool, refreshing appearance.

76B942—Above Gilt Side Wall. Weight, 1½ lbs.
Per double roll.....**20c**
76B1942—18-in. Border. Weight 1 oz. Per yard...**2½c**
76B943—Ceiling to Match. Wt., 1½ lbs. Double roll..**20c**
A very rich design in red, tan and varnished gold. Red stripe in tapestry effect. Tan stripe decorated with gilt roses set in panels outlined in gold and black lines. Elaborate use of gold and artistic design very pleasing.

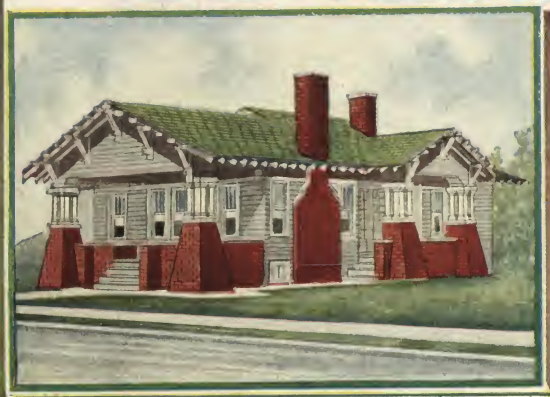
You Are Safe in Ordering Your Wall Paper Right from This Page

Let Us Help You Solve Your Paint Problems

This New Paint Book is Full of Valuable Paint Information

It tells all about how to paint, how to estimate the amount of paint you will need, what kind of paint to buy, how to buy, and what paint is. It shows how to tell good paint from the other kind, and gives you a lot of helpful suggestions in making your home more interesting to others, more pleasing to yourself.

This book also tells about varnish stains, enamels for any purpose, wall tints, wood stains, and other finishes. No matter how small your needs may be in this line, you should have a copy of this book. Maybe it is only the fence, or the porch, or something like that, just a few dollars' worth of paint that you will need; or you may need a brand new coat for every building you own. In any case, you should be careful of the paint you buy.



As a matter of pride, you should keep a good coat of paint on everything that needs it. As a matter of good business, any building or piece of property that's worth keeping at all is worth keeping in good condition by an occasional painting.

You should be just as particular about the paint as you were of the lumber under it. One way to make certain in getting the right paint is to buy a guaranteed brand. If you can't get a real definite guarantee with your paint, why buy it at all?

This book shows over 160 actual shades and colors, among which are the various paints, both for outside and inside use, also the different kinds of finishes, making it easy for you to select just what you want.

99c Per Gallon in 25 Gallon Barrels

$1.07 Per Gallon in 5 Gallon Cans

Our Guarantee
Behind the Paint

1. We guarantee that every article sold will be as illustrated and described in our catalogue; will arrive in good condition; will serve its intended purpose, and will be satisfactory to you.
You may always exchange for other articles or have your money back, including, in either case, the transportation charges which you have paid.
2. We guarantee that Coverall House Paint is made of high grade ingredients, contains nothing injurious, and will produce a gloss finish that will afford perfect protection to the surface on which it is applied.
3. We guarantee that Coverall House Paint will cover from 250 to 350 square feet of surface, two full coats, under fair conditions.
4. We guarantee that Coverall House Paint will not crack, blister, or peel off, when properly applied.
5. We agree to furnish new paint free should Coverall House Paint fail to come up to this guarantee, or should it fail in any way to give you the service you have a right to expect, under fair conditions.
6. It is our desire to make trading with us so easy, so profitable, and so satisfactory, that you will be pleased not only with the goods received, but also with our service and our entire method of dealing.

Our Great Money Saving Paint

For Outside or Inside Use

Coverall House Paint is made in strict accordance with a formula that we know to be correct, one that science and the test of time has proven to be right. Thus we can safely guarantee every can of Coverall. The ingredients that enter into the making of this paint make it especially suitable for outside use. It is also well adapted for inside use on walls (wood or plaster), ceilings, woodwork, cupboards, etc.

Coverall House Paint will outwear many higher priced paints; none will cover more surface or finish with a better gloss. When you buy this paint you have the assurance that it will give you the service you have a right to expect—qualities which are found only in good paint. It dries with a fine, smooth gloss. You are certain to be pleased with it.

Experience is not necessary to apply Coverall Paint. It is ready mixed, but thoroughly ground, so that it spreads very easily. By old methods it was necessary to have the experience of an expert painter to prepare the paint to proper consistency; but Coverall is so carefully prepared that any one following the simple directions on each can will do a first-class job of painting. Coverall is always ready to be applied. You can do your own painting in spare time, thus saving the cost of labor.

You wish your house to appear at its best so as to favorably impress everyone. You want your home to be attractive and pleasing. With shades that are attractive, so that at first sight the house may win the admiration of the passerby, with tints that harmonize and prove to be more pleasing the longer the house and surroundings are studied, with colors that will wear well for several years, this may be accomplished.

The Cash Value of Your Property is Increased

When your house is attractive and pleasing, its real cash value is increased. Add to the value of your house, as well as its beauty, by painting with Coverall House Paint.

The value of a building is thus often increased far beyond the amount spent for paint and labor. Did you ever notice how hard it is to find a buyer for a house that is in need of a coat of paint?

It costs but little to paint a building with two coats of Coverall House Paint—so little that you will be surprised. See what a small amount of money is required to paint the houses shown in colors on the opposite page.

The low price at which we furnish this high class paint makes it possible for everyone to keep his house looking new.

Coverall House Paint will not blister, crack, peel, chalk, or scale. Thus your building, painted with Coverall, is thoroughly protected against decay. Coverall is the best protection you can put on your property.

The name, Montgomery Ward & Company, on a sealed can is your guarantee of quality.

Good paint costs nothing in the long run, because it saves more than its cost by preserving the surface to which it is applied. An unpainted building, or one painted with inferior paint that fades, chalks, or peels off, does not speak well for the owner. If he can afford to paint, and don't know that it will pay him, it is our duty to show him that money so spent is a very profitable investment.
If you neglect to paint your buildings, you will, in a few years, have to rebuild. Protect them against decay and save this loss.

Paint investment is the greatest property insurance on the farm—greater than fire or tornado insurance. Decay is responsible for more property destruction than fire and storm combined.

Why Coverall House Paint is Superior

By repeated tests and exhaustive experiments, we have found a superior formula that has proven to be excellent in wearing qualities and in covering capacity. The best formula alone will not make good paint; the process for manufacture must also be right. The extremely fine grinding of the pigment is very important and for that reason we spare no expense in obtaining machinery that will do the very best work.

The mixing is equally important. There must be uniformity throughout. When the correct materials are thus combined, the greatest possible degree of durability and the greatest possible covering capacity is obtained.

Four Points to Consider in Selecting Paint

The cost of any article you buy involves other considerations than just the price. Paint is no exception to this rule. In selecting paints there are four distinct points you should consider:

1st. The cost per gallon.

The fact that another paint is being offered you at, say double our price, does not mean that it has double value. The difference in price may be due to the fact that our paint goes to you direct from the factory. You pay one small profit added to the very first cost.

2d. The quantity required to cover a given surface.

This brings us right back to one of the reasons why COVERALL house paint is superior. It is the covering capacity that you should particularly give attention to. Do not buy paint by the gallon. Buy it by the square yard. Read our Guarantee.

3rd. Its durability.

Not just how long will a paint last, but how long will it look well. If the paint wears well, but fades, you will have to repaint in a short time or you will be ashamed of the appearance of the building. Furthermore, faded paint on a building means depreciation in the value of your property. Appearance goes a long way with most people.

4th. Will it wear?

In other words, will it wear down smoothly, so that a good surface will be left for your next coat, even after the lapse of a number of years? If the paint wears out rough it will cost considerable to go over the surface with a scraper to smooth down the surface when repainting time comes.

Read Our Guarantee

There is a reason why we are safe in placing such a broad guarantee on Coverall House Paint. The low price does not mean that this is a cheap composition paint. It means that we give you the advantage of the low cost which we secure by the use of thoroughly modern machinery and that we sell to you from the factory direct. There is no chance for variation in quality or color of Coverall House Paint. Our facilities are such as to enable us to furnish you with best quality at a price lower than you could possibly prepare the paint yourself. Also you have the protection of our expert paint chemist, who is constantly on the job to see that no improper ingredient enters into the making of any paint upon which we permit our label to appear.

How to Estimate the Amount of Paint You Need

To estimate the amount of paint you need, add the number of feet in width, front and rear, to the number of feet in length (on each side) of your building. Now, multiply the total by the height, to the eaves, in feet. This will give you the total number of square feet of surface. Then divide by 300, and the result is the number of gallons of paint you will require under ordinary conditions. Add to this from one to two gallons (according to style of house) for cornices, gables and porches. One gallon of our Coverall House Paint will cover approximately 250 to 350 square feet, two coats, or about 450 square feet, one coat.

For Illustration

Front	20 feet
Rear	20 feet
Side	30 feet
Side	30 feet
Total	100 feet

Multiply by height, 20, equals 2,000 square feet. Divide by 300, indicates about 7 gallons. Add, for cornices, gables, porches, etc., one gallon; total, 8 gallons of paint required. This rule should be varied according to the condition of the wood. If the building had been painted once, or if the surface is smooth and hard, less than the above quantity will do. If the building is new and the lumber has never been painted, or the surface is old and porous, a slightly greater amount will be needed. On new buildings, where three coats are applied, use one to two quarts of pure raw linseed oil to each gallon of paint for the priming. Where only two coats are applied use from a pint to one quart of pure raw linseed oil, according to the shade used. Old work, that has not been painted for a long time, should be treated same as new work, described above, but when two coats are applied, use a quart of raw linseed oil to each gallon of paint for the first coat only. If you do not care to do your own figuring, send us the dimensions and particulars about the buildings you contemplate painting—the condition of surface, when painted last, etc. Our Service Department will figure it out for you and tell you how much paint you will need and just what it will cost you to do a good job.

Tower Brand House Paint

You Want Pure Paint

You know what you are getting if you buy a brand of known quality, a brand that is pure paint all the way through. You are sure of both quality and low cost, and doubly sure of the lasting qualities, if you buy paint that is backed by the broad guarantee of Montgomery Ward & Company. The best is always the cheapest; especially is this true when it comes to paint. The cost of spreading cheap paint is no less than that of applying Tower Brand. But if you have to repaint your building three times as often with other paint as with Tower Brand, how much do you save by purchasing cheap paint? On the cost of paint alone you have saved nothing—on labor you have lost money.

Tower Brand Paint is unexcelled in service, in beauty of finish, and in covering capacity—three prime requisites of a good paint. Service—that is what Tower Brand will give you. It will stay on your building for years before it shows wear, and when new painting is necessary the surface will be as good as when the paint was first applied. Poor paint will, in a few months, begin to fade, chip, peel, blister, or crack. Your building will become an eyesore; your work will be lost; you will have to go to the expense of another coat of paint—but even then you cannot get the very best results with the best paint, because the poor paint will have left the surface rough. When a good paint, like Tower Brand is used, the finish on your building will be a thing of beauty for several years.

Strongest Paint Guarantee Ever Made

We put our word on the paint question in the form of the strongest paint guarantee that we believe it is possible to write.

This guarantee is on every can of Tower Brand Paint:

1. We Guarantee that every article sold will be as illustrated and described in our Catalogue; will arrive in good condition; will serve its intended purpose, and will be satisfactory to you.

2. You may always exchange for other articles or have your money back, including, in either case, the transportation charges you have paid.

3. We Guarantee that Tower Brand House Paint is 100 per cent pure.

4. We Guarantee that the pigment is composed of 50 per cent pure Sublimed White Lead and 50 per cent XX New Jersey Zinc Oxide (where white lead and zinc oxide can be used), and chemically pure colors and nothing else.

5. We Guarantee that the liquid is composed of pure linseed oil, turpentine and japan dryer, and nothing else.

6. We Guarantee that it will cover approximately 300 to 350 square feet, two full coats to the gallon, depending on the condition of the surface.

7. We Guarantee, finally, that it will not peel, blister, crack or rub off, when properly applied.

8. We agree to furnish new paint Free, should Tower Brand House Paint fail to comply with this guarantee.

9. It is our desire to make trading with us so easy, so profitable, and so satisfactory, that you will be pleased not only with the goods received, but also with our service and our entire method of dealing.

One Gallon of Tower Brand House Paint Covers 350 Square Feet Two Full Coats

Think of it—350 square feet of ordinary building surface covered, two full coats, with only one gallon of Tower Brand 100 per cent Pure Paint. Paint with various "fillers" and other "composition" can't possibly be made to cover so much space and last. Tower Brand gives you a remarkable combination of paint qualities—it combines a very smooth, even, thin spread with unusual toughness and durability. You can put any paint on thin, but it won't be a real protection to the painted surface unless it actually has the weather and wear-resisting qualities. Poor paint has to be put on thick to make the kind of coating that gives the surface real protection. And in a few months it will chip and peel and crack and your building will be only half protected. Tower Brand will stay for years before it shows wear, and when new paint is necessary, the surface will be as good as when the paint was first applied.

"Tower Brand" costs a little more than some of the composition paints, but it is worth the difference many times over. For the little difference in price, Tower Brand will give you a great big difference in the satisfaction and the service you will get. Tower Brand is actually sold for less than some composition paints would cost you over the counter. Why not make the double bargain—get the better paint at the saving price?

Why take chances on paint, varnish, or any material that is in a sealed can when you can buy under our broad guarantee, which you know means just what it says?

We can sell you such good paint at prices so extremely low because, in buying paint from us, you are getting it direct "from factory to you," with only one small profit added—much smaller than almost anyone else could do business on.

Guaranteed 100% Pure

Every gallon of Tower Brand is 100 per cent pure. It is uniform, and of the very highest grade that can be produced. If a better paint could be made, we would make it. We make our own paint, using the latest and most approved machinery. We have our own laboratory, where skilled chemists are constantly at work keeping up our high standard of quality.

We have complete confidence in Tower Brand Paint, because everything in the paint is pure. We add no "fillers" of any kind—the only things that go into Tower Brand are the ingredients actually needed to make a perfect paint.

It is worth much to you to know that you are getting the best. You can be confident of this when you buy of Montgomery Ward & Company.

Tower Brand is made under a formula that eliminates paint faults—a formula which science and the test of time have proven to be correct. Each ingredient is chosen to perform a definite function. Sublimed White Lead and Zinc Oxide (the pigments in Tower Brand Paint) are pure products—that is, minute particles collected from the fumes of melted ore. We use sublimed white lead because its physical structure makes it the most staple of all white leads. It is very opaque, is uniform in composition, extremely fine in texture, and has no destructive effect on the paint liquids. The zinc oxide, combined with white lead in the proper proportions, adds strength and gloss to the paint film, and greatly increases its weather-resisting qualities.

A prominent manufacturer of white lead, when asked if he would use straight lead or a combination on his own house, replied that he would add a percentage of zinc, but would not advertise the fact. This manufacturer's experience taught him that two white pigments in proper combination are better than one alone. The linseed oil is the life of the paint, but only pure oil is efficient. The pure gum turpentine makes Tower Brand Paint spread easily, and the japan dryer makes it dry quickly and evenly.

All materials used in making Tower Brand Paint are carefully selected and tested by skilled experts. Each material must test out 100 per cent pure. This great care is taken for your protection.

Perfection of Paint Service and Paint Economy

Tower Brand is sold to you with a distinct understanding that it will give you a maximum of service and that it is clear, pure paint all through. It is made under the direction of a paint expert—a man who watches every detail. His supervision assures that every gallon of this paint will be pure, perfect paint. You take absolutely no risk when you buy Tower Brand. You get full measure, full value, full service—and a guarantee that makes satisfaction doubly sure.

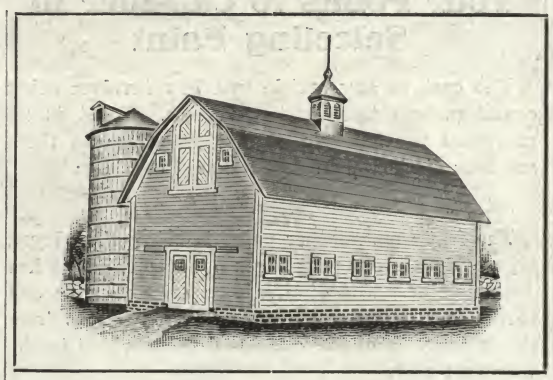
Coverall Barn Paint

The Best Guaranteed Barn Paint

There is no barn paint made at any price that spreads better, makes a better finish, or will last longer than Coverall Barn Paint.

Our plant for the manufacture of Coverall Barn Paint is most modern, and contains the latest improved machinery. If any new or better machinery is produced, we lose no time in adding it to our equipment.

The thorough grinding of the pigments to extreme fineness, and the proper mixing of the paint ingredients, are the reasons for the wonderful success of this paint.



Coverall Barn Paint is made from high-grade metallic pigments, or natural oxides, ground by powerful machinery, and thoroughly mixed in pure linseed oil and the necessary dryers. It is weather-proof, rain-proof, rust-proof, and will not crack, peel or blister under the severest, most trying weather conditions.

For service, protection, economy and beauty of finish, it is the logical paint to use on your barns, out-buildings, fences, tin, shingle and metal roofs. You don't have to be an expert to apply this paint. You can do a first-class job even though you are not a painter. Our Paint Book, which we will gladly send you on request, will tell you how to do the work yourself; in fact it tells many painter's secrets. You surely will want to take advantage of these money-saving prices. You will be surprised at the small cost of painting your barn with Coverall Barn Paint.

It Will Pay You To Keep Your Barn, Silo, Sheds, and Fences Painted

It is unnecessary to tell you that you should keep your barn painted. You know that it is to your interest. It means preserving it against decay. If you neglect to paint your barn, it will in a very few years either have to be replaced by a new building or will require expensive repairs.

Investment in paint is the best insurance you can get. We manufacture our own paint. We buy and test every ingredient under the supervision of the very best paint experts. That is why we can place such a strong guarantee on it. The MONTGOMERY WARD & COMPANY guarantee means something. Getting your order is only half the transaction. We are satisfied only when we know you are. Our highest duty is serving our customers, and until you are fully satisfied with every purchase our work is not complete. Our interest in your order ends only when the goods satisfy you. Once you buy COVERALL BARN PAINT you will want no other brand. Repeat orders are proof of the superior merits of the paint. One trial will convince you.

Coverall Barn Paint Will Cover 300 Square Feet Two Coats

Its covering capacity, united with its enduring and preserving qualities, makes it one of the best paints it is possible to produce for the purpose, and one of the most economical. One gallon will cover approximately 300 square feet, two coats. When one coat only is applied, use Coverall Barn Paint just as it comes in the can. If a two-coat job on a new building or on one that is badly weather-beaten, add, for the first coat, from a quart to a half gallon Raw Linseed Oil to each gallon of paint.

When you come to buy paint for your barn and other buildings, be sure to look to the covering qualities. Don't buy the paint simply by the gallon; buy it by the number of square feet to the gallon.

Naturally you would ask why a gallon of Coverall Paint will cover as much as 300 square feet, two coats. Coverall Barn Paint, like all of our paints, is made under the supervision and constant direction of our expert paint chemist. Not only is the grade and quality of all the ingredients that enter into the making of this paint carefully guarded, but the pigments must be crushed and ground to extremely minute particles. This is done by the use of powerful millstones, and in oil. The very fine grinding of the pigments and the thorough mixing of them in oil produce this great covering capacity. That, also, makes it easy spreading and uniform in color. Thus you will see we have been so careful in the manufacture of Coverall Barn Paint, that we have produced an article which will give you the service that you have a right to expect.

Also Well Adapted for Use on Fences, Sheds, Roofs, etc.

Because of the wonderful wearing qualities and durability of Coverall Barn Paint it is wonderfully well adapted to use on other buildings besides barns. In fact, it is perfect paint for use on fences or roofs. The saving effected repays you many times over the actual cost in the paint. You can also use this paint on metal or shingle roofs, on gutters, water tanks, drain pipes, cornices and wind mills.

When you see a place where every fence, shed, building or structure of any kind is thoroughly covered with paint, the newness and brightness of everything on the place attract you.

At first consideration the cost of the paint may be thought considerable. It is merely a small item and soon pays for itself many times over in the protection against decay, to say nothing about appearance.

Our Low Price Does Not Mean An Inferior Paint

Our price is as low as a really good, reliable barn paint can be sold for. The real economy in barn painting is not in buying cheap paint, but in buying good paint at reasonable prices. Bear in mind that it costs exactly as much to apply cheap paint as it does to apply good paint, and that the cost of application represents fully two-thirds of your total painting expense. In buying paint, the big point to consider, then, is not the initial cost per gallon, but rather the covering capacity of each gallon, the wearing qualities, and what will be the condition of the surface when ready for repainting. In other words, you should buy paint service rather than paint material.

Made in colors—150 Yellow, 157 Red, 155 Princess Mineral, 156 Roof Green, 159 Slate, 160 Lead Color.

PAINT PRICES ADVANCE JANUARY 1, 1916

NEARLY all of the materials used in the manufacture of paint have advanced steadily since the outbreak of the European War. Zinc, lead and linseed oil, which are three of the most important materials that enter into the making of our paint, have advanced to a point much greater than the market price on July 1st, 1914. Also many of the most important colors have advanced to an alarming extent. We, therefore, must advance our prices on paint on January 1st, 1916.

It is fortunate that we have a liberal supply of all these materials on hand and are giving our customers the advantage as long as we possibly can. So we will not be compelled to advance our paint prices until Jan. 1, 1916.

All orders for paint that we receive before January 1st, 1916, will be filled at the regular prices as quoted in this catalogue. After January 1st, 1916, the prices for paint will be as follows:

Coverall House Paint

Prices after January 1st, 1916

	All colors and shades	Inside and outside white

MONTGOMERY WARD & CO.
CHICAGO AVENUE BRIDGE, CHICAGO

BIBLIOTECA NACIONAL DE MAESTROS
DIRECCIÓN GENERAL DE CULTURA

Superior Roof Stain, Paint and Coating

Trowel Roof Cement

An Elastic, BLACK, Indestructible, Water-proof Cement, for all kinds of roofs and repair work

Stops Leaks and Cracks
For Old Roofs—For New Roofs—Apply With a Trowel

For Old and Leaky Roofs—Flashing on Roofs—Calking Boat Bottoms—Chimneys and Flues—Lining Old Gutters and Spouts—Sealing Cracks in Basement Walls

Trowel Roof Cement is an elastic cement that is tough and will not set brittle. Will therefore never crumble nor is it affected by heat or cold.

Makes no difference where you use it, Trowel Cement will stop any leak or crack and it will stay stopped. Ordinary cement sets hard and dries out by evaporation, eventually loosening and dropping out. Not so with Trowel Cement, because it is exceedingly elastic and will last as long as the surface on which it is used. It is very adhesive; so much so that it really becomes a part of the surface on which it is applied. Really it makes the roof one solid sheet that cannot leak.

Where there is only a small leak, plug up the hole the same as you would with putty, smoothing down the edge with a trowel or putty knife. In case of a very large hole, put on a patch of tin or sheet iron, nail the edges down and cover with cement to the thickness of about ¼ inch. Where the roof is in generally bad condition, spread evenly over it a coating of cement about ⅛ inch thick, working out edges smoothly. Applied to a smooth surface to an even thickness of ⅛ inch, 100 pounds of cement will cover about 125 square feet. Applied over the entire surface of a shingled roof, a little more of the cement will be needed on account of the unevenness of the surface. It is excellent for this purpose. Unless the roof is in a generally bad condition, Trowel Roof Cement need not be applied more than from a sixteenth to an eighth of an inch thick. When so spread, 40 pounds should be sufficient to cover 100 square feet of surface on a smooth roof.

There are so many uses for Trowel Roof Cement, that you should always have a supply on hand. You never know when you will be in great need of just such an article.

75B7784—5-lb. pails. Per pail..**$0.50**

Asphalt Roof Coating in Colors

Black, Red and Green

Particularly Adapted for Composition or Felt Roofs. Can be Used on Shingle Roofs, Tin Roofs, Sheds or Warehouses. Asphalt Roof Paint has the same good effect on felt and composition roofs that ordinary paint has on wood. The more protection your roof has the longer it will last. Asphalt Roof Paint will give new life to the roof, and, if repeated every two or three years, will preserve, protect and keep the surface in first-class condition. It is elastic and durable. Has good body. It will prove itself to be a most satisfactory coating. It is ready to use and is easily applied. One gallon will cover from 200 to 250 square feet of surface, one coat. While, considering its covering capacity, this paint is low in price, you will find it very satisfactory in every way.

You Can Stain any Prepared Roofing Just as You Would Shingles

Asphalt Roof Coating comes in three colors—black, red or green. The black, if anything, is the more durable color, but the red and green produce very pretty effects and are particularly desirable for residences.

Shipping weight, about 8½ pounds per gallon.

Superior Shingle Stain

Protect—Beautify—Preserve Your Roof

Use Superior Shingle Stain on your shingle roofs, sides of buildings, bungalows, etc. Not only will it greatly improve their appearance, but it will protect your building from the destructive action of the weather. Our stain contains a good percentage of creosote oil—the best wood preservative known. One of its principal characteristics is its penetration of wood. It prevents decay and produces that soft, mottled finish so much in demand. Shingle stain is easily applied. Be sure that the shingles are clean and dry. Remember, the life of the stain depends upon the depth to which it penetrates the wood. If the roof you wish to treat with shingle stain has been on so long as to become darkened by the weather, select a lighter shade of shingle stain than the color that you actually wish it to be. One gallon will cover 100 square feet, two coats, if applied with a brush. Two and one-half gallons will be sufficient for 1,000 shingles dipped two-thirds their length. If applied to the roof when new, Superior Shingle stain is better than paint, because the stain will penetrate some distance under the lap of each shingle—a valuable feature.

Shingle stain is really an investment and not an expense. Made in the following eight colors: No. 500, Dark brown; No. 501, Clover red; No. 504, Yellow; No. 506, Brown; No. 508, Olive; No. 511, Dark green; No. 512, Red; No. 516, Grass green.

Shipping weight, about 10 pounds per gallon.

Barrels and Half Barrels shipped from factory in Chicago.
Be sure to state in your order the color you want.

Elastic Rubber Roof Paint

For Felt or Composition Roofs, Metal Roofs and Muslin Roofs For Iron Fences, Street Bridges, Wind Mills and Water Tanks

One of the strongest features of this paint is shown in the repairing of leaky roofs. A leak can be permanently stopped by first painting the surface over the leak, then laying on a piece of muslin, and finally coating the muslin with this paint. You then have a patch that is water-proof and one that will last indefinitely. Comes to you all ready to apply. Does not need to be thinned. Before applying be sure to thoroughly sweep or scrape the surface to be painted. One gallon will cover about 250 square feet, one coat. This paint will stand expansion and contraction caused by weather changes, without cracking or peeling. It will not run in the hottest weather, nor crack in the coldest. "Elastic Rubber Roof Paint" gives a bright, glossy finish that is sun-proof, water-proof, elastic and durable.

The long-handle brush used in the illustration is our special roof brush. You will find it described on another page. (See index for roofing brushes.) Elastic Rubber Roof Paint may also be applied with any wide wall brush.

Heavy Roof and Fence Paint

An Elastic Water-Proof Paint for Fences, Bridges, Water Tanks and Towers, Roofs and any Metal or Wooden Surfaces

An Elastic Waterproof Paint for Fences, Bridges, Water Tanks, Towers, Roofs and any Metal or Wooden Surfaces. A protection and leak preventative for all kinds of roofs—shingle, tin, composition or felt. Particularly adapted for old roofs, where their condition is beyond the aid of ordinary paint. It will render your roof water-proof and serviceable for many years.

Also may be used on bridges, iron or wooden water tanks, smokestacks or other iron work subjected to heat or outside exposure. Comes ready for use and is easy to apply. One gallon will cover 200 to 300 square feet, one coat, on a fairly smooth surface. In most cases one coat will be sufficient. Where the leaks are exceptionally large, first fill the holes with Elastic Roof Cement, then apply the Heavy Roof Paint. Made in two colors—Black or Maroon. Shipping weight per gallon, 10 pounds.

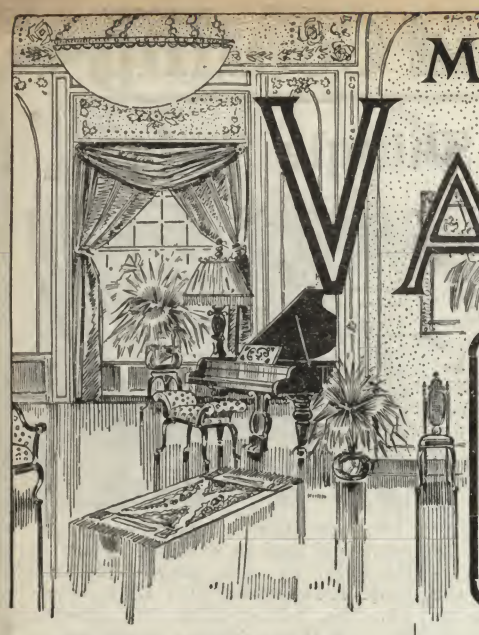
Elastic Roof Cement



An asbestos roof cement that will positively stop all leaks.

For repairing all kinds of roofs, gutters, chimney joints, skylights, grain bins, culverts or irrigation flumes. Indispensable for the repairing of leaky concrete or metal tanks. May be used on wood, brick, iron, tin, or glass. Easily applied with a putty knife or trowel. Weather will not affect it. It will last as long as the surface on which it is applied.

Mr. Home Owner: Our builders' hardware saves repair bills

MONTGOMERY WARD & CO.'S SUPERIOR VARNISHES

The Standard of Quality

A Complete Line of Varnishes for Every Purpose

In buying varnishes, please bear in mind that durability is found only in good varnishes. Our superior line of varnishes is designed to include a varnish for every purpose and for every condition, each one of which, in quality, has no superior. They are durable, work, flow and dry properly, and always uniform. Nothing has been spared, either in quality or material or skill, to place our superior varnishes among the finest the world produces. The prices we quote means a saving to you of from fifty (50) cents to one dollar per gallon.

A gallon of our Varnishes covers about 600 sq. ft. on oak, or about 400 sq. ft. on pine, one coat.

Each can of M. W. & Co.'s Superior Varnishes bears full and complete directions that will be of great assistance to you in getting the very best results. You will have no difficulty in using our Varnishes. Shipping weight, of varnish, 11 pounds per gallon; 7½ pounds per ½ gallon; 4 pounds per quart; 2½ pounds per pint.

Marproof Floor Varnish $1.98 a Gallon

A VARNISH THAT WILL STAND THE WEAR. You cannot buy a varnish anywhere, no matter what price you pay, that will prove more serviceable or more economical than Marproof.

Water won't hurt Marproof. It makes your floor heel-proof, mar-proof, and positively waterproof. It withstands repeated washings, and gives a tough, durable, and elastic finish that does not scratch nor show heel marks on old or new floors. Can be rubbed for dull finish.

Marproof is equal, if not superior in quality, to many brands sold at three dollars a gallon. Our price, $1.98.

Extra Hard-Oil Varnish

A $2.00 VARNISH. OUR PRICE ..... $1.15 A Gallon

A good, medium-priced varnish. For interior finish of natural woods, where a quick and not too expensive finish is desired. It works freely, dries quickly, and gives a full, rich lustre. This is a very satisfactory varnish for the purpose, and should not be confused with cheap and inferior varnishes sometimes sold under this same name.

Rubbed Finish Varnish $2.10 A Gallon

Rubbed Finish Varnish, when applied over a varnished surface, produces the exact effect of a rubbed varnish, without the expense of rubbing down a gloss coat. It is a superior article of merit, and produces a finish that is soft, pleasing, and durable. Will not mar or scratch white. Is entirely free from wax, dries in 24 hours, and should be used like regular varnish. **The only special requisite is to shake the can and stir thoroughly before using.**

Varnish Stains

Make Furniture Look Like New

Varnish Stain is especially adapted for refinishing woodwork or furniture that has been previously finished with paint, varnish or stains. It is also used on new work or soft wood, such as pine, where a rich, gloss stained finish is desired. It stains and varnishes with one application, and dries hard with a fine lustre in from 8 to 12 hours. It answers every requirement for refinishing interior woodwork and furniture, where it is desired to do so at a nominal cost.

To obtain the best results on old work that has been stained or varnished, use a shade of Varnish Stain similar to the old work, or a darker shade. One coat is usually sufficient for refinishing such old work.

Where Varnish Stain is used on an old **painted surface,** a coat of ground color No. 188½ should first be applied. This gives a solid ground color, of the texture of newly-planed wood. Then apply two coats of Varnish Stain of the shade desired. One gallon will cover 400 square feet, one coat. Colors: 183, Cherry; 184, Mahogany; 185, Light Oak; 186; Rosewood; 186½, Leaf Green; 187, Antique Oak; 188, Walnut; 188½, Ground Color. **State color wanted.**

75B8120—½ pint can. Weight, 1½ pounds. Per can 16c
75B8121—Pint can. Weight, 2½ pounds. Per can 22c
75B8122—Quart can. Weight, 4 pounds. Per can 40c
75B8123—½ gallon can. Weight, 7½ pounds. Per can 75c
75B8124—1 gallon can. Weight, 11 pounds. Per can $1.40

Makes Your Home Bright and Cheerful

CO-VAR-FINISH

(Means Colored Varnish)

"Co-Var-Finish" is a high quality varnish, colored in such a manner that the colors of expensive woods, such as mahogany, rosewood, walnut, cherry and oak, may be produced on new woodwork or over an old finish, whether enameled, varnished, stained or painted. It is not necessary to remove the old finish, but to see that the surface is dry, clean and smooth before applying. "Co-Var-Finish" is also used with great success on linoleum and oilcloth. "Co-Var-Finish" is prepared ready to apply. Previous knowledge or experience with finishes not necessary. There are no intricate directions to follow. It is so easy to apply that a woman can do the work.

Imagaine the delight of the housewife when she can, at a trifling expense, change the finish on the floor or any woodwork, to imitate light or dark oak, walnut, mahogany, cherry, or any finish she chooses.

"Co-Var-Finish" is applied easily, with a varnish brush. It spreads smoothly and dries over night with a glossy finish, hard as a rock. It will not soften through usage or wear, nor chip or flake. If you wish to change the finish from a dark to a lighter shade, first apply a coat of ground color. This is a dull yellow that completely covers the old finish, and supplies an excellent background or foundation upon which to apply the lighter finish you wish.

If some of your furniture has lost its finish, or is not in harmony with the surroundings, no need of throwing it away. A very little "Co-Var-Finish" will do wonders. You can make furniture look like new. You can change the color to harmonize with your carpets and curtain hangings.

One gallon will cover about 450 square feet, one coat.

Colors: 183, Cherry; 184, Mahogany; 185, Light Oak; 186, Rosewood; 186½, Leaf Green; 187, Antique Oak; 188, Walnut; 188½, Ground Color. **State color wanted.**

Mission Art Finishes

For New Interior Finish and New Furniture

Penetrating one-coat Art Stains. Used on new work only. For floors, interior woodwork and furniture. Beautiful in tone and coloring. The beautiful shades are characteristic of these stains only, and the wonderful possibilities of coloring they offer make them a delight to all lovers of the artistic and beautiful. Extensive home decoration is possible at a very small cost. One gallon will stain from 700 to 1,000 square feet of surface. These stains do not streak or show laps, but stain evenly, penetrate thoroughly, and cover such large surface as to be economical. They do not mar, scratch or rub, nor do they raise the grain of the wood. Knowledge of wood finishing, or previous experience, are not necessary. The directions on each can are simple and complete, and the use of Mission Art Finishes will be readily understood.

Furnished in Golden Oak, Early English Oak, Old English Oak, Modern Weathered Oak, Fumed Oak, Forest Green Oak or Dark Mahogany. **State color wanted.**

75B8134—1 Gallon cans. Weight, 10¼ pounds. Per can $1.85

Oil Wood Stains

Used Only for New Floors and Woodwork

These are high-class Oil Stains. Made by grinding permanent colors in pure linseed oil and turpentine. Put up in the same colors as "Co-Var-Finish," but to be used on new woodwork only. To give a proper finish a coat of wax or varnish must be applied after the stain is dry. One quart will cover 100 square feet, one coat.

Colors: 183, Cherry; 184, Mahogany; 185, Light Oak; 186, Rosewood; 186½, Leaf Green; 187, Antique Oak; 188, Walnut.

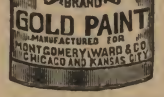
Enamels—Gold and Aluminum Paint—Wall Finishes

Liquid Enamel Paint in Colors



For interior finish these enamels cannot be surpassed. By their use you can accomplish surprising results over old woodwork or old furniture. Liquid enamel paint is also well suited for new finish. It produces a perfectly smooth, glossy finish, that is very easy to keep clean. It may be washed repeatedly without injury. May be used over metal as well as on wood. Use it for metal ceilings, plastered walls, on cupboards, woodwork, furniture, in fact, for all interior wood or metal work, including metal bedsteads. Dries hard in twenty-four hours.

Liquid Enamel Paint is tough and elastic, not easily marred or scratched. Retains its lustre and beauty for several years. One gallon will cover from 200 to 250 square feet, two coats. If you intend to use Liquid Enamel Paint over plastered surface, apply first a coat of Fresco Wall Size, unless the wall has been painted before. Liquid Enamel Paint comes in the following colors: 171, Ivory; 172, Green; 173, Lawn Green; 175, Sky Blue; 176, Straw; 177, Silver Gray; 178, Wild Rose; 179, Cream; 180, Crimson; 181, Light Tan; 183, Leather Brown; 184, Willow Green. Tan; 183, Leather Brown; 184, Willow Green; 172½, Black; 171½, White. **State color wanted.**

Sunset Brand Ready Mixed Gold Paint

This paint is manufactured by a patented process. The surface coated will hold all the beauty of finish under any and all conditions for a much longer time than gold enamel made under any other process that we know of. It will not rub off. It withstands the heat of steam pipes and radiators and is not affected by moisture. It is ready to use and easy to apply. You can use it on old picture frames, porch chairs, brackets, flower pots, ornaments, radiators, steam pipes and bedsteads.

75B8190—Quarter pint cans. Ship. wt., 1¼ lbs., for **23c**
75B8191—Half Pint Cans. Ship. wt., 1⅝ lbs., for **35c**
75B8192—Pint Cans. Ship. wt., 2½ lbs. **$0.58**
75B8193—Quart Cans. Ship. wt., 3 lbs. . **1.05**

Sunset Brand Aluminum Paint Ready Mixed

Made from the finest grade of Aluminum Bronze. It dries quickly with a brilliant finish. It does not spoil or lose its brilliancy while standing in the can. Put the cover back on the can after using and what you have left will keep. Its brilliant finish is permanent, either in the air or under water. It prevents rust and is oil and grease proof. It may be used for coating pipes and radiators, as it will stand the heat of steam. Washing with soap and water will not injure it. Easy to apply.

Gold and Aluminum Enamel—Unmixed

Indispensable for home decoration or art work. May be used for all kinds of artistic and decorative painting, picture frames, curtain poles, toys, paper and household ornaments. Easy to apply. It has a brilliant and durable lustre, the gold being similar to gold leaf, and the aluminum looks like silver finish. Each box contains one bottle of bronze and one bottle of banana liquid, a brush and a mixing cup.

75B8526 — Small Size, ½ oz. Gold, 2 oz. Banana Liquid **14c**
75B8527—Large Size, 1 oz. Gold, 4 oz. Banana Liquid **25c**
75B8528—Small Size, ½ oz. Aluminum, 2 oz. Banana Liquid **14c**
75B8529—Large Size, 1 oz. Aluminum, 4 oz. Banana Liquid **25c**
Ship. wt., small size, 1 lb.; large size, 1⅛ lbs.

Bronze Powder Unmixed Gold and Aluminum

These bronzes are finely ground, of good quality and durable. For use in gilding, decorating, sign work; for use on picture frames, radiators, steam pipes and other work. To prepare, mix with Banana Liquid, using about a pint of Liquid to 6 ounces of Gold Bronze, or 4 ounces of Aluminum Bronze. Apply with a soft hair or bronzing brush.

LIGHT OR PALE GOLD BRONZE POWDER.
Light in color. A pure metal bronze.
75B8512—Half pound cans. For **50c**
75B8513—1 pound cans. For **95c**

Bronzing Liquid

A good grade of bronzing liquid for mixing gold, aluminum and other bronze paint. For most purposes this liquid is as good as Banana Liquid.
75B8530—Pint Cans. Ship. wt., 2¼ lbs. . **24c**
75B8531—Quart Cans. Ship. wt., 4 lbs. . **40c**

Banana Liquid

For mixing Gold, Aluminum and other Bronzes. This is a water-white Banana liquid. It produces a most durable and heat-resisting paint. It also gives that fine satin finish so much desired on ornaments and decorations. Do not use Banana Liquid for mixing where the paint is to be used over a varnished surface.
75B8533—Half Pint Cans. Ship. wt., 1 lb. **18c**
75B8534—Pint Cans. Ship. wt., 2½ lbs. . **30c**
75B8535—Quart Cans. Ship. wt., 4 lbs. . **50c**

Towerlite White Enamel

Highest Grade Enamel Made—Looks Like Porcelain

No finish is more pleasing than a pure white Porcelain Enamel. Its attractiveness and beauty never tire one. White is an emblem of purity, and any room finished in white enamel gives one a feeling of absolute cleanliness. A parlor or living room in which the woodwork and furniture are finished with Towerlite and the draperies, floor coverings and upholstering in a dainty shade (and most any shade harmonizes with white) presents a very rich appearance that cannot be accomplished by any other treatment. This you may say applies to any white, but that is not the case. The porcelain-like texture of Towerlite gives that pleasing effect that is absent in nearly all white finishes. Try a can of Towerlite and you will be convinced. Because of its smooth, glossy finish, it is easily kept clean. It is, therefore, thoroughly sanitary. Because of this quality Towerlite is used extensively in hospitals and public buildings. It is also the ideal finish for bath rooms, kitchens, and other rooms.

A remarkably pleasing effect is obtained in the treatment of a room, by finishing the doors and all furniture with Mahogany Co-Var-Finish, but all other woodwork in the room finished in Towerlite, a combination which is very pleasing and has become quite popular.

Towerlite is not only snow white when first applied, but will remain a pure white, that is, it will not turn yellow, will not scale, chip or crack. It gives a rich, hard, perfectly white gloss that may be rubbed to a dull finish. Unless the surface to which you wish to apply Towerlite is now painted white and is smooth, you should, in order to secure the best results, sandpaper the surface (the smoother the better), and apply one or more coats of our No. 10½ Inside Flat White Coverall House Paint. The surface should first be made perfectly smooth, and by using this flat white, you are safe against any coloring matter in the foundation paint showing through the enameled coat. Remember, the better the foundation the better the finish you will get with Towerlite. Towerlite, we believe, is one of the highest grades of white enamel made.

75B8432—Half Pint Cans. Ship. wt., 1⅛ lbs. For **25c**
75B8433 — Pint Cans. Ship. wt., 2¼ lbs. For **45c**
75B8434 — Quart Cans. Ship. wt., 4¼ lbs. For **80c**
75B8435—Half Gal. Cans. Ship. wt., 10 lbs. For **$1.45**
75B8436 — Gal. Cans. Ship. wt., 15½ lbs. For **$2.75**

Make Your Home Attractive by Decorating with Flat Wall Finish

A Special Oil Paint for Walls that may be washed with soap and water.

An oil finish that is very artistic and desirable. Being waterproof, it may be washed with soap and water. Thoroughly sanitary. Is easy to apply. Never wears out. Does not rub off on the clothes like many other wall finishes.

Flat Wall Finish dries quickly without gloss. It gives a dainty, velvety finish, and thoroughly protects the wall. This is an excellent Flat Finish for interior work, for walls, woodwork, plaster board, or metal ceilings. It produces a smooth, soft, and artistic finish, which is so much desired.

An endless number of pleasing combinations may be secured by the use of the various tints. Always remember, however, that to get proper results, the lighter tint must always appear above the darker tint, and not under. All pleasing effects are accomplished by using a lighter tint on the ceiling than is used for the side wall. Then, too, by application of the proper stenciling, wonderful results may be secured. (For stencil see index.)

You can do all this work yourself; you would enjoy it. Consider the satisfaction you will experience in knowing that it is your own work. Flat Wall Finish is made ready for use. When used on smooth plastered walls, one gallon will cover from 200 to 250 square feet, two coats.

Before using on new walls or on old walls that have never been sized, the surface should first be given a coat of Fresco Wall Size. Colors are: 120, Ivory; 122, Light Canary; 123, Light Tan; 124, Golden Brown; 125, Shell Pink; 127, Quaker Gray; 128, Pale Azure; 129, Willow Green; 130, Maple Green; 131, Rich Red. **State color you wish.**

75B8086 — Quart Cans. Ship. wt., 5 lbs. For **39c**
75B8087—Half Gal. Cans. Ship. wt., 10 lbs. For **73c**
75B8088—One Gal. Cans. Ship. wt., 15 lbs. For **$1.35**
175B8089—3 Gal. Cans. Ship. wt., 45 lbs. For **$3.98**

This dining room is very effective, when the woodwork and furniture are finished in antique oak, the side wall, above plate rail finished in willow green Flat Wall Finish, and ceiling, with ivory Flat Wall Finish.

Radiator Enamel

A glossy enamel for radiators and steam pipes, registers, and all surfaces exposed to extreme heat. Excellent also for use on any metal work. It will not chip nor mar, and is not affected by heat or cold. Radiator enamel comes ready mixed. Is easily applied, dries quickly, and will remain bright and glossy. Colors: Maroon, Black, Bronze Green and Dull Green. **State color wanted.**

75B8170—Half Pint Cans. Ship. wt., 1⅛ lbs. For **18c**
75B8171 — Pint Cans. Ship. wt., 2¼ lbs. For **25c**
75B8172 — Quart cans. Ship. wt., 4¼ lbs. For **45c**
75B8173—Half Gal. Cans. Ship. wt., 10 lbs. For **85c**
75B8174 — Gal. Cans. Ship. wt., 15½ lbs. For **$1.60**

Bath Tub Enamels

These enamels produce a hard, lustrous surface that will not chip or mar, and are not affected by hot or cold water. One pint is sufficient to give an ordinary bath tub two coats. Can be used for re-enameling iron bedsteads or any metal surfaces. Easy to apply. Comes ready for use. Be sure the article to be enameled is free from dirt and grease. Colors, Porcelain White, Old Ivory, Wild Rose, or Green. **State color wanted.**

75B8160—Half Pint Cans. Ship. wt., 1⅛ lbs. For **25c**
75B8161—Pint Cans. Ship. wt., 2¼ lbs. . **43c**
75B8162—Quart Cans. Ship. wt., 4¼ lbs. . **75c**

Stove Pipe Enamel

Especially adapted for stove pipes, grates, radiators, heating drums and hot or cold water pipes. Apply when the surface is cold. One coat gives a durable, elastic, black finish that will withstand intense heat. A pint can is sufficient to enamel six lengths of stovepipe.

75B8177 — Half Pint Cans. Ship. wt., 1⅛ lbs. For . . **13c**
75B8178—Pint Cans. Ship. wt., 2¼ lbs. For **21c**

Screen Paint—Black or Green

Especially prepared preservative paint that will protect wire screens from rust or wear. It dries hard in a short time, has a high gloss, and does not clog the meshes. Apply by brushing through one side, leaving on just enough paint so it will not run. A pint is sufficient for a number of screens. Two colors, black or green. **State color wanted.**

75B7745—Half Pint Cans. Ship. wt., 1⅛ lbs. For **15c**
75B7746—Pint Cans. Ship. wt., 2¼ lbs. For **25c**
75B7747—Quart Cans. Ship. wt., 2⅝ lbs. For **45c**

Graphite Paint

Made of graphite, thoroughly ground in pure linseed oil. This paint resists wear and protects such surfaces as iron work, metal pillars, iron fences, etc. In black only.

75B7773—Half Gal. Cans. Ship. wt., 10 lbs. For **60c**
75B7774—One Gal. Cans. Ship. wt., 15 lbs. For **$1.15**
175B7775—Five Gal. Cans. Ship. wt., 65 lbs. For **$5.50**

Pur-e-tone Hot Water Kalsomine

An inexpensive, sanitary wall finish. It gives your walls an elegance and character which will surely please you. It will not rub off, flake, powder, peel or blister. It is scientifically prepared and positively sanitary. Anyone can apply this wall finish. It is easily and quickly dissolved in hot water, and requires no stirring after once mixed. Pur-e-tone is so finely ground that it remains in good condition without settling. Will cover as much surface as any kalsomine we know of. Old walls previously kalsomined should be washed clean before applying a new coat. New walls or old walls that have not been previously sized should be given a coat of our Fresco Wall Size. One four-pound package will cover about 500 square feet. Colors are: 200, White; 201, Buff; 203, Shell Pink; 210, Canary; 211, Pale Blue; 230, Sage Green; 231, Deep Tan; 254, Alice Blue; 257, Light Buff; 258, Light Cream; 262, Pea Green. State color wanted.

75B8325—4 Pound Carton for **24c**
75B8326—24 Pounds, six cartons (all one or different shades) for **$1.36**
175B8327—50 Pound Drum (white or any one shade for **$3.75**
175B8328—100 Pounds, two 50-pound Drums (all one or any two shades) for **$5.25**

Pur-e-tone Fresco Colors

These colors are used in connection with kalsomine shades for borders and stenciling. Also used for producing panel effects below the plate rails in dining rooms, where a very deep color is desired.

No. 206, Leather Brown

No. 213, Myrtle Green
75B8341—4-pound package. For **52c**
75B8342—1-pound package. For **16c**

Fresco Wall Size, 65c Gallon

A newly plastered wall or an old wall that has never been painted is porous and will soak in much of the first coat. This is called suction. Fresco Wall Size will fill these pores in the plastered wall and form a suitable foundation for paint or kalsomine. Fresco Wall Size is prepared ready to apply with a brush. Dries in about eight hours.

75B8736—Quart Cans. Ship. wt., 3¼ lbs. For **24c**
75B8737—Half Gal. Cans. Ship. wt., 8 lbs. For **40c**
75B8738—One Gal. Cans. Ship. wt., 12 lbs. For **65c**
175B8739—5-Gal. Cans. Ship. wt., 55 lbs. For **$3.00**

A Bicycle saves many steps—Costs little if you buy it from us
Sig. 31F

Protect Your Fences Against Decay

Our Wood Preserative Will Do It—The Cost is Small

When you figure on building a fence, you first decide upon the wire to use. Of course you want it painted or heavily galvanized wire, so it will last for years, but how about the posts? No fence can be better than the posts that support it. When the posts decay and break off, the service of the fence is gone, at least until new posts are set, and the fence rebuilt. All this means added expense. Consider, too, the possible losses that may occur by stock breaking through into the grain field, or straying away and the consequent loss in time and labor in getting them back.

Use WOOD PRESERVATIVE on your fence posts; it will preserve them for many years against decay. The cost is small, and the saving is much. Fence posts are increasing in value, as timber becomes more scarce. The cost for **Wood Preservative** is only from 3 cents to 5 cents per post. It doubles the life of posts and in the saving of labor alone you will be well repaid.

How to Preserve Fence Posts

To treat fence posts, or any other timber, first remove all bark, then apply Wood Preservative with a brush, as freely as the wood will absorb it, using two or three coats. To obtain better results, however, apply the preservative hot for it then penetrates the wood more readily, and evaporates the moisture more effectually. In the winter especially, we recommend that Wood Preservative be heated to a temperature near the boiling point. If you have a tank that you can use for a dipping tank, you will obtain the very best results by dipping the posts or timber into the hot oil. If you have no such tank, apply with an ordinary wire-bound paint brush. The timber to be treated should be dry. Do not apply the second coat until the first is dry. Use plenty of the Wood Preservative on the ends of the posts or timbers.

Decay of fence posts and telegraph poles, you may have noticed, is often more rapid near the surface of the ground. This is due to insect life or fungus growth that eats into the wood and thus opens it up for more rapid decay. Insects and fungi (such as moss) will not work upon or attach themselves to wood that has been treated with Wood Preservative.

Used also for preserving Silos, Planking, Sills, Joists, Tanks—in fact any wood subject to decay or the ravages of insects

Price of Wood Preservative

75B7756—1-gallon cans. Per gallon.....47c
175B7757—5-gallon cans. Per gallon.....36c

375B7759—Barrels (50 gal.). Per gal.....29c
Shipping weight, about 10 pounds per gallon.

Protect Your Chickens Against Lice, Mites and Disease

As Wood Preservative is a strong but harmless disinfectant, it is used, with great success, for spraying poultry buildings, inside and outside. This oil is fatal to both lice and mites. The use of Wood Preservative will free your buildings of these insects, which sap the life out of your poultry. This oil likewise is a great preventative against contagious diseases.

Rid the hens of lice,—they will be more healthy and profitable.

"Wood Preservative" is a Refined Creosote Oil

Wood Preservative is nothing more or less than Refined Creosote Oil. This oil has been an acknowledged wood preservative from time unknown. The fact that railroads and steamship companies always have and still use it, to preserve and protect against decay, such property as ties, water tanks, bridges, trestles, wharfs, docks, boats and barges, is evidence conclusive of its unquestioned merit. Notwithstanding the many advertised, fancy-named preservatives now being placed before the public, Creosote Oil still maintains its superiority. There is no other oil, or combination of oils that will penetrate and impart to the wood, that lasting, preserving quality as will this oil. Use it on plank walks, sills, joists, wooden fences, posts, tanks, wind mills or silos. It will not only give you the best results, but it is also inexpensive. There is no reason, now, for any building, fence or other structures to rot or decay. Treat the posts, sills, joists, and such timbers as are unduly exposed to water or dampness, with Wood Preservative.

A Disinfectant for Hog Pens

The disinfecting qualities of Wood Preservative make it ideal for spraying hog pens and barns as well as poultry houses. The liberal use of Wood Preservative in this manner, with precautions taken for cleanliness, is a wonderful preventative of contagion or the spreading of disease. As Wood Preservative is the enemy of disease germs, and such insects as lice and mites, it is likewise an enemy to the corn weevil. Paint the inside of corncribs and granaries with Wood Preservative to prevent damage by weevil. Mice, rats or ants will not attack or damage woodwork painted with Wood Preservative. Ropes, canvas and nets treated with wood preservative become water-proof, and more durable, yet remain soft and pliable in all seasons. Use it on timbers of any kind that are subject to decay or insects, especially on woodwork, either above or below the ground or water. It is splendid for so many uses. You should keep a supply of this oil on hand all the time.

Vehicle Paint and Varnish

Carriage and Automobile Varnish

Palest Durable Body Varnish

Very transparent finishing varnish, for use on carriages or automobiles. It spreads easily, has great brilliancy and is very durable. It dries free from dust in about twelve hours, and is hard enough for use in from two to three days. This varnish is adapted for the very finest work. It is pale and will not darken or discolor the daintiest shades or striping beneath.

75B8690—Pint can. Ship. Wt. 2½ lbs. Price..$0.42
75B8691—Quart can. Ship. Wt. 4 lbs. Price.. .78
75B8692—Half gal. can. Ship. Wt. 7½ lbs. Price 1.45

Carriage or Automobile Paint

In order to withstand the severe action of mud and frequent washing, our Carriage and Automobile Paint is made from the best grade of coach colors, finely ground in high quality varnish. For beauty of finish and durability, it has no superior. Usually, one coat is sufficient on old work. It spreads so easily that anyone can apply it. Comes ready for use, and dries quickly, has a brilliant finish that resists hard wear and constant exposure. Try it on your carriage, automobile, sleigh, porch furniture, or any article that is exposed to the weather and that you wish to give a bright gloss finish. You are certain to be pleased with the results. Colors are: 161, Brewster Green; 162, Yellow; 163, Black; 164, Vermilion; 165, Dark Green; 166, Wine; 167, Blue; 168, Red. **State color wanted.**

75B8711—Quart can. Ship. wt., 3 lbs. Price....60c

Wagon or Implement Varnish

Durable Wagon Varnish

A light colored, full drying brilliant varnish. Made especially for farm wagons, agricultural implements or machinery. This varnish has a good body and mixes readily with any color. Sets dust free in from five to six hours, and hard in about 36 hours. Especially adapted for outdoor exposure.

75B8702—Pint can Ship wt., 2½ lbs. Price...25c
75B8703—Quart can. Ship. wt., 4 lbs. Price....45c
75B8704—Half gal. can. Ship. wt., 7½ lbs. Price 80c

Wagon or Implement Paint

This paint is especially prepared for outdoor exposure. It has a wonderful resistance to wear and hard usage. Being made of the best non-fading colors, it will surely give you perfect satisfaction. It is prepared ready to apply. With this paint you can keep your wagons and implements in good condition for many years. A quart of this paint is usually enough to cover an ordinary wagon and make it look bright and new. As this paint flows freely you can do the work yourself during spare time. There is no reason why you should let the weather wear out your farming vehicles or implements. Colors: 168, Blue; 169, Red; 170, Green; 171, Black; 172, Yellow; 173, Coach Red. **State color wanted.**

75B7817—Half gal. can. Ship. wt., 9 lbs. Price $0.70
75B7818 — Gal. can. Ship. wt., 15 lbs. Price $1.34

38c Paints this Wagon

Keep chickens after they are hatched—use our wire netting

Dry Colors

Our line of dry colors is complete. For the purpose intended they will positively give satisfaction.

Some of the colors here quoted are frequently used for painting purposes by simply mixing with linseed oil. This we do not recommend. Unless you have facilities for putting the mixture through a paint mill, your paint will lack that fineness and durability that is necessary in good paint. In Coverall or Tower Brand Paint you get fineness, covering capacity, durability and economy.

175B7918—Drums (100 lbs.). Per lb 1¾c
75B7919—Smaller Quantity. Per lb 2c

Cement or Mortar Colors

The best grade of mineral colors that the market affords for coloring mortar, cement blocks, stucco, concrete and brick work. These colors will not fade.

No. 70—Chocolate Brown, produces a deep, rich brown that harmonizes with and is popular for coloring mortar in which the manganese brick, so much in demand, are laid.

No. 71—Mortar Red, will produce a rich, rather dark red.

No. 73—Red Extra Strong. This red is particularly strong in color and produces a full, rich, brilliant shade. On account of its strength, it requires less of this color to the quantity of cement used.

No. 74—Mortar Black is a good grade of black that will not fade.

175B7962—Colors 70, 71 and 72, 100-lb. drum. Per lb. 2c
175B7963—Colors 70, 71 and 72, 50-lb. drum. Per lb. 2½c
75B7964—Colors 70, 71 and 72, smaller quantity. Per lb 3c
175B7967—Color 73, 100-lb. drum. Per lb. 6½c
175B7968—Color 73, 50-lb drum. Per lb. 8c
75B7969—Color 73, smaller quantity. Per lb. 8½c
175B7972—Color 74, 100-lb. drum. Per lb. 3c
175B7973—Color 74, 50-lb. drum. Per lb. 3½c
75B7974—Color 74, smaller quantity. Per lb. 4c

The amount of coloring required depends upon the depth of coloring desired and the amount of cement or mortar to be colored. The more color used, the deeper the shade.

For the brown or buff, use from 15 to 20 pounds of color to each 100 pounds of cement or mortar. Two or three pounds less of the other colors may be sufficient.

Concrete and Cement Coating

A durable coating for concrete, brick, stucco and masonry. This paint is alkali-proof, made expressly for damp-proofing and decorating surfaces, made of the above materials, which because of their caustic and alkali nature, cannot be treated with an ordinary oil paint. Use Cement and Concrete Coating for both outside and inside work, as it is equally good for use on plastered walls, basement walls, floors and all damp surfaces. Easily applied with a brush.

In case the surface to be coated is extremely damp, apply first a coat of our Seal-Tight. Over the average concrete or brick surface, one gallon of Cement and Concrete Coating will cover about 100 square feet, 2 coats.

Colors: 101, white; 102, buff; 103, moss green; 104, brick red; 105, cement gray; 106, Manganese brick. **State color wanted.**

75B7789—Half gallon cans. Shipping weight, 10 lbs. For $0.80
75B7790—One gallon cans. Shipping weight, 15 lbs. For $1.50
175B7791—Five gallon cans. Shipping weight, 70 lbs. For $7.25
175B7792—Half barrel (25 gals.). Shipping weight, 350 lbs. For $34.50

Seal-Tite

A remarkable water-proofing compound. May be used on damp surfaces. It is scientifically compounded and will fill the pores and render water-proof any cement, concrete, brick or plaster surface. Just the thing for silos, cement blocks, concrete or brick buildings. It is a clear, colorless liquid that may be used alone as a coating or as a first coat, preparatory to painting or coating concrete or brick work of any kind that is subject to dampness or moisture. It is excellent for coating concrete or cement floors. It makes the surface smooth, prevents sanding, and makes it water-proof. Easy to keep clean. This preparation should not be used over paint. Easily applied with a brush. Flow on freely and brush in thoroughly. One gallon will cover about 150 to 200 square feet on concrete or brick surfaces, or 200 to 300 square feet on plaster surfaces.

75B7793—Quart cans. Shipping weight, 5 lbs. For $0.40
75B7794—1 gallon can. Shipping weight, 15 lbs. For $1.35
175B7795—5 gallon cans. Shipping weight, 65 lbs. For $6.50

Graining Colors in Oil

In paste form. Are prepared for use by mixing to the consistency of paint, or a little heavier, with one part boiled linseed oil and two parts turpentine. Put up in 1 and 5 pound cans. Colors are mahogany, cherry, walnut, light oak, and dark oak. State color wanted.

75B8015—1-lb. cans. Per can 12c
75B8016—5-lb. cans. Per can 57c

Venetian Red—Ground in Oil

A good grade of Venetian Red. Use about one gallon of linseed oil to each 12 pounds of Venetian Red to bring the paint to proper consistency for average use. One gallon of this paint when properly mixed will cover from 200 to 250 square feet, two coats.

75B7853—12½-lb. cans. Per lb 4c
75B7854—25-lb. cans. Per lb 4c
75B7855—100-lb. kegs. Per lb 3¾c

French Yellow Ochre—Ground in Oil

About one gallon of linseed oil is required to each 12 pounds of the yellow ochre to bring the paint to proper consistency for average use. One gallon of this paint, when properly mixed, will cover from 200 to 250 square feet, two coats.

75B7857—12½-lb. cans. Per lb 4c
75B7858—25-lb. cans. Per lb. 4c
175B7859—100-lb. kegs. Per lb. 3¾c

Old Dutch White—Ground in Oil

An interior white that is whiter than any pure white lead. We recommend it for interior work as it will not discolor, and, being ground very fine in oil, it has a greater covering capacity than pure white lead. It is also much more economical, and being non-poisonous, it is used quite generally for interior finish in hospitals and public buildings. Excellent as an undercoat for enamels.

175B8020—100-lb. keg. Per lb 6c
175B8021—50-lb. keg. Per lb 6½c
175B8022—25-lb. keg. Per lb 7c
175B8023—12½-lb. keg. Per lb 7½c
75B8024—5-lb. can. Per lb 9c

To those who wish to mix their own paint, we can furnish two brands of White Lead. The first brand is our own brand, which is strictly pure, full weight and in quality and service the best it is possible to obtain.

Strictly Pure White Lead in Oil

This White Lead is strictly pure and you are certain to be pleased with it. Prices subject to market changes.

175B7825—100-lb. metal kegs, full weight. Per lb. 7½c
175B7826—50-lb. metal kegs, full weight. Per lb. 8c
175B7827—25-lb. metal kegs, full weight. Per lb. 8c
175B7828—12½-lb. metal kegs, full weight. Per lb. 8½c

Special Brand, not a pure lead, but one that will give good service.

175B7829—12½-lb. keg. Per lb 7½c
175B7830—25-lb. keg. Per lb 7c
175B7831—50-lb. keg. Per lb 6½c
175B7832—100-lb. keg. Per lb 6c

American White in Oil

American White is not a pure lead. For the purpose intended, however, it will be found entirely satisfactory. It is used by plumbers for piping. Used for priming coat on sash, etc., where a cheap primer is desired, and for other purposes.

75B7836—1-lb. can. Per lb 9c
75B7837—5-lb. can. Per lb 8c

Zinc in Oil

Pure French Zinc in Oil

75B7838—12½-lb. can. Per lb 10c
75B7839—25-lb. can. Per lb 10c
75B7840—1-lb. can. Per lb 12c
75B7841—5-lb. can. Per lb 12c

Zinc in Oil. American Snow White

75B7842—12½-lb. pail. Per lb 7c
75B7843—25-lb. pail. Per lb 7c

Putty in Tins

75B7850—10-lb. tin. Per tin 35c
75B7851—5-lb. tin. Per tin 19c

Gloss Oil

A good grade of gloss oil. Dries hard. Is used for sizing and other purposes.

Denatured Alcohol Shellac

Our shellacs are made from pure gum shellacs, cut with denatured alcohol. One gallon will cover from 300 to 400 square feet, one coat. These shellacs are made heavy. If thinning is necessary use denatured alcohol only.

Shellacs are used mostly for the under coat. It is of the utmost importance that you get the best. The under coat is the foundation of the work.

White Shellac

Use where no color is desired. Made of pure bone-dry, bleached shellac, and is clear and white.

75B8676—Pint cans. Shipping weight, 2 lbs. For 30c
75B8677—Quart cans. Shipping weight, 3 lbs. For 48c
75B8678—Half gallon cans. Shipping weight, 6½ lbs. For 88c
75B8679—One gallon cans. Shipping weight, 10½ lbs. For $1.65

Orange Shellac

This shellac is very fine, light in color, and free from sediment found so often in orange shellac. Used the same as white shellac, except on darker surfaces, such as oak. Also used for coating knots and sappy spots before painting.

75B8680—Pint cans. Shipping weight, 2 lbs. For 27c
75B8681—Quart cans. Shipping weight, 3 lbs. For 45c

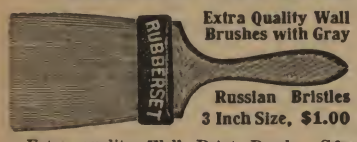
Fill-Tite (A Water Putty Filler)

A mineral combination in powder form. Prepared for use by mixing with water. For filling cracks. Dries hard as a rock in fifteen minutes. An ideal filler for holes and imperfections on concrete work, plastered walls, basements, iron or metal work.

75B8223—1-lb. packages for 9c
75B8224—2-lb. packages for 16c
75B8225—5-lb. packages for 36c



Paint and Varnish Brushes for Every Purpose

No Better Brushes Made

Rubberset Brushes need no introduction. Their superior quality has won for them a world-wide reputation. The bristles are set in rubber, so firmly imbedded they cannot come out. Brushes set in rubber never shed bristles. It is not necessary to water-soak them before using. Turpentine, benzine, alcohol or water do not affect them. They have successfully passed every test, and have proven their value by actual use in the hands of master painters.

Brushes set in rubber are the best brushes that are made.

75B702	3	20 oz.	50c
75B703	4	24 oz.	68c

Some Facts About the Care of Brushes

First-class brushes can be ruined or lose half their value if they are not properly handled. Never allow any brush to stand on the bristles.

Paint brushes in daily use should be suspended in raw linseed oil after using. Before using again, brush out the oil on a board.

Varnish brushes in daily use should be suspended in the varnish after using.

When through with a brush, either paint or varnish, wash out thoroughly in turpentine; then put it in lard and the brush will never get hard. In this way you can keep a brush in good condition for several years. When you wish to use it again, wash out with turpentine, or soap and water.

Never use a varnish brush for any other purpose than varnishing. Never varnish with a brush that has been used in paint, as it will not give good results.

Read the Truth about Paints in our new Paint Book. Write now for copy

Decorators and Sign Writers' Brushes and Graining Tools

Plasterers' Finishing Brush

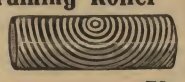
A Complete Assortment of Wood Graining Tools

With a set of our graining tools, you can do your own graining. Previous experience not necessary. At a very small expense you can grain the doors and the woodwork artistically in any room. When you have grown tired of the plain painted or varnished effect, then you can change the entire appearance by graining the woodwork of your apartment.

English Blued Steel Graining Combs

75B748—In 12 assorted sizes. Packed in tin compartment case. Wt., 12 oz.
Per set **69c**



75B749—English Steel Graining Comb. Width, 3 in. For producing fine grains of wood. Shipping weight, 2 oz.
Each **10c**

Rubber Graining Rollers

You may become a first-class grainer by using our patent rubber graining rollers. The set comprises three rollers, each, length, 5 in., diameter, 1½ in. One of the corrugated rollers may be used to imitate any straight grain of wood, another is used to imitate quarter-sawed oak; the third takes the place of the graining combs. The color, instead of being pushed forward and accumulated in the running points, passes between the teeth. With these three rollers you can do any kind of graining without the use of other tools. Simply apply the color to the surface you wish to grain, brushing it out well, then slide the graining roller down the surface you are graining, turning it slowly. Shipping weight, per set, 15 oz.
75B756—Rubber Graining Rollers. Per set **94c**

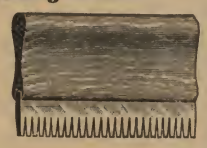
Extra Rubber Graining Roller

Rubber Graining Roller. Length, 8 inches, diameter, 1½ inches. Used for graining wide panels. Shipping weight, 8 ounces.
75B753—Each **70c**

Magic Handle Grainer

The Magic Handle Grainer for graining floors, wainscoting, etc. No experience necessary. You rock the roller at the same time you slide it along. Every change or movement of the hand makes a different grain, giving a great variety of work and grains of wood. You can change the effect by turning the roller. Shipping weight, 7 ounces.
75B752—
Each **27c**

The New Home Grainer



75B750—One steel graining comb and two rubber graining rollers will produce any imitation of woods. Something that will help beautify the home without much trouble. A great deal can be done easily if the proper tools are handy. With this set almost any grain of wood can be reproduced. Length: rollers, 5 inches. One roller produces heart-shape wood grains, the other is a blender; and the steel comb produces the fine grains of woods; a splendid combination. Shipping weight, 8 oz.
The entire set, with instructions, for **67c**

Check Graining Roller

Double Line Check Graining Roller, used for producing the oak overgrain after the hand or rubber roller graining is done. Shipping weight, 8 oz.
75B751—Each **50c**

Rubber Graining Combs

Many prefer Rubber Graining Combs to the steel. These rubber combs are securely set in wooden handles as illustrated. This set contains combs, having 6, 9 and 12 teeth to the inch. Shipping weight, per set, 12 ounces.
75B747—Set of 12 for **55c**

Ready-to-Use Graining Outfit $1.90

You Can Do Your Own Graining
Refinish Your Old Floors and Woodwork At Little Cost

Experience unnecessary. Easy to use and inexpensive. Anyone can make old, dark, dirt-stained floors or woodwork of any kind look like new, up-to-date hardwood finish at a very small cost. It completely covers the old surface, hides all blemishes, and produces a beautifully rich gloss and durable finish, similar to hardwood.

Outfit consists of sufficient material, tools and brushes, together with full and complete directions, to finish one ordinary floor, or the door and window casings, and baseboards of an ordinary room. Outfit as follows:

1 Quart Co-Var-Finish, Ground Color	$0.55
1 Pint Graining Compound, Oak	.25
1 Quart Co-Var-Finish, Natural, Gloss Finish	.55
1 Three inch Grainer and Steel Comb	.37
1 One and a half inch brush. For graining compound	.20
1 Two and a half inch brush. For ground color finishing coat	.35

75B8438—Graining Outfit. Total cost . . $2.27
Our price for this Outfit **1.90**
Shipping weight for outfit, 16 pounds.

Graining Compound

A liquid preparation in which graining is done. Put up in cans ready for use. Stir thoroughly before using. Apply with a brush thinly and evenly over the surface, then use the graining tools immediately while the coating is still fresh. Apply with brush not previously used in varnish, paint or any preparation containing turpentine or oil. One pint covers about 100 square feet of surface. Shipping weight, 3 lbs.
75B8440—1 Pint Can **25c**

Paper Hangers' Paste Brush

For the professional Paperhanger, or for anyone desiring a practical and durable paste brush. Good quality gray Russian bristles. Galvanized iron band. Varnished handle. Width, 7½ in. Length of bristles, 4¼ in. Weight, 8 oz.

SECURE HEAVY STEEL SAFES
PROTECT VALUABLES AGAINST FIRE AND THEFT

IMPROVED REINFORCED CONSTRUCTION

The outer body of our safes is made of one continuous steel plate or jacket, heavy and substantial. The entire fronts and backs of our safes are made of a Single Solid Plate of pressed steel, the whole being electrically welded together. No rivets to break. Thus we do away with the separate angles, rivets and loose parts used by most manufacturers. The one-piece front and back give the safe great strength and solidity, and also greatly improve the appearance of the safe.

The inside cabinet work in all of our safes is constructed with an Air Chamber, around the entire cabinet, making a double wall cabinet, the one being built snugly into the wall of the safe, while the cabinet proper is put in after the safe is complete. This effectually prevents the safe from gathering dampness on the inside, when kept closed for a long period of time. The cash box is made of pressed steel instead of cast iron, and the workmanship throughout is of the best.

The fire-proof cement filling contains the best known high grade fire-resisting ingredients. This cement also solidifies the entire structure of the safe, besides surrounding it on all sides, and in all parts with the best heat resister science has discovered.

UTMOST VALUE FOR THE MONEY

The front doors are massive and substantial. Fitted with heavy hinges fastened in such a way as not to weaken any part of the frame. With nickel-plated hinge tips.

The combination locks are the very latest, improved. Unpickable and long wearing. Mechanism is simple and positive, and will not get out of order. The locks are capable of an indefinite number of changes. Fitted with handsome nickel-plated dial, and knob.

Our safes are finely made from start to finish and contain many valuable features and improvements not found in other makes. The fire-resisting qualities of our safes are unexcelled by any others of similar size and price. We know from actual experience that our safes have stood the tests in many fires, and their contents have been preserved intact and free from damage.

Our safes are all shipped to you in a fresh, bright condition, direct from factory. Usually finished and decorated after the order is received, which at times causes a delay of from 10 to 20 days in making shipment. Shipment is made at the earliest possible moment. Each safe is securely padded, and burlapped for shipment.

Note: We put your name on safe, in gold letters, when so ordered. (Our name does not appear on the safe.)

HEAVY WALL STEEL SAFE TWO SIZES

Well contructed, small Safes. For home or office use. Body of heavy steel plate, properly strengthened and reinforced. Door is massivo and strong. Fitted with secure, nickel plated combination lock. T handle and hinge tips are nickel plated. The inside cabinet work is neat and well fitted. Has steel door cash box and two keys. **Your name above door in gold letters, if desired.**

STEEL STRONG BOX $4.60

PROTECTION FOR PAPERS AT LOW COST

183B7040—An excellent strong box for safely keeping deeds, papers, notes and valuables of all kinds. Gives a feeling of security which is worth far more than the cost of the box. Made of heavy steel and iron. With double walls, filled with fireproof cement. Painted black and nicely striped and ornamented. Complete with padlock and two flat keys. Dimensions: Outside, 13¾x9¼ in.; inside, 10½x6¼ in. Height, 8¼x4 in.

Shipping weight, 50 lbs. Usual $6.50 value. Each $4.60

EXTRA LARGE ROOMY SAFE

DOUBLE DOORS, VERY MASSIVE

ONE SIZE

Roomy and well constructed. With double inside steel doors, fitted with bolts top and bottom, and a secure flat keyed lock. These inside doors are made with double walls, the center being filled with a non-conductor of heat, greatly increasing the fire-resisting qualities of the safe. They are convenient for locking the safe during the day without the necessity of closing the heavy outside door. Fitted with secure lock and two steel keys.

Body is made of heavy steel plate, properly strengthened and reinforced. Has massive outside steel double doors. Outer door is fitted with a high grade, secure, nickel plated combination lock, which operates two very heavy and secure bolts in door. The T handle and hinge tips are nickel plated. Inside cabinet work is of the highest grade. With steel door cash box and two keys. The wood drawers are also fitted with locks. **Your name above door in gold letters, if desired.**

For the Material To Build This Six Room Home

See Our *Book of Homes*

$732.00
HOME No. 185

HOME No. 185

For $732.00 we will furnish the material to build this home, consisting of all lumber, lath, shingles, flooring, finishing lumber, doors, windows, frames, trim, sash weights, hardware, building paper, pipe and gutter, paint and varnish. The material we furnish is sufficient to build the home according to our plans and specifications.

Home No. 185 is an exceptionally good example of square house architecture, and of the saving that our methods mean to you. By careful study and planning it has been possible to utilize both space and materials to the very best advantage, with the result that this home presents an unusual value, in low cost of construction, in amount of room, and in general appearance. As an investment, or as a home, you certainly will make no mistake when you build Home No. 185.

GENERAL SPECIFICATIONS

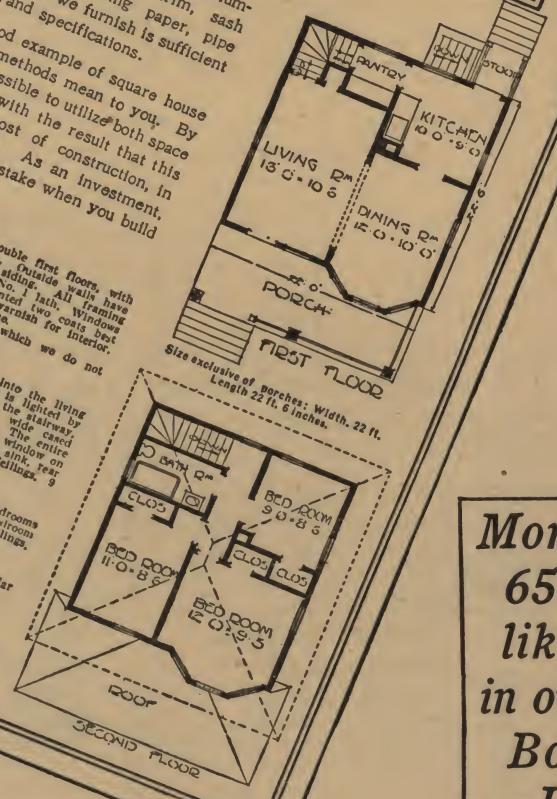
Built on a brick foundation. Lattice under front porch. Double first floors, with one floor of good inch lumber, over which is laid finish floor. Outside walls have matched sheathing, building paper, and clear cypress bevel siding. All framing lumber the best quality clear yellow pine. Excellent star A clear cypress shingles. No. 1 lath. Windows glazed "A" quality clear glass. Your choice of stock or colors in our Building Material Catalogue. Painted two coats best grade wood filler and varnish for interior. Read full description of each item in our Building Material Catalogue. By allowing a fair price for labor, brick, cement, and plaster, which we do not furnish, this home can be built for about $1,373.00.

FIRST FLOOR

Entrance from the wide porch, through handsome bevel plate door, into the living room. This room extends practically the entire side of the house, and is lighted by large windows in front, and practically one entire side of the alley. At the end is the stairway opening which is taken up by a three-window bay, and there is another wide cased opening which admits to the dining room making these two rooms practically one. The entire side makes a very pleasant room. Beyond is the kitchen, arranged with sink, range, large pantry, and basement stairs. Yellow Pine trim throughout. Ceilings, 9 feet high.

SECOND FLOOR

Stairway lands in hall. Lighted by window at end. Bathroom and three bedrooms open from hall. Bedrooms have closets, and are well lighted. Large front bedroom especially desirable on account of the large bay. Yellow Pine trim throughout. Ceilings, 8 feet high.



BASEMENT

Excavated under entire house. Cement floor. Outside and inside entrance. Cellar sash. Seven feet to joists.

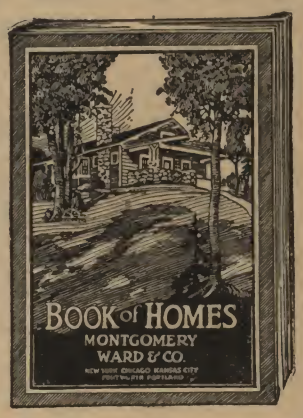
MONTGOMERY WARD & CO. —33— BOOK OF HOMES

Specimen Page From Our

Book of Homes

You cannot afford to build without first sending for this book. It illustrates and describes over 65 homes, and shows you a big saving on every one. Mr. John Sittler, of Hartley, Iowa, built one of our homes and saved $500.00. Mr. Ferdinand Castens, Blakely, Minn., says, "I saved at least $500.00." Mr. L. G. Word, Fairbury, Ill., says, "It is as good lumber as a man can buy anywhere." These voice the sentiment of the many letters we receive.

There are reasons why, of course. Four big lumber plants and a big millwork factory to serve you, all located to the best possible advantage, on direct lines of shipment from the sources of raw material, and our immense volume of business, reduces handling expense to the minimum. No extra yard expense here, no unnecessary freight charges, no extra profits—just one small profit added to the lowest manufacturers' cost.



Is it any wonder we can save you money, and still furnish the best grades of material—material that will be sure to please you in every respect?

And don't forget that the homes we offer you are real Homes—a combination of the highest architectural skill and the best features of thousands of homes, made practical in form and economical in construction by our building experts, men who know the building trade from every standpoint.

Some of these homes are shown in the border in this page, and if you find one here that suits you, clip it out and write us for full information. In any case, be sure to write for the **Book of Homes** which will be sent postpaid. No matter where you live, we can help you. Write today.

Fir Interior Doors

Most approved designs. Fir lumber has one of the most beautiful grains, and the panels of the one and two panel doors are made by the celebrated "rotary cut" method, which brings out all the beautiful effect. All side stiles and rails, top and bottom, are made of strongest edge-grain Fir; the cross panel door has slashed-grain, raised panels. Fir doors will match Yellow Pine trim. Av. wt., 75 lbs.

WINDOWS—Strictly A quality. Made of clear White Pine, glazed with clear glass, well puttied. Check rail. Thickness, 1⅜ inches. Plowed and bored for weights.

FRAMES—Plain drip cap. Outside casing 1⅛ inches thick. Made of first quality White Pine throughout. Shipped knocked down, one frame to the bundle. Grooved and fit ready to be put together. Prices include pulleys set in place. Width of jambs, 5½ inches, including blind stop.

STORM SASH—Prices do not include ventilators. If wanted, add 15c to the price, per sash. All sash made extra wide and long, to allow for fitting. Thickness, 1⅛ inches.

HOW TO ORDER—Order windows by glass size, shown in first column. Under column, "opening size of frames," is shown the size frame required for each window shown in first column, so that by referring to both oclumns, it is an easy matter to select the proper size frame to order for each window. By referring to "sash weights" at bottom of page, you can determine the size of weights to order. Notice that Storm Sash are made extra long, to allow for fitting. Under two-light storm sash, we have not given outside measurements, but remember that Storm Sash are made 1 inch longer than windows having the same glass size. For instance, the size of a 12x20, two-light Storm Sash is 1 ft. 4 in. wide by 3 ft. 11 in. long. Under four-light, eight-light and twelve-light Storm Sash, these measurements are given. If you have any difficulty whatever in making your selection, we will be glad to help you. **Always be sure to mention width first.**

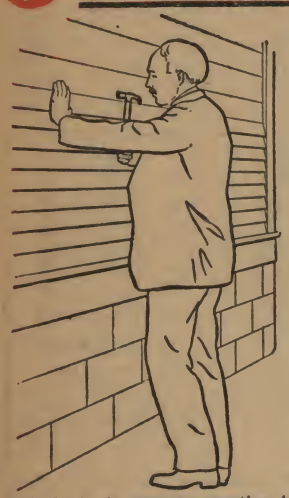
Save $500.00 and build a better home. Our Book of Homes tells how

Lumber—Lath—Shingles

ST. LOUIS—Our big main yard, located on a direct line of shipment from the Southern Mills, with unequaled shipping facilities. From here we make prompt shipment to all points in the Central and Eastern States. Quickest deliveries, at money saving prices.

PACIFIC COAST MILL. We have connections on the Pacific Coast from where we ship the finest grades of Fir Lumber and Cedar Shingles. If you live in the Western States be sure to send us your list for our estimate.

SOUTHERN SAW MILLS. Located in the heart of the Southern forests. From here we ship to Western and Southwestern points.



A postal will bring you this big Building Material Catalogue, with over 100 pages of high grade materials, attractive prices and full descriptions. No matter what kind of building you think of putting up, be sure to ask us to send you our Building Material Catalogue.

Windows—Doors—Frames

BIG MILLWORK FACTORY in Iowa from where we ship Millwork into every state in the Union and save our customers 20 to 40 per cent.

Our Building Material Catalogue shows a complete line of Doors, Windows, Frames, Trim, Stair Material, Hardwood Flooring, Porch Material, Colonnades and Grilles, Sideboards, Tile Flooring, Mantels and Consoles, Grates and Accessories, Metal Ceilings, Builders' Hardware, and countless other materials you will need in building.

3 FEATURE BARGAINS FOR BUILDERS 3

$13.00 Per 1000 Feet
Genuine White Pine Bevel Siding
Commonly known as Weather Boarding

A contract with a Wisconsin mill enables us to make this remarkably low price. Made from slabs taken from Pine logs. One side may contain some defects, and the other may show some bark along the edges. Not offered as the best grade of siding and in order to make a good job, it is necessary for the carpenter to cut out an occasional knot or other defect. However, when the price and the amount of waste are considered this siding is a truly remarkable value. Especially recommended for repair work, for the cheaper classes of buildings, for summer cottages, etc.

Furnished in mixed lengths only, 4 to 16 feet. In figuring the amount of siding required, it is common practice to add one-third to amount of surface to be covered. Shipping weight, per 1,000 feet, about 900 pounds.

178B3700—Size ½x4 inches (actual size 3½ inches) per 1,000 feet, board measure.....**$13.00**
178B3701—Size ½x6 inches (actual size 5½ inches) per 1,000 feet, board measure.....**$13.00**
If ordered in quantities of less than 1,000 feet, price per 100 feet, board measure.....**$1.40**

$1.29 For a 2-0x6-0
5 Cross Panel Fir Door

A companion door to the front door listed at the right, and like it, an exceptional value. Not offered as a first quality door, but we don't know of a door that will give you more real worth for your money.

Made of Fir, the wood with the beautiful grain. The Panels are raised, and made of Fir, cut slash-grain to bring out the grain of the wood. The side stiles and cross rails are made of strongest Edge-grain Fir. Thickness of door, 1⅜ inches. Weight of size 2 ft. 8 in. by 6 ft. 8 in., about 52 lbs.

Each of these doors can be finished to match Yellow Pine trim. For prices on frames and a complete line of Yellow Pine and Fir trim, see other pages of this catalogue. Read description of door at right.

$1.92 For a 2-6x6-6
Glazed Front Door

Here is a very good front door at a very low price. It is a B quality Fir door, which means that it may contain some defects not allowed in the A quality door, but you will find it a very much better value than the usual second quality door. We recommend it strongly to the man who wants a good, serviceable door at the minimum cost.

The raised panels of this door are cut slash-grain to bring out the beautiful grain of the Fir. The side stiles and top and bottom rails are made of Edge-grain Fir, which gives the greatest strength. Thickness of door, 1⅜ inches. Glazed with clear glass. Furnished only in the two sizes, listed below. Average weight, 50 lbs. Be sure to read description of panel door at the left. **Order by Number, 278B281**

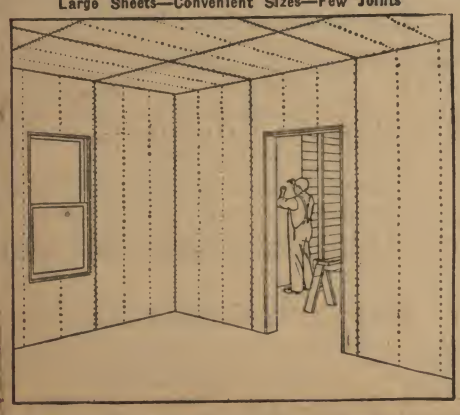
SAFETY *Protecto* STRENGTH



WALL BOARD

The Fire-proof Wall Board with the Hard Plaster Core

Can be Papered, Painted, Calcimined, Tinted or Decorated in other ways.

Large Sheets—Convenient Sizes—Few Joints

Actual thickness, full ¼ inch.

How Protecto Wall Board is Made

TOP LAYER: heavy, tough, fibre paper saturated with plaster composition and sized or treated with a water-proofing compound.

CORE OR CENTER: of *fire-proof* hard wall plaster composition.

BOTTOM LAYER: Same as top except not sized.

Where to use Protecto Wall Board

Use Protecto for new buildings. No dampness, no delay, no settling cracks, no lath stains, no waiting for plasterers. Equal in service and strength to a lath and plaster wall. **Fireproof.**

Use it for attics, for closets, for partitions, for boxing around the furnace to cut down fuel bills; for lining garages and stables; for repairing old plaster walls; for countless other things that will suggest themselves to you.

Use it any place where lath and plaster can be used and in many other places besides.

Protecto Saves You Money

No lath to buy, no high priced labor required and, if you want to, you can do the work yourself, and get a lot of satisfaction out of doing it. No expensive repairs.

Easy to Put Up and Decorate

With each order, we furnish complete, easy directions for applying. You don't need a carpenter. The edges are cut true and even. Saw it with an ordinary saw and put it on with ordinary nails.

Unlimited Possibilities for Decorations

Decorate every way that a plaster wall can be decorated. Panel strips can be used for decorations, but are not necessary as in other boards. Panel strips need not follow joints, as in other boards.

The Fire-proof Wall Board

Cannot warp, buckle or shrink. Kiln dried and sized at the factory, ready for decoration. Large convenient sheets. **Not a cheap plaster board, but a high grade wall board, ready for decoration as soon as it is up.**

GUARANTEED ASPHALT ROOFINGS

OUR GUARANTEE

We Guarantee that every article sold will be as illustrated and described in our Catalogue; will arrive in good condition; will serve its intended purpose; and will be satisfactory to you.

You may always exchange for other articles or have your money back, including, in either case, the transportation charges which you have paid.

All Our Guaranteed Roofings are made of extra quality ingredients—with an extra heavy tough felt body and a waterproof saturation and covering of genuine asphalt—nature's permanent waterproofing material.

Every process undergoes the most rigid inspection and you may be sure that we could not guarantee our roofings so strongly, if we had not first made sure that they would fulfill all our claims. We know of no better value for the money than our roofings.

It is our desire to make trading with us so easy, so profitable, and so satisfactory, that you will be pleased not only with the goods received, but also with our service and our entire method of dealing.

ATLAS READY ROOFING

SMOOTH RUBBERLIKE SURFACE

$1.05 TO $1.60 PER SQUARE

GUARANTEED 7, 10 OR 12 YEARS

APPROXIMATE THICKNESS OF 1-PLY

APPROXIMATE THICKNESS OF 2-PLY

APPROXIMATE THICKNESS OF 3-PLY

ATLAS PREPARED ROOFING is made from selected, long fibre wool felt, thoroughly saturated with genuine asphalt, which will not dry out or evaporate. Coated on both sides with crushed mica. This allows the roofing to unroll freely and aids its weather resisting qualities. Contains no tar or other evaporative matter, therefore does not dry out or crack. It will not stick in the roll, contains nothing to ooze out, even in the hottest weather, and will not crack in the coldest. It is adapted for any climate. Absolutely weather-proof. Always pliable and never becomes hard or brittle.

Our Atlas Roofing is suitable for either flat or steep roofs. Will not taint or discolor rain water, and is free from odor. Requires no special tools. Can be easily laid by an ordinary workman. Not affected by gas, smoke or vapors. Requires no extra coating, except at laps. Each roll is packed complete, with large head galvanized nails, the necessary liquid cement for cementing the laps and full directions for laying. Width of roofing, 32 inches. In rolls of 108 or 216 square feet, covering one or two squares. Made in three different standard weights, all exactly the same high quality, the only difference being in the thickness and weight.

Our Atlas Roofing contains nothing but tested and time tried water-proof and weather-proof materials. We do not increase the weight by the addition of clay or other cheap mineral substances, a plan frequently resorted to in order to get heavier rolls regardless of the wearing qualities of the roofing.

Our roofings contain no tar or inferior oils to dry out and deteriorate, and each step of manufacture is subject to an unusually rigid inspection.

STANDARD (1 PLY)
Guaranteed for Seven Years.

180B20—Rolls containing one square. With regular nails. Average shipping weight, 35 lbs.
Per roll of 108 sq. ft. . . . **$1.05**

180B21—Rolls containing one square. With long nails for over old shingles. Average shipping weight, 35 lbs.
Per roll of 108 sq. ft. . . . **$1.05**

Per roll of 216 sq. ft. . . . **$2.05**

180B23—Rolls containing two squares. With long nails for over old shingles. Average shipping weight, 70 lbs.
Per roll of 216 sq. ft. . . . **$2.05**

HEAVY (2 PLY)
Guaranteed for Ten Years

180B24—Rolls containing one square. With regular nails. Average shipping weight, 45 lbs.
Per roll of 108 sq. ft. . . . **$1.30**

180B25—Rolls containing one square. With long nails for over old shingles. Average shipping weight, 45 lbs.
Per roll of 108 sq. ft. . . . **$1.30**

180B26—Rolls containing two squares. With regular galvanized nails. Average shipping weight, 90 lbs.
Per roll of 216 sq. ft. . . . **$2.55**

180B27—Rolls containing two squares. With long nails for over old shingles. Average shipping weight, 90 lbs.
Per roll of 216 sq. ft. . . . **$2.55**

EXTRA HEAVY (3 PLY)
Guaranteed for Twelve Years

One of the heaviest and thickest roofings of this kind that is made. For all around durability and reliability it cannot be excelled. As the wear on any roofing is from the surface inward, the thicker fabric and heavier saturation naturally offers greater resistance and increase the length of service.

180B28—Rolls containing one square. With regular nails. Average shipping weight, 55 lbs.
Per roll of 108 sq. ft. . **$1.60**

180B29—Rolls containing one square. With long nails for over old shingles. Average shipping weight, 55 lbs.
Per roll of 108 sq. ft. . **$1.60**

LAKESIDE READY ROOFING

HARD FLINT SURFACE

$1.05 TO $1.60 PER SQUARE

GUARANTEED 7, 10 OR 12 YEARS

APPROXIMATE THICKNESS OF 1-PLY

APPROXIMATE THICKNESS OF 2-PLY

APPROXIMATE THICKNESS OF 3-PLY

Lakeside Roofing is suitable for all classes of roofs. It is acid-proof, water-proof and weather-proof. Not affected by changes of temperature—adapted for all climates.

It is easily and quickly applied, requiring no previous experience or any special tools. Any one can lay a good roof by following the simple directions, found in the center of each roll.

It is made of long fibre wool felt, saturated with genuine asphalt. Surfaced on both sides with sand grit, requiring no expense for coating or paint. The grit surface adds greatly to the life of the fabric, and also increases its fire-resisting qualities against danger from falling sparks, etc.

Does not stick, run or crack. Is durable, ornamental and inexpensive. Does not impart any taste to the water, which is important to all who use rain water for domestic purposes. Put up in rolls of 108 square feet, which is sufficient to cover one square or 100 square feet. We also pack with each roll a sufficient supply of galvanized roofing nails, and liquid cement which is used for cementing the laps. Width of roofing, 32 inches.

Made in three different weights, all exactly the same high quality, the only difference being in the thickness and weight.

Our Lakeside Roofing contains nothing but tested and time-tried waterproof and weather-proof materials. We do not increase the weight by the addition of clay or other cheap mineral substances, a plan frequently resorted to in order to get weight (heavier rolls) regardless of the wearing qualities of the roofing.

You may be sure we would not offer our roofings with our strong guarantee if we had not first taken every precaution to insure your getting a roofing fabric which will stand up under all conditions.

STANDARD (1 PLY)
Guaranteed for Seven Years

This grade is largely used for temporary buildings of all kinds, and for wagon sheds, poultry or hog houses, fruit shelters, etc. Makes an excellent Silo lining.

180B30—Rolls containing one square. With regular nails. Average shipping weight, 55 lbs.
Per roll of 108 sq. ft. . . . **$1.05**

180B31—Rolls containing one square. With long nails for over old shingles. Average shipping weight, 55 lbs.
Per roll of 108 sq. ft. . . . **$1.05**

HEAVY (2 PLY)
Guaranteed for Ten Years

This grade is widely used for the better grade of buildings, where a heavier fabric than our Standard weight is desired. Makes a good low priced roof that will last fully 10 years.

180B32—Rolls containing one square. With regular nails. Average shipping weight, 65 lbs.
Per roll of 108 sq. ft. . . . **$1.30**

180B33—Rolls containing one square. With long nails for over old shingles. Average shipping weight, 65 lbs.
Per roll of 108 sq. ft. . . . **$1.30**

EXTRA HEAVY (3 PLY)
Guaranteed for Twelve Years

A fine, serviceable roofing. Extensively used for barns, homes, public buildings, etc. Very satisfactory. One of the heaviest roofings of this style that is made. Will wear fully 12 years.

180B34—Rolls containing one square. With regular nails. Average shipping weight, 75 lbs.
Per roll of 108 sq. ft. . . **$1.60**

180B35—Rolls containing one square. With long nails for over old shingles. Average shipping weight, 75 lbs.
Per roll of 108 sq. ft. . . **$1.60**

SUNLITE MINERAL SURFACE ROOFING

$1.80 PER ROLL $2.00 ATTRACTIVE SILVER GRAY COLOR

GUARANTEED FOR 12 OR 15 YEARS

Guaranteed for 12 or 15 years. We offer here a strictly first quality roofing, finished in a beautiful bright silver gray color, suitable for the finest residences. The bright mineral surface not only makes it a most attractive roofing, but adds to its life and increases its fire-resisting qualities.

Sunlite Roofing is made from long fibre, wool felt, carefully selected, rolled and treated with pure mineral asphalt. Both surfaces are covered with an extremely hard, light gray, granulated mineral, rolled in under great pressure.

Contains no tar or other evaporative matter, and will not dry out, crack, or lose its beautiful finish. The bright mineral surface retains its color, which is a handsome silver gray. Snow and rain have no effect on it, and it makes a roof that you can be proud of in every way.

Sunlite Roofing is easy to apply and requires no surface coating. We include with each roll a liberal quantity of large head galvanized nails, a can of water-proof liquid cement for the laps and seams, and full directions. Width of roofing, 32 in. **Made in two weights,** both the same high quality, the difference being only in the thickness and weight.

HEAVY SUNLITE ROOFING (3 PLY)

180B59—**Heavy Sunlite Roofing.** Guaranteed for 12 years. Rolls containing one square, 108 square feet. Complete with large head galvanized nails, and cement for the laps. Average shipping weight, 55 lbs.
Per roll of 108 sq. ft. . . . **$1.80**

EXTRA HEAVY SUNLITE ROOFING (4 PLY)

180B60—**Extra Heavy Sunlite Roofing.** Guaranteed for 15 years. Rolls containing one square, or 108 square feet. Complete with large head galvanized nails, and cement for the laps. Average shipping weight, 65 lbs.
Per roll of 108 sq. ft. . . . **$2.00**

BURLAP RADIO ROOFING

PER ROLL $2.85 RED OR GREEN

SURFACED WITH CRUSHED SLATE GUARANTEED FOR 15 YEARS

WITHSTANDS SEVERE HAIL

Our Burlap Radio Roofing is a very tough, flexible roofing fabric, constructed of the best material throughout. Made similar to our Radio Slate Surface Roofing, but with the addition of a burlap insertion under the felt. This greatly increases its tensile strength and weather-resisting qualities. This roofing is extensively used in localities where hail occurs and is preferred by many who want the strongest possible roofing with a very attractive surface. Made from tough, long fibre felt, saturated and covered with genuine asphalt. Below this is a layer of strong burlap. The slate surface will not fade. Each rain washes it clean. Pressed into the surface and will not come loose. Made in separate layers and the whole fabric is bound together under great pressure, making a strictly high grade water-proof roofing that will give many years of satisfactory service.

This roofing is water-proof, weather-proof and hail-proof, and is adapted for any kind of roof. Width of roofing, 32 in. We include with each roll a liberal quantity of large head galvanized nails, a can of cement for the laps, and full directions. Not affected by the heat or cold, will not shrink or stretch; contains no tar and does not affect the rain water. Buy this roofing if you have severe hail storms in your locality.

GARNET RED BURLAP RADIO ROOFING

180B46—Burlap Radio Roofing. Surfaced with crushed Red Slate. Rolls containing one square, or 108 square feet. Complete with nails and cement. Average shipping weight, 90 lbs.
Per roll of 108 sq. ft. . . . **$2.85**

SEA GREEN BURLAP RADIO ROOFING

180B47—Burlap Radio Roofing. Surfaced with crushed green slate. Rolls containing one square, or 108 square feet. Complete with nails and cement. Average shipping weight, 90 lbs.
Per roll of 108 sq. ft. . . . **$2.85**

THREE ECONOMICAL, ATTRACTIVE ASPHALT-FELT ROOFINGS

ASBESTOS-ASPHALT READY ROOFING

$1.60 GUARANTEED 10 OR 12 YEARS **$1.95**

A high grade Asphalt Roofing, with a bottom layer of long-fibred Asbestos which prevents flames from breaking through the roof in case of fire. Asbestos Asphalt Roofing is made of best quality wool felt, saturated and waterproofed with genuine Asphalt. Proof against rain, snow, heat or cold. The bottom ply is of Asbestos fibre which gives unusual fire resisting qualities. Not affected by water, acids or gases. Our Asbestos Asphalt Roofing always remains soft and pliable. Will not taint or discolor rain water. Contains no tar or other cheap substances, which might dry out and cause cracking. A strictly first quality roofing in every respect. Put up in rolls containing 108 square feet, complete with large head nails and cement for the laps. Width of roofing, 36 in. Made in two thicknesses or weights.

180B75—Heavy ASBESTOS-ASPHALT Roofing. Guaranteed for 10 years. In rolls containing 108 square feet. Average shipping weight, 45 lbs. Per roll **$1.60**

180B76—Extra heavy ASBESTOS-ASPHALT Roofing. Guaranteed for 12 years. In rolls containing 108 square feet. Average shipping weight, 55 lbs. Per roll **$1.95**

COMBINATION RUBBER ROOFING

A Combination Flint and Smooth Surfaced Roofing which we offer at a low price

Sold without a guarantee for a definite period, but is good enough for temporary buildings, where a long-lived, durable fabric is not absolutely essential. Made of wool felt, saturated with asphaltum. Finished on one side with a smooth mineral asphalt coating, resembling rubber, and on the other side with fine sand or flint. Can be used with either side up, as preferred. Width of roofing, 32 in. Put up in rolls containing 108 square feet, or enough to cover 100 square feet. Complete, with large head nails and liquid cement for the laps. Usually sold $1.25 to $1.75 a roll.

180B87—One-Ply. Average shipping weight, 35 lbs. Per roll **80c**

180B88—Two-Ply. Average shipping weight, 45 lbs. Per roll **95c**

180B89—Three-Ply. Average shipping weight, 55 lbs. Per roll **$1.15**

Note—If you want a really good roof buy our specially Guaranteed Roofings. They are the cheapest in the end.

RUBBERSLATE ROOFING $1.70

GUARANTEED FOR 12 YEARS

With Galvanized Nails and Liquid Cement. Smooth Slate Surface

A slate-colored roofing, with smooth surface, tough and flexible, and presents a fine appearance when put on the roof. Made from selected long fibre wool felt, carefully treated, and saturated with mineral rubber, and genuine asphaltum.

Rubber Slate Roofing is weather-proof, and fire-resisting. A tough, elastic roofing fabric, suitable for any climate. It contains no tar or volatile matter, will not dry out, crack or shrink, and is not affected by changes in temperature. Has a fine, smooth, slate-like surface, the same on both sides, and does not require any top coating. But after a few years, if covered with our Asphaltum roof coating, the roofing will be assured of longer life. Our Asphaltum coating has the same good effect on prepared roofing as paint has on a wooden surface. Each roll is packed complete with large head galvanized nails, and a liberal quantity of liquid cement for the laps and seams. Requires no special tools and is easy to apply. Width of roofing, 32 in.

180B80—Rubberslate Roofing. Heavy grade. Roll containing 1 square or 108 square feet, complete with nails, cement and directions. Average shipping weight, 55 lbs.
Per roll **$1.70**

TARRED-FELT ROOFINGS FOR ALL PURPOSES

OLD RELIABLE READY ROOFING

Made from selected long fibre felt, saturated with an insoluble waterproofing composition. A flexible fabric, absolutely waterproof. Contains only time-tried weather-proof materials. When properly coated with our Ready Roof Coating it will give many years of satisfactory service. In an extremely hot climate it sometimes happens that the composition will partly run off and disfigure the paint on a building. We therefore do not recommend this roofing for a dwelling or painted building in the extreme southern states or in tropical countries. We do however, specially guarantee our asphaltum roofings, shown on previous pages, in any climate. In rolls of 108 square feet. Width, 32 in. Our price does not include nails, caps or roof coating, all of which should be ordered at the same time. Use 1½ lb. tin caps, 1 lb. nails and 2 gallons of ready roof coating to each roll. Should be given a fresh coat every few years.

180B102—Two-Ply. For use on temporary buildings, lumber camps, sheds, etc. Average shipping weight, 45 lbs. Per roll **72c**

180B103—Three-Ply. When properly applied and coated will give long and satisfactory service. Average shipping weight, 70 lbs.
Per roll **98c**

TARRED-FELT ROOFING

180B249—A good grade Felt. Thoroughly saturated with best distilled coal tar. Largely used on flat roofs, where it is applied in from 3 to 6 layers. Each layer and the top surface should be coated with tar or our ready roof coating, and the top surface thoroughly covered with gravel. Also used extensively for roofing lumber camps and temporary buildings. For temporary work, order tin caps and roofing nails, as well as Roof Coating, with this felt, as they aren't included. Use 1½ lbs. tin caps, 1 lb. nails and 2 gallons Ready Roof Coating to each roll. For permanent work, we recommend the use of tar. Put up in rolls 36 in. wide, containing about 350 square feet. Average shipping weight, 50 lbs.
Per roll **98c**

BANNER READY ROOFING

A competition grade of roofing for those who do not care to pay the price of a heavier and more serviceable roofing. Good enough for hen houses, tool sheds and temporary buildings, but not recommended where a serviceable roofing is needed. Each roll contains 108 square feet. Width, 32 inches. Our price does not include nails, caps, or roof coating, all of which should be ordered at the same time. To properly apply this roofing, requires 1½ lbs. tin caps, 1 lb. nails, and 2 gallons of Ready Roof Coating to each roll. Should be given a fresh coat every few years.

180B105—Banner Two-Ply Roofing. Average shipping weight, 40 lbs.
Per roll **60c**

180B106—Banner Three-Ply Roofing. Average shipping weight, 65 lbs. Per roll **89c**

TIN ROOFING CAPS

80B180—Tin Roofing Caps. Each square of roofing requires 1½ lbs. caps.
Per lb. **4c**

WIRE ROOFING NAILS

Barbed roofing nails for use with tin caps. Each square of roofing requires about 1 lb. of 1 inch or 1¼ in. nails, and about 1½ lbs. of 1½ inch nails.

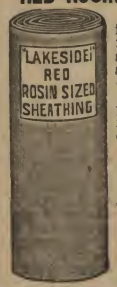
SHEATHING AND BUILDING PAPERS



Very best qualities at practically wholesale prices. **To use under shingles, clapboards, floors, etc.** Aids greatly in keeping a building warm and dry. **Samples on application.**

HERALD BLACK FELT SHEATHING

180B226 — Our Herald Brand Tarred Sheathing is made from wool felt thoroughly waterproofed with distilled tar. Waterproof and wind-proof. Strong and durable. Better than ordinary building paper. Clean to handle. Moisture and vermin-proof. Will unroll freely without sticking. It is air tight, will not shrink or dry out and will withstand all weathers and temperatures. Its first cost is but a little more than the cheapest paper and it lasts so much longer that it is certain economy to use it. The faint tar odor of this sheathing is of great value in dispelling mice, rats, bugs, moths, etc. Put up in rolls containing 500 square feet. Width, 32 inches. Average shipping weight of rolls, 45 lbs.
Per roll **95c**

RED ROSIN-SIZED SHEATHING

Our Lakeside Red Rosin-sized sheathing is made for us of the best pulp stock with a hard, smooth surface. We sell very large quantities annually. It is a tough, clean, durable paper. Damp-proof and vermin-proof. Made in three different weights or thicknesses, but all the same quality. Put up in rolls containing 500 square feet. Width, 36 in. This sheathing is being used extensively in all parts of the country. You will be pleased and with the saving you make by buying from us.

180B220 — Standard Lakeside Sheathing. Average shipping weight, 30 lbs. Per roll **48c**

180B221—Medium Lakeside Sheathing. Average shipping weight, 35 lbs.
Per roll **56c**

180B223—Heavy Lakeside Sheathing. Average shipping weight, 40 lbs.
Per roll **64c**

STANDARD WOOL DEADENING FELT

180B237—An excellent, cheap non-conductor for deadening of sounds. Also an excellent protection against frost, or for insulation of heat, etc. For use between floors of buildings. Adds greatly to the warmth and comfort of a home. Nothing is more annoying than to hear every footstep or sound from the floor above. This felt effectually overcomes this trouble. Our Wool Felt is thick and heavy, and the best material of the kind on the market.

Put up in rolls containing about 450 square feet. Width, 36 inches. Nine square feet weigh 1 lb. Average shipping weight of rolls, 50 lbs.
Per roll **$1.48**

ASBESTOS BUILDING FELT

180B244—Standard Asbestos Sheathing. An excellent insulator for heat and cold. For lining buildings, refrigerator cars, ice houses, etc. To go between floors or for general building purposes. Extensively used for covering warm air pipes from furnaces, etc. It is absolutely fireproof. Will not burn if brought into contact with flames. Makes an excellent sound deadener. A comparison of quality and price will convince you of the excellent value we are offering. Put up in rolls containing 450 sq. ft. Width, 36 in. Weight, per 100 sq. ft., 10 lbs. Average shipping weight of rolls, 50 lbs.
Per roll **$1.75**

BLUE PLASTER BOARD A-GRADE — EXTRA QUALITY

A strong, durable, thin cardboard, extensively used in place of lath and plaster on walls and ceilings. It can be used over boards or fastened direct to the studding and is the best material made for sheathing and insulating. Usually applied with large head tacks and then painted, covered with wall paper or covered with panel strip at the seams. Has a pleasing blue color. Width of rolls, 36 inches.

180B229—Rolls of 500 square feet. Average wt., 60 lbs. Per roll **$1.85**

180B231—Rolls of 250 square feet. Average wt., 30 lbs. Per roll **95c**

BLUE PLASTER BOARD—B GRADE

Blue plaster board B grade is very similar in appearance to the A grade, but is not as firm or tough in quality.

180B232—Rolls of 500 square feet. Average wt., 58 lbs. Per roll **98c**

180B233—Rolls of 250 square feet. Average wt., 28 lbs. Per roll **48c**

Our guaranteed Paints and Supplies at money-saving prices. See Index

All of our Metal Roofing is clean, smooth, and well manufactured stock—free from rough spots, splits and defects of any kind.

We furnish it in two thicknesses, the **Standard No. 28 gauge,** and a heavier grade, **No. 26 gauge,** in both Painted and Galvanized. We recommend the No. 26 gauge if you want a good, durable roof, that will give you many years of satisfactory service. We do not handle the light weight, No. 29 gauge roofing (which is sometimes sold for regular No. 28 gauge), for we consider it too light weight and thin a material to give satisfactory service.

OUR SHEET STEEL ROOFINGS ARE ALL FULL WEIGHT. USE OUR HEAVY No. 26 GAUGE ROOFING, IF YOU WANT THE BEST.

A Square signifies 100 square feet of material, no allowance being made for side and end laps.

Use our Lead Washers under the nail head, when applying metal roofing. They prevent rust forming under the nail head, insure a tight, durable job, and are not at all expensive.

NOTICE: Ordinarily, prices on all metal roofings are effective during the life of this Catalogue, but in the event of extraordinary fluctuations, we reserve the right to revise our prices.

Will always bill to you at very lowest market rates.

CORRUGATED STEEL ROOFING

2½ in. Corrugations

$1.80 A SQUARE

Made of open hearth Sheet Steel in two different size corrugations, 2½ in. or 1¼ in. (measuring from center to center). **The 2½ in. corrugated sheets are 26 in. wide** and the 1¼ in. corrugated sheets are 25 in. wide (covering width, 24 in.). **The painted roofing is red** and covered with a good coat of mineral paint (on both sides), but should receive an additional coat after being laid. When ordering by the square, be sure to allow enough extra for the side and end laps, and give length of sheets wanted.

V CRIMPED STEEL ROOFING

This roofing is made of open hearth sheet-steel. In two styles—sheets with a V-crimp at both edges, and with crimp in center and on edges. Can be laid over sheathing, old shingles or direct to the rafters and is suitable for any roof having a pitch of 2 ins. or more to the foot. The sheets have a covering width of 24 in. after lapping one crimp over the other and should be nailed through the wooden V-strips which we list below. The painted roofing is red, and should have an additional coat of mineral paint after being laid.

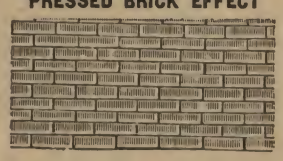
3-V-Crimp



STEEL CEILING AND SIDING
BEADED EFFECT

Made of annealed sheet steel, No. 28 gauge. With small beads running lengthwise. Width of sheets, from center to center of the outside beads, 24 inches. The color of painted siding is red.

180B474 Painted Per Sheet	Length of Sheet	180B476 Galvanized Per Sheet
21c	5 ft.	38c
26c	6 ft.	45c
30c	7 ft.	53c
34c	8 ft.	60c
38c	9 ft.	68c
42c	10 ft.	75c
Per square $2.10		Per square $3.75

STEEL SIDING
PRESSED BRICK EFFECT

Made of a fine grade of annealed sheet steel. A square consists of 8 3/5 sheets, size 28x60 inches or enough to cover a space of 100 square feet. The single brick measure 2 4/5x8¼ in. If this siding is painted red, and the mortar lines striped in white it produces a very handsome effect.

The painted siding is red, but should have an additional coat after it has been put on the building. Weight, per square, painted, 65 lbs., galvanized, 78 lbs.

180B490 — Painted Pressed Brick Siding. Per square $1.95

180B491—Galvanized Pressed Brick Siding. Per square . . . $3.55

ROLL AND CAP STEEL ROOFING

Made of open hearth sheet steel. For flat or steep roofs. Especially desirable for uneven surfaces, over shingles, etc. The standing seams are formed 1 inch high with our roofing tongs. The cleats are then nailed to the roof boards, bent around outside the caps, and afterwards closed tight with the seaming tongs. Put up in rolls, length, 50 ft.; width, 26 inches. Contains 108 square feet, which will cover one square. Prices include cleats and caps for applying. We do not sell less than a full roll.

180B460—Painted, No. 28 gauge. Weight, per square, 77 lbs. Price, per square, complete $2.15

180B461—Painted, No. 26 gauge. Weight, per square, 90 lbs. Price, per square, complete $2.60

180B464—Galvanized, No. 28 gauge. Weight, per square, 93 lbs. Price, per square, complete $3.95

180B465—Galvanized, No. 26 gauge. Weight, per square, 100 lbs. Per square, complete $4.15

STEEL SIDING
ROCK-FACED BRICK EFFECT

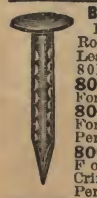
Made of the same material as our brick siding, but the surface presents a rough appearance, in imitation of rock faced brick, which is largely used in modern buildings. Size of sheets, 28x60 in. Each brick measures about 2 4/5x8¼ in. If painted to resemble stone, produces a very handsome effect.

A square consists of enough material to cover a space of 100 square feet. Weight, per square, painted, 65 lbs.; galvanized, 78 lbs.

180B494—Painted Rock-faced Brick Siding. Per square $2.05

180B495 — Galvanized Rock-faced Brick Siding. Per square . . . $3.65

STEEL SIDING
CUT STONE EFFECT



Made of a fine quality sheet steel and is a good representation of rock-faced cut stone. It can be applied by any mechanic. Should be put on over solid sheathing, and affords an excellent protection against fire. Size of sheets, 28x60 in. Size of each stone, 7x12 in. A square consists of 8 3/5 sheets, or enough to cover a space of 100 square feet. Weight, per square, painted, 65 lbs.; galvanized, 79 lbs.

180B500—Painted Stone Faced Siding. Per square $2.10

180B501—Galvanized Stone Faced Siding. Per square $3.65

BARBED ROOFING NAILS

For applying Sheet Metal Roofing and Siding. (For Lead Washers, see 80B528.)

80B520—Length, ⅞ in. For Siding. Per lb . . . 3c

80B521 — Length, 1 in. For Roll and Cap Roofing. Per lb. 3c

80B524—Length, 1¾ in. For Corrugated and V-Crimped Roofing. Per lb. 3c

LEAD ROOF WASHERS

80B528 — To go under the nail head. Makes a tight job, and avoids the danger of leaks around the nail hole. Recommended for corrugated roofing. About 325 washers in one pound and it requires about ½ lb. for each square.

Per lb. 12c

ROOFING TOOLS

For Roll and Cap Roofing.

80B468—The following tools are necessary for applying Roll and Cap Roofing: 1 pair Squeezing Tongs for squeezing seams, cast iron jaws, wood handles; 1 pair Edging Tongs for turning up the standing seam, cast iron jaws, wood handles; 1 pair forged steel Tinners' Snips. Shipping weight, 11⅞ lbs. Per set $1.50

DRY RED ROOFING PAINT

80B530 — Dry Red mineral paint for metal roofing. It requires 1 lb. of the dry powder for a square of roofing. (To be mixed with linseed oil.) Furnished in any quantity.

Per lb. 2c

We most all of us deny ourselves some things; there is always something beyond our reach. To increase the buying power of a dollar isn't the easiest thing in these days; but every time you can so spend your money that $3.00 will do the work of four, you are just as surely $1.00 ahead as though you had earned it in any other way.

TIN—COPPER—ZINC—AND FLAT SHEET METAL

PREPARED TIN ROOFING

180B730—Made of the best I. C. (0.0125 inch thick) tin plate, locked and soldered. Put up in rolls containing 120 lineal feet. The strips are perfectly straight and ready to lay on the roof. One of the best and most convenient forms of roofing tin on the market. Painted on under side. Width of strip, 20 in. Put up in casks containing 120 lineal feet or 200 square feet. We cannot sell less than a full cask containing 200 square feet. Average shipping weight, per cask, 107 lbs.

Per roll or cask $6.60

PAINTED VALLEY TIN

Made of a good grade of tin plate in a continuous strip, locked and soldered. Full rolls are 50 ft. long, but we can furnish any quantity. (Painted on one side.)

Number	Width	Weight Roll	Per Roll of 50 Ft.	Lineal Ft.
180B739	7 in.	16 lbs.	$1.00	3c

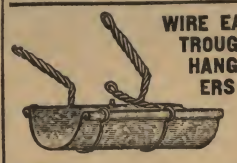
GALVANIZED ROUND ELBOW

80B641 Style 1	80B642 Style 2	80B643 Style 3	80B645 Shoe



80B641, 80B642, 80B643—Corrugated Elbows. Made of galvanized steel, in three different angles. (Always state style and size.) All styles the same price.

Size, inches	2	3	4	5
Average weight, oz.	5	7	10	19
Each	6c	7c	12c	26c

80B645—Corrugated Shoes. For bottom end of conductor pipe. Made of galvanized steel. Give size.

Size, inches	2	3	4	5
Average weight, oz.	6	7	13	23
Each	9c	10c	16c	32c

WIRE EAVE TROUGH HANGERS

80BG60 — For attaching eave-trough to the roof. Made of a heavier galvanized wire than those ordinarily found on the market.

Size, in.	3½	4	5	6
Wt. doz. oz.,	17	18	24	26
Dozen	$0.11	$0.12	$0.14	$0.16
Gross	1.15	1.25	1.50	1.75

RAIN WATER FILTERS

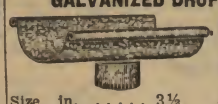
80B686—Intended to connect to the conductor pipe. Will prevent leaves, insects, and all other filth from getting into the cistern. The water is strained through a linen sack which can easily be removed to clean. Made of heavy galvanized iron. Give size.

Size	Weight	Each
2 in.	1½ lbs.	$0.85
3 in.	2¼ lbs.	.90
4 in.	2½ lbs.	1.00

CONDUCTOR PIPE STRAINER

80B684—A self cleaning strainer, made of galvanized iron. The water passes through a corrugated wire strainer, and the refuse is discharged through the opening in front. Give size.

Size, in.	2	3	4
Wt., about, oz.	12	14	17
Each	24c	27c	38c



RAIN WATER CUT-OFF

80B680 — Made of galvanized sheet steel, fitted with safety spring, so you can turn the flow of water from one pipe to another. Give size.

Size	Average Weight	Each
2 in.	9 oz.	20c
3 in.	11 oz.	23c
4 in.	1¼ lbs.	30c
5 in.	2 lbs.	55c

GALVANIZED DROP OUTLETS

80B702 — To fit our eave trough. No holder needed. (Give size.)

Size, in.	3½	4	5	6
Weight, oz.	6	7	8	11
Outlet, in.	2	2	3	4
Each	9c	10c	11c	12c

GALVANIZED END CAPS

80B700—To close up the end of trough. Fits right or left hand. Slip joint.

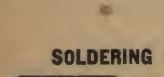
Size, in.	3½	4	5	6
Wt., oz.	1½	2	3	4
Each	5c	5c	6c	7c
Dozen	50c	55c	60c	70c

GALVANIZED WIRE STRAINERS

80B675—For keeping leaves and similar obstructions from stopping up the conductor pipe. Made of galvanized wire. Give size.

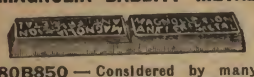
Size, in.	2	3	4	5
Average weight,	Oz.	Oz.	Lbs.	Lbs.
Per doz.	15	28	2½	5½
Each	4c	5c	7c	10c
Per doz.	38c	52c	70c	$1.05

GALVANIZED FUNNEL



80B705—Made of galvanized sheet steel, and used to run two conductor pipes into one. Sizes given are the diameters of the lower outlet. Give size.

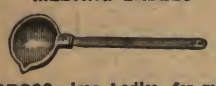
Size	Wt., about	Each
2 in.	8 oz.	20c
3 in.	14 oz.	25c
4 in.	16 oz.	30c



HANDY SOLDERING SETS

SOLDERING SALTS

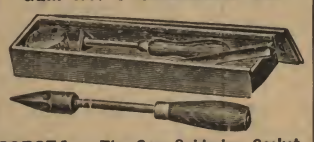
80B867 One of the cleanest and most effective soldering fluxes made. Desired quantity is to be dissolved in water, and applied with brush to parts which are to be soldered. Causes solder to flow readily, and insures tight joints or seams. Put up in 1 lb. bottles, with directions. Wt., about 1½ lbs. 75c value. Each . . . 40c



MAGNOLIA BABBITT METAL

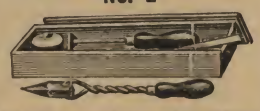
80B850 — Considered by many the best Anti-Friction Metal in use. It will not cut or heat journals, and is adapted to high and low speed machinery. Weight, about 6½ lbs. per bar.

Per bar $1.63
Per Half Bar 82



MELTING LADLES

80B860—Iron Ladles, for melting babbitt metals, lead, etc. Give size.



Diam.	3 in.	4 in.	5 in.
Avg. Wt.,	13 oz.	18 oz.	2 lbs.
Each	14c	20c	25c

GEM NO. 1 SOLDERING SET

80B874 — The Gem Soldering Casket. Hollow handle will fit over a gas jet for self-heating. The casket contains large soldering iron, bar of solder, powdered resin and directions in wooden box with sliding cover. Wt., 14 oz. Each 60c

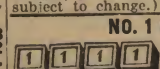
GEM SOLDERING CASKET NO. 2

80B872 — The Gem Soldering Casket, containing soldering copper, scraper, and bar of solder and box of resin. Often pays for itself on one home repair job. Weight, 1 lb. Each 40c

LEADER SOLDERING SET

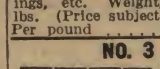
80B870 — Leader Soldering Set, in a box containing soldering copper, scraper, box resin and piece of solder. Useful, but has smaller capacity than the other sets. Weight of set, 10 oz. Price, per set 25c

We have illustrated on this page all the most necessary parts used in connection with the putting up of Eave Trough and Conductor Pipe.



The patent slip joints make it easy for any man to put up troughs. No tinner needed. Makes a neat, tight job and requires no soldering at the joints. We handle only first quality material and our prices, you will find, are very low.

BABBIT METALS



80B852 Genuine. Contains pure tin, copper and antimony. For all classes of work. Weight, per bar, about 4¾ lbs. (Price subject to change.) Per pound . . . 58c

NO. 1 BABBIT

80B853 For all light, fast running machinery, small engine bearings, etc. Weight, per bar, about 6 lbs. (Price subject to market changes.) Per pound 10c

NO. 3 BABBIT

80B855 The best low price metal. For pulleys, line shafting, and agricultural machinery. Wt., per bar, about 5¾ lbs. (Price subject to market changes.) Per pound . . . 8c

BAR METALS

All prices subject to market changes.

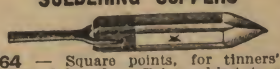
TINNERS' SOLDER

80B840 — Contains an equal proportion of pure tin and lead. Strictly half and half. Bars weigh about 1½ lbs. each. Per Bar 52c

PLUMBERS' SOLDER

80B842—Contains 40 parts tin and 60 parts lead. Bars weigh about 1½ lbs. Per Bar 45c

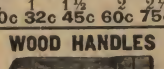
WIRE SOLDER



80B844—Wire Solder, half and half. Diameter, about ⅛ in. Per pound . 35c

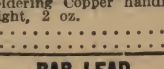
BAR TIN

80B845—Genuine, new, pure tin. Bars weigh about 1½ lbs. each. Per bar 80c



SOLDERING COPPERS

80B864 — Square points, for tinners' use. Without wood handles. Price subject to market changes. Weights given are for one copper.



Wt., lbs.	¾	1	1½	2	2½	3	4
Each	30c	32c	45c	60c	75c	90c	$1.20

WOOD HANDLES

80B865—Soldering Copper handles, with wire ferrules. Weight, 2 oz. Each 2c
Per doz. 16c

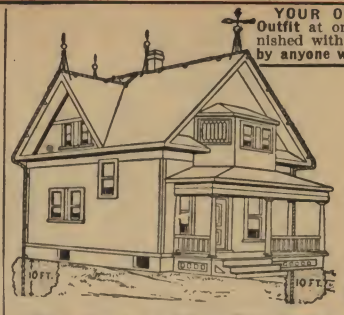
BAR LEAD

80B846—Put up in bars of about ¼ pound each. Per pound 7c

We sell screws, hooks, casters, etc., at bargain prices. See Index

PEERLESS COPPER CABLE LIGHTNING ROD

ANIMAL VANE UPRIGHT



183B7225 — Complete 5-Foot Upright with tee clamp for cable. Has handsome gilt Animal Figure (horse, cow, or rooster; state which). Give color ball wanted. Ball rests on top of three-legged brace. Ship. wt., about 5½ lbs. Each **$1.95**

PLAIN UPRIGHT OR TOP Without Glass Ball

183B7221 — Complete 5-ft. upright, with tee clamp for cable. Not furnished with ornamental glass ball, which makes our other tops so attractive. Ship. wt., about 5 lbs. Each **75c**

YOUR OPPORTUNITY to get a first quality, durable, effective Lightning Rod Outfit at one-half the price charged by agents. Complete and clear directions furnished with each Outfit, enabling anyone to put it up. Easily and quickly attached by anyone with a hammer and screw driver, or by a carpenter, if desired.

This House is fitted with Peerless Lightning Rods, has the best kind of protection. This equipment requires: 175 ft. of cable; one branch connector; three plain uprights; one upright with arrow vane. (Two ground connections.) Requires four hours to attach. Usual price of agents, $35.00 and up. Total cost from us $17.89

This Barn, fitted with Peerless Lightning Rods, has the best kind of protection. This equipment requires: 175 feet of cable; two plain uprights; one upright with horse vane (Two ground connections). Requires three hours to put on. Agent's estimate for the job, $31.75. Total cost from us $17.41

PLAIN UPRIGHT OR TOP With Glass Ball

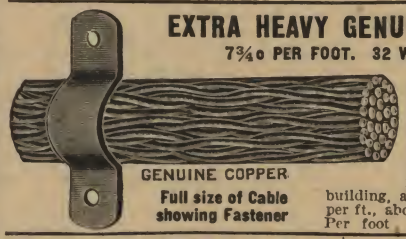
183B7220 — Complete 5-foot Upright with tee clamp for cable. Has ornamental Glass Ball. Colors are opal, blue, ruby, silver, or gold. Give color wanted. Ball rests on top of three-legged brace. Ship. wt., about 5 lbs. Each **95c**

ARROW-VANE UPRIGHT OR TOP

183B7222 — Complete 5-foot Upright, with tee clamp for cable. Has handsome Arrow Vane. Has ornamental Glass Ball. Colors are opal, blue, ruby, silver or gold. Give color wanted. Ball rests on top of three-legged brace. Shipping wt., about 5½ lbs. Each **$1.40**

DESCRIPTION OF OUR PEERLESS LIGHTNING RODS

Every part is strictly first-class, and of the most modern approved construction. Our prices, however, are remarkably low.



The Uprights are five feet high, and strongly constructed. A Plain upright consists of a three-legged, galvanized steel brace, for attaching to roof. This brace holds a strong, heavy copper tube, with a tee at its lower end, for attaching the cable, and a seamless copper point at the top, properly shaped, with silvered tip. A hail-proof, ornamental glass ball is placed near the point. The Ornamental uprights are the same, with the addition of either an animal figure or an arrow vane.

The Extra Heavy Copper Cable is 7/16 inch in diameter, and **contains 32 wires,** made of the purest copper obtainable. It will safely carry the most powerful discharge.

The Copper Clips and Copper Nails we furnish in sufficient quantity with the cable. They should be fastened about every three feet **(directly to the building, not insulated from it),** to hold the cable securely in place.

EXTRA HEAVY GENUINE COPPER CABLE

7¾o PER FOOT. 32 WIRES. 98-99% PURE

Full size of Cable showing Fastener

183B7200—Extra Heavy Cable. Diameter, 7/16 in. This cable has ample capacity for the heaviest stroke of lightning, gives effective protection at lowest cost. Will last longer than the average building. With copper fasteners, and copper nails to fasten cable directly to your building, about three feet apart. Shipping wt., per ft., about ¼ lb. Per foot **7¾c**

STRAIGHT CONNECTOR FOR CABLE JOINING

83B7212 Solid brass. The two ends of cable to be joined are clamped by the screws. Average wt., 1 oz. Each **4c**

BRANCH CONNECTOR FOR CABLE BRANCHES

83B7210—Solid brass prongs are hooked over the main cable where desired and fastened by hammering shut. Branch cable is clamped by a screw. Average wt., 2 oz. Each **8c**

DIRECTIONS FOR FIGURING A SUITABLE OUTFIT

To Figure the Number of Uprights, or Tops, required: Uprights should be placed on the highest points of building, beside all chimneys (unless they are below the ridge), and reaching above, and on top of all cupolas, gables, etc. Uprights must not be over 20 feet apart, and there should be at least three on every building.

To Measure the Length of Cable Required: Run a stout cord (tacking it with a staple every few feet, which will serve as a guide when cable is to be attached) up one corner of the building to the roof, then up to the ridge and along all ridges and up to all points where tops are to be placed (branching out if necessary). Then branch to everything of metal on or near the roof, gutters, cornices, etc., and then down on opposite end of building. **Pull out string and measure, adding enough to make all bends rounding (not sharp), and adding 10 feet extra for each ground connection** (where cable goes 10 feet deep into the ground). If building is larger than ordinary, figure on 3, or even 4 ground connections. **FULL INSTRUCTIONS WITH EACH OUTFIT.**

VENTILATING CUPOLAS

GALVANIZED STEEL VENTILATING CUPOLA

SUITABLE FOR LARGE BARNS

180B776—Extra large, ornamental cupola. Much more attractive, effective and durable than a wood cupola. Considered the best looking cupola on the market. Has efficient double damper arrangement so constructed as to continually draw out foul air and replace it with fresh air without creating a draft. Keeps temperature at a point where animals will not catch cold when taken out of barn. Made of heavy galvanized sheet steel. Strengthened with ¾-inch steel brace. Edges reinforced with 5/16 inch rods. Cupola screened with ½-inch galvanized bird-proof netting. Flanges extend over opening to keep out rain or snow. Base moulding cut in four corners. Each corner strongly braced. Will not break down. Easy to attach. Holes punched on four sides for connecting lightning rod to a standard ⅝ in. Copper tube through center leading to point. Fitted with silvered tip and gold bronzed animal vane. Shipped taken down and nested. Securely crated.

Extreme Height ..... 13 ft.
Size, base ..... 54x54 in.
Diam. vent flue ..... 30 in.
Ship. wt. ..... 220 lbs.
Each **$27.80**

GALVANIZED STEEL VENTILATING CUPOLA

SUITABLE FOR HOG OR POULTRY HOUSES, ETC.

180B777—Small, neat, well designed cupola. Gives a small building a finished appearance. So constructed as to continually draw out foul air and replace it with fresh air without creating a draft. Not made with the double damper used in our larger cupolas, but satisfactory for minor ventilation. Keeps temperature at a point where animals will not catch cold when taken out of barn.

Made of heavy galvanized sheet steel. Well braced. Cupola screened with ½-in. galvanized bird-proof netting. Flanges extend over opening to keep out rain or snow. Base moulding cut in four corners. Each corner strongly braced. Will not break down. Easy to attach. Holes punched on four sides for connecting lightning rod to standard ⅝ in. Copper tube through center leading to point. Fitted with silvered tip and gold bronzed animal vane. Shipped taken down and nested. Securely crated.

Extreme height ..... 6 ft.
Size base ..... 24x24 in.
Diam. vent flue ..... 16 in.
Ship. wt. ..... 50 lbs.
Each **$8.25**

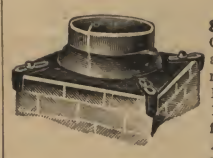
GALVANIZED STEEL VENTILATING CUPOLA

SUITABLE FOR SMALL BARNS, CATTLE SHEDS, ETC.

180B778—Large, attractive cupola. So constructed as to continually draw out foul air and replace it with fresh air without creating a draft. Efficient double damper arrangement. Keeps temperature at a point where animals will not catch cold when taken out of barn. Animals will thrive better with the added fresh air.

Made of heavy, galvanized sheet steel. Braced with ¾ in. steel brace. Edges reinforced with 5/16 in. rods. Cupola screened with ½ in. galvanized, bird-proof netting. Flanges extend over opening to keep out rain or snow. Base moulding cut in four corners. Each corner strongly braced. Will not break down. Easy to attach. Holes punched on four sides for connecting lightning rod to a standard ⅝ in. Copper tube through center leading to point. Fitted with silvered tip and gold bronzed animal vane. Shipped taken down and nested. Securely crated.

Extreme height ..... 9 ft.
Size base ..... 36x36 in.
Diam. vent flue ..... 24 in.
Ship. wt. ..... 90 lbs.
Each **$19.75**



ROOF VENTILATORS

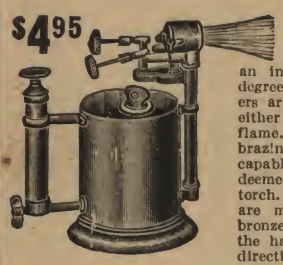
80B770—Made from the best grade of heavy galvanized iron. Excellent for ventilating schools, churches, public buildings, barns, etc. Rain-proof. (Give size.)

Size, in.	4	6	8	10	12
Weight, lbs.	1	2¼	4½	6¾	9¾
Each	$0.70	$1.30	$1.75	$1.90	$2.25

IRON CHIMNEY CAP

80B774—Cast Iron Adjustable Chimney Cap. Protects the bricks and lasts as long as the Chimney. Fastens securely with malleable corner clamps. No mortar needed. Diameter of collar, 7 in. Size of base, 12¾x16¾ in. Clamps can be adjusted to fit 4x8, 4x12, 8x8, or 8x12 in. flues. Average wt., 15 lbs. Each **85c**

REVOLVING CHIMNEY TOP



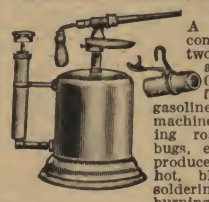
80B772—Protects the chimney from rain and snow. Produces a strong, regular draft under almost all conditions, and prevents down draft. The iron mountings are strong and substantial, and top is pivoted so as to revolve easily. Hood and vane are of heavy galvanized iron. (Give size.)

Diam. Base.	Average Wt.	Each
6 in.	3¼ lbs.	75c
7 in.	4 lbs.	90c
8 in.	5 lbs.	95c

DOUBLE JET BRAZING TORCH

$4.95

80B807 — Gasoline Torch with double jet burners, will burn in any position, and generates an intense heat of about 3,000 degrees (Fahrenheit). The burners are easily adjusted to produce either a large or a small, pointed flame. A fine torch for all light brazing, tempering, etc., and is capable of doing work heretofore deemed impossible with a blow torch. All parts of this torch are made of heavy brass and bronze, the pump is contained in the handle of the torch, and full directions for operating are attached. Capacity of tank, 1 quart, height over all, 9 in. Ship. wt., about 3¾ lbs. Each **$4.95**



GASOLINE FURNACE

180B820—Unexcelled by any other at a similar price. Produces a very hot flame. Constructed in a first class, durable manner. Has shield to hold a melting pot. Melting pot not included. With heavy galvanized iron gasoline tank. Substantial rubber pressure bulb. All small castings are made of malleable iron and brass. The coil or burner is made of extra heavy copper pipe. Every pot is tested before leaving factory. Consumption, 1 pint of gasoline per hour. Height over all, 17¾ in. Diameter, 8¼ in. Shipping weight, about 10 lbs. Each **$2.95**

GASOLINE TORCHES AND FURNACES

GASOLINE TORCH AND SPRAYER

80B800— A most useful combination with two interchangeable nozzles. One throws a fine stream of gasoline for cleaning machinery, destroying roaches, bed bugs, etc. The other produces an intensely hot, blue blast for soldering, paint burning, etc. Brass body, pump and nozzles. Steel soldering copper holder. Well made and finely finished. Capacity, 1 quart. Height, 9 in. Shipping weight, about 5½ lbs. Each **$2.45**

GASOLINE AUTO TORCH

80B805— With flat shaped body, for use in narrow places, especially for automobile work. Has a swing support which prevents it from tipping when placed on the bench or floor. Fitted with solder iron holder; pump is contained in the handle and has a powerful burner. Capacity, 1 pint; height over all, 9 in. Ship. wt., about 4 lbs. Each **$3.15**

TINNERS' CHARCOAL STOVE

180B825— Extensively used as an economical means of keeping soldering coppers at a working heat. Burns regular lump charcoal. **With a shaking grate,** hinged hearth door, reversible flue and double dampers. Thoroughly well made, and nicely finished in black japan. Height, 15 in. Diameter, 7 in. Shipping wt., about 17 lbs. Soldering coppers not included. Each **$1.90**

CHARCOAL

86B296—Lump Hardwood Charcoal. Per 7-lb. bag **12c**

GASOLINE TORCH

80B810—**A compact little torch for small work.** Made of brass, nickel plated, Will burn about three hours with one filling. It is heated and lighted with a match and is quickly started. Produces a hot blast, about half the volume of our larger torches. Operates without a pump. One of the handiest little torches ever made. Should be in every householder's tool set. Often saves its cost in making one quick repair job. Total height, 6¼ in. Diameter, 1¾ in. Wt., 4 oz. Each **85c**

GASOLINE BLOW TORCH

One of the finest and most popular torches on the market. Made of polished brass with special bronze metal burner, and improved air pump. Produces a solid blue flame, generating about 1,500 degrees (Fahrenheit). It is easily regulated and indispensable for paint burning, soldering, thawing out pipes. Used by plumbers, tinners, electricians, etc. Has an adjustable solder iron holder, which can be easily removed if desired. Every torch is tested and is perfect.

80B802—Capacity, 1 pint. Height, 7 in. Ship. wt., about 3 lbs. Each **$1.95**

80B803—Capacity, 1 quart. Height, 9 in. Ship. wt., about 4 lbs. Each **$2.25**

GASOLINE FURNACE

180B822 — Combination plumbers', tinners' and roofers' gasoline furnace. With steel gasoline tank, painted red. Burner is mounted on a swing joint, enabling the operator to use the flame in any position. Produces a hot flame. **Will heat a pot of lead and a pair of soldering coppers at the same time.** The hood can be taken off and tank with burner used separately. **Burner is not affected by wind or weather.** Well made and durable. Capacity, 3 quarts. Height over all, 12 in. Diameter, 8¼ in. Shipping wt., about 12 lbs. Each **$4.35**

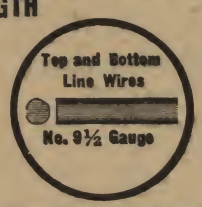
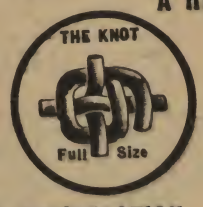
OUR FAMOUS AJAX FENCING



SPECIAL NOTICE:
Owing to the unsettled condition of the Zinc Spelter market, we may be obliged to advance our prices on Wire Fencing. Spelter is used in making Galvanized Wire and under normal conditions large quantities are imported from Europe. We shall maintain these prices on fencing just as long as possible but may be compelled to advance them.



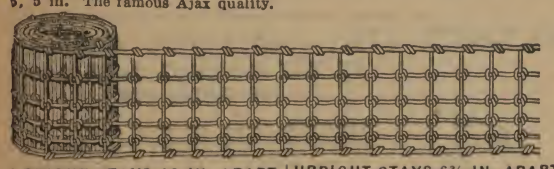
A SQUARE MESH FENCE OF GREAT STRENGTH

In our Famous Ajax Stiff Stay Fence we offer you a superior product, a fence which will stand the test of time and which is giving perfect satisfaction on thousands of American farms. The real cost of fencing is not the first cost. It is the cost to you per year of service. Fencing that lasts only six years and costs 18c per rod is more expensive than a fence which costs 20c and will last ten years. The cost per rod, per year of the one is 3c. The cost of the other is only 2c per rod, per year, and the cost of the posts and labor erecting the fence in both cases is the same, whether you use an inferior or a good fencing. Our **Heavy Ajax Fencing** will last longer than ordinary fencing and we recommend it because we know it will give you the best service. **The wire in our Ajax Fence** is made of basic open hearth steel, and is hard, tough, and springy; of a temper and quality best suited for making a high-grade, durable fence. Open hearth steel resists rust and decay better than steel made by any other process; therefore, we use it entirely in making our famous Ajax fencing. We do not use the common, soft wire, which soon rusts, stretches out of shape, and is never satisfactory.

All of the wires are heavily galvanized with a good coating of zinc spelter, to prevent rust. The line wires are coiled, to allow for expansion or contraction due to changes in the temperature.

BUY OUR AJAX FENCE FOR FENCE SATISFACTION

Every wire in the fence stands part of the strain; the top and bottom wires do not have to stand all of it. Ajax fence is built on simple and correct principles—stands stiff, erect and firm; combines great strength and durability. It is a fence you can be proud of and one which will give you the service you count on when you buy fencing. Every ounce of wire used counts for strength and service.



A REAL STIFF STAY FENCE AT FACTORY PRICES

The upright stay wires or cross bars are the same size as the line wires, which give you a real stiff stay fence that always stands up and can be erected with fewer posts than any other style of fence. In the design of our Ajax fence we avoid all sharp bends or twists in the line or stay wires. The upright stays are in one piece (no twisting around the line wire) and are fastened with our Ajax circular knot. This knot or tie never lets go, and the more you stretch the fence the tighter it grips. It holds every wire firmly in place, and every wire in the fence stands its share of the strain. If hogs try to root the fence up from the bottom, the vertical wires reinforce the bottom wire and they are reinforced in turn by the upper horizontal wires. The same is true of the top wire when cattle try to trample the fence down.

AJAX HEAVY SHEEP AND HOG FENCE

Six Line Wires | **20 In. High** | **12½c to 16c Per Rod**

Space between the line wires, commencing at the bottom, 3, 3, 4, 5, 5 in. The famous Ajax quality.

WOVEN WIRE HOG, STOCK AND POULTRY FENCING

BARBED BOTTOM HOG FENCE

With two point barbed bottom wire. Galvanized, Tough Open Hearth steel wire, with stay wires 6 in. apart. Height of two bottom meshes, 3 in., gradually widening to 6 in. at top. Line or stay wires cannot spread. Bales of 10, 20 or 40 rods. Two weights. Standard and Medium.

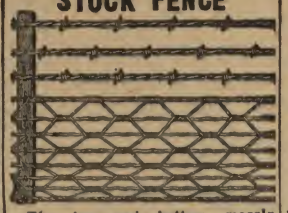
STANDARD HOG FENCE

Top wire is No. 10 gauge. Stays and intermediate wires, No. 13 gauge.

280B1092—Height, 26 in. Seven line wires. Shipping weight, per 100 rods, 525 lbs. Per rod **16¾c**

280B1093—Height, 32 in. Eight line wires. Shipping weight, per 100 rods, 600 lbs. Per rod **19¼c**

MEDIUM HOG FENCE



Top wire is No. 11 gauge. Stays and intermediate wires, No. 14 gauge.

280B1094—Height, 26 in. Shipping weight, per 100 rods, 425 lbs. Per rod **14c**

280B1095—Height, 32 in. Shipping weight, per 100 rods, 500 lbs. Per rod **16½c**

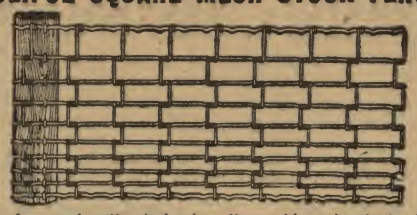
Shipped from factory in Central Indiana.

TWISTED HEX. MESH STOCK FENCE

The top and bottom margin wires are made of two ply twisted cables and the line and mesh wires are of No. 14 gauge wire, all thoroughly galvanized. Size of mesh, 12 in., measuring the extreme length, tapering to about 3 in. at the shortest point.

The smaller sizes, when used with two or more strands of barbed wire, make a very satisfactory stock fence. Barbed wire not included.

Put up in rolls of 10, 20 or 40 rods. We do not break rolls.



280B1080—Height, 20 in. Space between line wires, 3, 3½, 4, 4½ and 5 in. Shipping weight, per rod, 4 lbs. Per rod **12½c**

280B1081—Height, 26 in. Space between line wires, 3, 3½, 4, 4½, 5 and 6 in. Shipping weight, per rod, 4½ lbs. Per rod **14½c**

280B1082—Height, 31 in. Space between line wires, 3, 3½, 4, 4½, 5, 5½ and 6 in. Shipping weight, per rod, 5 lbs. Per rod **16½c**

Shipped from Factory in Central Indiana.

ECLIPSE SQUARE MESH STOCK FENCE

Made of open hearth steel wire, thoroughly galvanized. The stay wires are so intertwisted with the line wires as to make a stiff, substantial fabric, which requires very few posts. No top rail or base board necessary. The top and bottom wires are No. 11 gauge, the line wires and the stay wires are No. 14 gauge. In bales of 10 or 20 rods. Prompt shipments.

12 IN. BETWEEN STAYS

180B1060—Height, 26 in. Seven line wires. Spaced, 3 in. bottom, widening to 5¾ in. top. Shipping weight, per rod, 3½ lbs. Per rod **11½c**

180B1061—Height, 32 in. Eight line wires. Spaced, 3 in. bottom, widening to 6 in. top. Shipping weight, per rod, 4 lbs. Per rod **13½c**

180B1062—Height, 39 in. Nine line wires. Spaced, 3 in. bottom, widening to 7 in. top. Shipping weight, per rod, 4½ lbs. Per rod **15½c**

180B1063—Height, 47 in. Ten line wires. Spaced, 3 in. bottom, widening to 8 in. top. Shipping weight, per rod, 5 lbs. Per rod **17¼c**

6 IN. BETWEEN STAYS

180B1074—Height, 26 in. Seven line wires. Spaced, 3 in. bottom, widening to 5¾ in. top. Shipping weight, per rod, 4½ lbs. Per rod **13¾c**

180B1075—Height, 32 in. Eight line wires. Spaced, 3 in. bottom, widening to 6 in. top. Shipping weight, per rod, 5¼ lbs. Per rod **16½c**

180B1077—Height, 47 in. Ten line wires. Spaced, 3 in. bottom, widening to 8 in. top. Shipping weight, per rod, 6½ lbs. Per rod **22c**

SPECIAL NOTICE: Owing to the unsettled condition of the Zinc Spelter market, we may be obliged to advance our prices on Wire Fencing. Spelter is used in making Galvanized Wire and under normal conditions large quantities are imported from Europe.

We shall maintain these prices on fencing just as long as possible but may be compelled to advance them.

ECLIPSE SQUARE MESH POULTRY FENCE

Made of open hearth steel wire, thoroughly galvanized. THE STAY WIRES are so intertwisted with the line wires as to make a stiff, substantial fabric, which requires very few posts. No top rail or base board is necessary. The top and bottom wires are No. 11 gauge, the line wires and bottom wires are No. 14 gauge. THE STAY WIRES are 6 in. apart. Height of the four lower meshes, 1½ in., gradually widening to 5 in. at the top.

In bales of 10 or 20 rods. We do not break full bales. Prompt shipments.

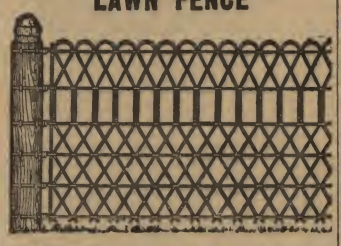
180B1064—Height, 50 in. Seventeen line wires. Shipping weight, per rod, 9 lbs. Per rod **28c**

180B1065 — Height, 60 inches. Nineteen line wires. Shipping wt., per rod, 10 lbs. Per rod **31½c**

STANDARD SQUARE MESH POULTRY FENCE

A medium weight fence, made of open hearth steel wire, thoroughly galvanized. The stay wires are one piece and so interwoven with the line wires that they cannot slip or spread. TOP AND BOTTOM WIRES are No. 10 gauge, spring steel wire. The line wires and stays are No. 14 gauge wire. Height of lower meshes, 1¼ in., from which they gradually widen to 5½ in. at the top. Stay wires are 6 in. apart.

In rolls of 10, 15 or 20 rods each. We do not break rolls. Prompt shipments.



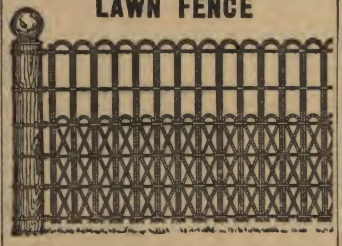
180B1069—Height, 36 in. Fifteen line wires. Shipping weight, per rod, 7¼ lbs. Price, per rod **24¼c**

180B1070—Height, 48 in. Seventeen line wires. Shipping weight, per rod, 8¼ lbs. Price, per rod **27½c**

180B1072 — Height, 60 inches. Nineteen line wires. Shipping wt., per rod, 9¼ lbs. Price, per rod **31c**

ORNAMENTAL WIRE LAWN FENCING AND GATES

ORNAMENTAL WIRE LAWN FENCE



Made of No. 11 gauge galvanized steel wire. Both line wires and pickets are made of two strands twisted together. The two strands form pickets about ¾ inch diameter, held firmly in place by strong cable line wires and a succession of right and left twists, which provide ample elasticity for expansion and contraction due to changes in temperature. We use four cable line wires in the 24 and 30 inch height; five cables in the 36 to 42 inch heights; and six cables in the 48 inch height.

We include a small wrench to tighten or loosen the fabric. We do not furnish the wood posts.

Article Number	Height	Ship. Wt., Per foot	Price Per Foot
280B1160	24 in.	1¼ lbs.	6c
280B1161	30 in.	1½ lbs.	7½c

280B1163	42 in.	2¼ lbs.	10c
280B1164	48 in.	2½ lbs.	11c

Shipped from Factory in Central Indiana

ORNAMENTAL WIRE LAWN FENCE

The cable wires are made of two strands of No. 11 Bessemer steel wire, heavily galvanized. The patented process of weaving gives you a fabric that is very strong and durable. The wire is formed into very strong pickets about ¼ inch diameter, which are woven into the fabric by a succession of right and left twists of the two strands forming the cable wires. The lower part is woven very close, and will turn small chickens.

We use four cable line wires in the 24 and 30 inch height, 5 cables in the 36 and 42 inch height and six cables in the 48 inch height. We do not furnish the wood posts.

Shipped from Factory in Central Indiana

ORNAMENTAL WIRE LAWN FENCE

280B1175—An excellent fence at a low price. Made of excellent quality galvanized wire. The uprights, or pickets, are heavy No. 9 gauge wire, evenly corrugated their full length, making them stiff and strong. The twisted cable line wires are twisted tightly around each picket, and are spaced about 6 inches apart, except at the top, where strength is most needed, they are only 2½ inches apart.

These twisted cables firmly fasten the pickets and will not slip. Sure to tighten under tension. The crimped pickets are uniformly spaced 3 in. apart.

Height	No. of Cables	Ship. Wt. per foot	Price Per Foot
24 in.	5	1 lb.	5c

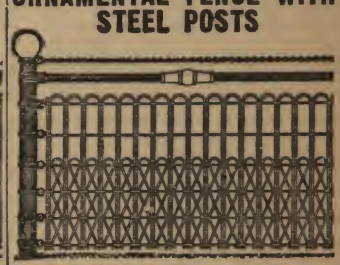
ORNAMENTAL FENCE WITH STEEL POSTS



The Pickets are made of two strands of heavy No. 11 gauge galvanized wire, woven together into a strong, close fabric. End, corner and gate posts are 1¾ in. outside diameter. Line posts are 1⅜ in. outside diameter. Posts are made of steel tubing complete with heavy cast iron base to hold them firmly in the ground. Top railing is 1⅜ in. outside diameter and is continuous, giving extra strength. Malleable crestings. We include enough posts to set them about 7 ft. apart.

Notice: Each order for this Lawn Fence must be accompanied by a diagram indicating the size and location of gates. Approximate shipping weight, per foot, 7 to 11 lbs.

ARTISTIC ORNAMENTAL WROUGHT STEEL LAWN FENCING

A PERMANENT IMPROVEMENT FOR ANY HOME

LINCOLN PARK DESIGN

A Very Artistic Design in Ornamental Wrought Steel Fence. The pickets are round and are securely swedged and calked into the horizontal steel rails in such a manner as gives to each section the strength and durability of a welded mass. No better fencing material can be had than is used in the manufacture of this design. You will find our prices very low—just about half the price asked by many for equal quality. It is in excellent taste and will be a credit to your home grounds. Nicely painted, black.

This is one of the finest designs we offer in Wrought Ornamental Steel Fence. The Pickets are square, with ornamental malleable iron crestings. Pickets and horizontal rails are firmly swedged and calked together and for durability you can't find anything better. The workmanship and materials used are the best that we can buy. If you want an artistic fence of the best grade you will make no mistake in ordering this design. It is practically indestructible and its cost is about half that paid by city people for equal qualities. Nicely painted, black.

WHITE HOUSE DESIGN

Prices per foot are for the fencing and line posts only, and do not include the end posts, corner posts or gates, which are charged extra.

GALVANIZED WIRE POULTRY NETTING

BEST QUALITY. GALVANIZED AFTER WEAVING

Our netting is among the cleanest and finest on the market. Made of tough steel wire, thoroughly galvanized after weaving, to effectually solder the joints. A strong, stiff, rust-resisting fabric. An excellent enclosure for any poultry yard.

Our netting is carefully manufactured with a uniform mesh and double selvedge. Will roll out flat and straight, and does not sag or bulge out when put up, as do many inferior grades.

Made in three sizes of mesh: 2-inch, which is standard and the size in common used; 1½-inch mesh; or 1-inch mesh. In bales of 150 lineal feet. We do not sell less than a full bale.

2-INCH DIAMOND MESH

Shipped from factory near Chicago.

ECLIPSE STEEL FENCE POSTS

Our Line Posts are made of Stiff Angle Steel especially adapted for this purpose. Holes are punched 2 inches apart to suit all kinds of wire fencing. Fencing can be fastened with common staples and clinched, or by using tie wires. Corner and end posts are not punched as it makes a more satisfactory job if the wires are wrapped around them. The posts are pointed for ease in driving or they can be set in a concrete base as shown in the illustration. This is easily done by pouring wet concrete around the post, which makes a good, permanent job. Height of posts given is the height above the base of ground. The length of line posts below ground is 20 inches; of end and corner posts, 32 in. Our Eclipse Steel Posts do not rot, burn or decay. Cheaper than wood. Made in two grades, Standard and Heavy grade, and furnished either Painted or Electro Galvanized.

PERFECT POULTRY FENCE

Open-hearth steel wire, heavily galvanized. Impossible to slip or spread. No top rail or baseboard necessary. Top and bottom wires, No. 14; line and stay wires, No. 18. Wires are spaced 1½ in. apart at bottom, gradually widening to 4¼ in. at top. Close, upright stays, only 4½ in. apart. In 10, 15, or 20 rod rolls.

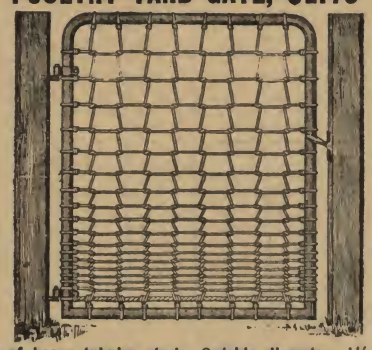
280B1066—Height, 48 in. With 20 line wires. Ship. wt., per rod, 4½ lbs. Per rod 22½c
280B1067—Height, 60 in. With 23 line wires. Ship. wt., per rod, 3½ lbs. Per rod 25½c
280B1068—Height, 72 in. With 26 line wires. Ship. wt., per rod, 5 lbs. Per rod 28¼c
Shipped from factory in Central Indiana.

STEEL FRAME FARM GATES

Frame is made of tubular steel with an upright and a diagonal brace, making it strong and rigid; fitted with 9 gauge galvanized square mesh wire filling. Space between mesh: bottom, 3 in.; top, 8 in.

HEAVY FARM GATE

Heavy Pattern, with tubular steel frame. Outside diameter, 1⅝ inches. **Prices include latch and hinges for wood posts.** Usual $4.50 to $6.00 value.



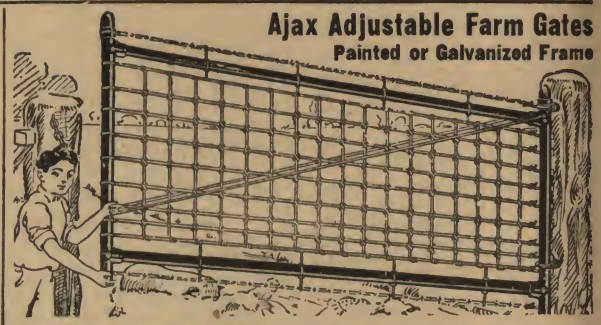
Height	Width	Shipping Weight	Article Number	Each
54	10 ft.	65 lbs.	180B1130	$3.55
54	12 ft.	68 lbs.	180B1131	3.85
54	14 ft.	75 lbs.	180B1132	4.15

LIGHT FARM GATE

Made with tubular steel frame. Outside diameter, 1⅛ in. Otherwise the same as the heavy pattern. Regular $4.00 to $5.00 value. Size of mesh, bottom, 2¾ in; top, 7⅞ in.

Height	Width	Shipping Weight	Article Number	Each
54 in.	10 ft.	55 lbs.	180B1134	$3.00
54 in.	12 ft.	58 lbs.	180B1135	3.45

POULTRY YARD GATE, $2.15



Frame of heavy tubular steel. Outside diameter, 1⅛ inches. 14 gauge galvanized wire fabric, close mesh at the bottom, gradually widening at the top. Spaced 1½ in. at bottom, widening to 5½ in. at top.

A good gate for the poultry yard, and strong enough to turn cattle. **Prices include latch and hinges for wood posts.**

54 in.	16 ft.	110 lbs.	6.35	7.15

TACKLE BLOCK WIRE STRETCHER

60c

80B1360—For smooth or barbed wire, and woven wire fencing. Self locking at any point. Malleable iron. Makes a good tackle block or rope hoist with which one man can lift 500 pounds. Complete, with about 15 ft. of ⅜ in. manila rope. Average wt., 4½ lbs. Each 60c

SMITH WIRE STRETCHER

80B1367—Powerful and easily operated. Malleable iron. Self locking. Especially adapted for stretching long runs of Netting, Barb Wire, etc. For short runs of woven fencing, use about 5 ft. iron pipe as clamp bar. Also useful as a hoist. Average weight, 6 lbs.
Each (without pipe bar) . . $1.35

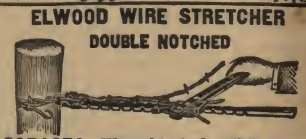
Showing gate open.

FIELD GATE FIXTURES

EASILY INSERTED IN ANY WIRE FENCE

180B1150—An economical and convenient means of providing openings in woven or barb fencing for occasional passage. For fence up to 48 in. high. Attaches to any post. Simply cut the wires and attach to the steel end bar furnished. By moving a lever the fence is released or drawn up tightly. Made of wrought steel, 1x¼ in. Japanned finish. With 48 inch perforated steel bar for end of fence. Shipping weight, 15 lbs.
Per set $1.48

LEVER WIRE STRETCHER



30c

80B1370—Heavy malleable iron jaws. With socket for inserting a handle of desired length. Grips securely either barbed or smooth wire. Average wt., 3 lbs. Lever or handle not included. Each 30c

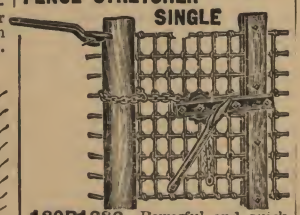
ELWOOD WIRE STRETCHER

DOUBLE NOTCHED

80B1376—Wrought steel. With heavy double notched bar. Stands out from the post in a horizontal position and remains rigidly in line with the wire to be stretched instead of falling to the ground. Average weight, 5 lbs.
Each 44c

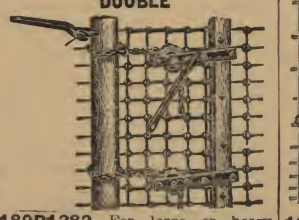
AJAX FENCE STRETCHER

180B1380—Powerful and substantial. Just the thing for stretching square mesh and woven wire fencing. Heavy, 60 in. wooden clamp bars. Cast iron, with heavy chain, length, 7 ft., and strong hardwood lever, length 5 ft. Clamp bar has bolts for tightening on the fencing. Wood parts neatly painted.



$3.80

Shipping wt., 45 lbs.
Each, complete $3.80

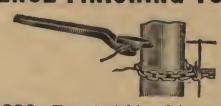


WOVEN WIRE FENCE STRETCHER SINGLE

$3.60

180B1382—Powerful and quick acting. Self-locking. Can be operated by one man. With 62-in. wooden clamp bars, heavy 8-ft. chain and hook, one combination lever and finishing tool for near post. Heavy iron and steel construction. Will stretch close to the end post. Ship. wt., 38 lbs. Per set $3.60

WOVEN WIRE FENCE STRETCHER DOUBLE



180B1383—For large or heavy fence. Has two stretchers with heavy 8-ft. chains and hooks, with 62-inch wood clamp bars and finishing tool for near posts. Heavy iron and steel construction. Ship. wt., 70 lbs. Per set $6.65

COMBINATION FENCE STRETCHER

180B1384 — Heavy malleable iron. Steel chain. Very powerful. Quick acting. Positive, self-locking device. With 5-ft. wood clamp bars; chain and hook. Ship. wt., 45 lbs.
Each $4.65

FENCE FINISHING TOOL

80B1386—For stretching line wires around the last post, which is always a difficult part of fence to staple. With this tool it is easy. Made of malleable iron. Japanned finish. A very convenient tool. Length, 19½ in. Wt., 3 lbs.
Each 48c

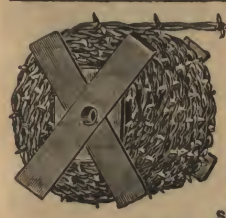
WIRE GRIP 20c

80B1372—For stretching fence or telephone wire. Can be attached to any wire stretcher. The more you pull, the tighter it grips. For smooth or barbed wire. Heavy cast iron. Weight, 14 oz. Each 20c

WIRE FENCE TIGHTENER

65c

80B1388—For quickly taking up the slack without removing the staples or cutting the wire. Simply press the frame against the line wire and turn crank until wire is as taut as desired. Made of malleable iron. Will not break. Average wt., 3 lbs.
Each 65c



Nu-Label Incubators bear the Fire Underwriters' Label. Safety first

FENCE WIRE AND STAPLES

Note—Prices on fence wire are entirely dependent upon market conditions, making it impossible to quote a fixed price in this catalogue, and therefore prices given are subject to change without notice. We allow you the benefit of all declines in market prices whether asked for or not, and assure you that you will at all times have the benefit of the very lowest prices ruling at the time your order is received. Write us for delivered prices to your station.

BARBED FENCE WIRE

A perfect wire. Thoroughly annealed. We recommend the two point single twist barbs shown above. Much neater than four point barb, easier to handle and just as effectual. Two strands (regular) No. 12 gauge wire. Weight per rod, about 1 pound. Cattle wire has barbs about 5 in. apart. Hog wire has barbs about 3 in. apart.

Standard Painted Two Point Barbed Wire	At Mill
280B1450—Cattle Wire. Reel of 100 lbs	$1.90
280B1451—Cattle Wire. Spool of 80 rods	1.55
280B1452—Hog Wire. Reel of 100 lbs	1.90
280B1453—Hog Wire. Spool of 80 rods	1.65
Standard Galvanized Two Point Barbed Wire	
280B1456—Cattle Wire. Reel of 100 lbs	$2.40
280B1457—Cattle Wire. Spool of 80 rods	2.00
280B1458—Hog Wire. Reel of 100 lbs	2.40
280B1459—Hog Wire. Spool of 80 rods	2.10
Standard Galvanized Four Point Barbed Wire	
280B1460—Cattle Wire. Spool of 80 rods	$2.10
280B1461—Hog Wire. Spool of 80 rods	2.25

Shipped from factory in Northern Indiana.

ECLIPSE 80-ROD BARBED WIRE

Our Eclipse is a medium weight fence wire. Preferred by many to the regular standard barbed wire. Easy to handle. Tough and elastic. Cable wires are No. 14 gauge. Put up on spools containing 80 rods. Weight, per spool, 56 to 58 lbs.

280B1470—Painted Hog Wire. Spool of 80 rods	$1.40
280B1471—Galvanized Hog Wire. Spool of 80 rods	1.70
280B1472—Painted Cattle Wire. Spool of 80 rods	1.30
280B1473—Galvanized Cattle Wire. Spool of 80 rods	1.60

Shipped from factory in Northern Indiana

TWISTED CABLE FENCE WIRE

Made of two strands of No. 12 gauge smooth steel wire (no barbs). Preferred to single strand fence wire because of its greater strength. Often used at top and bottom of fences made with plain, smooth fence wire. No barbs to catch and tear clothes or injure animals. Put up in reels of about 100 lbs.

280B1480—Painted Cable Fencing. Reel of 100 lbs	$1.90
280B1481—Galvanized Cable Fencing. Reel of 100 lbs	2.40

Shipped from factory in Northern Indiana

SMOOTH FENCE WIRE

Smooth Steel Fence Wire. Put up in 100-lb. bundles. We do not break bundles, and prices are free on board cars at factory. All wire prices are subject to market changes, so we cannot guarantee them, but will always bill to you at the very lowest market rates. (Give size.)

80B1507—Length, 1 in. Per lb.	4c

HEAVY SQUARE MESH WIRE CLOTH

GALVANIZED WIRE CLOTH (Square Mesh)

180B1350—Heavy square mesh galvanized wire cloth, for window guards, fruit evaporators, screens, cages, etc. The mesh means the number of openings or holes to the inch measured from the centers of the wires; for instance, No. 6 mesh has 6 meshes or openings to the inch. We furnish as follows: **No. 2** mesh of 19 gauge wire; **No. 3**, 21 gauge; **No. 4**, 23 gauge; **No. 5**, 24 gauge; **No. 6**, 25 gauge. All heavily galvanized. Be sure to state mesh wanted.

Each	$4.00

Accuracy is guaranteed in every one of our Portable and Stock Scales

GUARANTEED GARDEN HOSE

QUALITY GARDEN HOSE

Our Rubber Hose is made for us by one of the oldest and best manufacturers in the country, who has an established reputation for making only high grade, reliable goods. We do not handle the cheap, competition grades of hose, for the reason that they are usually dear at the prices asked. We furnish good, honest and dependable hose at prices that you will find to be uniformly low. We include brass couplings with each order for full 50-ft. length or more. Hose is measured by its inside diameter.

THE "LAKESIDE" BRAND

The brand "LAKESIDE," on any mechanic's tool or implement, denotes that the article is of the highest quality, perfect in every detail. We believe our "LAKESIDE" tools to be equal or superior to any other brand at prices even higher than ours. They cost just as much to make as other well known brands, and we are able to sell them at our low prices only by eliminating extravagant advertising, traveling salesmen, and other expenses, which are unavoidable when marketing goods in the usual way.

You will make no mistake in buying "LAKESIDE" Tools.

They will please you—always.

You will find it easy, pleasant and profitable to buy from this catalogue—above all, it will show the way to greater savings for you. This is the year to save. This catalogue is built on the idea of saving you money. All our volume in buying, our widespread activity in the world's markets; our better organization for serving you—all these have been combined to make this catalogue a book worthy of your confidence and your orders.

We want your orders, but we also feel we deserve them because we believe we give you the greatest measure of value, of quality, and of service.

GAME TRAPS AND ACCESSORIES

GOPHER, RAT AND MOUSE TRAPS

VICTOR TRAPS

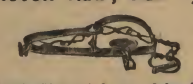
Ours are the genuine Victor Steel Traps, made by the Oneida Community Limited. While lighter in weight than the Newhouse, they are made in a first-class manner, and are very popular with the farmer and trapper of small game. Branded with a V on the pan.

NEWHOUSE TRAPS

Ours are the **Genuine Newhouse** steel traps, made only by the Oneida Community, Limited. The springs are made of the best crucible steel, and are thoroughly tested. Made of the best material, strongly proportioned, and will give the best of satisfaction. The trappers' choice. Branded Newhouse on the pan.

JUMP TRAPS

Made by the Oneida Community, Ltd. Lighter in weight and easier to carry than other styles. Very popular with many trappers. Lie very flat and are easily secreted. Jaws have full, wide, meeting faces, not liable to break the animal's leg.



VICTOR BRAND TRAPS

VICTOR TRAP, SIZE 0

85B5001—For gophers, rats, or other vermin. Has a tight grip. Spread of jaws, 3½ in. Weight, per dozen, 4¾ lbs. Each $0.10
Per dozen 1.10

VICTOR TRAP, SIZE 1½

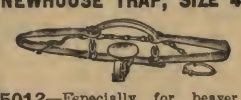
Each $0.50
Per dozen 5.99

NEWHOUSE TRAP, SIZE 2½

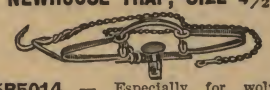


85B5025—Used especially for catching otter on their "slides." Sharp teeth pierce the animals' breast. Detachable, raised pan plate. A trap of general utility. Spread of jaws, 5½ in. Weight, each, 2¼ lbs.
Each $0.79
Per dozen 9.40

NEWHOUSE TRAP, SIZE 3

85B5010—Very powerful; will hold almost any game smaller than a bear. Spread of jaws, 5⅝ in. Weight, each, 2⅝ lbs. Each. $0.67
Per dozen 7.98

NEWHOUSE TRAP, SIZE 4



85B5012—Especially for beaver. A favorite with trappers in the far west and Canada. Spread of jaws, 6¾ in. Weight, each, 3½ lbs. Each.... $0.79
Per dozen 9.40

NEWHOUSE TRAP, SIZE 14

85B5028—Especially for deer. Jaws have an offset to prevent breaking the deer's leg. With teeth sufficiently close together to prevent the animal from drawing its hoofs out. Spread of jaws, 6⅜ in. Weight, 3¼ lbs.
Each 84c

NEWHOUSE TRAP, SIZE 4½

85B5014 — Especially for wolves. Extra heavy, 5 ft. steel chain with swivel, heavy snap and drag. Spread of jaws, 8¾ in., with the other parts in proportion. Will hold two thousand pounds. Weight, 8 lbs. Each.. $1.90

NEWHOUSE BEAR TRAP

Size 5 Size 6

85B5015 — Especially for common black bear. Strong chain and swivel. Spread of toothed jaws, 11¾ inches. Weight, 19 lbs. Each..... $5.70
85B5016—Strongest trap made. Spread of jaws, 16 in. Wt., 42 lbs.
Each $13.30

NEWHOUSE TRAP, SIZE 15

85B5030—For Bear. Jaws have ¾ in. offset, which allows the spring to come up high, and holds securely. Spread of jaws, 11¾ in. Wt., 20 lbs. With setting clamp and spring holder.
Each $5.70

ONEIDA JUMP TRAPS

ONEIDA JUMP TRAP, SIZE 0

85B5040—For rats or gophers. Light and easy to carry. Jaws have full, wide meeting faces, not likely to break the animal's leg. Spread of jaws, 4 in. Wt., each, 7 oz. Each..... $0.13
Per dozen 1.45

ONEIDA JUMP TRAP, SIZE 1½

85B5042—For Mink. Spread of jaws, 5¼ in. Weight, each, 13 oz.
Each $0.22

FINE VALUES IN BLACKSMITHS' PORTABLE FORGES

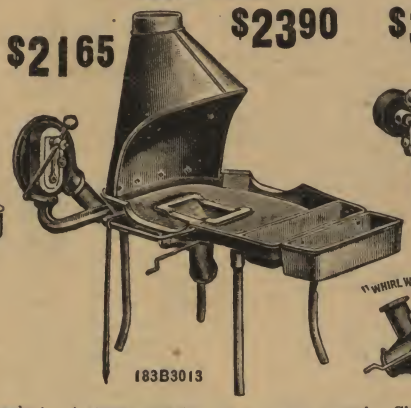
CHAMPION LEVER FORGE

183B2980 — A light running and durable forge. Heavy cast iron hearth. Diameter, 22 in.; depth, 3½ in. Open sheet steel hood, as shown. The lever ratchet motion is positive and simple, and produces a strong blast with but slight exertion. The legs are of heavy wrought pipe screwed into the hearth. Stiff and substantial, and braced at bottom. Diameter of fan case, 9 in. Diameter of fly wheel, 14 in. Height to top of hearth, 32 in. A rigid, substantial and durable forge for blacksmiths, quarrymen, farmers, etc. Nicely painted. Shipping weight, about 115 lbs. Each ... **$8.25**

CHAMPION LEVER FORGE

183B2984—Adapted for horseshoers, boilermakers, bridge builders or general smithing. Has a roomy cast hearth; size, 23x35 in. Depth, 2¾ in. Open sheet steel hood, as shown. The fan is operated by a simple ratchet lever motion, which is positive, never slips, and produces a strong blast with but little exertion. Diameter of fan case, 12 in. Diameter of fly wheel, 19½ in. The legs are of heavy wrought pipe screwed into the bottom of hearth. Height, to top of hearth, 30 in. Thoroughly and substantially constructed in every detail, and a most efficient and durable forge for all kinds of general work. Nicely painted. Shipping weight, about 180 lbs. Each **$12.35**

CHAMPION LANCASTER GEARED FORGE



Style 41. A well made, direct drive Blacksmith Forge with cast iron hearth, strong pipe legs and sheet steel hood. Nicely painted. Built to meet the demand for a serviceable forge at a low price. Blower is smooth running and gives a strong, continuous blast. Will operate by turning in either direction. Heavy nest ball tuyere iron, weight, 50 lbs. Hearth, 32x45 in. Depth, 3½ in. with improved coal box on hearth. Tank, inside, 24x9 in. Depth, 6 in. Height to top of hearth, 31½ in. Diameter of fan case, 12 in.

183B2997—With coal box and water tank. Shipping weight, about 330 lbs. Each **$20.00**

183B2998—Same forge, but without water tank. Shipping weight, about 300 lbs. Each **$18.00**

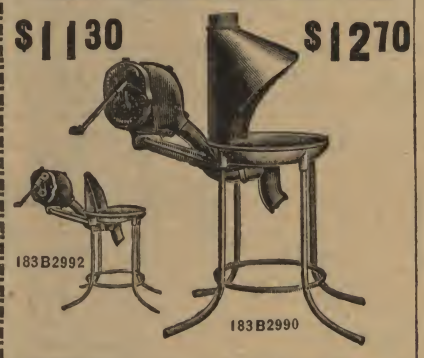
CHAMPION MIDWAY GEARED FORGE

A strong, portable forge. Large, heavy cast-iron hearth; size, 32x45 in. Depth, 3¾ in. With sheet steel hood as shown. Strong pipe legs. Has the Midway blower, with cut spiral gears in dust-proof casing, no belts or ratchets and produces a powerful, steady blast. Crank can be turned in either direction. Height to top of hearth, 30 in. Diameter of fan case, 12 in. A most excellent and practical forge for all general work. With coal box on end of hearth, as shown. Nicely painted.

183B3012—Without water tank. Shipping weight, about 350 lbs. Each **$21.65**

183B3013—With water tank. Size of tank, inside, 24x9 in. Depth, 6½ in. Shipping weight, about 380 lbs. Each **$23.90**

CHAMPION 400 GEARED FORGE



Champion Steel Horseshoers' Forge. Designed and substantially constructed for horseshoers' and blacksmiths.

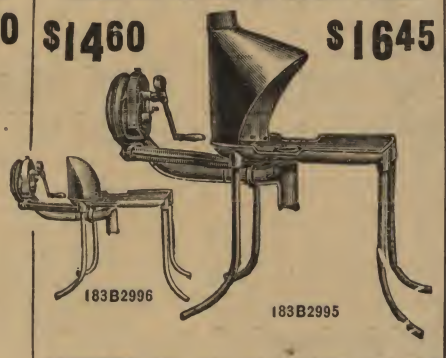
Has the famous Champion 400 high speed, noiseless gearing, and consequently produces a powerful draft, runs easily and smoothly, and is pleasant to the hand. Fitted with the well known Whirlwind tuyere iron. The frame of the forge is of structural steel, making it stiff and sustantial. The hearth is of heavy steel plate. One of the most practical forge hearths made. Sheet steel hood. Braced angle steel legs. Size of hearth, 31½x37 in. Depth, 5½ in. Height to top of hearth, 32 in. Diameter of fan case, 12 in. Nicely painted.

183B3035—Complete with water tank. Size, 23x9 in. Depth, 6¾ in. Shipping weight, about 330 lbs. Each **$32.50**

183B3036—Without water tank. Shipping wt., about 302 lbs. Each **$30.40**

CHAMPION LANCASTER GEARED FORGE

183B2990—Recommended for farmers' use. A well built, low priced machine. It is a strong, light forge for all kinds of portable work. Can be easily moved about, and produces a strong, steady draft with little exertion. Crank can be moved either way. Cast iron hearth. Diameter, 22 in. Depth, 3¼ in. Strong pipe legs. Height to top of hearth, 31½ in. Diameter of fan case, 10 in. With sheet steel hood. Complete as illustrated. Shipping wt., about 130 lbs. Each **$12.70**



183B2992—Same as above, but with shield instead of hood. Shipping weight, about 120 lbs. Each **$11.30**

CHAMPION LANCASTER GEARED FORGE

183B2994—Champion Lancaster Geared Steel Rivet Forge. Style 48. A well made, direct drive Rivet Forge with sheet steel hearth and shield. A convenient, light and serviceable forge at a moderate price. Legs are of steel, readily removable. Diameter of hearth, 18 in. Depth, 4¾ in. Height to top of hearth, 34 in. Blower is smooth running and gives a strong, continuous blast by turning in either direction. Diameter of fan case, 10 in. Nicely painted. Shipping weight, about 125 lbs. Each **$13.50**

CHAMPION LANCASTER GEARED FORGE

183B2995—The Champion Lancaster Geared Agricultural Forge. An excellent, well built machine at a low price. The gearing is the same as in our Lancaster Blower Head and produces a good steady blast. Crank can be turned either way. Diameter of fan case, 10 in. Has a large, roomy cast iron hearth; size, 23x36 in. Depth, 3¼ in. Height to top of hearth, 30 in. Strong pipe legs. With sheet steel hood, nicely painted. Complete, as illustrated. Shipping weight, about 180 lbs. Each **$16.45**

183B2996—Same as above, with sheet steel shield instead of hood. Shipping wt., about 170 lbs. Each **$14.60**

CHAMPION 400 GEARED FORGE

Has the famous 400 high speed, noiseless gearing. Adjustable ball bearings. Operates with marvelous ease. Will create a welding heat on 4 in. bar iron in ten minutes. Easily taken apart. Adapted for railroads, tank builders, miners, or any portable work requiring compactness and lightness with a strong blast. Diameter of fan case, 9 in. Sheet steel hearth. Diameter, 18 in. Depth, 5 in. Height to top of hearth, 33 in. Strong pipe legs. Nicely painted.

183B3020—With sheet steel shield as shown. Style 401. Shipping weight, about 130 lbs. Each **$15.95**

183B3021—Same as above, but with half hood instead of shield. Height to top of hood, 60 in. Style 402. Shipping weight, about 120 lbs. Each **$17.50**

CHAMPION LEVER FORGE

Large square cast iron hearth; size, 21½ x33 in. Depth, 2¾ in. The legs are heavy steel tubing screwed into the hearth. With sheet steel wind shield, as shown or with an open hood to which smoke pipe can be connected. Has a simple and efficient ratchet lever motion, which operates without springs, or any complicated parts and produces a strong blast with little exertion. Height to top of hearth, 30 in. Diameter of fly wheel, 19½ in. Diameter of fan case, 12 in. Nicely painted.

183B2986—Forge complete with shield as illustrated. Shipping weight, about 155 lbs. Each **$9.85**

183B2987—Forge complete with open hood. Shipping weight, about 165 lbs. Each **$10.50**

PORTABLE LEVER FORGE

183B2970 — Designed for farmers' and planters' use, and suitable for all kinds of light repairing. Has cast iron hearth. Diameter, 18 in. Depth, 3¼ in. Height to top of hearth, 33 in. Fitted with heavy pipe legs, braced at the bottom. The ratchet lever motion is simple and positive. Diameter of fan case, 8 in. Complete with sheet steel shield or wind guard, as illustrated. Shipping weight, about 82 lbs. Each **$4.40**

CHAMPION AGRICULTURAL FORGE

Usual Retail Value, $8.00 to $10.00 each

A strong, compact, well constructed forge, which we offer you at a decided bargain price. It will enable you to do most of your blacksmith work, produces a strong blast and is especially designed for the farmer and planter.

Has a heavy cast iron hearth. Diameter, 22 in. Depth, 3½ in. Three tubular steel legs. Made of heavy wrought pipe, braced at the bottom. Permit the forge to stand firmly on uneven ground. Height to top of hearth, 33 in. The heaviest and most substantial farmers' forge of this type that is built. The ratchet lever motion is positive and simple, never slips and produces a strong blast with only a slow motion of the lever. Diameter of fan case, 9 in., nicely painted.

The hood can be connected with a stove pipe making the forge suitable for indoor use. Shipping weight, about 105 lbs.

183B2972 — Forge, complete with sheet steel hood. Each **$5.50**

183B2974 — Same forge as above but with sheet steel shield instead of hood. Shipping weight, about 95 lbs.

An excellent forge for all outside repair work and a big bargain at our price. Each **$5.10**

CHAMPION 400 GEARED FORGE

A light, stiff and practical forge for construction work, railroads, bridges, builders, boilermakers, etc. Blast is produced by turning handle in either direction.

Celebrated Champion 400 high speed, noiseless blower mechanism. Ball bearings. Gearing enclosed in a dust-proof casing. Structural steel frame, thoroughly braced. Strong, stiff and light. Easy running and noiseless and will produce a blast sufficient to cover the entire hearth with a hot fire if so desired. Sheet steel hearth, 24x24 in. Depth, 5¼ in. Height to top of hearth, 30 in. Braced angle steel legs. Diameter of fan case, 9 in. Nicely painted.

183B3028—With sheet steel shield only (without hood). Shipping weight, about 175 lbs. Each **$20.95**

183B3029—Complete with sheet steel half hood, as illustrated. Shipping weight, about 185 lbs. Each **$22.75**

One of our Band Saw Machines will speed your work wonderfully

BLACKSMITHS BLOWERS, TIRE BENDERS AND LATHES

LANCASTER GEARED BLOWER

183B3054— A substantial and well built blower. Has no belt, ratchet or clutches. Runs easily. Crank can be turned in either direction.

Head is adjustable and mounted on a substantial base. Diameter of fan, 12 in. **Produces a strong, steady blast.**

With Tuyere Iron and pipe as illustrated. Shipping wt., 116 lbs.

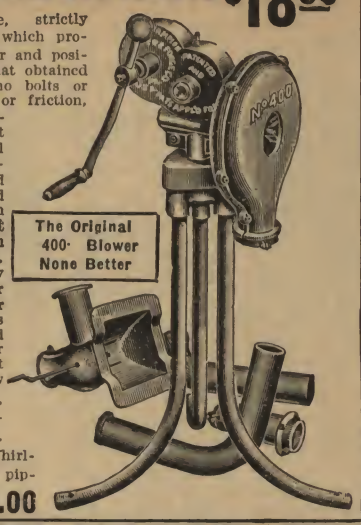
Price, each **$10.40**

CHAMPION MIDWAY GEARED BLOWER

183B3052—A substantial direct driven blower, with spiral cross gears all enclosed in a dustproof casing.

The gearings are all accurately machined and run easily. Crank can be turned in either direction. Has no belts, ratchets or clutches; is simple and durable. The head is mounted on a substantial base and takes up but little room in a shop.

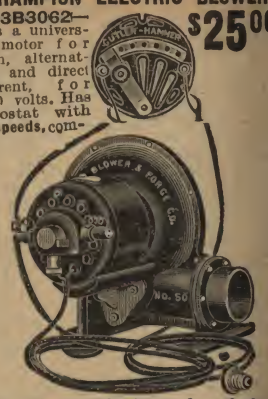
Diameter of fan, 12 inches.



Produces a strong, continuous draft.

With heavy 50 pound Tuyere Iron and pipe, as illustrated. Shipping wt., about 168 lbs.

Price, each **$12.95**



$12.95

FAMOUS CHAMPION 400 BLOWER $18.00

183B3050—A fine, strictly high grade machine, which produces a strong, regular and positive blast, equal to that obtained by power. It has no bolts or train of small gears or friction, and is fitted throughout with the highest grade of adjustable ball bearings. The working parts are machined and cut from the solid metal and enclosed in an oil-tight casing. It runs noiseless, smooth and surprisingly easy. Blast is produced by turning crank in either direction. The blower is very compact, takes little floor space and can be taken apart for transportation and set up again in a very few minutes. Shipping wt., average 110 lbs.; diameter of fan, 12 in. Complete with new Whirlwind Tuyere Iron and piping as illustrated. Each **$18.00**

CHAMPION ELECTRIC BLOWER

183B3062— Has a universal motor for both, alternating and direct current, for 110 volts. Has rheostat with **six speeds,** complete with covered wire cord and plug. The Blower can be placed close to the fire, connected to the tuyere iron by straight pipe, so the fire will receive all the blast, without loss from long pipes and elbows. The six speeds, permit easy adjustment of the blast to suit all requirements. A most excellent blower. Total height, 12 in. Shipping wt., about 54 lbs. Price, each... **$25.00**

$25.00

TUYERE IRONS

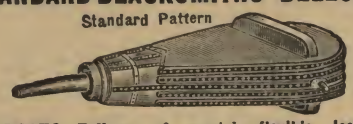
183B3074—Single Duck Nest pattern. Made of cast iron. Without blast regulating device. Total length, about 16 inches. Total width, about 12 inches. Height, about 3½ inches. Average shipping weight, 13 lbs.
Price, each.. **38c**

CLARK'S TUYERE IRON

183B3076— Medium size No. 2. Made of cast iron. With blast regulating device. Total length, about 16 inches. Total width, about 12 inches. Height, about 4¾ inches. Average shipping weight, 22 lbs.
Price, each.. **84c**

SUTTON TUYERE IRON

183B3078—The Sutton Tuyere Iron and Fire Bowl. Made of cast iron, large and heavy. Insures a clean, bright fire. Will give satisfaction. Size of fire bowl, 13¼x11½ in. Average ship. wt., 41 lbs.
Each **$1.70**



HAND AND MOULDERS BELLOWS

83B3072 — Can be used as a Blacksmith's Hand as well as a Moulder's Bellows. Will give a quick, strong blast. Bellows of good grade leather. Woodwork is thoroughly dried. Width, 12 in. Total length 22¾ in. Average ship. wt., 3¼ lbs.
Price, each.. **80c**

STANDARD BLACKSMITHS' BELLOWS

Standard Pattern

183B3070—Bellows of special **flexible leather.** Woodwork thoroughly kiln-dried. Quality and workmanship of the best. Excellent values.

NORTON TUYERE IRON

183B3080—Convenient, well made and low priced. Made of heavy cast iron. The blast is regulated by turning the large rod. Ashes removed by pulling small rod. Levers and spring easily changed to right or left-hand side. Length, 28 in. Width, 13¼ in. Height, 6¼ in. Average shipping weight, 27 lbs.
Price, each **96c**

WARREN TUYERE IRON

183B3081—A favorite with many. Made of heavy cast iron. Ball with unequal sides attached to upper handle regulates the blast. Lower rod is for removing ashes. Length, 29 in. Width, 15 in. Height, 4½ in. Average shipping weight, 31 lbs.
Price, each **$1.35**

WHIRLWIND TUYERE IRON

183B3084—Blast comes through three slots. Produces intense heat. Revolving clinker attachment. Length, 10½ in. Width, 8¾ in. Height, 14½ in. Average shipping weight, 56 lbs.
Price, each **$4.50**

BLACKSMITHS TIRE SHRINKERS

$5.15

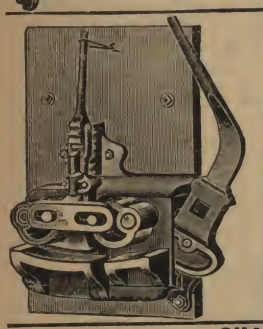
PLAIN MOLE SHRINKER $5.15

Without Anti-Kink Attachment. Made in three sizes. Strong and substantial, of the best materials, complete with wood lever. It is important that tire be properly heated.

183B3091—Size No. 1. Width of bed, 2¼ in. For light buggy tires. Average shipping weight, 128 pounds. Price, each **$5.15**

183B3092—Size No. 2. Width of bed, 3 in. For medium work. Average shipping weight, 210 lbs. Price, each **$7.25**

183B3093—Size No. 3. Width of bed, 4 in. For heavy wagons. Average shipping weight, 270 lbs. Price, each **$9.60**



$8.45

MOLE TIRE SHRINKER (WITH ANTI-KINK ATTACHMENT)

It is not necessary to remove the tire until it is upset as much as required. The patent anti-kinking attachment holds the tire down and effectually prevents kinking or buckling. The pressure can be regulated by the foot. It is important that the tire be properly heated. Complete with 59 inch wood lever.

183B3095—Size 2. For medium work. Bed, 3 in. Length, 27½ in. Average shipping weight, 212 lbs. Price, each **$8.45**

183B3096—Size 3. For medium and heavy work. Bed 4 in. Length, 29 in. Average shipping weight, 271 lbs. Price, each **$12.30**

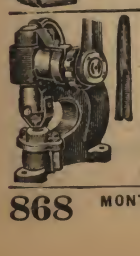
STODDARD TIRE UPSETTER $9.30

Made of the best material, occupies but little space and can be operated by one man. Has only to be bolted to a plank and fixed upright; always ready for use. Will not kink the tire. We include a short lever only, to which a longer bar can easily be welded by any blacksmith.

183B4002—Size 2. Is a 4-in. machine. Will upset any tire up to 4 in. wide. Length, 15 in. Width, 15 in. Height, 18 in. Average shipping weight, 245 lbs.
Price, each **$9.30**

183B4003—Size 3. Is a special 4-in. machine. Has a set of loose jaws, can be adjusted for large and small circles, also for upsetting axles from 1 in. to 1¾ in. square. Length, 24 in. Width, 19 in. Height, 20½ in. Average shipping weight, 300 lbs. Price, each **$11.50**

CHAMPION TIRE SHRINKER



183B4005—Will shrink any size tires up to 4x1 in., or axles up to 1¼ in. square. Place the tire between the jaws, then draw the cams against the tire, and with but a little pressure on the handle, you can shrink the tire to suit. It is important that the tire be always properly heated. Made of heavy cast iron. Compact and durable. Total length, about 24 inches. Total width, about 8 inches. Length of wood handle, about 45 inches. Average shipping weight, 150 lbs.
Price, each **$8.65**

$19.85

LAKESIDE TIRE SHRINKER
A RAPID POWERFUL MACHINE

183B4008—Lakeside Tire and Axle Shrinker. A stout, powerful machine. Frame is made of cast iron. Strong and well designed. The jaws are made from tool steel, with machine cut teeth, properly tempered, and can be quickly thrown in or out by means of the hand lever. Holds the tire with a perfect grip. Will shrink any size tire from the smallest buggy tire up to a round edge tire 4 in. wide by 1 in thick, and axles up to 1¼ in. square. It is important that tires be properly heated. Total length, about 22 inches. Total width, about 9 inches. Total height, about 24 inches. Length of Lever, about 47 inches. Average shipping weight, 350 lbs. Regular $25.00 value.
Price, each **$19.85**

HAND PUNCHING MACHINE

183B4040—A compact and substantial bench punch. Heavy cast iron, with hand lever. Capacity in soft steel or iron up to ⅜ in. thick of punching holes up to ⅜ inches diameter. Not suitable for work by which it would be subjected to a greater strain. Depth of throat, 4 in. Length of lever, 26 in. Complete with one ⅜ in. round punch and die. Weight of machine, 58 lbs. Average shipping weight, 70 lbs.
Price, each **$13.25**

EXTRA PUNCHES AND DIES

183B4041—For round holes, diameter ⅜ in. Average shipping weight, 1 lb. Price, per set **$1.95**

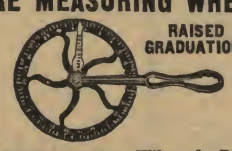
TIRE BENDERS

GEARED TIRE BENDERS $5.25

183B4012—Tire Bender, with gear and pinion. Has turned steel rollers, shafts and bearings. Mounted on a heavy cast iron base. Will bend a 4¼ inch tire or smaller, to a circle 24 inches in diameter or larger. Length, about 25 inches. Width, about 8 inches. Height, about 12 inches. Average ship. wt., 100 lbs.
Price, each **$5.25**

183B4013—Tire Bender, with gear and pinion. Has turned steel rollers and bearings. Mounted on a heavy cast iron base. Will bend a 6 in. tire or smaller to a circle 24 inches in diameter or larger. Length, about 25 inches. Width, about 9 inches. Height, about 12 inches. Average shipping wt., 116 lbs.
Price, each **$5.80**

NEW EUREKA TIRE BENDER



$10.40

183B4018—**A strong and powerful machine, with all the latest improvements.** Adjusting screws at each end of the roll, with graduated indicator on each side; shows exact size of tire being bent and gives operator full control over the work. The two end rolls have collars to keep the tire in alignment so both ends meet when bent. Two cranks with each bender. Has two speeds, one for light work, the other for heavy work.

Will bend up to 4x1 in. tire. Total length, about 15 inches. Total width, about 15 inches. Height, about 18 inches. Average shipping weight, 190 lbs.
Price, each **$10.40**

TIRE MEASURING WHEEL

83B4025—Genuine Wiley & Russell tire measuring wheel. Accurate and durable. Made for hard service. Made of drop forged steel. The figures and lines are raised above the surface of the wheel and cannot be filled or defaced with rust or dirt. It is exactly 24 inches in circumference and numbered every inch—from 1 to 24. Wheel is polished. With index hand. Strong cast iron handle. Average shipping weight, 1¼ lbs. Price, each.. **$1.30**

BENCH LATHES AND BAND SAWS

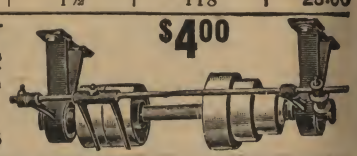
ACCURATE BENCH LATHE

$12.95

183B4290—An excellent bench lathe, carefully constructed, 24 in. long, with a swing of 7 in., and 12 in. between centers. **Entire machine is well finished, with all steel parts polished,** and body finished in machine enamel. Has a milled bed, hollow spindle, with ⅝-in. hole, and is provided with a No. 1 Morse taper. The tail stock is arranged for both screw and lever feed. We include with each lathe, a **three-jawed chuck,** capacity 0 to ¼ in. 1 slotted face plate and 1 saw arbor. Diameter of pulley steps, 1½, 2½, 3½ in. Weight, about 32 lbs. Shipping weight, about 40 lbs. Price, each **$12.95**

COUNTERSHAFT

183B4291—Designed for use with 183B4290 lathe. It is arranged so that a treadle can be attached to the shifter, and when the pressure is removed from the treadle, the belt will shift to the loose pulley. Diameter of tight and loose pulleys, 2¾ in.; Diameter of cone pulleys, 1½ in., 2½ in., 3½ in., on each of the respective steps. Average shipping weight, 14 lbs.
Price, each **$6.50**



TURNING LATHE SETS

183B4295—Lathe sets, substantially constructed and accurately fitted. The bottoms are planed true to insure the centers being in line. The heads on the No. 1 and 2 have steel spindles running in cast-iron bearings; centers are No. 1 Morse taper. The Nos. 3 and 4, have babbitted bearings, and centers are No. 2 Morse taper. Each set consists of: 1 head stock, 1 tail stock, 2 tee rests, 1 rest socket, 1 face plate, 1 common center, 1 spur center, hand wheel rests, flanges and bolts for fastening to the bed.

BAND SAW MACHINES $29.80 UP

A splendid machine for Carpenters, Wagonmakers, and small Factories. The frame is cast in one piece, the arm portion being hollow, and rest of the frame is well ribbed, insuring utmost stiffness and durability with minimum weight. Wheels are covered with rubber bands and the table is built up of veneers, reinforced with an iron rib. Table can be tilted to an incline for level sawing. The foot-power machine may be operated by one or both feet while standing, or the operator may sit on a high stool, which is less fatiguing. Diameter of band wheels, 20 in. Distance between saw and frame, 20 in. Height under guide when up, 8 in. Size of table, 20x24 in. Size of tight and loose pulleys, 7x3 in. face. Total height of machine, 67 in. Length of blades, 10 ft. 1 in. Illustration shows the combination machine for foot and belt power, but we can supply it for belt power and foot power alone, as listed below. We include with each machine two blades ¼ in. wide, filed ready for use, and 1 clamp and tongs for joining broken saws.

20-INCH MACHINE

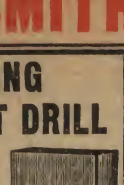
283B4050—Band Saw Machines. For belt power only. Complete with two saws. Average shipping weight, 275 lbs. Price, each **$29.80**

283B4051—Band Saw Machine for foot power only. Complete with two saws. Average shipping weight, 325 lbs. Price, each **$33.75**

283B4052—Band Saw Machine for combined foot and belt power (as illustrated) complete with two saws. Average shipping weight, 350 lbs. Price, each **$37.50**

Shipped from factory in Ohio.

BLACKSMITHS' HIGH GRADE EASY RUNNING POST DRILLS

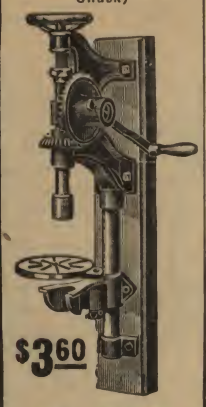


BALL BEARING POST DRILL

REGULAR $10.00 VALUE

183B4080—Our Special Post Drill, fitted with easy running ball bearings, and with automatic self-feed attachment. Has two speeds, fast and slow, and can be quickly changed from one to the other to suit all kinds of work. Table is slotted, spindle has an up and down run of 3½ in. Diameter of spindle 1⅛ in., bored to take drill bits with ½-in. round shanks. Journal bearings are all ground to a true and accurate fit, will drill a hole up to 1¼ in. and to the center of a 15-in. circle. A light running durable machine which we are offering at a very low price. Average Ship. wt.,110 lbs. Each, without drill bits **$7.20**

FAMOUS NEVER-SLIP CHUCK

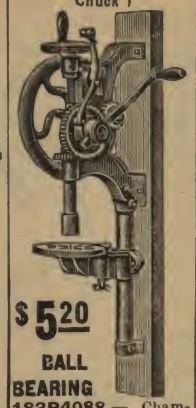


All of our Blacksmith's Post Drills on this page are fitted with this Never-slip Chuck, which absolutely prevents the bit from turning or slipping.

AUTOMATIC FEED DRILL FRAME
FITS VARIOUS HAND DRILLS

183B4168—Its use will convert our hand drills No. 85B1278, 85B1265 or 85B1270 into bench drill with automatic feed. Hand drills readily removable. Will drill to center of a 5-inch circle. Distance from chuck to table, about 9 in. Different ratios of feed obtainable by turning adjusting screw, or table may be raised and lowered by hand. Made of cast iron, with wrought steel upright and feed screw. Finely finished. Shipping weight, about 15 lbs.
Each **$2.75**

HAND-FEED POST DRILL
(With Never-slip Chuck)

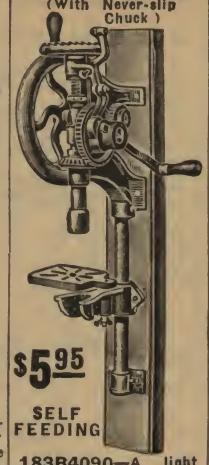


$3.60

BALL BEARING

183B4085—This machine will drill to the center of a 12-in. circle and will drill a hole up to ¾ in. Diam. of spindle, ⅞ in. Has an up and down run of 3 in. It is made of the best material, bearings ground out of solid metal; spindle fitted for ½-inch round shank drills. Has a slotted swing table, is well finished and is a good reliable machine at a low price. Average shipping wt., 54 lbs. Each (without drills) **$3.60**

CHAMPION SELF-FEED POST DRILL
(With Never-slip Chuck)

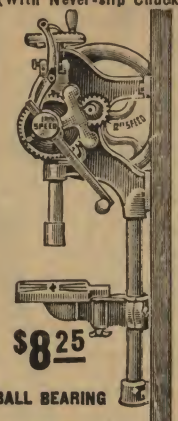


$5.20

BALL BEARING

183B4088 — Champion Blacksmith Self-Feed Post Drill is made first class in every respect. Has a single speed, with back gear and self-feed attachment. All bearings are ground to a working fit, from the solid metal. Table is slotted and planed off on top side. Will drill hole up to ¾-in. and to center of a 12-in. circle. Diameter of spindle, ⅞ in. Bored to take ½-in. round shank drills. A good durable machine at a low price. Average shipping weight, 80 lbs.
Each (without drill bits) . . . **$5.20**

CHAMPION SELF-FEED POST DRILL
(With Never-slip Chuck)



$5.95

SELF FEEDING

183B4090—A light running, high-class machine. Accurately cut gears. Will drill up to 1-in. holes to center of a 14½-in. circle. Has full back gear with one speed. Diameter of spindle, 1⅛ in. Feeds 3½ in. Fitted with slotted swing table, and patent Neverslip chuck, to take drills with ½-in. round shanks. Average shipping wt., 90 lbs. Usual $8.50 to $10.00 retail value.
Each (without drill bits) . . . **$5.95**

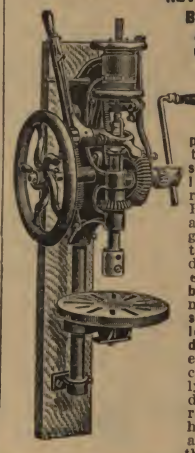
CHAMPION POST DRILL
(With Never-slip Chuck)

$8.25

BALL BEARING

183B4095—Will drill to the center of a 15-in. circle, and up to 1¼ in. hole. All of the bearings are ground out of solid metal to a perfect fit. Has double journal bearings, with full back gear, also two speeds on the right hand side of the drill, which can be changed in an instant to suit all kinds of work. Diameter of spindle, 1⅛ inches. The automatic self-feed is of the latest improved pattern. The table is large and slotted so the operator can securely bolt work on for drilling. Spindle is bored to take ½-in. round-shank drills. Average shipping weight, 115 lbs. Each (without drills) **$8.25**

CHAMPION BALL-BEARING POST DRILL
(With Never-Slip Chuck)



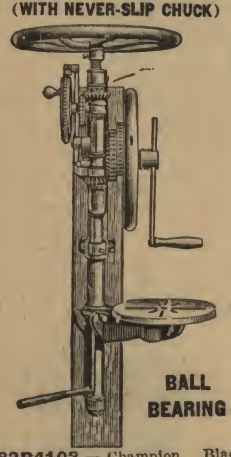
$9.85

Will drill holes up to 1¼ in. and to center of a 16-inch circle. Fitted with easy running **Ball Bearings.** It is back geared, with an improved third gear principle, which gives the second speed the same crank motion as on the first speed. The improved third gear being part of the handle hub, therefore is disengaged when using first speed, saving the continuous labor of pulling along an intermediate gear while using the first speed. Has double journal bearings and self-feed attachment. Diam. of spindle, 1⅛ in. Bored to take in ½-in. round shank
183B4098—With hand crank. (Without drills.) Av. ship. wt., 117 lbs. Each **$9.85**
183B4099—With Pully for Power (without drill bits). Av. Ship. wt., 127 lbs. Each . **$11.75**

CHAMPION COMBINATION POST DRILL

NEVER-SLIP CHUCK
BALL BEARING

$17.85



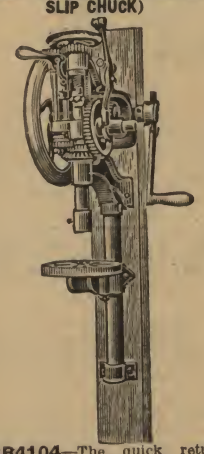
Champion Improved Combination Automatic self-feed, and lever-feed upright post drill. Has two speeds and double back gears. Crank turns in one direction. An easy running **ball bearing** machine. The **self-feed** and **lever-feed are independent** of each other and can be instantly changed. The drill bit can be raised out of the hole just bored and reset to bore the next hole without turning back the feed screw.

Drills holes up to 1¼ in. and to the center of a **16-in. circle.** Diam. of spindle, 1¼ in. Has an up and down run of 4 in. Chuck takes ½-in round shank drill bits.

183B4112—With hand crank (without drill bits). Average shipping weight, 195 lbs.
Each **$17.85**

183B4113—With light and loose pulleys for power. Average shipping weight, about 200 lbs.
(without drill bits). Each . **$19.95**

BLACK DIAMOND POST DRILL
(WITH NEVER-SLIP CHUCK)



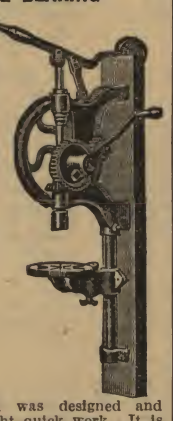
BALL BEARING

183B4103 — Champion Black Diamond Drill is a machine with merits worth looking into by all who are in want of a large and well-made blacksmith drill. The gearing is designed for easy and quick running. Will drill holes up to 1½ in. and to the center of an 18-in. circle. Has both top and side flywheels. Both make two revolutions to one revolution of the crank. All bearings are ground out of solid metal.

The second speed for heavy drilling is very convenient, and is changed in an instant simply by a change of the crank handle into the side fly-wheel.

Complete with wheel-holder attachment to prevent scratching finished wheels. Spindle bored to take in ½-in. round shank drills. Average shipping wt., 200 lbs.
Each (without drills) . . **$13.85**

CHAMPION QUICK RETURN DRILL
(BALL BEARING WITH NEVER-SLIP CHUCK)



183B4104—The quick return can be thrown into place while the drill continues in motion, where it remains until the bit is raised out of the work, when it automatically stops, and requires no attention from the operator to start the next hole. The distance in the rising of the drill bit is adjusted by a thumb screw and automatically unshifts when out of the work.

The crank has a forward motion on both 1st and 2d speeds. The bearings are ground out of the solid metal to a perfect fit. Has two speeds, double journal bearings, slotted table, and self-feed attachment. Will drill up to a 1¼-in. hole and to center of 15-in. circle. Chuck takes ½-in. round shank drills. Average shipping wt., 126 lbs.
Each (without drills) . . . **$9.85**

LEVER-FEED POST DRILL
(WITH NEVERSLIP CHUCK)
QUICK ACTION DRILL
BALL BEARING

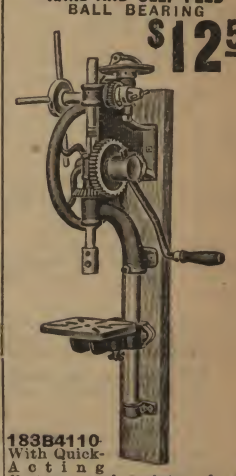
$7.10

This drill was designed and built for light quick work. It is intended to be used as a second drill in up-to-date blacksmith shops, where tire drilling and counter-sinking are an object. This drill will pay for its cost in a short time, as three times more light work can be done on it than on any screw-feed drill. It is well made and bearings are ground out of the solid metal to a working fit. It drills to the center of a 14-in. circle and up to ¾-in. hole. Spindle has an up and down run of 5 in.; has back gear. Spindle fitted for ½-inch round shank drill.

183B4120—With hand crank (without drills). Average shipping wt., 93 lbs. Each . **$7.10**
183B4121—With pulley for power (without drills). Average shipping wt., 105 lbs.
Each **$9.10**

CHAMPION CUT-GEARED DRILL
(WITH NEVER-SLIP CHUCK)

BALL BEARING



FOR HAND OR POWER

Double gears for quick and slow speed. Makes possible a large variety of work.

Hand and automatic quick return feed. Patent rack for adjusting table. Wheel-Holder attachment prevents the scratching of finished wheels. Bearings ground out of the solid metal. Will drill holes up to 1½ in. and to center of a 21-in. circle. Spindle bored to take ⅝-in. round shank drills. Pulleys, 10x2½ in. Speed for ordinary work, 180 revolutions per minute. Length, 65 in. Shipping wt., 350 lbs. Usual $35.00 to $40.00 retail value.
183B4130—With pulleys for power (without bits).
Each **$28.60**
183B4131 — Without pulleys. With hand crank (without drill bits). Average shipping wt., 328 lbs. Each **$26.00**

CHAMPION BLACKSMITH POST DRILL
HAND AND SELF FEED
BALL BEARING

$12.50

183B4110
With Quick-Acting
Features and points of simplicity never before found in a drill at this price. Has two speeds—automatic self-feed, propellor wheel hand feed, and quick return. Simple and very substantially built. End thrust ball bearings. Made from highest grade, lathe-turned tool steel. Saves 20 to 50 per cent power. All bearings ground out of the solid metal. No babbit is used. Lathe-turned slotted table. Diameter of spindle, 1⅛ inches. Has up and down run of 5½ inches. Spindle bored like patented Neverslip chuck, to take ½-inch straight shank drill bits. Will drill holes up to 1½-inch. Drills to the center of a 16½-in. circle. Average shipping weight, 169 lbs. Each (without drill bits) **$12.50**

MECHANICS' WELL MADE PORTABLE BENCH DRILLS

$5.20

TWO-SPEED BENCH DRILL
THREE-JAWED CHUCK

183B4170—Goodell-Pratt bench drill. Has solid iron frame, cut gears and two different speeds, quickly changed by a shifter conveniently located. Steel feed screw. Table is adjustable. Height from table to feed wheel, 18 in. Has a fine three-jawed chuck capacity 0 to ⅜ in. and eight fluted drill bits. Average shipping weight, 18 lbs.
Each **$5.20**

TWO-SPEED BENCH DRILL
THREE-JAWED CHUCK

183B4178 — Goodell-Pratt drill. Has cut gears with two speeds and a three-jawed chuck, capacity 0 to ½ in. Has two tables; one is stationary, size 7x6 in., the other is a round swinging table 7 in. in diameter. Extreme distance from stationary table to chuck, 11 in.; extreme distance from round swinging table to chuck 5½ in. Total height, 26 in. Diameter of balance wheel, 8 in. Average shipping wt., about 64 lbs. Each **$11.95**

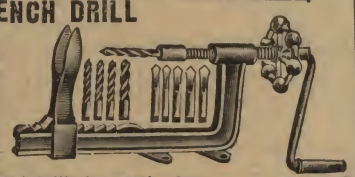
LIGHT BENCH DRILL

$2.70

83B4180 — Goodell-Pratt small bench drill for light work. Has a lever feed, cut gears, and a three-jawed chuck, capacity 0 to 5/32 in. Size of iron table, 3x5½ in. Spindle travels 1⅞ in. Distance from upright shaft to center of chuck, 2 in. Total height of drill, 12 in. Average shipping weight, 6 lbs.
Each **$2.70**

MILLER'S FALLS UNIVERSAL DRILL PRESS

$5.75



183B4185—Has double gears, with extension handle, and three-jawed chuck, taking round, straight shank drills up to ½ in. The bench clamp vise rest and frame are all clamped to the main standard, and adjustable. The vise is hung off center, so as to give a variety of positions. The operator may, if desirable, work below the bench by dropping the frame and fixtures down on the standard, and securing the upper end of the same in the bench clamp. Average shipping weight, 28 lbs. Price, complete, without drill bits **$5.75**

BENCH DRILL
Three-Jawed Chuck

183B4174— Goodell-Pratt Drill. Has a solid iron frame, cut gears, steel feed screw, and adjustable table. Well made and nicely fitted. Height from table to the top feed wheel, 13 in. Has a three-jawed chuck, capacity 0 to ¼ in. and 8 assorted fluted drills. For extra drills, see Index. Ship. wt., about 12 lbs. Each . . **$3.35**

PORTABLE BENCH DRILL

Combination Clamp and Drill; a low priced good machine with steel screw feed, **malleable frame** and sliding clamp with brass chuck. Length, 17 in.; height, 7 in. Average weight, about 6 lbs. Regular $2.50 to $3 value.

83B4154—Bench Drill with Set of Diamond Pointed Drills for metal. One of each ¼, 5/16, 3/16, ½, ⅝ in. Price **$1.70**

83B4155—Bench Drill with set of Twist Drills, for metal or wood. One each, 3/16, ¼, 5/16, ⅜ and ½ in. Price **2.25**

EXTRA DRILL POINTS

83B4156—Diamond Pointed Drills for Metal. Average wt., 7 oz.
Per set of 5 . . . . . **35c**
83B4157—Twist Drills for Metal or wood. Average weight, 8 oz.
Per set of 5 . . . . . **85c**

DRILL VISE

83B4171 — To fit 183B4179 drill. Used in place of table. Jaws open 2 in. Average weight, 4 lbs. Price **$1.30**
83B4175 — To fit 183B4174 drill. Jaws open 1¾ in. Average weight, 1½ lbs.
Each **98c**

BLACKSMITHS' HORIZONTAL DRILL

Usual $2.00 retail value.

183B4150—Horizontal Drill for Blacksmith's use. It has a heavy cast iron standard, length, 26 in. Chuck takes drill bits with square shank. Average shipping weight, 22 lbs. A big bargain at our price. Each, without drill bits.

$1.35

$1.35

ROUND SHANK TWIST DRILLS

85B1055—First Quality Twist Drills with ½ in. round shank. Best grade. For metal or wood. Each drill is carefully tempered, tested and finished. Shank is milled flat one side, to fit the **Never-slip Chuck** on all our Post Drills. Wts., 2 to 9 oz.

HAND AND FOOT POWER GRINDERS—EXTRA VALUES

EMERY FOOT GRINDER

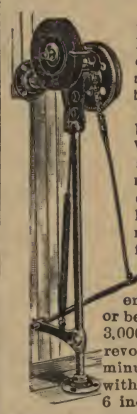
STEEL FRAME

183B4218 — For all kinds of grinding. Fast cutting. Corundum wheel, 6x1¼ in. One-piece steel spindle and pinion. Gears accurately milled and encased. Strong wrought steel frame. Nicely japanned. Two pedals. Adjustable steel seat and tool rest. Shipping weight, 65 lbs. Each **$4.95**

EMERY FOOT GRINDER

183B4226— Hardwood frame. With enclosed machine cut gears. Ball bearing, bicycle pedals, and steel drive chain. Has two fast cutting wheels, one fine. Size, 6¼ x1 in. Ship. wt., 68 lbs. Each ... **$10.50**

83B4227—Saw Gumming Wheel. With Collar. Wt., 1 lb. Each . **45c**



83B4228—Beveled Mower Knife Wheel, with arbor. Wt., 2½ lbs. Each **90c**

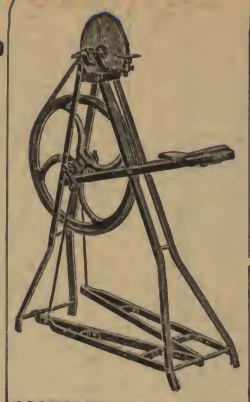
EMERY FOOT GRINDER

$3.70

HIGH SPEED EASY RUNNING

183B4222 Is gear driven, with new positive ball clutch and cone bearings. Will grind any kind of metal, hard or soft, and has a wide range of usefulness. Can easily be fastened to a wall or bench. Speed, 3,000 to 4,000 revolutions per minute. Fitted with high grade, 6 inch emery wheel, ¾ inch thick. With ⅝ inch steel shaft. Total height, 42 inches. Shipping weight, 20 lbs. Each **$3.70**

BALL-BEARING GRINDSTONE



USUAL RETAIL PRICE, $4.50

OUR PRICE ONLY $2.90

183B4320—Steel Frame Grindstone, nicely painted. With easy-running Ball-Bearings. Fitted with a smooth, even grit, best quality Ohio grindstone. Frame is made of angle steel, strong and rigid, with comfortable steel seat and light-running ball-bearings. Size of stone, diameter, about 20 in.; thickness, 2 in. A big bargain at our price. Shipping weight, about 90 pounds. Each **$2.90**

EMERY FOOT GRINDER

183B4223 — For general grinding, sharpening, and polishing. Strong wrought steel frame with pedals and adjustable seat. Operators' hands are free. Fly-wheel with two round belts drives an emery wheel, 8x¾ in. at high speed. Quiet running. Babbited bearings. One end of spindle has thread to hold buffing wheels. Very satisfactory and an excellent value. Ship. wt., 65 lbs. Each **$6.60**

WOOD FRAME GRINDSTONE

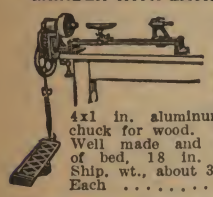
BALL BEARING

183B4322—Extra heavy solid wood frame, neatly painted. Extra quality Ohio stone. Has ball bearings and a comfortable steel saddle seat. A very strong, easy-running machine. Weight of stone about 75 lbs. Shipping weight, about 100 lbs. Each **$2.95**

STEEL FRAME POWER GRINDSTONE

$6.85

BALL BEARING



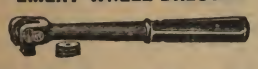
183B4324—A substantial machine with Steel Frame, easy running Ball Bearings and Heavy Cast Iron Pan, or Trough. Has steel shaft with pulley. Size of pulley, 6 in. by 3 in. Best grade Ohio grindstone. Smooth, even grit. Diameter, about 22 in. and 2½ in. thick. An excellent grinder for the farm or shop. Shipping weight, about 170 lbs. Each **$6.85**

FAMILY GRINDSTONES

183B4340 — Handy grindstone mounted on ball bearings. Selected stones. Light running and first class in every respect. Diameter of stone, 8 in. Average shipping wt., 15 lbs. Each **98c**

GRINDER WITH LATHE ATTACHMENT

183B4231 — For rapid grinding, wood turning, etc. Geared grinder with adjustable foot treadle and lathe bed. With 4x1 in. aluminum wheel and screw chuck for wood. Steel and cast iron. Well made and serviceable. Length of bed, 18 in. Will swing 5 in. Ship. wt., about 30 lbs. Each **$4.95**



CLOTH BUFFING WHEELS

83B4270—Made of Unbleached Muslin. Each wheel is of 20-ply or thickness, sewed together. Average wt., 2 to 8 oz. Give size.

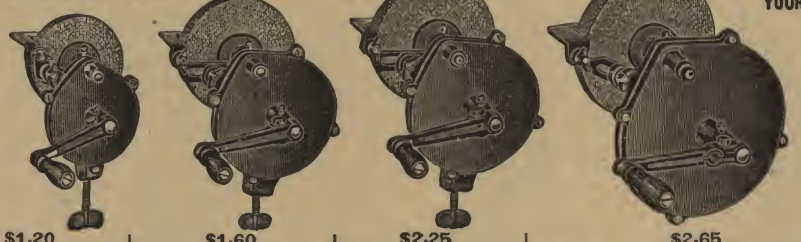
83B4275—For Truing, shaping and removing glaze from emery wheels while running at full speed. Weight, 1¾ lbs. Each with two sets of cutters **28c**

83B4276—Extra Cutters. Weight, per dozen sets, 1½ lbs. Per set **6c**
Per dozen sets **60c**

SHERMAN WHEEL DRESSER

83B4280—Fast cutting corrugated tool steel cutters; especially for large wheels or grindstones. Diameter cutter discs, 1½ in. Weight, 1¾ lbs.
Each, with two sets of cutters **45c**
83B4281—Extra cutters, set **7c**



Since we started this business, way back in 1872, we've made a lot of changes and improvements in our service, but our principles and our methods of conducting our business are still the same. We have never allowed ourselves to forget that we could not succeed unless we so conducted our affairs that we would have the confidence of our customers.

HIGH SPEED TOOL GRINDERS

The very latest design in grinding machines with machine cut encased gears. Run quietly and with remarkable ease. Fast cutting genuine Corundum wheel. Wet or dry. Just the thing for all general grinding such as knives, scissors, chisels, drill bits, etc. With adjustable tool rest. Clamp to bench or table.

LAKESIDE EMERY-CORUNDUM WHEELS

CAN BE USED WET OR DRY

Will not glaze or fill up. Even tempered, uniform, and practically free from dust and odor. Are thoroughly waterproof, can therefore be run either wet or dry, as preferred. Our Lakeside Wheels are made from best grades of pure corundum and emery, which are the hardest and best abrasives known for grinding purposes. They are rigid, cool cutting, and durable wheels, and will give perfect satisfaction.

Note—When ordering Emery Wheels, please give diameter, thickness, size of hole, shape of face, and purpose or class of work. We shall always select a wheel of a grade and temper best adapted for your work.

LAKESIDE TOOL AND CUTLERY WHEELS

Adapted for general work, such as sharpening tools, knives, axes, etc. Can be used either wet or dry. Give size.

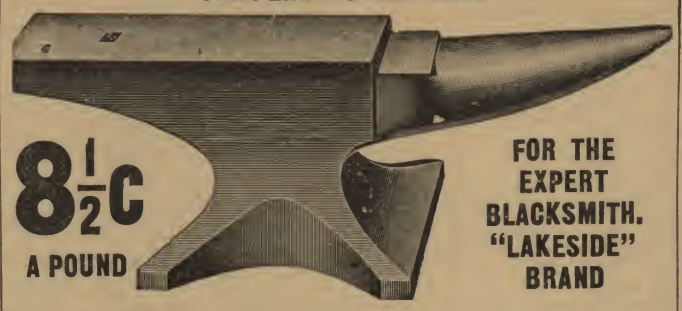
Weight 50 lbs. Each $1.60
Weight 70 lbs. Each 2.20
Weight 100 lbs. Each 3.15

STEEL PLOW ANVIL

83B4598—Plow anvil, extra quality, solid cast steel; oil finish, polished rounded face. Large shank affords secure grip. Convenient for sharpening plow shares without removing. Weight, about 4 lbs. Each 45c

HANDY BENCH ANVIL



83B4595—Made of solid cast-iron, the face and horn accurately dressed, polished and nickel plated, and the body finished in red machine enamel. A handy bench anvil for the mechanic or householder. The base is of sufficient spread to prevent anvil from tipping. Total length, 8 in.; size of face, 5¼x1¾ in.; height, 3⅞ in. Weight, about 7¼ lbs. Made in one size only.

Each 56c

We cannot supply hardies or other anvil tools to fit this anvil. Intended for light bench work only.

STANDARD AMERICAN WROUGHT ANVILS
TEMPERED STEEL FACE

8½c A POUND

FOR THE EXPERT BLACKSMITH. "LAKESIDE" BRAND

183B4580—The bodies of our American wrought anvils are forged from the best and toughest iron, welded at the waist, and faced with the finest quality of high grade tool steel, carefully welded on and will not come loose. The face is hard and true, and tempered by a special process which prevents the edges from chipping, giving a hard surface without being brittle.

The shape is of the latest improved design, graceful and practical, and each anvil rings true and clear as a bell. There is no better anvil made, and many thousands of them are now in daily use.

Made by skilled workmen in the best possible manner and thoroughly inspected and tested before leaving the factory.

Should this anvil break at the waist or its steel face become loose within one year from date of purchase, it will be replaced without charge.

You will find that these anvils combine the best materials and workmanship, are graceful in design, with a long, perfectly shaped horn, and equal in quality and finish to any anvil made. The base is of proper spread to insure against tipping.

We cannot always send exact weight, but will send the nearest we have to size wanted. (Give weight wanted.) **Buy our Lakeside American Wrought Anvils if you want the best.**

STEEL FACE CAST ANVILS
TEMPERED STEEL FACE

183B4592 The body of this anvil is made from superior, new pig iron. (No scrap metal used.) The face is one solid piece of tool steel, welded to the body by a patent process, and will not come loose. Accurately ground and tempered. Fitted with hole for anvil tools. The end of the horn is made entirely of tough, untempered steel and the top is covered with steel. An excellent, well-shaped anvil. (Give weight.)

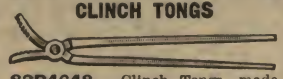
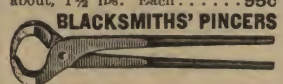
BLACKSMITHS' GAD TONGS



83B4640—Solid forged steel. Length and weights are approximate. (Give size.)

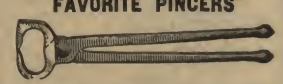
Length, 18 in. Wt., about 2 lbs. Each 24c
Length, 22 in. Wt., about 3 lbs. Each 36c



HIGH GRADE BLACKSMITHS' AND FARRIERS' TOOLS

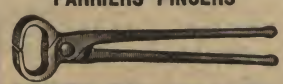
CLINCH TONGS

83B4648 — Clinch Tongs, made of fine crucible tool steel. Very useful in shoeing colts and nervous horses. Length, 14 in. Wt., about, 1½ lbs. Each 95c



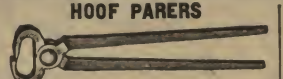
BLACKSMITHS' PINCERS

83B4650—Forged steel, polished jaws, full weight and perfect. Excellent for mechanic or stable. (Give size.)



Length	Weight, about	Each
12 in.	1⅞ lbs.	40c
14 in.	2 lbs.	44c

FAVORITE PINCERS



83B4652 — Extra Quality drop forged steel, polished head. With square jaw, to be used as a clinch block. Length, 14 in. Weight, about 3 lbs. Each $1.50

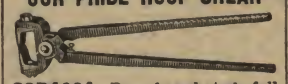
FARRIERS' PINCERS

83B4654—Forged from the highest grade of crucible steel, carefully tempered and finished. One of the finest Farriers' Pincers made. Length, 14 in.; width of jaws, 1⅛ in. Weight, 2⅝ lbs. Each $1.20

HOOF PARERS

83B4658 — Extra quality, full polished forged steel. One of the most practical tools in the market for paring hoofs. (Give size.)

Length	Weight	Each
12 in.	1⅞ lbs.	$0.90
14 in.	2½ lbs.	1.10



GENUINE HELLER BROS. HOOF PARERS

83B4660 — Made of the highest grade crucible steel. Full polished.

Length	Weight	Each
12 3/16 in.	1¾ lbs.	$1.18
14¼ in.	2½ lbs.	1.42

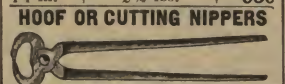
OUR PRIDE HOOF SHEAR

83B4664—Drop forged steel, full polished, with ball bearing joint, best tool steel knives, interchangeable. Have an easy shear cut, and can be grasped with one hand when open. Adjustable for wear.

Length	Weight	Each
12 in.	1⅞ lbs.	$2.25
14 in.	2¼ lbs.	2.50

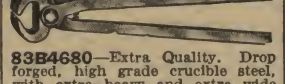
83B4665 — Extra knives. Wt., 7 oz.
For 12-in. Shear. Pair 55c
For 14-in. Shear. Pair 60c

For Horse Rasps see Index.



HOOF OR CUTTING NIPPERS

83B4675 — Made of forged steel, finely polished. Jaws highly tempered and intended for cutting only. Should not be used for prying or twisting. (Give size.)



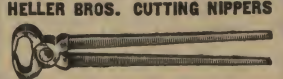
Length	Weight, about	Each
10 in.	1 lb.	65c
12 in.	1¾ lbs.	80c
14 in.	2¾ lbs.	95c

HOOF OR CUTTING NIPPERS

83B4678—Forged steel. Highly tempered and should not be used for prying or twisting. Length, 14 in. Weight, about 1¾ lbs. Each 53c

FARRIERS' NIPPERS

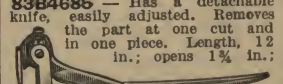
83B4680—Extra Quality. Drop forged, high grade crucible steel, with extra heavy and extra wide jaws. Joint is accurately milled, opens and closes smoothly, and does not wabble. Length, 12 in. Weight, about 2 lbs. Each $1.15



HORSESHOERS' TONGS

83B4645 — Solid Steel, drop forged. (Give size.) Length, 12 in. Weight, about 1½ lbs. Each 22c

Length, 14 in. Weight, about 1⅝ lbs. Each 24c

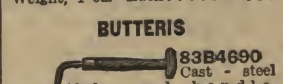


HELLER BROS. CUTTING NIPPERS

83B4681—Made of the finest grade of crucible steel.

Length	Weight, about	Each
12 in.	1⅝ lbs.	$1.18
14 in.	2¼ lbs.	1.42

EASY HOOF TRIMMER



83B4685 — Has a detachable knife, easily adjusted. Removes the part at one cut and in one piece. Length, 12 in.; opens 1¾ in.; cuts 1 in. Wt., 2⅛ lbs.

98c

Each 98c

83B4686—Extra knife for above. Weight, 1 oz. Each 10c

BUTTERIS

83B4690 Cast-steel blade; wood handle. Length, about 17 in. Wt., about 1⅛ lbs. Each 42c

UNIVERSAL SHOERS' TONG

83B4646 — Drop forged steel. Self-adjusting parallel jaws to hold any size of shoe. Length, 16 in. Wt., 2¼ lbs. Each 65c

HORSESHOERS' TOE KNIFE

83B4692—Forged steel, oil finished. Length, 7¾ in. Wt., about ⅞ lb. Each 25c

FARRIERS' KNIVES

83B4700—Genuine Wostenholm Steel blade. Bone handle. Wt., about 4 oz. Each 38c

83B4702—Genuine Heller Bros. With bone handle. Weight, about 2½ oz. Each 32c

83B4705—Genuine Heller Bros. With adjustable iron handle. High grade steel blade. Length, 8½ in. Weight, about 5 oz. Each 29c

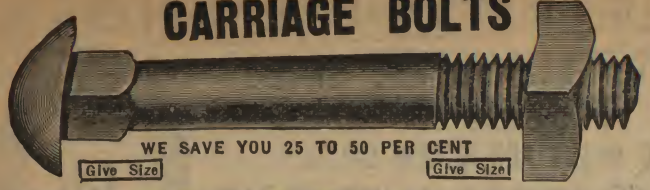
HORSESHOERS' PRITCHEL

83B4694 Forged steel ⅝-inch, octagon. Length, 9 in. Weight, about ¾ lb. Each .. 23c

HORSESHOERS' BUFFER

83B4695—Forged steel, oil finish. Wt., about 8 oz. Each 25c

HORSESHOERS' NAIL PUNCH



83B4696 Forged steel, oil finish. Size, 1 inch square. Wt., about 15 oz. Each 28c

Many a blacksmith's shop is fitted up economically from our pages.

Standard as follows: ¼-20, 5/16-18, 3/8-16, 7/16-14, ½-13. Has one die stock and one Horsefield top wrench. With plug taps. Complete in handsome box. Weight, about 12 lbs. Per set..... **$11.60**

DUPLEX SCREW PLATES

The quick opening features of the dies in these tools, is especially valuable as there is a great saving of time by releasing them from finished work, without being obliged to turn back over the long thread on bolts. Then the ability to so readily vary the size or take up for wear, and the ease with which all cutting edges may be maintained in a sharp condition, are advantages of great importance. Dies can be immediately set to thread standard sizes, or any over or under size. Rough over-sized iron can be shaved to standard size and threaded at the same time. No screw driver or wrenches are needed for adjusting or changing dies. Dies and taps of special tool steel. Each set is put up with a complete set of machinists' hand taps, in a neat hardwood case.

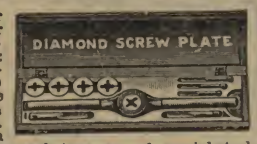
These Duplex Machine Sets are always sent with standard thread and with plug taps, all packed complete in a hard wood case.

83B4970—Style A. Cutting ¼-20, 5/16-18, 3/8-16, 7/16-14, ½-12, 5/8-11, ¾-10, with 7 sets of dies and 7 plug taps. Weight, about 7½ pounds. Per set **$13.25**

83B4971—Style B. Cutting ¼-20, 5/16-18, 3/8-16, 7/16-14, ½-12, 5/8-11, ¾-10, 7/8-9, 1-8; with 9 sets of dies and 9 plug taps. Weight, about 14 lbs. Per set **$20.00**

83B4972—Style B2. Cutting 5 sizes as follows: ½-13, 5/8-11, ¾-10, 7/8-9, 1-8 threads, with 5 dies and plug taps. Weight, about 11½ pounds. Per set **$14.65**

CARD'S MACHINISTS' AND BLACKSMITHS' SCREW PLATES



The dies in these Screw Plates being made in two parts, allow a large range of sizes to be cut with one die. These Screw Plates are in every way a first-class tool. They are put up in a neat hardwood case with hinge cover complete with taper taps. Dies and taps of special tool steel.

83B4975—Screw Plate. No. 2½C. Length, 11¾ in. 5 pair dies and 5 taps; cutting ¼-20, 5/16-18, 3/8-16, 7/16-14, ½-12. Weight, about 2⅝ lbs. Each **$4.95**

83B4976—Screw Plate. No. 3D. Length, 14 in. 6 pair dies and 6 taps, cutting ¼-20, 5/16-18, 3/8-16, 7/16-14, ½-12, 5/8-11. Weight, about 4½ pounds. Each **$6.35**

83B4977—Screw Plate. No. 4B. Length, 19 in. 7 dies and taps, cutting ¼-20, 5/16-18, 3/8-16, 7/16-14, ½-12, 5/8-11, ¾-10. Weight, about 8 pounds. Each **$8.95**

DIAMOND AUTOMOBILE SCREW PLATES A. L. A. M. STANDARD

83B5006 — For automobile repair work. Cutting 5 sizes as follows: ¼-28, 5/16-24, 3/8-24, 7/16-20, ½-20 threads. Has one stock, length, 13⅝ in. and 5 taps. Packed complete in hardwood case. Dies and taps are of special tool steel. Weight, about 4 lbs. Per set..... **$5.60**

83B5007—No. 2. Cutting 11 sizes as follows: ¼-28, 5/16-24, 3/8-24, 7/16-20, ½-20, 9/16-18, 5/8-18, 11/16-16, ¾-16, 7/8-14, 1-14. Has two stocks, lengths, 13¾ in. and 28½ in. and 11 taps. Packed complete in hardwood case. Weight, about 21¼ lbs. Per set **$17.95**

PIPE FITTERS' TOOL SETS $6.20 AND $11.45

PARTICULARLY ADAPTED FOR USE IN FACTORIES, LAUNDRIES, SHOPS, ETC

Small Pipe Tool Set—¼ to 1 In.

183B5160—Pipe Tool Set. Practical and convenient and often pay for themselves the first time used. Avoids the necessity of sending for a plumber or steam fitter, or shutting down a plant. All packed complete in a plain wooden box. Consists of the following high grade tools: 1 Pipe Stock, No. 1, to thread ¼, ⅜, ½, ¾, and 1 in. pipe.
1 Pipe Cutter, Three-wheel, No. 1 cuts ⅛ to 1 in. pipe.
1 Malleable Pipe Vise. Takes ⅛ to 2 in. pipe.
1 Stillson Pipe Wrench, 10 in. Takes pipe ⅛ to 1 in.
1 Stillson Pipe Wrench, 14 in. Takes pipe ¼ to 1½ in.
1 Steel Oil Can, copper plated.
1 Can Graphite Pipe Joint Cement.
Shipping weight of set, about 35 pounds.
Per set $6.20

Large Pipe Tool Set—¼ to 2 Inch.

183B5162—Pipe Tool Set. An excellent outfit made up of tools taken from our regular stock. Will meet the requirements of any ordinary shop. Packed complete in a plain wooden box. Consists of the following tools, all high grade:
1 Pipe Stock No. 1, to thread ¼, ⅜, ½, 1 ¾ and 1 in. pipe.
1 Pipe Stock No. 2, to thread 1¼, 1½ and 2 in. pipe.
1 Pipe Cutter No. 2, three-wheel.. Cuts ⅛ to 2 in. pipe.
1 Malleable Pipe Vise. Takes ⅛ to 3½ in. pipe.
1 Stillson Pipe Wrench, 14 in. Takes pipe ¼ to 1½ in.
1 Stillson Pipe Wrench, 18 in. Takes pipe ¼ to 2 in.
1 Steel Oil Can, copper plated.
1 Can Graphite Joint Cement.
Shipping weight of set, about 75 lbs. Per set . . . $11.45

PIPE JOINT CEMENT

83B5608—For making a tight joint on steam and water pipe. A non-corrosive graphite cement or pipe joint grease. Always ready. In 1-lb. cans. Per can 18c

DUPLEX ADJUSTABLE PIPE DIE STOCK

With adjustable quick-opening dies. Turning back over finished threads is unnecessary. Dies throw open and stock is lifted off, thus saving time and wear on the dies. Adjustment is instantly made to suit any variation in size of pipe fittings. The tempered steel dies also cut easier than ordinary ones, because of the clearance given them. They can be sharpened as readily as a chisel. Adjustable guides center pipe accurately and do away with loose collets. Complete with handles. Pipe taps not included.

Mfrs. Size	For Pipe, Inches	Wt., Lbs.	83B5110 Without Cut off	83B5111 With Cut off
41½	⅛, ¼, ⅜, ½, ¾	9	$ 7.35	$ 8.95
42½	¼, ⅜, ½, ¾, 1, 1¼	22	8.95	10.50
43	1, 1¼, 1½, 2	25	11.55	13.10
43½	½, ¾, 1, 1¼, 1½, 2	26	13.15	14.70

BULL-DOG PIPE DIE STOCK

83B5115—The Oster Bull Dog Die Stock. With new lever controlled setting device, which provides instant and easy release of the dies without backing off. One movement of the lever opens and closes the dies. Duplicate threads can be made without resetting. Are held in position by a positive lever lock.

The Dies are double taper, tempered steel, reducing the labor to a minimum and cutting a smooth, accurate thread. One set of dies cuts two sizes of thread. The bore of the stock is large enough to enter a coupling for cutting close nipples. The chuck has hardened steel jaws which center the pipe, and the adjustment guides do away with set screws and lose bushings. All wearing parts protected from dirt. Complete with handles. Not made with cutting off attachment. (Pipe taps not included.)

Size	For Pipe, Inches	Weight	Each
101	⅛, ¼, ½, ¾	10½	$ 6.85
102	¼, ⅜, ½, ¾, 1, 1¼	18	8.90

83B5466—Hot. Each $1.10

STANDARD WROUGHT PIPE

For Steam, Gas and Water. Prices on pipe are entirely dependent upon market conditions, making it impossible to quote a fixed price in this catalogue.

We allow our customers the benefit of all declines in market prices, whether asked for or not, and assure you that you will at all times have the benefit of the very lowest prices ruling at the time your order is received.

The size of pipe is determined by its INSIDE diameter (not outside).

The following prices are for pipe coupled and threaded in **random lengths**; that is, in pieces as they come from the mills, ranging between 16 and 20 feet. When ordering pipe cut to **exact lengths**, always make allowance for cutting and threading. **Couplings** are included only with pipe in random lengths. If cut to exact lengths **couplings are extra.** Please write us for latest prices on Pipe. Subject to market changes.

Size, inside diameter, inches	Approximate weight per foot, lbs.	183B5600 Black, per foot	183B5602 Galvanized, per foot	For cutting extra threads, per cut
⅛	¼	$0.02	(⅛ in. not furnished)	$0.02
¼	⅔	.02	$0.03½	.02
⅜	⅔	.02	.03½	.02
½	⅔	.02½	.03½	.02
¾	1⅓	.03	.04	.02
1	1⅔	.04¼	.06	.03
1¼	2⅓	.06	.08	.03
1½	2⅔	.07	.09¾	.04
2	3⅔	.09½	.13	.04

If pipe is ordered cut to exact lengths with ends threaded, we make an extra charge to cover labor, as noted above. For instance, if you order 10 feet of 1¼-inch pipe cut and threaded there will be an extra charge of two cuts at 3c each.

For plugging and Reaming 2 in. pipe for Eureka cylinders, extra charge per foot 1c

Please Note—The size of pipe is determined by its **inside** diameter (not outside) and the size of a pipe fitting is determined by the size of pipe it will take.

WITH CLEAN CUT THREADS

STANDARD MALLEABLE IRON PIPE FITTINGS

FOR STANDARD WROUGHT PIPE

MALLEABLE PIPE FITTINGS

Made of a good grade of Malleable Iron, with clean cut threads, for Standard Wrought Merchant Pipe.

Please Note—The size of pipe is determined by its **inside** diameter (not outside) and the size of a pipe fitting is determined by the size of pipe it will take.

This applies to all iron and brass fittings, valves, air cocks, oil cups, whistles and other engine trimmings.

For Instance: A ¾-inch elbow or valve will fit a wrought pipe measuring ¾-inch **inside diameter.** The opening in the fitting or valve will be large enough to take the ¾-in. pipe (inside diameter) and the opening of this particular size fitting (¾-inch) will measure approximately 15-16 inch.

All wrought pipe is measured inside diameter and the size of a fitting is determined by the size of pipe it will take.

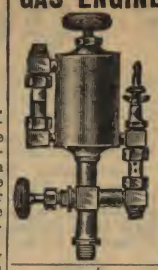
ENGINE TRIMMINGS OF QUALITY AT LOW PRICES

COLUMBIA SIGHT-FEED LUBRICATORS $3.35 to $6.20

83B5512 — Double Connection Lubricator for stationary and portable engines, finely polished and finished. Brass body, wood wheels and glass body sight feeder. Adapted to feed any clean lubricator oils. Carefully designed, with a view to improving and strengthening the parts which experience has proven weak in other similar lubricators. All sizes are fitted for ⅛-inch (pipe size) connection. Shipping weight, about 6 to 10 lbs.

Capacity	Height	For Cylinder Diameter	Each
⅓ pint	11 in.	Under 10 in.	$3.35
½ pint	11 in.	10 to 12 in.	3.70
1 pint	12¾ in.	10 to 18 in.	4.70
1 quart	14¾ in.	18 to 30 in.	6.20



AJAX SIGHT-FEED LUBRICATORS $3.60 to $6.25

83B5514—For stationary, traction, and portable engines. A high grade single connection lubricator. Requires only one tapping in steam pipe and can be easily attached to, in either a horizontal or vertical pipe or in steam chest of engine. Glass sight feed. Brass body finely polished and finished wood hand wheels. Each lubricator is thoroughly tested. All sizes are fitted for ⅛ in. (pipe size) connections. Shipping weight, about 7 to 10 lbs.

Capacity	Height	For Cylinder Diameter	Each
⅓ pint	13 in.	Under 10 in.	$3.60
½ pint	13½ in.	10 to 12 in.	3.85
1 pint	16 in.	12 to 18 in.	5.00
1 quart	18 in.	18 to 30 in.	6.25

GAS ENGINE LUBRICATORS

83B5516—With sight feed. Brass body, wood wheels. For gas engines and air compressors. Feed regulation is obtained by a snap lever which can be opened or closed without disturbing the rate of flow when properly set. Regulate the pressure by the valve. The ¼ and ⅓ pint size, have no gauge glass. Ship. weight, about 3 to 5 pounds.

Capacity	Height	Pipe Size	Each
¼ pint	8 in.	⅜	$1.85
⅓ pint	8¾ in.	⅜	2.10
½ pint	9½ in.	½	2.80
1 pint	10½ in.	½	3.40

SYPHON GAUGE COCK

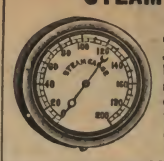
83B5555 — For steam gauges. Solid brass. Protects the movement from expansion and secures water in the spring of the gauge. Pipe size, ¼ in. Length, 4½ in. Weight, 15 oz. Each 95c

LAKESIDE FORCE FEED LUBRICATOR

$9.25

Designed for steam engines, pumps, gasoline engines, etc. Has all the good qualities of the ordinary lubricator with a force feed with absolute regularity under all conditions. Iron body with brass sight feed. Lubricator has ¼ in. connections and attachment ⅜ in. connections (pipe size). Weight, 17½ lbs. Shipping wt., 23 lbs. Directions with each lubricator.

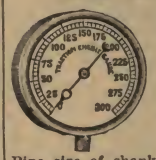
83B5518—Complete with Sight Feed attachment as shown. Each $9.25



83B5519—Lubricator only without the sight feed attachment. Height, 9⅝ in. Diam., 5 in. Wt., about 14 lbs. Shipping wt., 19½ lbs. Price $6.40

STEAM GAUGE SYPHON

83B5556—Made of malleable iron tubing to secure water in spring of gauge. One side only. Pipe size, ¼ in. Length, about 8½ in. Weight, 8 oz. Each 12c

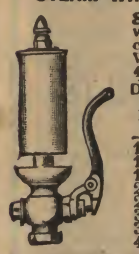


STEAM GAUGES

83B5550—High Grade Steam Gauge. Japanned iron case, brass rim. With single spring for stationary engines. Registers up to 200 lbs. With brass gauge cock. Pipe size, ¼ in.

Mfrs. Size	Weight, about	Each
3½ in.	2 lbs.	$1.10
4½ in.	3 lbs.	1.15
5 in.	4 lbs.	1.25

FARM ENGINE GAUGE



83B5552—Farm and Portable Steam Engine Gauges, with auxiliary spring.

Movement is non-corrosive. Dial is brass, silvered with letters and figures, cut deep and filled with black enamel. Size, 5 in. Iron case. Brass ring. Pipe size of shank, ⅜ in. Weight, about 3 lbs. Graduated to 300 lbs.

Each $1.75

Always use a Siphon with steam gauges.

STEAM WHISTLE WITH VALVE

83B5540—Solid brass with polished bell. Heavy cast brass valve and base. Wt., lbs., 1, 1⅛, 1¾, 2, 4, 5, 6½, and 10.

Diam. of Bell In.	Size of Pipe In.	Height About In.	Each

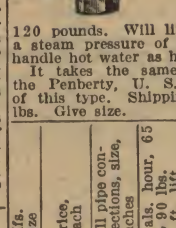
Outside diam., ⅝ in. Per doz. 7c

Outside diam., ¾ in. Per doz. 8c

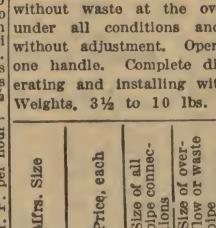


WATER RELIEF VALVES

83B5548—Made of bronze. Hand wheel adjustment for regulating the pressure at which valve opens automatically. Used on steam pumps, pipe lines, steam cylinders, spray pumps, etc. Has a big relieving capacity. Simple and durable. Set at factory to blow off at 100 lbs. Can be adjusted to other pressures.

Pipe Size	¾	1	1¼	1½	2
Weight About Lbs.	1½	2½	3½	4½	8½
Each	$2.40	$2.90	$3.60	$4.35	$6.50

METROPOLITAN INJECTORS MODEL X $3.38



83B5581—A high class single tube injector of simple construction. Works absolutely automatic, and will start instantly after interruption of steam or water supply. All of the tubes screw directly into the casing of the injector, doing away with the use of tail pipes, and insuring that perfect alignment which is necessary for the best results.

Will start at 20 pounds and work to 120 pounds. Will lift water 20 feet with a steam pressure of 80 pounds, and will handle hot water as high as 130 degrees F.

It takes the same pipe connections as the Penberty, U. S. and other injectors of this type. Shipping weights, 3 to 8½ lbs. Give size.

Mfrs. Size	Price, Each	All pipe connections, size, inches	Gals. hour, 65 to 90 lbs 2 ft. lift	H. P. for ordinary boiler, 7½ gals. per H. P. per hour	H. P. on a basis of 30 lbs. water per H. P. per hour

HANCOCK INSPIRATORS $4.80

83B5583 — Works with low or high steam on all lifts up to 25 ft. and when taking water under a head with hot as well as cold feed water. It requires no adjustment for varying steam pressure. Water can be elevated above the Hancock Inspirator, about 2½ ft. for each pound of steam pressure. With 45 lb. steam pressure water can be lifted 25 ft. and elevated 112½ ft. above the inspirator, a total elevation of 137½ ft. Cast brass nicely finished. Weights, range from 5 to 21 lb. Give size.

NEW JUDSON ENGINE GOVERNORS $6.98

283B5586—For traction and saw mill engines. Has improved adjustable steps, whereby the valve may be raised or lowered and the speed changed while the engine is running. Fitted with a Sawyer's lever, which can be used as a stop lever or a speeder. Each governor is stamped to run the least number of revolutions. The tension nut on top of main spring may be screwed down to run any desired speed within reason. Give size. Give full particulars when ordering.

H. D. EJECTOR OR JET PUMP

83B5579— For conveying water and other liquids from one level to another in mines, pits, wells, tanneries, etc. Adapted as a bilge pump for steamboats. Solid brass. Will lift 24 ft. by suction. When it is desired to raise the liquid to a greater distance, place the ejector near the liquid and elevate it. Steam pressure of 65 lbs. will elevate 50 to 60 ft. and with 100 lbs. steam from 70 to 80 ft. Weights range from 1 to 6½ lbs.

RUBBER - LEATHER - CANVAS

BELTING OF QUALITY

Our three kinds, Rubber, Leather and Canvas Belting, are the product of old, reliable manufacturers; those who have won an enviable reputation as makers of thoroughly high grade, reliable goods. We permit no cheapening in the process of manufacturing. Each grade is exactly as represented, and our prices, quality considered, are remarkably low. We carry a large stock and make prompt shipments. We save you 25 to 50 per cent, and MAINTAIN the QUALITY.

RUBBER BELTING

We handle two reliable grades of Rubber Belting, our STANDARD and EXTRA STANDARD grades. Made of strong cotton duck with rubber outer coatings. We do not handle the cheap competition grades, as their use is not economical. **Our Standard grade** is a very good quality, but we do not recommend it for extremely heavy work. It is sold by many dealers as best grade and gives good satisfaction on light farm machinery, etc. Standard grade should not, however, be used as a Thresher Belt with the expectation that it will give satisfaction. Canvas Belting or our Extra Standard Rubber Belting is better for that purpose. **Our Extra Standard Belt is one of the best articles for the price on the market, and suitable for hard service.** It can be used as a thresher belt with perfect satisfaction.

ENDLESS RUBBER BELTS

283B5687—Endless Rubber Belts are made to order, which causes a delay of from two to three weeks. They will be **shipped to you directly from factory.** We furnish them in **Extra Standard** grade only. When ordering Endless Belt always allow three feet of the belt you are ordering for the cost of making the lap. Do not include this three feet in the actual length of belt you want, but simply allow money to pay for it. For example, if you wanted endless belt 100 feet long, send money enough for 103 feet. **To avoid delay,** we recommend the use of our regular belt and belt lacing, which makes an absolutely secure joint, and is less expensive. In this way you also save the cost of three extra feet of belting to make the lap. For prices and weights, see Extra Standard Belt, above.

Shipped from factory in Northern Illinois.

LEATHER BELTING

We have two good grades of Leather Belting, Standard and Extra Standard. We do not sell the very cheap Competition or Agricultural grades, which are never satisfactory and always dear at any price.

Our Standard Belting is a good medium quality, made up to 4 in. wide. Suitable for ordinary mill, factory and farm machinery purposes, and for this service will give good satisfaction.

Extra Standard Leather Belting is made from selected, short lap, oak tanned stock, cut from the center of the hide. It is recommended for thresher belts, high speed pulleys, and for hard factory or mill usage. It is the best leather belting in the market for the money. Quality always of the best.

Notice—Do not run leather belts in very damp or wet places, but use rubber or stitched canvas belting under such conditions.

83B5704—STANDARD GRADE.

Wt. per ft., about 1 to 5 oz.

Width, in.....	1	1¼	1½	1¾	2

CANVAS BELTING

BEST QUALITY—FULL WEIGHT

Our Stitched Canvas Belting is unaffected by atmospheric changes, uninjured by water or steam, and may be subjected to a degree of heat that would be ruinous to other belting. **It is therefore the best belting for outdoor use and for damp or hot places.** Made of special long fibre cotton duck, carefully and closely stitched. Thoroughly stretched and inspected. Thoroughly saturated in oil, which makes it permanently water-proof and flexible. Painted with a special red paint which gives the belt an excellent, non-slipping surface. Always remains flexible in hot or cold weather.

FOUR-PLY

Wt. per ft., 2, 2½, 3, 4, 5, 6, 8, 10, 11, 13, 15, 17 oz.

Per foot.....	38c	42c	50c

ENDLESS CANVAS THRESHER BELTS

Our Stitched Canvas Thresher Belts are made from especially prepared, strong, heavy cotton duck, thoroughly stretched. Saturated in oil and sewed from end to end under heavy tension, making a very strong yet always pliable and water-proof fabric. Painted with a special red paint which gives the belt an excellent non-slipping surface. Not affected by water, heat, steam or atmospheric changes. Especially adapted for threshers, saw mills, and similar severe uses. Each belt is made endless at the factory, and as it requires three feet to make the lap, therefore, each belt will measure just three feet short. For example, the actual net length of a 100-ft. belt will be 97 ft. We carry the following standard lengths in stock and can make **prompt shipment: 80, 100, 120, 130, 140, 150, 160 ft.** (Actual lengths are 3 ft. less than given.) **Special lengths and sizes, other than here listed, have to be made to order at factory and usually cause a delay of two to three weeks. For such sizes, always include the price of 3 ft. extra to cover cost of lap and labor.**

Size 14. For 5-ply belts. Width, 1¾ in. Per box..... $1.10

LAKESIDE BELT DRESSING

83B5710—Our Lakeside stick, belt dressing is suitable for all kinds of belts, prevents slipping, and keeps the belt soft and pliable. Applied to the moving belt by friction. Is economical and contains nothing injurious to the belt. In 1 lb. paper covered sticks.
Each 15c

LEATHER BELT CEMENT

83B5734—Choice Quality. For repairing leather belts, making endless, etc. To be heated in double vessel until thin, and applied to the surface of the leather. Leather should first be washed with hot water. In 1-lb. cans with directions.
Each 65c

CANVAS PULLEY COVERING

Can be applied to any pulley and effectually prevents the belt from slipping. Will last for many years. Each outfit is packed complete in wooden box and consists of canvas 36 in. wide, cement for applying, brush for cleaning pulley, brush and scraper for applying the cover.

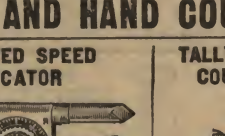
83B5745—For 10 sq. ft. pulley surface. Wt., 6 lbs..... $2.10
83B5746—For 17 square feet pulley surface. Wt., 12 lbs.
Price $3.45

STEEL BALL BELT COUPLER

83B5733—Fastened with bifurcated rivets. Connected by steel ball spindles. In boxes of 96 lineal inches. In 12 in. pieces, easily cut. With spindles, rivets, gauge and rivet holder.
Size A. For 5/16 in. belt. Wt., box, 2⅞ lbs. Per box..... 90c
Size B. For ¼ inch belt. Wt., box, 3 lbs. Per box..... $1.10
Size C. For 5/16 inch belt. Wt., box, 3¼ lbs. Per box.... $1.35

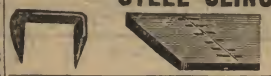
SMOKY CITY PACKING

83B5765—Made of all cotton stock well lubricated with graphite compound. Has an elastic rectangular center of pure rubber. For steam use. Feet in a lb., 21, 11, 6. Sizes: ¼, ⅜, ½ in. Oval shape. Give size.
Per lb. 24c



STEEL SCRAPING TOOLS

83B5752 — For scraping valves, babbitt metal, journals, bearings, etc. Set of six tools. Made of tool steel, carefully forged, tempered and polished. In convenient oak case. Lengths, 10½ in. to 17¼ in. Weight, 5¾ lbs.
Per set $2.10



STEEL PACKING TOOLS

A Necessity in Every Engine Room

83B5750 — Set of six tools, Nickel Plated. Will go in any valve rod, pump, or engine stuffing box. Assorted lengths, 6¾ in. to 18 in. Weight, 13 oz.
Per set $1.20

STEEL CLINCH BELT HOOKS

Made of best annealed steel wire. Will not break in clinching. For leather, rubber or canvas belting. In boxes containing 200 hooks.

No.	Size	Prong Length	Length	Weight	Per box
83B5740	0	½ in.	¾ in.	7 oz.	10c

Per lb. 24c

ASBESTOS SHEET PACKING

83B5774—For gas engines, automobiles, etc. Made of pure asbestos with a **fine brass wire insertion.** Will stand any temperature. In rolls 39 in. wide. We do not cut rolls lengthwise, but can furnish any quantity 39 in. wide. **Two thicknesses, 1/16, ⅛ in.** Wt., per square yd., about 6 and 12 lbs.
State thickness.
Price, per lb..... 40c

RED AND BLACK ASBESTOS

83B5776—Made of pure asbestos, with a fine copper wire insertion. For gas engines, automobiles, etc. Surfaced with a **high heat-resisting** compound, red on one side and black on the other. In rolls 39 inches wide. We do not cut rolls lengthwise but will furnish any quantity 39 inches wide. **Thickness, 1/32 in.** Wt., per square yd., about 4½ lbs.
Price, per pound..... 45c

ITALIAN HEMP PACKING

83B5780— Used in stuffing box heads in pumps, etc. Size, 1 in. Four feet per lb.
Per lb. 19c

ASBESTOS WICK PACKING

83B5782—Made in following sizes: ¼, ⅜, ½ in. Give size. Feet in lb., 5 to 7.
Per lb. 20c

SPEED INDICATORS AND HAND COUNTERS

STARRETT'S SPEED INDICATORS

Frictionless bearing. Two rows of figures reading right or left. Nickel-plated iron. Rubber tips. Size, 5x1½ in. Weight, 5 oz.

85B1858—With Iron handle.
Each 83c
85B1859—With rosewood handle. Each $1.19
85B1860—Leatherette Case. 3 oz. Each 40c

IMPROVED SPEED INDICATOR

85B1862—Goodell Pratt's make. Has two dials. One records the units, one the hundreds. Dial for hundreds has friction ratchet and is quickly reset. Double end spindle. Handle slips on either end for right or left hand shafts. Steel, nickel-plated. Two rubber tips. Weight, about 6 oz. Each, $1.75

TALLYING REGISTER OR COUNTING MACHINE

85B1855—Tallies from 1 to 1,000 by pressing with the thumb. Can be set at zero at will. Used for checking ties, telegraph poles, passengers, freight, cattle, etc. Glass dial. Nickel-plated. Wt., 4 oz. Each..... $2.25

EASY ACTING

IRON WELL PUMPS

STRONG, DURABLE

We offer you here a line of pumps that are properly constructed, strong, substantial and durable.

Our pumps are made of the very best material, smooth castings, nicely finished and painted, and intended for long continued use. Easy to install. The necessary parts of a pump are the Pump Standard or Stock; the Cylinder with its plunger valve and its lower check valve; the Suction Pipe and the Plunger or Connecting Rod.

The cylinder or working barrel of a pump should never be more than 25 to 28 feet from the surface of the water, or else it will not operate.

A Suction Lift Pump is one that raises the water to the level of the pump spout.

A Force Pump is one that raises the water to the pump, and also forces it to any reasonable altitude above the level of the pump.

A Set-Length Pump is a pump standard fitted with 4 ft. of pipe and a cylinder (see 183B5800, etc.), and such a pump is ready for use in a well not exceeding 30 ft. in depth. It is only necessary to screw on the requisite amount of pipe to the bottom end of the cylinder. For instance, if the well is 30 ft. deep, you will need 26 ft. of pipe, as the cylinder and set-length will take up 4 ft. of the distance.

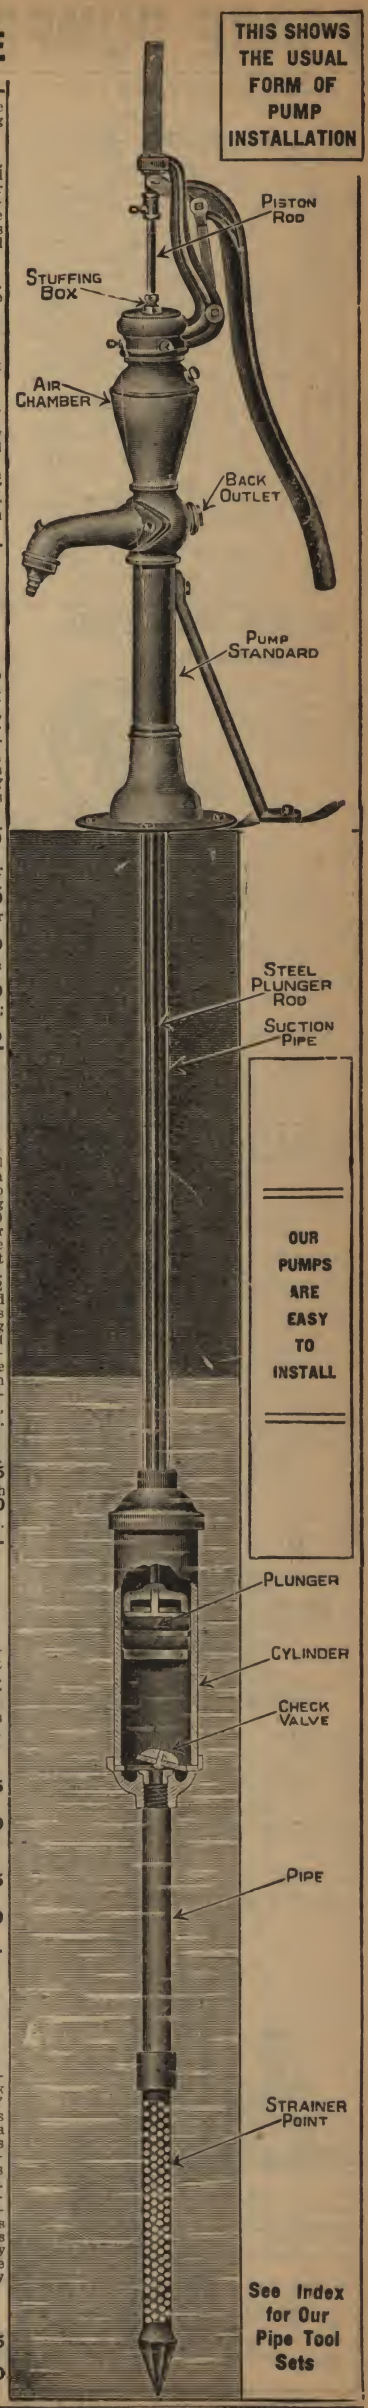
The object in putting the cylinder at the end of 4 ft. set-length is to place the cylinder below the frost line. A small drip hole (about ⅛ in.), is drilled in the pipe just above the cylinder, which drains off the set-length and thereby makes the pump anti-freezing.

For wells deeper than 30 feet it will be necessary to use a Pump Standard (see 183B5850), and then fit the cylinder down within at least 25 ft. of the water; or better still, place the cylinder beneath the surface of the water, as this will always insure an easy acting outfit and the pump will never need priming.

Fitting Pumps Complete.

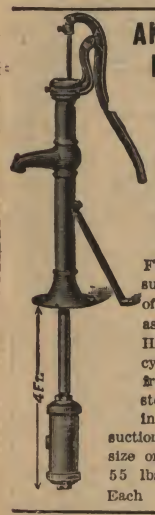
For fitting pumps complete ready to put in the well, we make a nominal charge to cover the cost of steel plunger rod and the labor involved, as follows: For fitting cylinder down 10 ft. or less, 50c; for each additional foot, 5c per foot. Please note that this charge for fitting does not include the suction pipe. Pipe is always charged extra, depending upon the size and kind wanted.

Example.



Pump Outfit, fitted complete, ready for well 120 ft. deep with 30 ft. of water in the well. (For prices see below.)

183B5850—1 Pump, 6 in. stroke, 1¼ in. pipe size . . .
183B5966—1 Brass Body Cylinder, 3x10x1¼ . . . . . .
183B5602—120 ft. 1¼ Galvanized Pipe . . . . . .
Labor and Rod, fitting cylinder down about 100 ft. at 5c per ft. . . . . .
Total . . . . . .



You can of course use any of our pump standards, cylinders or pipe.

When ordering, please state depth of well, and how far down you wish cylinder placed, otherwise we shall use our own judgment in fitting.

We Furnish Estimates for complete pump outfits on request. When writing for prices please give depth of well; state whether an open or a drilled well; the distance from platform to surface of the water; and whether you wish a lift or a force pump.

ANTI-FREEZING LIFT PUMP
$2.75

183B5800 — Anti-freezing well pump with a 4-ft. set length. A medium weight, well made pump for wells not over 30 ft. deep. For deeper wells we suggest the use of one of our heavier pumps as shown on this page. Has a 3x10-inch iron cylinder with wrought iron set length and steel rod. Stroke, 6 in. Fitted for 1¼ in. suction pipe. Made in one size only. Shipping weight, 55 lbs.

Each $2.75

ANTI-FREEZING LIFT PUMP
$3.05

Heavy Pattern anti-freezing well pump, with 4-ft. set length. A good durable pump for wells up to 30 ft. deep. For deeper wells order our pump standard, with cylinder and pipe as explained at top of this page. The set length is wrought iron and connected under spout. Prices are for pump with iron cylinder. Stroke, 6 in. Average ship. wt., 63 to 75 lbs.

183B5804 — Cylinder, 2½ in.; for pipe, 1¼ in. Each $3.05

183B5805—Cylinder, 3 in.; for pipe, 1¼ in. Each $3.10

183B5806—Cylinder, 3½ in.; for pipe 1½ in. Each $3.40

183B5807—Cylinder, 4 in.; for pipe 2 in. Each $4.10

ANTI-FREEZING HAND FORCE PUMP
$4.95

Heavy Force Pump, with air chamber in top of stock and a 4 ft. set length. Has a brass stuffing box, polished piston and is substantially made throughout. For wells up to 30 ft. deep.

Prices are for pumps with iron cylinders. Stroke, 6 in. Complete with ¾ in. hose connection. Back of spout is tapped for 1¼ in. pipe. Average ship. wt., 80 to 95 lbs.

183B5810 — Cylinder, 2¾ in.; for pipe 1¼ in. Each $4.95

183B5811—Cylinder, 3 in.; for pipe 1¼ in. Each $5.10

183B5812 — Cylinder, 3½ in.; for pipe 1½ in. Each $5.35

183B5813—Cylinder, 4 in.; for pipe 2 in. Each $6.00

ANTI-FREEZING LIFT PUMP
$4.10

With 4 ft. set length. A substantial pump for windmill or hand use. Adapted for either open or dug wells up to 30 feet in depth. For deeper wells order our pump standard with cylinder and pipe, as explained at top of this page. Prices are with iron cylinder. Stroke, 6 in. Average ship. wt., 70 to 80 lbs.

183B5820 — Cylinder 2½ in.; for pipe 1¼ in. Each $4.10

183B5821 — Cylinder 3 in.; for pipe 1¼ in. Each $4.20

183B5822 — Cylinder 3½ in.; for pipe 1½ in. Each $4.40

183B5823—Cylinder 4 in.; for pipe 2 in. Each $5.00

ANTI-FREEZING FORCE PUMP
WINDMILL TOP
$6.45

With 4 ft. set length. For wells up to 30 ft. deep. Has cock spout with ¾ in. hose coupling so that water can be forced in tank or discharged at spout. Back of spout tapped for 1¼ in. pipe. Stroke, 6 in. Average ship. wt., 85 to 90 lbs.

183B5828— Cylinder, 2½ in.; for pipe 1¼ in. Each . **$6.45**

183B5829— Cylinder, 3 in.; for pipe 1¼ in. Each . **$6.60**

183B5830— Cylinder, 3½ in.; for pipe 1½ in. Each $6.75

183B5831—Cylinder, 4 in.; for pipe 2 in. Each . . **$7.50**

LIFT PUMP STANDARD
$2.15

183B5840—Pump Standard only, for wells of moderate depth. This standard can be fitted with iron or brass cylinder and wrought pipe, which will make an excellent outfit where a force pump is not needed. Stroke, 6 in. Same as our 183B5804, but without set-length or cylinder. Price does not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe.

For further information regarding cylinder and pipe, see explanation at top of this page.

This pump, and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wt., 40 lbs.

Each **$2.15**

(Give pipe size wanted.)

LIFT PUMP STANDARD
WINDMILL TOP $3.35

A good lift pump standard fitted with windmill top, but also makes a first-class hand pump. It is the same as our 183B5820, etc., without the cylinder and set-length. Strong enough for wells up to 100 ft. deep. Has very high spout. Long handle on adjustable cap. Prices do not include cylinders or pipe. Fitted for 1¼, 1½ or 2 in. pipe. This and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wt., about 60 lbs.

183B5842 — With 6 in. stroke. Each **$3.35**

183B5843 — With 10 in. stroke. Each **$3.80**

(Give pipe size wanted).

LIFT PUMP STANDARD
FOR HAND OR WINDMILL
$2.95

A substantial lift pump standard, that may be used as a hand pump, or in connection with a windmill. Made in two sizes of stroke. Strong enough for wells up to 100 ft. deep. Has regular spout with good size openings. Prices do not include cylinders or pipe. Fitted for 1¼, 1½, or 2 in. pipe. This pump and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wts., 52 and 60 lbs.

183B5848— With 6 in. stroke. Each . . **$2.95**

183B5849 — With 10 in. stroke. Ea. **$3.40**

Give pipe size wanted.

FORCE PUMP STANDARD
WINDMILL TOP
$4.35

Force Pump for windmill or hand use. Bolted top cap. Extra large solid piston rod. A strong, durable pump and a great favorite. For wells up to 100 feet deep. Prices do not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe. With ¾ in. hose connection at spout. Back of spout tapped for 1¼ in. pipe. This pump and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wts., 64 and 71 lbs.

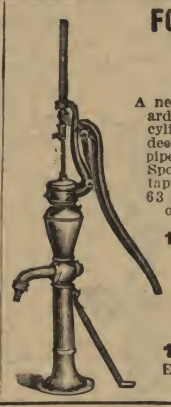
183B5850—Stroke 6 in. Each **$4.35**

183B5851—Adjustable stroke. Each **$4.80**

Give pipe size wanted.

FORCE PUMP STANDARD
WINDMILL TOP
$4.95

Has long oscillating fulcrum link, pivoted at base instead of at the top. This relieves the cap from strain, eliminating danger from breaking and making a very strong pump which will give excellent service. For wells up to 100 ft. deep. Back of spout tapped for 1¼ in. pipe.



Prices do not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe. With ¾ in. hose coupling on spout. This pump and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any position. Ship. wts., 66 and 75 lbs.

183B5854—Stroke 6 in. Each **$4.95**

183B5856—Stroke 10 in. Each **$5.40**

Give pipe size wanted.

FORCE PUMP STANDARD
WINDMILL TOP
$4.35

A neat, solid and compact force pump standard. Same as our 183B5828, but without cylinder set-length. For wells up to 100 ft. deep. Prices do not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe. Spout has ¾ in. hose connection. Back is tapped for 1¼ in. pipe. Shipping weight, 63 to 74 lbs. Furnished with either plain or faucet spout.

With Plain Spout

183B5858—Stroke 6 in. Each . **$4.35**

183B5859—Stroke 10 in. Each **$4.80**

With Cock Spout

183B5860—Stroke 6 in. Each **$5.15**

183B5861—Stroke 10 in. Each **$5.60**

Give pipe size wanted.

HEAVY FORCE PUMP STANDARD
WINDMILL TOP
$7.00

For windmill or hand use. Extra strong for any depth well. Large air chamber on spout with top outlet. Spout is fitted with 1 in. hose coupling. Top of air chamber is tapped for 1¼ in. iron pipe. Prices do not include cylinder or pipe. This pump standard should be used with large cylinder, or where water is to be forced some distance. Fitted for 1½ or 2 in. iron pipe. For further information regarding cylinder and pipe, see explanation at top of this page. This pump, and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wt., 90 lbs.

183B5865—With 6 in. stroke. Each **$7.00**

183B5866—With 10 in. stroke. Each **$7.50**

Give pipe size wanted.

GEARED PUMP STANDARD
WINDMILL TOP
$3.90

An easy acting pump standard of large capacity. Strong and substantial. One of the easiest working pumps on the market. The geared handle head working in cogs on slide bar, gives a direct leverage. Roller at back edge of sliding bar, lessens the friction. Suitable for wells up to 100 ft. deep. Stroke, 6 in. Fitted for 1¼, 1½, or 2 in. pipe. Price is for Pump Standard only. Order pump cylinder pipe and pump rod extra. In two styles. Lift or Force pump. Shipping weight, 66 and 70 lbs.

183B5863—Lift Pump Standard as above. Each **$3.90**

183B5864 — Force Pump Standard as above. Tapped at back of spout for 1¼-in. pipe, with ¾-in. hose coupling. Each **$4.70**

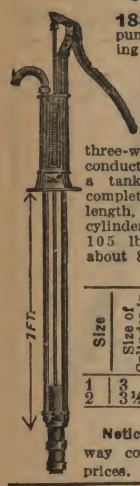
Give pipe size wanted.

HEAVY-LIFT PUMP STANDARD
WINDMILL TOP
$4.95

Heavy lift pump standard with extra large spout, designed for stock pump or where large amount of water is required. Suitable for wells up to 100 ft. deep. The spout has a full 2-in. opening, and the body is large in proportion. Tapped for 2-in. or 2½-in. suction pipe. Prices do not include cylinder or pipe.

For further information regarding cylinder and pipe, see explanation at top of this page. This pump, and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wt., 83 and 88 lbs.

183B5846—Stroke, 6 in. Each **$4.95**



183B5847—Stroke, 10 in. Each **$5.50**

Give pipe size wanted.

FORCE PUMPS, KITCHEN PUMPS, RAMS AND PUMP ACCESSORIES

DOUBLE ACTING FORCE PUMP

STROKE 6 IN.

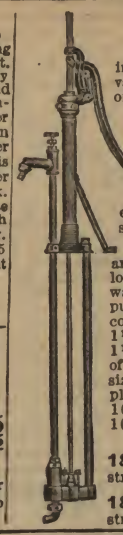
183B5870 — Anti-freezing pump for wells not exceeding 30 ft. in depth. Will throw a steady stream and is easy of operation. Solid and substantial in construction. Small upper cylinder of brass. Can be furnished with a three-way cock if desired, for conducting water underground to a tank. Prices are for pumps complete with galvanized, 7 ft. set length, ¾ in. hose coupling and cylinder. Average shipping weight, 105 lbs. Width of set length, about 8 in.

Size	Size of Cylinder In	For pipe In	With Iron Cylinder	With Brass Lined Cylinder
1	3	1¼	$8.20	$ 9.40
2	3½	1½	9.00	10.20

Notice—If wanted with three-way cock, add $1.50 to above prices.

DOUBLE ACTING FORCE PUMP

Windmill Top. (Stroke 6 In.)



183B5872 — Anti-freezing Pump. For wells not over 30 ft. in depth. Will throw a steady stream. Easy to operate and substantially constructed. Small upper cylinder of brass. Can be furnished with a lower three-way cock if it is desired to conduct water underground to a tank. Prices are for pumps complete with 7 ft. galvanized set-length cylinder and ¾ in. hose coupling. Average shipping weight, 115 lbs. Width of set length, about 8 inches.

Size	Size of Cylinder in.	For pipe in.	With Iron Cylinder	With Brass Lined Cylinder
1	3	1¼	$8.90	$10.10
2	3½	1½	9.70	10.85

Notice—If wanted with lower Three-way cock, add $1.50 to above prices.

WINDMILL FORCE PUMP THREE WAY VALVE

Anti-freezing Pump. With improved vertical distributing valve. Can be used in wells of any depth. The distributing lower valve is operated the same as an ordinary globe valve, and by turning wheel handle the water may be directed through the underground pipe to water supply system or elevated storage tank, distant stock watering trough, etc.

Price includes pump standard only, with extension below pump base including three-way valve as shown. Spout of pump is fitted with ¾ in. hose coupling. Pump is tapped for 1¼ in. discharge pipe and 1¼, 1½, or 2 in. suction pipe. Size of suction pipe determined by size of cylinder. Length, from platform to lower elbow, 4 ft. 10 in. Average shipping wt., 100 pounds.

183B5875 — With 6 in. stroke. Each **$8.10**

183B5876 — With 10 in. stroke. Each **$8.60**

DOUBLE ACTING FORCE PUMP THREE WAY VALVE

Windmill Top

Complete with upper and lower cylinders. Has a quick acting cam lever shifting device and lower three way valve. Water can be forced through underground pipe to storage tank or from the spout as desired. The upper cylinder is of drawn brass tubing. Has a large waterway and a spacious air chamber, and will work easily against heavy pressure. With 6 in. stroke, and hose coupling on spout. Average shipping weight, 81 to 85 lbs.

183B5880—With 3 in. Iron Cylinder for 1¼ in. Pipe. Each **$7.60**

183B5881—With 3½ in. Iron Cylinder for 1½ in. Pipe. Each **$8.10**

183B5882—With 3 in. Brass lined Cylinder for 1¼ in. Pipe. Each **$8.15**

183B5883—With 3½ in. Brass lined Cylinder for 1½ in. Pipe. Each **$8.50**

We can fit this pump complete for any depth well by adding the cost of pipe and 5c foot extra for plunger rod and labor.

CONTRACTORS' DIAPHRAGM PUMPS

For pumping water from mines, stone quarries, cellars, ditches, and for irrigation purposes, where the water is not more than 20 ft. (vertically), from pump. Will easily handle large quantities of sewerage, mud, sand and gravel, etc. Extra heavy, with best grade rubber diaphragms. With heavy wrought-iron handle. Illustration shows **Bottom Suction.**

With Bottom Suction.

183B5940—Size 1. Capacity per stroke, ¾ gal. Takes 2½ in. iron pipe or hose. Ship. wt., 75 lbs. Each **$8.75**

183B5941—Size 2. Capacity per stroke, 1½ gals. Takes 3 in. iron pipe or hose. Ship. wt., 150 lbs. Each ... **$12.90**

With Side Suction.

183B5942—Size 1. Capacity per stroke, ¾ gal. Takes 2½ in. iron pipe or hose. Ship. wt., 75 lbs. Each ... **$9.35**

183B5943—Size 2. Capacity per stroke, 1½ gals. Takes 3 in. iron pipe or hose. Ship. wt., 155 lbs. Each **$13.60**

Extra Rubber Diaphragms

83B5946—Size 1. Wt., 1 lb. Each **$1.00**

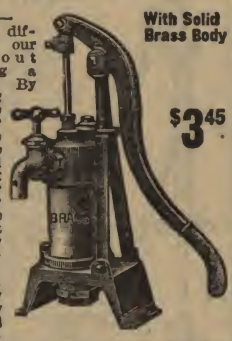
83B5948—Size 2. Wt., 2 lbs. Each **1.40**

PITCHER SPOUT PUMP

STANDARD TYPE

Heavy and substantially built. For cisterns and wells not over 20 ft. deep. The cylinder is bored out and reamed smooth. Delivers a large volume of water with little exertion. Top is closed to prevent splashing. To prevent freezing, raise handle to its extreme height. This will trip the valve and water will drain off.

183B5910—Size 1. Bore, 2½ in. For 1¼ in. iron pipe. Shipping weight, 20 lbs. Each **90c**



183B5911—Size 2. Bore, 3 in. For 1¼ in. iron pipe. Shipping weight, 22 lbs. Each **$1.08**

183B5912—Size 3. Bore, 3½ in. For 1¼ in. iron pipe. Shipping weight, 28 lbs. Each **$1.25**

183B5913—Size 4. Bore, 4 in. For 1½ in. iron pipe. Shipping weight, 30 lbs. Each **$1.42**

KITCHEN FORCE PUMP

With Solid Brass Body

183B5915—This pump differs from our Pitcher Spout Pump, being a force pump. By connecting pipe to top outlet, water may be pumped to elevated storage tank in attic or elsewhere; or it may be drawn off at sink by opening faucet on pump, as preferred. Pump is very strongly built, and well finished. Cylinder is 3 inches in diameter. Seamless tubing, nicely polished. For wells and cisterns not over 20 ft. deep. Fitted for 1¼ in. suction pipe and 1 in. discharge. Faucet threaded for ¾ in. hose connection. One of the finest little hand pumps on the market for kitchen use. Shipping weight, 20 lbs.

$3.45

Each **$3.45**

KITCHEN FORCE PUMP

HEAVY DESIGN

$4.85

Throws a large volume of water with very little exertion. For cisterns and wells not over 20 ft. deep. Fitted with heavy cast iron spout cock, with ¾ in. hose coupling, as shown. When it is desired to pump water to attic tank, spout cock is closed, so that water is directed to tank through opening in back of spout which is tapped for 1 in. iron pipe. Fitted for 1¼ in. suction pipe. Shipping weight, 30 pounds.

183B5918—Kitchen Force Pump, with 3 in. iron cylinder.

Each **$4.85**

183B5919—Kitchen Force Pump, with 3 in. brass lined cylinder.

Each **$5.85**

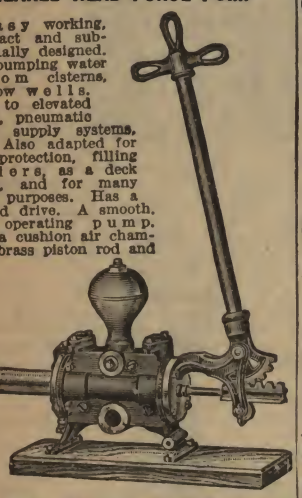
IRON AND BRASS WELL CYLINDERS

Made heavy and strong, bored smooth, and fitted with best valves and leathers. The proper size cylinder to use must be determined by your own good judgment, but for ordinary hand use we suggest the following:

	Size Cylinder, In.
For wells 20 to 40 ft. deep	3½ to 4
For wells 40 to 80 ft. deep	3 to 3½
For wells deeper than 80 feet	2½ to 3

For windmills a somewhat smaller cylinder should be used, but this will depend on the size of your mill.

The larger cylinders raise more water per stroke, but require more power.



The 10 inch and 12 inch cylinders have a 6 inch stroke, and the 16 inch cylinders have a 10 inch stroke. They are usually fitted 1¼ inch pipe for all cylinders smaller than 3½ inch, and 1½ inch or 2 inch pipe for cylinders 3½ inch to 4 inch. Give pipe size when ordering.

Give Pipe Size	Inside Diam of Bore, Inches	183B5956 Iron Well Cyl's. Smooth iron ground and polished inside. Wt., 9 to 25 lbs. Note—Be sure to give pipe size when ordering.

HORIZONTAL FORCE PUMPS

GEARED HEAD FORCE PUMP

Easy working, compact and substantially designed. For pumping water from cisterns, shallow wells, etc., to elevated tanks, pneumatic water supply systems, etc. Also adapted for fire protection, filling boilers, as a deck pump, and for many other purposes. Has a geared drive. A smooth, easy operating pump. Has a cushion air chamber, brass piston rod and valve seats. Tapped for 1¼ in. suction pipe, and 1 in. discharge. Mounted on board base, about 7½x 24 in. Ship. wt., 183B5937—With 3-inch brass lined cylinder. Each **$8.95**

With Air Attachment.

183B5933—With 3 inch brass lined cylinder and air attachment for pneumatic systems. Each **$11.25**

DOUBLE ACTING FORCE PUMP

This pump is the same as our No. 183B5937, except that it does not have a geared drive. Has cushion air chamber, brass piston rod, and valve seats. Cylinders are brass lined. A solid, well made pump in every detail. Mounted on board about 7½ x 24 in. Tapped for 1¼ inch suction pipe, and 1 inch discharge pipe. Shipping weight, 55 lbs.

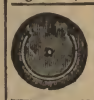
183B5932—With 2½ inch brass lined cylinder. Each **$7.40**

183B5933—With 3 inch brass lined cylinder. Each **$8.00**

Have you a good blacksmith's vise in your tool shed—always ready for the hundreds of needs you have for it? Ours have solid thread boxes, deep threaded steel screws and hardened, tempered, steel-faced jaws. See Index.

STANDARD PUMP FITTINGS

PUMP LEATHERS



Made of fine selected oak-tanned stock. It pays to use the best. Weight, 1 to 4 ounces.

CRIMPED PLUNGER LEATHERS

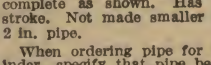
EUREKA TUBULAR WELL CYLINDER



183B5975—Used chiefly in deep wells to slip inside of pipe after well is completed. Can be fastened at any point and withdrawn for repairs without removing the pipe from the well. Solid brass body complete as shown. Has 12 inch stroke. Not made smaller than for 2 in. pipe.

When ordering pipe for this cylinder, specify that pipe be plugged and reamed, for which an extra charge is made of approximately 1c per foot. Size, 2 in., weight, 6 lbs.

Each **$2.40**

EUREKA CYLINDER SEATING TOOL

83B5976—Threaded to take 1 in. pipe. Used to fasten 2 in. Eureka cylinder in place. Weight, 1¼ lbs.

Each **25c**

TUBULAR WELL VALVES

83B5980—Made of brass with best oak-tanned leathers. Prices for one set consisting of plunger and check valve, as shown. Will fit inside of 2 in. iron pipe. Weight, 2¼ lbs. Plunger and check valve.

Per set **$1.20**

You need a set of our "Easy Screw Plates" in your tool shed so that if a bolt on the wagon, buggy, plow, windmill, cream separator, etc., needs a smaller or longer thread, you may fix it at once. See Index.

DOUBLE ACTING THRESHER PUMPS

$5.65

183B5924—Occupies a space of but 9x16 in. Has two 5 in. cylinders with 4 in. stroke. Works easily and is very powerful. Fitted with 2 in. suction, either hose or iron pipe, and has a 1¾-in discharge spout, complete with coupling for 1-in. hose when used as a force pump. It is also adapted for washing out engine boilers, draining cellars irrigating lawns and gardens, etc. It will lift water 25 feet and force it any reasonable distance. Has a thumb screw in top of air chamber which may be opened for easier operations when used as a lift pump. Capacity, about one barrel per minute. Fitted with hardwood lever handle. Usual retail value, $7.50 up. Ship. wt., 95 lbs. Each **$5.65**

Note our low prices on pump outfits complete with hose and fittings.

Pump Outfit B.

183B5925—Thresher Tank Pump, with 15 ft. 2 in. wire suction hose, 12½ ft. 1-in. 3-ply standard discharge hose, brass stub nozzle and 2-in. hose strainer. With couplings and clamps. Shipping weight, 105 lbs.

All complete **$11.60**

Pump Outfit C.

183B5926—Thresher Tank Pump, with 20 ft. 2-in. wire suction hose. 12½ ft. 1-in. 3-ply standard discharge hose, brass stub nozzle, and 2 in. hose strainer. With couplings and clamps. Shipping weight, 115 lbs.

All complete **$12.75**

STRAINER FOR TANK PUMP

83B928—Large Globe Strainer, to fit 2-in. hose. Cast iron back, japanned. Shipping weight, 4¾ lbs. Each **72o**

AUTOMATIC HYDRAULIC RAMS

Automatically and continuously lifts water to a tank or reservoir, provided it is placed so as to obtain a fall of two feet or more from the stream, or source of water supply, to the ram.

For instance: If you are near a stream, lake or body of water, so situated that you can secure a fall of two feet or more from the surface of the water to a point considerably above and beyond the ram.

The amount of water which the ram will discharge depends on the fall and the height of the discharge.

The larger size rams, where an abundance of water is supplied, will elevate to the greatest heights and the longest distances.

A considerable portion of the water is wasted, and for this reason the ram should be placed in a position, where the waste water will drain off, as the ram will not operate if submerged.

After the ram is placed in position, it will work day and night, without any further care or attention.

The only part that will wear out in time, is the outside impetus valve which, however, is made of hard brass and will give very long service.

It furnishes an extremely economical method of supplying water to farms or country residences. If your conditions are favorable for the installation of one of these machines, write for our special circular giving full details as to the efficiency of these machines. They are made of cast iron with hard brass impetus valve and case, and are practically indestructible.

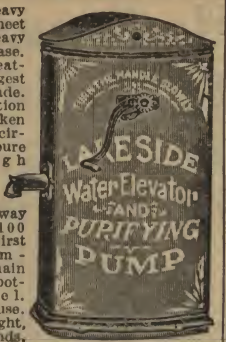
LAKESIDE WATER ELEVATORS AND PURIFYING PUMPS

$4.45

Made from selected, seasoned lumber, painted and decorated.



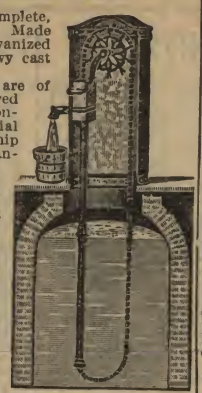
The water is brought up in galvanized buckets which, when passing down, carry air into the water, purifying it and preventing it from becoming foul. Intended for any dug well over 18 in. diameter, and up to 40 ft. deep. Complete with chain buckets and bottom wheel. Ready for use. Shipping weight, about 80 lbs.

183B6100—For 10-foot well . . **$4.45**
183B6101—For 15-foot well . . **5.35**
183B6102—For 20-foot well . . **6.25**
183B6103—For 25-foot well . . **7.15**
183B6104—For 30-foot well . . **8.05**
183B6105—For 35-foot well . . **8.95**
183B6106—For 40-foot well . . **9.85**

For suitable iron platform, see No. 183B6136.

WATER ELEVATORS AND PURIFIERS $6.45

GALVANIZED STEEL



Made of heavy galvanized sheet steel, with heavy cast iron base. One of the neatest and strongest pumps made. Every precaution should be taken to secure the circulation of pure air through the water you drink. Pump operates in the same way as 183B6100 shown in the first column. Complete with chain buckets and bottom wheel. Ready for use. Shipping weight, about 60 pounds.

183B6110—For 10-ft. well . . . **$6.45**
183B6111—For 15-ft. well . . . **7.45**
183B6112—For 20-ft. well . . . **8.35**

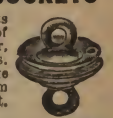
183B6131—For well 18 ft. deep . . . **$3.35**
183B6132—For well 20 ft. deep **$3.45**

Are your roofs fire-resisting, weather-proof, ornamental? Are they guaranteed for 15 years? Each day we receive orders from customers whose friends have found these desirable qualities in our famous "Radio" Crushed Slate Surface Roofing. See Index.



GALVANIZED PUMP CHAINS

83B6145—Made of the best grade of steel rod, thoroughly galvanized. For use with rubber buckets in pumps. Links are easily opened to attach bucket. Weight, 6 oz. per foot.

Per foot 2½c

RUBBER PUMP BUCKETS

83B6142—Rubber Buckets for chain pumps. Made of best grade of white rubber, and heavily tinned iron links. With small hole in the edge so that water will drain from tube. Size 1½ in. Weight, 1⅝ oz.

Per dozen 35c

Galvanized Chain Buckets

183B6118 — Strong, galvanized iron Chain Buckets, to fit both of our chain bucket pumps, listed above. Sizes of bucket, 2x2¼x4¼ in. long. Length of bucket, including two links, 12 in. Furnished in any continuous length. Weight, per foot, 1 lb.

Per foot 9c

PUMP TOOLS AND ACCESSORIES

PUMP PLATFORMS $4.50

FOR ELEVATOR OR CHAIN PUMPS

Made of heavy cast iron; will last a lifetime and are far better than wood.

Use an iron platform with your pump; keep your well water pure and clean.

183B6135 — For 183B6120 Pumps, etc. Width, 31½ in.; Length, 34 in. Shipping weight, about 75 lbs. Each **$4.50**

183B6136 — For Pumps 183B6100, etc. Width, 33 in.; Length, 40 in. Shipping weight, about 86 lbs. Each **$4.50**

183B6137 — For Pumps 183B6110, etc. Width, 33 in.; Length, 40 in. Shipping weight, about 91 lbs. Each **$4.50**

SAFETY CISTERN COVERS

183B6140—A slight turn of the cover locks it. Cast iron. To fit opening 20 in. Diam., at top, 24 in. Ship. wt., 51 lbs.

Each **$2.10**

SANITARY WELL COVERS

183B6035—Seals the well tight from surface contamination. Cast iron, nicely painted. Should be set in cement. Pump and cover can be removed for repairs. Diam., 24 in. center opening, 6 in. Slotted bolt holes. Ship. wt., 55 lbs.

Each **$3.75**

IRON PUMP STANDS

Made of cast iron. Slots for bolts. Holds the pump tight and rigid. Ship. wts., 22 and 24 lbs. Size given means inside diam. of pipe and of casing.

183B6060—For Standard Pipe. Pipe size.. 4 in. 5 in. 6 in.
Each **$1.30** **$1.50** **$1.75**

183B6061 — For Well Casing. Casing Size . . . . 4½ in. 5 in. 5⅝ in.
Each **$1.30** **$1.40** **$1.50**

STUFFING BOX HEADS

83B6010—Cast brass, with polished steel rod. Fitted at stub ends for ⅞ in. steel rod couplings. With 10 inch stroke.

Pipe Size In.	Weight	Price Each

Each	84c	92c	98c

COPPER FLOATS

83B6024— Used with float valve. Wt., 3⅜ lbs. Size, 9⅝x3 in.

Each 95c

STUFFING BOX HEADS

83B6012 — Iron, with polished steel rod, fitted at top end with square wood rod socket and at bottom for ⅞ in. steel rod. Can be used with windmill in place of pump standard. Has side outlet. 10 in. stroke.

Pipe Size In.	Weight Lbs.	Price Each
1¼	10¾	$1.85
1½	13¾	1.86
2	15¼	1.87

PUMP SPOUT ATTACHMENTS

To hang over spout of lift pumps to convey water from pump spout through pipe. Easily detached when not needed. Cast iron, japanned. Wt., 4 lbs.

83B5890—Tapped for 1¼ inch pipe. Each 24c
83B5891—Tapped for 1½ inch pipe. Each 25c

WOOD ROD COUPLINGS

83B6030—Malleable Iron, with two rivet holes in each fork, for connecting wood rods. Galvanized. Per set as shown.

Size In.	Weight	Each
1	1 lb.	15c
1¼	1½ lbs.	20c

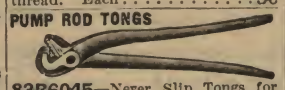
SQUARE WOOD PUMP ROD

Used chiefly in tubular wells for connecting cylinder to pump head. Length, about 12 feet.

183B6032—Size, 1 in. Wt., 30 lbs. per 100 ft. Per 100 ft. **$1.45**
183B6033—Size, 1¼ in. Wt., 50 lbs. per 100 ft. Per 100 ft. **$1.65**

GALVANIZED PUMP RODS

Round steel rod for connecting cylinder to pump head. Lengths about 18 ft. Diameter, ⅜, 7/16 and ½ in. Wt., 2 to 6 oz. per ft.



183B6036—Per foot. Not threaded. (Give size) . . . 2c
183B6037—Per foot. Threaded and cut to any exact length. (Give size) . 4c

ROD COUPLINGS

Malleable iron. Galvanized and threaded for steel pump rods. Wt. 2½ oz. each.

83B6040—Size ⅜ in., 14 thread. Each 3c
83B6041—Size, 7/16 inch, 12 thread. Each 4c
83B6042—Size, ½ inch, 12 thread. Each 5c

PUMP ROD TONGS

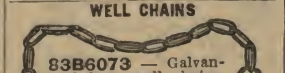
83B6045—Never Slip Tongs for pump rod. Have an inserted steel jaw, and is the best tool for handling pump rod. Length, 12 in. Weight, 1⅞ lbs.

Each 78c

WELL WHEELS

83B6070 — Well Wheels, Japanned iron.

Diam.	Wt., Lbs.	Each
8 in.	3	24c
10 in.	4½	32c
12 in.	5½	35c



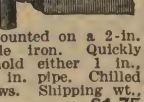
WELL WHEEL HOOKS

83B6071—Made of ⅝ inch wrought iron. End threaded with nut. Length, 6½ in. Weight, 8 oz.

Each 6c
Per dozen 70c

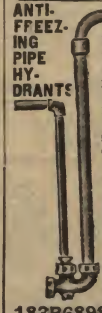
WELL CHAINS

83B6073 — Galvanized iron, well chains. Length, 2 ft. with hook and ring. Weight, 9 oz.



Each $0.10
Per dozen 1.00

WELL PIPE HOLDERS

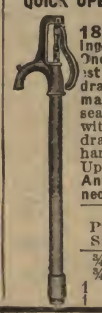


183B6052—Mounted on a 2-in. plank; malleable iron. Quickly adjustable to hold either 1 in., 1¼ in., or 1½ in. pipe. Chilled concave pipe jaws. Shipping wt., 35 lbs. Each **$1.75**

PIPE LIFTING CLEVIS

183B6054—A handy device to prevent pipe from slipping when being taken from well. Heavy iron. For 1 in. and 1¼ in. pipe. Shipping wt., 10 lbs. Each 72c

ANTI-FREEZING PIPE HYDRANTS



Wrought pipe hydrant. With brass stop and waste valve, shut-off rod and goose-neck head for ¾ inch hose connection. Size of upright pipe, ¾ in.

When hydrant is shut off, water drains out of upright pipe so that freezing is impossible. Connects to underground water pipe below frostline. A good, serviceable hydrant for farm use; stock watering, lawn sprinkling, irrigation, etc.

183B6892 — Length, four feet. Wt., 15 lbs. Each **$1.35**
183B6898—Length, seven feet. Weight, 20 lbs. Each . . . **$1.50**

QUICK OPENING LEVER HANDLE HYDRANTS

183B6291—Quick opening lever handle hydrant. One of the simplest, quickest and surest acting hydrants ever placed on the market. Leather valve seats can be replaced without digging out hydrant. Head casting and handle, malleable iron. Upright is wrought pipe. Anti-freezing Hose connection on spout.

$36.95 LAKESIDE WATER SUPPLY SYSTEMS

RUNNING WATER IN YOUR HOME—A GREAT CONVENIENCE AT A SMALL COST

Our Lakeside Pneumatic Water Supply Systems are furnished complete, ready for assembling. The only tool you need to set one of these outfits up complete, is an ordinary pipe wrench. Outfit consists of tank, water gauge, pressure gauge, combination air and water pump, gate and check valves, and fittings to connect pump and tank. Suction pipe from well not included. Furnished with tank, either black or galvanized, to stand vertically or lie horizontally.

VERTICAL OUTFITS

281B8175—Water Supply System. With 24 inch by 6 foot Black tank, tapped to stand vertically. Ship. wt., 407 lbs. Price, complete **$36.95**
281B8176—Complete Outfit, as above. With tank, galvanized inside and outside. Price **$48.10**

HORIZONTAL OUTFITS

281B8187—Water Supply System. With 24 inch by 8 ft. Black tank, tapped to lie horizontally. Ship. wt., 575 lbs. Price, complete **$43.10**
281B8188—Complete outfit, as above. With tank galvanized inside and outside. Price **$59.75**

Pump and fittings shipped promptly from our store.
Tank shipped from factory in Northern Illinois.

Our large sales of Pumps are due to quality. Look them up.

LET US SAVE YOU MONEY

$37.40 OUR COLONIAL BATH ROOM OUTFIT

181B6305—COLONIAL BATH ROOM COMBINATION. A high grade bath room outfit in every respect. Of strong, durable, substantial construction, and at the same time one of the most elegant bath room outfits on the market. It is stylish and beautiful in design, and very moderate in price. First quality, free from blemishes or defects of any kind. This is one of our most popular combinations.

The Bath Tub is a heavy cast iron, genuine white porcelain enameled tub. Length, 5 feet. Width, 30 inches. Has 3 inch roll rim. Furnished complete, with all nickel plated trimmings to floor

The Closet outfit is a high grade, syphon, wash-down combination, with golden oak tank and seat.

The Lavatory is a beautiful, deep apron fixture. Size, 18x24 inches. Oval bowl, 12x15 inches. Height of back, 10 inches. Complete, with all nickel plated trimmings to floor. Shipping weight, complete bath room outfit, 575 lbs. Towel bar, mirror, soap dish, bath seat, etc., not included.

INSTALL YOUR OWN PLUMBING

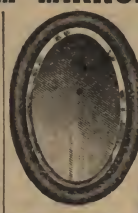
THIS BOOK TELLS YOU HOW

If you are building or going to build, or if you are thinking of making any plumbing improvements this year, it will certainly be to your interest to write for a copy of this valuable plumbing book before placing your order or letting the contract. This book contains much valuable information on every phase of the plumbing question; shows you how to build a modern septic tank for sewage disposal at a small cost. Tells all about our modern water supply systems, and gives much information which is highly valuable to anyone owning or building a home of their own. Sent to you postpaid on request.

WE FURNISH PLANS AND INSTRUCTIONS

It does not require the services of an expert plumber to install our plumbing material. Any mechanic or handy man can easily install these fixtures with very little trouble. Whenever a complete plumbing system is purchased of us, we furnish plans and instructions, explaining fully in detail, just how the work should be done. With our system of iron pipe connection, all wiping of joints and difficult lead work is done away with. Any man who can cut and thread iron pipe can easily do this work, by following our simple plans and instructions.

WE LOAN YOU THE TOOLS FOR INSTALLING



When a complete plumbing system is purchased of us, we will be pleased to loan you all of the necessary tools for doing the work, free of charge. Our proposition with reference to the loan of tools is explained fully in our special plumbing catalogue Plumbing Economy. Why not write us at once and let us send you a copy of this valuable book. This catalogue fully covers our complete line of plumbing supplies and contains hundreds of articles which it is impossible for us to list here on account of limited space. We are very anxious to send you a copy of this plumbing catalogue. Our line of plumbing material is as complete as can be found anywhere. Only a small portion of our complete line is shown in these pages.

WINDSOR INSTANTANEOUS WATER HEATER

Independent of any boiler, the Windsor heats water instantly. Can be regulated to any temperature. Constructed of the best grade of cold drawn polished copper, highly nickel plated. Will heat two gallons of water a minute to a temperature of 100 degrees Fahrenheit. A simple and efficient heater for the bath.

Each heater should be connected with a vent pipe terminating outside of the bath room. Heater can be connected direct with water supply. Dimensions—Diameter, 12 in.; height, 28 in. Ship. wt., about 80 lbs.

The illustration shows heater for gas. Also made to burn gasoline, and the gasoline heater has a tank on one side for the fuel.

FOR CITY GAS

281B6490—Windsor Heater, complete for gas $17.75

FOR GASOLINE

281B6491—Windsor Heater, complete for burning gasoline. Each $22.00

281B6492—Vent Pipe, 3-in. nickel plated. Per foot 45c

281B6493—Elbows, 3-in. nickel plated. Each 70c

281B6494—Collars, 3-in. to match. Each 30c

Shipped from factory in Southern Michigan.

THE HOME BATH HEATER

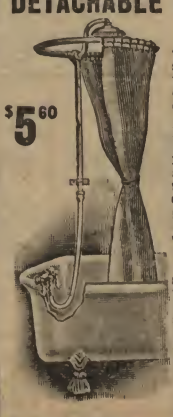
One of the most convenient Water Heaters for bath purposes on the market. Tank is made of heavy metal, with nickel plated jacket. Has solid copper coil in bottom just above burner through which water circulates. Loose cover on top for filling with water. Just the thing for summer cottages, farm homes, etc. where there is no plumbing system or running water. Heats water, sufficient for bath, in 30 minutes. Can be fastened on shelf over foot of bath tub. Made for use with City gas or gasoline. Size of tank, 26x12 in.; capacity, 10 gallons. Ship. wt., 50 lbs.

281B6496 — Nickel Plated Heater for gas. Each $7.75

281B6497 — Nickel Plated Heater for gasoline. Each $7.75

Shipped from factory in Southern Michigan.

PORTABLE SHOWER



$3.15 NO PLUMBING SYSTEM OR RUNNING WATER NECESSARY

181B6506—A very handy, portable shower for use in summer cottages or country homes, which have no running water or plumbing system. Consists of a galvanized iron tank with conical shaped bottom and steel brackets attached to tank, for fastening to wall. Tank has a capacity of 5 gallons. Bottom outlet of tank is fitted with a small brass stop cock to which rubber shower hose is attached. Water may be turned on or shut off, as desired. Has brass shower yoke, which fits over shoulders as shown. No home without plumbing should be without one of these portable showers. Tub not included. Ship. wt., 6½ lbs. Each $3.15

DETACHABLE SHOWER FOR BATH TUB

$5.60

181B6508 — No Home should be without one of these modern shower bath outfits. Requires no pipe connections. A screw driver is all you need to set it up. Easily attached to wall of bath room in a very few minutes. Rubber hose can be attached to bath cock of bath tub, or detached at will. Complete outfit includes brass pipe, rubber hose, shower head, brass curtain ring, white duck curtain, and rubber cap. Curtain is attached to ring with a number of small brass ring clips. Curtain can be drawn around to rear, out of place when shower is not in use. Curtain keeps water from splashing over floor when shower is in use. Rubber cap keeps hair from getting wet. Entire frame, including curtain ring, is made of heavy solid brass tubing, nickel plated.

Ship. wt., 9 lbs. Each, complete $5.60

ONE PIECE SINKS

RANGE BOILERS
GALVANIZED

Made of heavy galvanized steel, very strongly riveted, carefully tested at factory to 200 lbs. pressure and guaranteed for a maximum working pressure of 85 lbs. Height of boilers, 60 in. With the complete boilers we include the iron stand couplings and cold water tube. Actual capacity is a little less than trade size.

Range boilers are used for storing hot water under pressure. They are connected with a water front in stove or coil in furnace or with gas heaters listed below so that water circulates from tank through heating device and back to tank, etc., and a constant supply of hot water is always available.

Used for all ordinary sawing across the grain of the wood. A saw with 8 or 9 points is most commonly used.

Showing actual sizes of 10, 11 and 12 points per inch, on Panel Saws.

Used for fine sawing across the grain of the wood. For close fitting, accurate work.

ALL THE ESSENTIAL QUALITIES OF A GOOD SAW ARE FOUND IN THE VERY HIGHEST DEGREE OF PERFECTION IN THE LAKESIDE

QUALITY. The finest quality of saw steel is used, and the greatest care taken in each process from start to finish.

CONSTRUCTION. Experts in saw making are employed at every stage of their manufacture. The filing and setting is all done by hand. The grinding, to a true taper, is by patented process, and insures a fast, easy cutting saw.

The Hang. This is the quality that makes a saw feel right in the hand, work easy and with satisfaction to the operator. Not every make of saw will balance right **or** hang as it should. You will always find a Lakeside Saw to hang perfectly, with an easy, comfortable grip. Lakeside Saws cut without binding, even in the hardest wood. Carefully ground, with extra thin back, finely finished throughout. Made from the best quality saw steel, and can be depended upon to give absolute satisfaction. Buy a Lakeside Saw if you want the best.

YOU TAKE NO RISK WHEN YOU BUY A LAKESIDE SAW

Lakeside Saws are equal to, if not better, than corresponding grades of any of the best makes of saws on the market—barring none. We solicit your orders on a basis of Equal or Better Value at a Lower Price.

EXPLANATION. The points on a saw, 6, 7, 8, 9, points, etc., mean the number of tooth points to an inch. Thus a 9-point saw has 9 teeth to the inch. (Always give number of points wanted on saw.)

A **Panel** Saw is the trade term used to designate a small hand saw, with blade up to 22 in. long. They are intended for the lighter and finer kind of work. **Remember—Lakeside Saws** are perfect in every detail. Thousands of mechanics use them in preference to others.

LAKESIDE CIRCULAR STEEL SAWS

CRUCIBLE STEEL
Patent Ground and Tempered

(Cut-off Saw)

LAKESIDE SOLID TOOTH CIRCULAR SAWS REPRESENT THE HIGHEST DEGREE OF EXCELLENCE AND SUPERIORITY IN SAWMAKING. Made from the finest grade of crucible steel, patent ground and tempered, and in toughness, elasticity, workmanship, and durability they are excelled by none. Set and sharpened ready for use. The greatest care and diligence is taken in each process of their manufacture, from the selection of the raw material to the smithing, hammering, tempering, grinding, filing and setting.

(Rip Saw)

Each process is under the direct supervision of an expert, and before leaving the factory each saw is given a final test and inspection, thus securing the absolute perfection of our product.

We list and carry in stock for immediate shipment saws in standard gauges and regular sizes of holes, but can supply special gauges and odd size holes as promptly as anyone. It usually takes from 10 to 30 days to make up special saws at the factory. Prices on larger saws and inserted tooth saws named on application. **We save you from 25 to 50 per cent over usual retail prices.**

LAKESIDE HIGH SPEED SAWS

185B260—Lakeside Circular Cut-off Saws.
185B261—Lakeside Circular Rip Saws.

Prices are for saws set and sharpened ready for use. Be sure to give size of hole.

ECLIPSE CORDWOOD SAWS

185B264—These popular low speed saws are giving excellent satisfaction on pole sawing and cordwood machines, and for similar rough work. They have our Special Cordwood Cross-cut Tooth, and are made from better steel than most of the cordwood saws now on the market, and are correctly tempered, filed and set ready for use. (For high speed sawing and smooth cutting we recommend our famous Lakeside Circular Saws.) Made of finest crucible steel, of which there are thousands in daily use. Our Eclipse Cordwood Saws are made cross-cut only. Made only in the sizes listed below (give diameter and hole).

Diam. Inches	Thickness gauge	Ship. Weight lbs.	Size of hole in Saw, inches			
			1¼	1 5/16	1⅜	1½
20	13	9¼	$2.38	$2.39	$2.40	$2.41

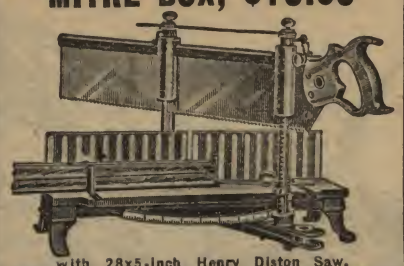
28	10	25	...	...	4.65	4.66
30	10	30	...	...	5.25	5.26

We furnish Eclipse Saws in Cross-cut cordwood sizes only as listed above.

FINE VALUES IN SAW SETS, MITRE BOXES, SAW VISES, ETC.

LAKESIDE SAW SET



68c

85B310—Our Lakeside Saw Set with eccentric anvil and indicator, giving the number of teeth to the inch, enables you to always hold the set in your saw. The lever is placed below the body of the Saw Set where it is operated by the fingers only, doing away with the motion of the entire hand. For all kinds of hand saws. The Revolving anvil covers the required bevel and length of all saw teeth, ranging from 4 to 16 points to the inch. The figures on the dial indicate the number of teeth to the inch.

Highly nickel-plated. Hardened anvil and plunger, tempered steel spring. Length, 7 in. Malleable handles. Weight, 13 oz.

Each 68c

STANLEY PERFECT MITRE BOX, $10.50

with 28x5-Inch Henry Disston Saw.

185B370—Stanley's No. 358. Used for sawing square ends or any angles, or duplicate lengths from boards, moldings, etc. Built with the greatest care, strong and durable. It embodies many exclusive and important features which appeal strongly to the user. Back and Frame, graduated Quadrant and Swivel Arm bearing are in one piece, accurately machined. Quadrant is accurately graduated. Detachable malleable Legs. No play in Swivel Arm. Can be clamped at any point. Swivel Arm has Second Socket for front saw guide, permitting use of a shorter saw or a much longer stroke with the regular saw. Saw Guide Uprights are steel rods, holding the saw guide cylinders, and may be adjusted to hold the saw without side play. Automatic Catches at the top of saw guides. Movable Stops for regulating depth of cut. A Removable Tie Bar gives great rigidity. Two Adjustable Spurs in the back hold work from slipping. Narrow Opening in the back of the frame is especially valuable for narrow work. Iron frame. Japanned finish. Length, 20½ in. Width, 4½ in. Capacity, Right Angle, 9½ in. Mitre 45, 6½ in.; 30 degrees without guide, 4⅛ in. With 28x5 in. fitted Henry Disston saw. Ship. Wt., 35 lbs.

Each $10.50

GOODELL STEEL MITRE BOX $9.90

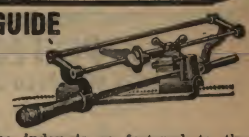
Made entirely of Wrought Steel. Will not break—a feature which will be appreciated by all mechanics. Has Steel bottom plate with angular serratures. The arms can be instantly set and locked at any angle. Has a graduated arc in front, with the various degrees plainly marked. Fitted with automatic stops to hold up the saw, allowing the operator to use both hands in placing the work. The guides are made long, thus holding the saws very steadily when raised to the extreme height. Will take work 10½ in. wide at right angles, and 7¼ in. at mitre. Total length of bed, 21 in. A strictly first-class mitre box. Complete with extra angle attachment by which the angle can be increased above 45 degrees, and a gauge, for sawing duplicates. Prices include a high grade saw. Saws are measured the extreme length of the blade, not by the toothed edge.

185B366—With Saw 26 by 4 in. Ship. Weight, 26 lbs. Each $9.90

185B367—With Saw 28 by 5 in. Ship. Weight, 30 lbs. Each $10.95

185B368—With Saw 30 by 5 in. Ship. Weight, 35 lbs. Each $11.15

185B369—With Saw 30 by 6 in. Ship. Weight, 35 lbs. Each $12.60



LAKESIDE SAW FILING GUIDE AND VISE

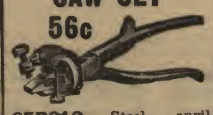
$1.55

85B354—Has a rubber faced jaw, which prevents noise and vibration and a ball and socket joint connecting vise and clamp which allows easy adjustment. The guide can be set at any position to secure any angle, pitch, or depth. Enables any one without previous experience to file a saw accurately. Length of jaw, 10½ in. Steel guide bar, 16 in. Finely finished. Shipping weight, 10¾ lbs. Complete with file and directions. Each $1.55

SAW FILING GUIDE

Slotted to slip on saw when clamped in vise.

85B356—Can be adjusted to file at any angle, pitch or depth desired. Made entirely of metal. The index is so fastened to the bar that when the saw is turned in the vise the same angle is obtained in filing the opposite side. Nicely finished in white; nickel plated. Price is for guide and file only (vise is not included). Weight, 2½ lbs. Each 95c



TAINTOR'S POSITIVE SAW SET

58c

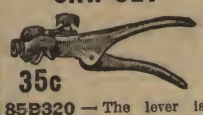
85B312—A popular set. Made of steel, nickel plated. The face of the anvil opposite the punch determines the set of the saw. The anvil has ten faces, divided into sections marked F, M, and C, indicating the faces to be used in setting fine, medium and coarse teeth. Length, 6 in. Weight, 8 oz. Regular 75c retail value. Each 58c

GOODELL-PRATT SAW SET

56c

85B313—Steel anvil and jaw. Finely tempered. With malleable iron handle. White nickel finish. Has an adjustable gauge and is one of the most practical saw sets on the market. Length, 8 in. Weight, 1 lb.

Each 56c

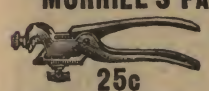


MORRILL'S SPECIAL SAW SET

75c

85B315—An improvement over the popular No. 95. Suitable for all kinds of hand saws. The under handle is the lever handle, giving a firm, steady grip. Gauge screw is fitted with a locknut. Dial numbered from 4 to 14. Malleable iron handles. Length, 6 in. Weight, 11 oz. Each 75c

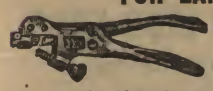
NICKEL PLATED SAW SET



35c

85B320—The lever is on the lower side, operated by moving the fingers only, thus doing away with the motion of the entire hand. Hardened anvil and plunger. Malleable iron handles. Well made and handsomely nickel plated. Length, 7 in. Weight, 11 oz.

Each 35c



MORRILL'S PATTERN SAW SET

25c

85B322—Size 1. Malleable iron handles. Full polished. Will be found much superior to the common Morrill Pattern saw sets. Length, 6¾ in. Weight, 10 oz. Each 25c

GENUINE MORRILLS' SAW SETS FOR LARGE SAWS

85B324—Size 3. Length, 9¼ in. For single tooth, cross-cut and circular saws from 20 to 14 gauge. Wt., 1¼ lbs. Each 95c

85B325—Size 4. Length, 9¼ in. For Champion or M-tooth cross-cut saw, from 22 to 14 gauge. Wt., 1¼ lbs. Each 98c

85B328—Morrill's No. 5 Saw Set, length, 15 in., for circular and other saws, 14 to 6 gauge. Wt., 3¼ lbs. Each $1.68

Morrill Pattern Saw Sets

85B326—Size 3, for saws from 20 to 14 gauge. Wt., 1¼ lbs. Each 53c

85B327—Size 4, for saws 22 to 14 gauge. Wt., 1¼ lbs. Each 55c

AIKIN PATTERN SAW SET

85B330—Hammer Saw Set. Forged steel. Length, 3¾ in. Weight, 9 oz.

Each 38c

GENUINE WHITING SAW SET

58c

85B332—For cross-cut saws only. Forged steel. A popular tool with many lumbermen. Length, 3¼ in. Wt., 3 oz.

Each 58c

UNIFORM SAW SET FOR FOOT TREADLE

85B336—An adjustable spring hammer gives each tooth an equal blow. Adjustable for angle of set. Cast iron frame with steel plunger and anvil. White nickel finish. Height, about 7¾ in. Wt., 1½ lbs. Without treadle. Each, $1.10

WHITING PATTERN SAW SET

85B333—For cross cut saws only. Forged steel, tempered and polished. Length, 3½ in. A popular tool at a low price. Weight, 3 oz.

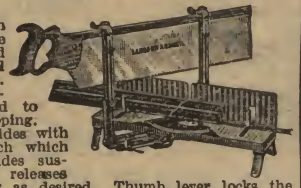
Each 29c

PERFECTION MITRE BOX, $1.95

85B374—A strong, serviceable mitre box made of hardwood, with metal guide in arm which can easily be detached and folded to carry in tool chest. Can be instantly set and rigidly held at any angle wanted. Any saw may be used, either a back saw, panel or hand saw. Price does not include saw. Weight, 7⅛ lbs. Each ... $1.95

STEARNS' FOLDING MITRE BOX $2.00

85B376—Can be used with a common hand saw. Readily adjusted to any angle and held firmly in position by a spring catch. When folded, it is easily carried about, making it very convenient for general work. Cast iron. Size when folded, 8¾x8½x2⅞ in. Weight, 3¼ lbs. Price does not include saw.



Each $2.00

MITRE BOX AND SAW

85B378 Hardwood Mitre Box. Length, 12 in. Width, 2⅞ in. Height, 2⅛ in. inside. Complete with a 12 in. back saw. Weight, 3¾ lbs. Regular $1.25 value. Box and saw complete. Per set 88c

LANGDON ACME MITRE BOX $8.25

Strictly high grade. Made of iron and steel, nickel trimmings. Has steel bottom roughened to prevent slipping. Extra long guides with automatic catch which holds the guides suspended, or releases them instantly as desired. Thumb lever locks the saw supports at any angle. Supporting guides for holding work in place, which guides are also used where angles more acute than 45 degrees are desired. Has a length gauge for duplicate lengths, a depth guide, and a graduated arc and index plate showing degrees. Saws are measured extreme length of blade (not by the toothed edge).

185B360—Langdon Acme Mitre Box No. 68, with Disston Saw, 22 in. by 4 in. Will take work 7½ in. wide at right angles and 5 in. at mitre. Shipping weight, 33 lbs. Each $8.25

185B362—Langdon Acme Mitre Box No. 73, with Disston Saw, 26 in. by 4 in. Will take work 10¼ in. wide at right angles and 7 in. at mitre. Shipping weight, 34 lbs. Each $9.65

185B363—Langdon Acme Mitre Box No. 74, with Disston Saw, 28 in. by 5 in. Will take work 10¼ in. wide at right angles and 7 in. at mitre. Shipping weight, 35 lbs. Each $10.75

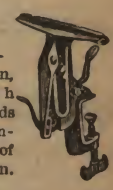
HARDWOOD MITRE BOXES

Hardwood, well finished and low in price.

85B379—Length, 12 in., width, 2⅞ in., height inside, 2⅛ in. Weight, 2¼ lbs. Each 25c

85B380—Length, 18 in.; width, 3⅛ in.; height, inside, 2⅝ in. Wt., 4⅛ lbs. Each 38c

SAW VISE



25c

85B340—Japanned iron. Width of jaws, 9 in. Weight, 3¼ lbs.

Each 25c

SAW VISE

85B341—Japanned iron, with bench clamp. Holds saw at any angle. Width of jaws, 9½ in. Wt., 5 lbs.

Each ... 35c

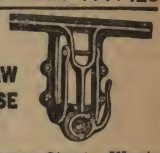
85B343—Adjustable iron Ball and Socket Saw Clamp. Width, jaws, 9 in. Wt., 8½ lbs.

Each, 52c

SAW VISE

85B342—Japanned iron, with bench clamp, adjustable to any angle. Jaws are ground to an accurate fit. Width, 9 in. Weight, 6 lbs. Each 42c



SAW VISE

85B346 Wentworth's Cast iron Vise. Size 3. Jaw faced with rubber. Bench clamp. Width of jaw, 10¾ in. Weight, 5¾ lbs.

Each, 58c

SAW VISE

85B345—Size 1. Wentworth's Cast iron Vise, has rubber cushion jaws. Width of jaw, 10½ in. Made to screw on bench. Weight, 5 lbs. Each. 45c

FOLDING STEEL SAW VISE

85B349—Wrought steel, lever clamping, rubber faced jaws. Width, 12 in. Clamps to bench. Japanned and nickel plated. Shipping wt., 2⅞ lbs. Each 65c

FOLDING STEEL SAW VISE

LATEST AND BEST

85B348—Light and very strong. Folds compact. Width, 14 in. Attached to bench by drive hooks. Nicely japanned. Shipping weight, 2⅛ lbs. Each 62c

CABINET MAKERS' BENCH

185B2840—The front part of top, made of seasoned hard maple glued in strips to prevent warping; width, 18 in. and 2⅞ in. thick. The back part of top, which is recessed below level of front, is of white wood. The bench and tail screws are of selected stock, diameter, 2½ in.; length, 24 in. The legs are of solid maple, strongly mortised and bolted. Length, 6½ ft. Width, 24 in. Height, 32 in. Shipping weight, 174 lbs. Shipped knocked down, to take a low freight rate. Easily put together.

Each $9.85

SEE No. 85B395 for suitable bench stop, not included in price of bench.

BENCH STOP

85B390—Screw adjusting. Reversible steel plate may be raised up to 1⅜ in. Weight, 9 oz. Each 27c

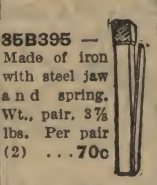
QUICK SET BENCH STOP

85B391—Strong and rigid. Instantly adjusted with a screw driver. Reversible head. Made of steel. Nicely finished. Weight, 13 oz. Each 33c

BENCH STOP

85B392—Reversible double faced cast steel hook. Weight, ⅞ lb.

Each 28c



BENCH STOP

85B394—Adjustable. Reversible four-faced head. Made of steel. Wt., 8 oz.

Each 40c

BENCH HOOK

85B395—Made of iron with steel jaw and spring. Wt., pair, 3⅞ lbs. Per pair (2) ... 70c

HANDY BENCH DOG, STANLEY NO. 202

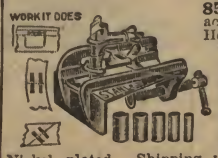
85B396—A very convenient little tool for holding work in place on a bench. Malleable iron with well sharpened points, which are simply driven into top of bench. Blued finish. Length, 3¼ in. Wt., ⅛ lb. Each 12c

BENCH BRACKET, STANLEY NO. 203

85B398—Made with a hook to go through any 1 in. hole bored in side of bench and will clamp boards, etc., in any desired position. A pair of these clamps will be found very convenient. Length, 4½ in. Cast iron body, japanned. Nickel plated steel clamp screw. Wt., 1 lb.

Each 23c

PICTURE FRAME MACHINE WITH 26-INCH BACK SAW



185B382—Combined Mitre Machine and Picture Frame Vise. Will securely hold mouldings on any shape.. Frame can be cut from front or back as desired, and can be held in a horizontal or vertical position. Has a rule and measure gauge to measure and gauge from either side of the machine. Swivel and tilting attachments permit adjusting to any position. Packed complete with a 26-in. extra quality mitre saw. Wt., 20 lbs. Shipping wt., 36 lbs. Price $9.75

DOWELING MACHINES, $4.00

185B1220—Goodell-Pratt machine for the accurate boring of dowel holes. The illustration shows the graduation by which the height of the gauge block can be readily determined. This gauge block is provided with holes ¼, 5/16, ⅜, 7/16 and ½ in., and can be set at any desired point. The face of the machine is provided with a graduated strip running 7 in. each direction from the center. $5.00 retail value. Shipping wt., 14 lbs. Each $4.00

DOWELING JIG, $1.40

85B386—For quickly and accurately boring Dowel Holes in edge, end or surface of work. Capacity up to 3 in. Also a good bit guide for mortising. With five steel guides, length, 1¼ in. One each, ¼, 5/16, ⅜, 7/16, ½ in. With depth gauge. Made entirely of metal. Nickel plated. Shipping weight, 1½ lbs.

Each $1.40

WOOD TRIMMER

185B385—A wonderful little machine for trimming wood readily, accurately and smoothly. Will cut square, bevel or mitre joints, leaving a fine, smooth surface. Will butt off the ends of siding, flooring, casing, moldings, etc., at any angle. Strong and well made, with high grade steel cutting knives. Length of cut, 7 in. Height of cut, 4 in. Shipping weight, 32 lbs. Each ... $11.75

PICTURE FRAME VISE $3.75

185B383—Has swivel and tilting attachment. Will hold any kind of molding up to 4 inches. Meets all the demands of a frame vise, carefully made and will prove satisfactory. Ship. wt., 12 lbs. $5.00 retail value. Each $3.75

The best service at all times. That's our motto, now and in the future

LAKESIDE PERFECT BENCH PLANES

LAKESIDE IRON PLANES

Lakeside Bench planes are strictly high grade, and finely finished. Every care is taken to preserve their high standard of excellence, and to make them reliable tools that shall be unsurpassed. **Cutters** are of best quality tool steel, in just the right thickness. They are thin enough to be easily sharpened by honing or grinding, and thick enough to totally overcome all tendency to chatter in the hardest woods. This feature is a distinct advantage, and one fully appreciated by the expert workman. Cutter is adjustable endwise and sidewise.

Each plane is carefully inspected and tested and we offer our Lakeside planes to you with the full assurance that there are no better tools on the market. You take no risk when you buy a Lakeside plane. We know you will be pleased.

85B698—Steel Cutters for Hollows and Rounds. Each (give size). **.15**

NOSING TOOL

85B699—Nosing Tool, 1 1/4-inch steel cutter. Wt., 2 lbs. Each .... **.90**

PATENT UNIVERSAL PLANE
STANLEY'S NO. 55

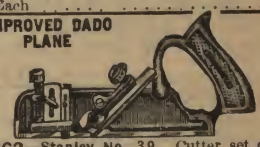
A $15.00 VALUE, **$11.65**

85B702—In the hands of an ordinary carpenter, this iron tool takes the place of a full assortment of so-called fancy planes, and can be used for all lines of work covered by fancy planes. It is a Molding Plane, Match, Sash, Beading, Reeding, Fluting, Hollow, Round, Plow Rabbet and Fillister, Dado, Slitting and Chamfer Plane, combined in one. This plane is nickel-plated; the 52 steel cutters are arranged in four separate cases. The entire outfit is packed in a neat wooden box and consists of a main stock with two sets of transverse sliding arms; a depth gauge adjusted by a screw, and a sliding cutter with stop. Has a sliding section with a vertically adjustable bottom. The auxiliary center bottom is to be placed in front of the cutter as an extra support or stop when needed. This bottom is adjustable, both vertically and laterally. Two fences, one has a lateral adjustment by means of a screw, for extra fine work. The fences can be used on either side of the plane and the rosewood guides can be tilted to any desired angle up to 45 degrees by loosening the screw on the face. Fence can be reversed for center beading wide boards. An adjustable stop to be used in beading the edges of matched boards is inserted on left-hand side of sliding section. Packed in neat box. Wt., 14 1/2 lbs. Complete, with 52 steel cutters, each **$11.65**

RABBET PLANE AND FILLISTER — $1.15

85B656—Stanley No. 78 Iron Plane. Has two seats for cutter, so that tool can be used for bull-nose rabbet if required and can be adjusted to make right or left hand fillister. Adjustable fence, depth gauge and spur for working across grain. The plane will lie perfectly flat on either side. Plane complete, 8 1/2 in. long; 1 1/2 in. steel cutter. Average wt., 3 1/4 lbs. **$1.15**

STANLEY'S RABBET PLANE — 80c



Can be used right or left hand, and will lie perfectly flat on either side while planing into corners or against perpendicular surfaces. Has a depth gauge and steel cutter.

85B658 — Iron Rabbet Plane, No. 180. Length, 8 in. Width, 1 1/2 in. Wt., 2 1/2 lbs. Each **80c**

85B659—Iron Rabbet Plane, No 190. Length, 8 in. Width, 1 1/2 in., with spurs. Wt., 2 1/2 lbs. Each **90c**

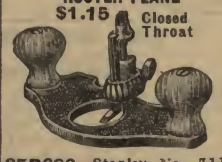
IMPROVED DADO PLANE — $1.15

85B662—Stanley No. 39. Cutter set on skew. Fitted with adjustable depth gauges and two adjustable spurs. Length, 8 in. With steel cutter in one of the following widths: 1/2, 3/4, 7/8 and 1 in. Wt., 2 1/4 lbs. (Give size.) Each **$1.15**

85B663—Extra steel cutter for above, 1/2, 3/4, 7/8 or 1 in. Wt., about 1 1/2 oz. Each **15c**

RABBET AND BLOCK PLANE — $1.00

85B675—Stanley No. 140. Iron Plane. Has a detachable side to change it from a Block Plane to a Rabbet Plane or Vice versa. Length, 7 in. with 1 3/4 in. steel skew cutter. Wt., 1 3/4 lbs. Each **$1.00**



HAND BEADER — 68c

MATCH PLANE

85B634 Match planes, with metal side plate. Sizes, 3/8, 1/2, 3/4, 7/8, 1 in. Wt., 1 3/4 to 2 1/2 lbs. Price, per pair **$1.40**

85B621—Handles for Fore Plane and Jointers. Beechwood. Weight, 6 oz. Each **6c**

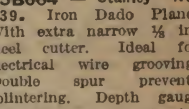
CARRIAGE RABBET PLANE

Carriage Makers' Iron Rabbet Plane, designed for heavy work, such as framing, etc. Has double steel cutters, fully adjustable.

85B650—Stanley No. 10 1/2. Length, 9 in. Cutter, 2 1/8 in. Weight, 3 1/2 lbs. Each **$1.85**

85B651—Stanley No. 10. Length, 13 in. Cutter, 2 1/8 in. Weight, 4 1/4 lbs. Each **$2.25**

STANLEY IRON SCRUB PLANE



With single steel cutter, having the cutting edge rounded. It is particularly adapted for roughing down work before using a jack or other plane.

85B652—Stanley No. 40. Length, 9 1/2 in. Width cutter, 1 1/4 in. Wt., 2 1/4 lbs. Each **77c**

85B653 — Stanley No. 40 1/2. Length, 10 1/2 in. Width cutter, 1 1/2 in. Weight, 2 1/2 lbs. Each .. **$1.05**

DADO PLANE

85B664 — Stanley No. 239. Iron Dado Plane. With extra narrow 1/8 in. steel cutter. Ideal for electrical wire grooving. Double spur prevents splintering. Depth gauge for groove up to 1/2 in. deep. Length, 7 1/2 in. Wt., 1 lb. Each .. **$1.54**

EDGE TRIM PLANE

85B690—Stanley No. 95. Especially for smoothing ends of boards for a close fit. Slanting steel cutter, easy shaving. By attaching wood blocks of various bevels, slanting cuts may be made. Japanned iron body. Length, 6 in. Cutter, 7/8 in. Wt., 1 1/4 lbs. Each **85c**

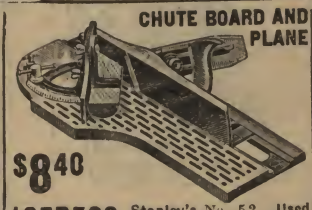
DOOR TRIM PLANE
BETTER THAN CHISELS — $2.10

85B684 Stanley's No. 171. Used for making mortises for butts, strike plates, etc., up to 5/16 deep, by 3 in. wide. Serves also as router plane. Cushioned adjustable cutter. Regulating fence. Japanned iron stock. Nickel-plated trimmings. Rosewood handles. Three forged steel cutters. Length, 11 in. Wt., 3 1/2 lbs. $2.75 value. Each **$2.10**

STANLEY DOVETAIL PLANE — $4.90

85B670 Stanley's No. 444. Used for making a tongue and groove for a dovetail joint. The only tool on the market which accomplishes this satisfactorily. Cuts any size grooves and tongues with sides flaring 20 degrees, where width of neck is not over 1/4 inch, and depth of groove not over 3/4 inch. Cuts them with parallel or tapering sides. Easy to operate. Complete directions included. Finely nickel-plated iron, with steel cutters. Length, 9 in. Packed in neat box. Weight, 6 lbs. $6.00 value. Each **$4.90**

ADJUSTABLE RABBET PLANE
FOR VERY ACCURATE WORK — $1.85

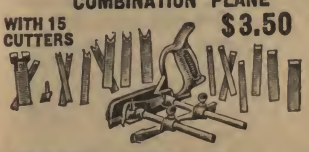


85B686 Stanley's No. 93. Used on the finest cabinet work where great accuracy is required. Throat is adjustable for fine or coarse work, and steel cutter is adjustable endwise. Sides and bottom are square with each other. Made of iron. Nickel-plated. 6 1/2 in. long. Tool steel cutter, 1 in. wide, screw adjustment. Weight, 1 1/2 lbs. $2.60 value. Each **$1.85**

CURVE RABBET PLANE — $2.80

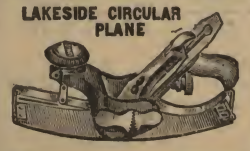
85B660 Stanley's No. 196. Used for cutting rabbets on circular or irregular edges. Works outside or inside. Upper cutter acts as spur and cuts the side of the rabbet. Lower cutter follows the spur and cleanly cuts the bottom of the rabbet. Adjustable depth gauge and curved fence. Nickel-plated iron. Length, 9 in. Weight, 2 3/4 lbs. $4.00 value. Each **$2.80**

CHUTE BOARD AND PLANE — $8.40



85B708 Stanley's No. 52. Used for accurately planing any kind of small pieces. The special plane has the cutter set on a skew, making a smooth, keen cut. Any ordinary "Draft" can be given to a pattern. Swivel can be clamped at any desired angle up to 90 degrees. Holds various shaped work, without splintering. Japanned iron. Length, 22 in. Rosewood handle. Tool steel cutter, 2 3/8 in. wide. Screw and lever adjustment. Shipping wt., 17 1/2 lbs. $10.00 value. Each **$8.40**

CORE BOX PLANE
For Semi-circle to 5 in. Diam. — $3.10

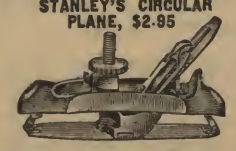


85B705 Stanley's No. 57. For planing the inside of semi-circles. Includes one set of sections for working semi-circles up to 5 in. diameter. Nickel-plated iron. Length, 10 in. Beech handle and knob. Tool steel cutter, 7/8 in. wide. Wt., 5 3/4 lbs. $4.25 value. Each **$3.10**

COMBINATION PLANE
WITH 15 CUTTERS — $3.50

85B672 Stanley's No. 50. Used as plow, dado, beading and matching plane on light work. FURNISHED WITH 15 STEEL CUTTERS. Plow and Dado Cutters, 1/4, 5/16, 3/8, 7/16, 1/2, 5/8, 7/8 in. Beading Cutters, 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2 in. One pair, 1/4 in. matching cutters. Nickel-plated iron. Length, 9 1/4 in. Steel arms, 5 in. long. Weight, 4 lbs. $5.00 value. Each **$3.50**

LAKESIDE CIRCULAR PLANE



85B640 — Lakeside Improved Iron Circular Plane. The adjustment is easy and rapid. The flexible steel face can be quickly changed to any required arc, convex, concave, or straight. Is equal in quality and finish to the best. Steel cutter, 1 3/4 in. Weight 3 3/4 lbs. Each **$1.80**

STANLEY'S CIRCULAR PLANE, $2.15

85B642 — Stanley No. 113. Iron Circular Plane. The steel face is flexible, and by means of knob at end of stock, concave or convex surfaces can be worked as easily as straight ones. Width of steel cutter, 1 3/4 in. Weight, 3 7/8 lbs. Each **$2.15**

STANLEY'S CIRCULAR PLANE, $2.95

85B643—Stanley No. 20. The ends of the flexible face are fixed to the one-piece frame, and the large adjusting screw applied at the center, making a plane having great rigidity and accuracy of adjustment. Width of steel cutter, 1 3/4 in. Iron nickel-plated finish. Weight, 3 7/8 lbs. **$2.95** Each **$2.95**

STANLEY IRON ADJUSTABLE SCRAPER PLANE — $1.55

85B645—For scraping veneers or cabinet work. As a tooth plane will do excellent work in scraping off old paint and glue. Length, 9 in. 2 1/8-inch steel cutter. Toothing cutter not included. Weight, 4 lbs. Each (with Veneer Scraper) **$1.55**

85B646—Extra steel cutter for Veneer Scraper. Each **17c**

85B647—Extra steel cutter for toothing (22, 28 or 32 teeth per inch). Each **23c**

LAKESIDE RABBET PLANE AND FILLISTER, 98c

85B654—This iron plane has two seats for cutters. The arm is reversible and can be used on right or left side of plane. It can be used to plane into corners or up against perpendicular work. It makes a superior right or left hand fillister, with adjustable spur and depth gauge. Length, 8 1/2 in.; 1 1/2-inch steel cutter. Wt., 3 1/4 lbs. Each **98c**

We sell so many Men's Shirts because they are such big values

LAKESIDE HIGH GRADE CHISELS

LAKESIDE SOCKET FIRMER CHISELS

SET OF 13 STANDARD BITS.

85B1005—Consists of 13 Cast-Steel Double Spur Auger Bits. Full polished. One each, ¼ to 1 in. Put up in plain, flannel lined, canvas roll, as shown.
Complete **$1.70**

85B1006—Consisting of 13 Lakeside Double Spur Auger bits, Jennings' pattern. Finely polished. One each, ¼ in. to 1 in. Put up in a heavy, brown, canvas roll, as illustrated. Edges bound with leatherette. Fitted with brass eyelets for hanging on wall. Leather strap and buckle.
Complete **$2.65**

85B1008—Consists of 13 Lakeside Solid Center Stem Auger Bits. Finely Polished. One each, ¼ to 1 in. Put up in a neat, canvas roll same as Lakeside bits above.
Complete **$2.75**

EMPTY CANVAS ROLLS WITHOUT BITS

85B1010—With pockets for 13 auger bits. A convenient and practical way of keeping auger bits. Made of heavy brown canvas. Leatherette bound edges. Fitted with brass eyelets for hanging up with strap and buckle. Average weight, 6 oz. Each **28c**

RUSSELL JENNINGS' AUGER BITS

Standard Double Thread Screw. These bits are considered by many mechanics the finest auger bits on the market. They have a well established reputation for quality. Made of finest steel, correctly shaped, properly tempered and highly polished. We furnish them with standard double thread for cabinet and fine work.

FULL SET OF 13 BITS

85B985—Set of 13 bits. One each, ¼ to 1 in., in a patent, three-section hardwood box, as shown. Weight, 4½ lbs.
Per set **$5.00**

SET OF 6 BITS

85B986—Set of 6 bits. One each, ¼, 5/16, ⅜, ½, ⅝ and ¾ in., put up in a neat, wooden box with hinged cover. Weight, 1⅝ lbs.
Per set **$2.00**

C. E. JENNINGS & CO. AUGER BITS

Made of extra quality steel with double spurs. Correctly shaped, well tempered and finely polished. With standard double thread screw. A fine, high grade bit, greatly favored by many of the best mechanics.

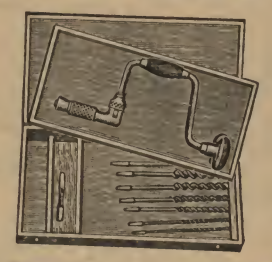
SET OF 13 BITS

85B1000—Consists of 13 bits as described. One each, by sixteenths, from ¼ to 1 in. Put up in a neatly varnished box with hinged cover. Average wt., 4¾ lbs.
Per set **$2.98**

SET OF 8 BITS

85B1001—Consists of 8 bits as described. One each, 3/16, ¼, 5/16, ⅜, ½, ⅝, ¾, ⅞, 1 in. Put up in a neatly varnished box with hinged cover. Average weight, 1¾ lbs.
Per set **$1.70**

LAKESIDE SPECIAL BRACE and BIT SET



85B1014—Set consists of the following tools: 1 nickel plated steel Lakeside ratchet bit brace, 10 in. sweep. With full set of 13 Lakeside solid stem auger bits (our 85B9180), one each, ¼ to 1 in. Set of 8 German gimlet bits, 1/16 to 5/16 in., one square reamer, one flat countersink, one snail countersink, one auger bit file. All high grade, extra quality tools. Complete, in a neat hardwood box with hinged cover, as illustrated. Box has separate tray for brace. Average weight, 12 lbs. Regular $6.00 to $6.50 retail value. Per set..... **$4.95**

BRACE AND BIT SET

85B1018—Set consists of the following tools, as illustrated: 1 nickel plated ratchet bit brace, 10-in sweep; 7 Lakeside, extra quality steel auger bits, one each ¼, ⅜, ½, ⅝, ¾, ⅞, 1 in. (our No. 85B915); and 1 screwdriver bit. Packed complete in a nicely finished hardwood box. Box has separate tray for brace. Average wt. 7 lbs. Regular $3.50 retail value.
Per set **$2.45**

BRACE AND BIT SET

85B1020—Set consists of the following tools as shown herewith: 1 Ratchet Brace, polished steel, 10-in. sweep; 7 Standard steel auger bits, one each, ¼, ⅜, ½, ⅝, ¾, ⅞, 1 inch; and 1 screwdriver bit. A good outfit for general use. Packed complete in a nicely finished hardwood box, as illustrated. Box has separate tray for brace.
Average weight, 5¾ lbs. Per set..... **$1.75**

STANLEY FLOOR PLANES

ADJUSTABLE FLOOR PLANE

85B745 — Stanley's No. 11½. Used in kneeling position for planing floors, bowling alleys, decks of vessels, etc. Made of iron, japanned. Length, 7½ in. Throat is adjustable, and cutter adjustable endwise. Maple cross handle. Tool steel cutter. Width, 2⅜ in. Screw adjustment. Weight, 3¾ lbs. $3.15 retail value. Each..... **$2.20**

LONG HANDLED FLOOR PLANE

185B746—Stanley's No. 74. Used in standing position for planing large floors, decks of vessels, roller skating rinks, etc. Made of iron, japanned. Length, 10½ in. Tool steel cutter; width, 2⅜ in. Average shipping weight, 23½ lbs. $4.50 retail value.
Each **$3.50**

ANGULAR BORING MACHINES

STANDARD BORING MACHINE

$3.25

185B1378—Strong and well made, with graduated ways, swinging rack, malleable crank. Can be used to bore at any desired angle. Chuck has ½ in. round hole. Base and uprights are seasoned hardwood. Cast iron mechanism. Average shipping weight, 26 lbs. $5.00 retail value.
Without augers. Each..... **$3.25**

MILLER'S FALLS BORING MACHINE

$6.25

185B1380—A high grade, finely finished machine. Cast iron mechanism. Uprights are ½ in. round steel rods, adjustable by a set screw to bore at any angle. Chuck has ½ in. round hole. Average shipping weight, 41 lbs. Without augers. Each.... **$6.25**

RAPID FLOOR SCRAPER

WILL DO THE WORK OF THREE MEN WITH HAND SCRAPER **$8.25**

185B740—This machine will do the finest work on all kinds of flooring, either hard or soft wood; will do it easily and much quicker than by any other method. Has a special tool steel knife, rubber tired wheels and handle adjustable to different heights. The machine is pulled toward the operator, working upon the floor similar to a plane, leaving the surface smooth and level. The weight of the machine prevents it from jumping and leaving a wavy effect, and the rubber-tired wheels prevent scratching the floor. Does the same good work as many machines sold at a much higher price. Width of machine, 6 in., and the same knife extends across the entire width so it is possible to get close to the wall or base board and into corners. Average shipping weight, 130 lbs.
Each (with two knives) **$8.75**

85B741—Extra knives. Wt., 6 oz. Each..... **.40**

PLANE GAUGES

PLANE GAUGE FOR IRON PLANES

85B710—Readily clamped to any iron plane, to accurately plane bevels of any angle. Does away with the use of a try square or bevel. Cast iron, Japan and nickel finish. Average weight, 1¾ lbs.
Each..... **70c**
(Plane not included.)

PLANE GAUGE FOR IRON PLANES

85B714—Stanley's No. 386. For accurately planing bevels between 30 and 90 degrees or for squaring up edges of boards. Clamps on either side of plane. Nickel plated. Average weight, 2¼ lbs. Each..... **$1.20**
(Plane not included.)

PLANE GAUGE FOR WOOD PLANE

85B712—Will fit any wooden plane. Attached with screws. By its use either beveling or jointing may be accurately and quickly accomplished. Cast iron. Average wt., 1¾ lbs.
Each **58c**

(Plane not included.)

HIGH GRADE MALLETS AT LOW PRICES

RAWHIDE BOUND MALLETS

85B648—Made of heavy brown duck. Convenient and durable. Adjustable waist band. With four pockets, reinforced with leather at corners, as illustrated. Will hold nails, rule, etc. Neatly and carefully made throughout. Size, about 26x20 in. Weight, about 5 oz. Each..... **20c**

It is our business to keep within reasonable limits the prices of the things you need. If we cannot make our prices more attractive than others, we cannot expect your orders.

Conditions have never before made this catalogue so interesting; the world's markets have never been so carefully combed by our buyers as they have been this season; in the face of rising prices, our quotations have been kept consistently low and attractive.

You can't afford to build without sending for our new Book of Homes

HIGH GRADE METAL DRILLS AND REAMERS

BIT STOCK TWIST DRILLS

FOR METAL BORING

85B1050—Bit Stock Drills, with square shank and will fit any ordinary bit brace. Made by one of the largest and best manufacturers in the country. Each drill is carefully tempered steel, tested and finished. Will bore any kind of untempered steel, iron or other metal. Suitable for either metal or wood. We offer them at low prices, which are only possible on account of the immense quantities which we sell. (Give size.) Lengths, 3½ to 7¾ in. Weights, each, ½ to 7 oz.

LIGHT FOUR-JAW LATHE CHUCK INDEPENDENT JAWS

85B1188—Sufficiently strong for work usually placed on the smaller sizes of Independent chucks. Jaws and screws are of steel, closely fitted. A hardened steel collar takes the thrust of the screw, saving wear and adding to its durability. Cast iron body.

Diam. in.	4	5	6	7½
Weight, lbs.	4⅝	6⅝	9½	13
Each	$7.80	$9.10	$10.40	$11.70

ODD JOB LATHE CHUCK, $2.75

85B1190—Any size from 1⅛ to 3¾ in. diameter can be firmly secured by means of movable studs. The studs can be reversed to hold either inside or outside work.

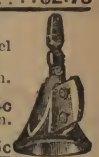
Extreme diameter, 5¼ in.; thickness, 1 in. The back is recessed for a 3 in. face plate, and tapped for screws ¼ in. by 20 thread. We include these screws but not the face plate. Weight, 5¼ lbs.
Each $2.75

HOLLOW AUGERS

ADJUSTABLE HOLLOW AUGER

85B1200—Simple strong and durable. Cuts tenons from ⅜ to 1 in. Has an adjustable stop and steel blade. Length, 6 in. Wt., 1½ lbs.
Each 45c

ADJUSTABLE HOLLOW AUGER



85B1202—Adjustable Hollow Steel Auger. Cuts any size tenon from ¼ to 1¼ in. Has a graduated scale and adjustable stop to regulate the length. Length, 6½ in. Wt., 1½ lbs.
Each $1.70

ADJUSTABLE HOLLOW STEEL AUGER

85B1206—High grade adjustable Hollow auger. Will cut any size tenon from ¼ to 1¼ inches. The jaws are moved by means of a right and left hand screw. The length of tenon is regulated by an adjustable stop. Strictly first class. Length, 6½ in. Wt., 1¼ lbs. $3.50 value.
Each $2.75

ADJUSTABLE SPOKE POINTERS

With graduated adjustable shank. Steel cutter. Cast iron body.

85B1210—Size 1. Diameter, 2½ in. Lenght, 4½ in. Wt., 10 oz.
Each 34c

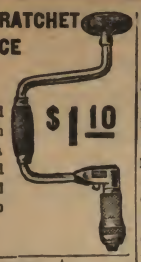
85B1211—Size 2. Diameter, 2¾ in. Wt., 1 lb.
Each 55c

UNIVERSAL HOLLOW STEEL AUGER

85B1208—Has a patent adjustment which permits the knife to be moved by simply turning the knurled head adjusting screw. All wearing parts are carefully hardened. Cuts tenons from ¾ to 1¼ in. inclusive and has a graduated scale on the top of jaw. Length, 7 in. Wt., 1⅝ lbs. $4.50 retail value.
Each $3.70

PEACE'S SPOKE TENONING MACHINE

The knife starts on the blunt end of the steel spoke, and centers perfectly. Keeps cutting by the force of the spring. Adapted to any size spoke or dish of wheel. Length, 21½ in. Cuts tenons any size from ¼ in. to 1¼ in. Ship. wt., 16 lbs.



185B1212—Without felloe boring attachment.
Each $8.80

185B1213—With felloe boring attachment.
Each $9.30

We sell first-class Bar Iron at lowest prices. Refer to Index.

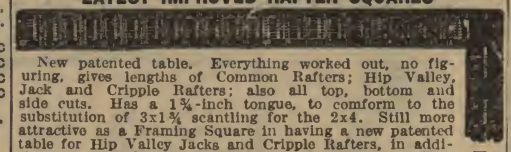
PERFECTED—TAKE-DOWN—RAFTER SQUARE



Covers All Uses
Works Easy

$1.95

This Take-apart-Joint is the best one ever applied to a square. It consists of a tapering dove-tail tongue and groove, which, when pulled tight by turning a small slotted cam, insures an absolutely true joint. This cam, when loosened, releases the tongue, making the square very easy to take apart, as there is no spring to bind. The new complete Rafter Table is easily understood and shows 16 different measures for the following: Length of common rafter, per foot run; length of Hip or Valley rafter, per foot run; difference in length of jacks, 16 inch centers; difference in length of jacks, 2 ft. centers; side cut of Jack; side cuts of Hip or Valley Rafter. Side cut of sheathing in Valley or Hip Body is 24x2 in. Tongue, 16x1½ in. Spaced 8ths, 10ths, 12ths, 16ths, 32ds. Has Essex Board Measure, Octagon Scale, Brace Measure and Improved Rafter Scale. Weight, 2¾ lbs. Complete, with water-proof case.

85B1898—Royal Copper Finish. White enamel markings. ($2.75 retail value.) Each **$1.95**

LATEST IMPROVED RAFTER SQUARES

New patented table. Everything worked out, no figuring, gives lengths of Common Rafters; Hip Valley, Jack and Cripple Rafters; also all top, bottom and side cuts. Has a 1¾-inch tongue, to comform to the substitution of 3x1¾ scantling for the 2x4. Still more attractive as a Framing Square in having a new patented table for Hip Valley Jacks and Cripple Rafters, in addition to a well known patented table for common rafters. Has a new table of cuts for the common polygons, and the standard brace measure. Complete directions. Weight, 2¾ lbs. Body, 24x2. Tongue, 16x1¾ in.

85B1890—No. 503 Polished Steel. Spaced ¼, 1/12, 1/16 in. Each **75c**

85B1892—No. 500NR Nickel Plated. Spaced ⅛, 1/12, 1/16, 1/100 in. Each **$1.00**

Used extensively by miners as a slope level, and a valuable tool for the draughtsman, carpenter, engineer, etc. Weight, 6 oz. $2.00 retail value. Each **$1.65**

ONE-FOOT RULES

85B1825—Boxwood 1-ft. Rule, 4-fold, has square joints and is marked in 8ths and 16ths. Width, ⅝ in. Wt., 1 oz. Each **12c**

ONE-FOOT RULE

85B1827—Boxwood 1-ft. Rule, arch joints, brass bound, marked in 8ths and 16ths. Width, ⅝ in. Wt., 1 oz. Each **25c**

FLEXIBLE STEEL RULE

85B1834
Thin steel 1-ft. rule, ⅝ in. wide. Three folds. Graduated in 16ths. Weight, 1 oz. Each (in leather case)..... **22c**

LOG AND BOARD RULES

Made of the best second growth hickory and shaped by hand, so they will retain their flexibility after use. The figures are burned in the wood. Weights range from 13 oz. to 16 oz.

85B1848—Hickory Log Rule, square head; Scribner's scale figured, 48 in., with 6 in. handle. Each **$1.10**

85B1849—Same with Doyle scale. Each **$1.12**

85B1850—Hickory Log Rule, square head; Scribner's scale figured, 36 in. with 6 in. handle. Each..... **93c**

85B1851—Same with Doyle scale. Each **95c**

HICKORY BOARD RULES

85B1852—Board Rule, 3 tier, 3 feet, extra heavy brazed head. It is the rule for regular yard work and the one most commonly used. Weight, 10 oz. Each **$1.00**

WOOD AND METAL CALIPER RULES

COMBINATION CALIPER RULE

Solid German Silver

Comprises a caliper rule, protractor, triangle, try square and hook rule. A finely finished rule. Accurately graduated in 16ths and 32nds. Protractor is divided to five degrees and the vernier reads to one-half degrees. Wt., 2 and 4 oz. (In leather case.)

85B1830—Length, 6 in. Each. **$1.10**

85B1831—Length, 12 in. Each. **1.80**

CALIPER RULES

85B1818—Boxwood Caliper Rule. Square joint, 2-fold, spaced in 8ths, 10ths, 12ths and 16ths. Length, 6 in. Width, ⅞ in. Weight, 1 oz. Each **18c**

85B1819 — Solid Ivory Caliper Rule. German silver trimmed, 2-fold. Length, 6 in. Width, ⅞ in., spaced in 8ths and 16ths of an inch. Weight, 1 oz. Each **95c**

Caliper Rules

28c

S5B1822 — Boxwood Caliper Rule. Length, 1 foot, arch joints, 4-fold, spaced in 8ths, 10ths, 12ths and 16ths. Width, ⅞ in. Weight, 1 oz. Each **28c**

85B1823—Solid Ivory Caliper Rule. Length, 1 ft. German silver bound, 4-fold, full bound, spaced in 8ths and 16ths Width, ⅝ in. Weight, 2 oz. Each **$2.75**

BLACKSMITHS' SPRING BRASS RULE

35c

85B1836—Length, 2 ft.; width, ⅝ in. Made with a stiff spring joint which holds the rule rigid when open. Graduated 8ths on one side and 16ths on the other side. Made of Spring Brass which will not rust nor break. A favorite with blacksmiths everywhere. Useful also for many other purposes requiring a flexible rust-proof rule. Weight, 4 oz. Each **35c**

HOLLOW HANDLE TOOLS

HOLLOW HANDLE TOOL SET

30c

Polished Cocobolo

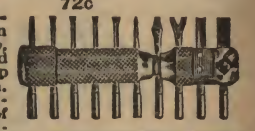
85B1330 — A very useful tool. Hollow polished cocobolo handle. Holds 10 good sized tools as illustrated, all solid steel, hand-forged. Length of handle, 5¾ in. Weight, 7 oz. Excellent value. Each **30c**

HOLLOW HANDLE TOOL SET

68c

85B1332
Extra quality, large hollow cocobolo handle. With a superior thumb nut and grip, nickel-plated. With 9 tools as shown. Tools are made from high grade steel. Length of handle, 7 in. Wt., 12 oz. Each... **68c**

LAKESIDE EXTRA QUALITY HOLLOW HANDLE TOOL SET



95c

85B1334
Our Lakeside Extra large handle. Made of polished cocobolo. Ten tools. Best quality tempered steel. The chuck is nickel-plated and constructed with special regard to strength and durability. Length of handle, 7½ in. Weight, 1 lb. Each **95c**

COMBINATION HANDLE TOOL SET

72c

85B1338—Combination Tool Handle, pin vise, and end tap wrench. Made entirely of steel, nickel-plated. Handle is hollow, with a screw cap. Contains 10 forged steel tools as illustrated. Weight, 12 oz. Each **72c**

HOLLOW HANDLE TOOL SET

35c

85B1336—Henry's Patent Tool Handle. With a solid Cocobolo handle and nickel-plated metal cap. Contains 12 tools as shown, made of extra tool steel. Length, 4¾ in. Weight, 6 oz. Each **35c**

CRISPIN'S HOLLOW HANDLE AWL

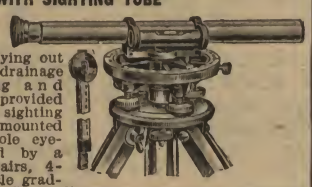
28c

85B1340—Ebonized Hardwood hollow handle, length, 5 in. Contains 50 feet of best waxed linen shoe thread; 3 awls and 5 needles. For quick mending in the house, stable, field or camp. A well made useful tool. Weight, 3 oz. Each **28c**

Growing by leaps and bounds—our sales of Galvanized Eave Trough

SURVEYING, ENGINEERING AND FARM DRAINAGE LEVELS

DRAINAGE OR FARM LEVEL WITH TELESCOPE

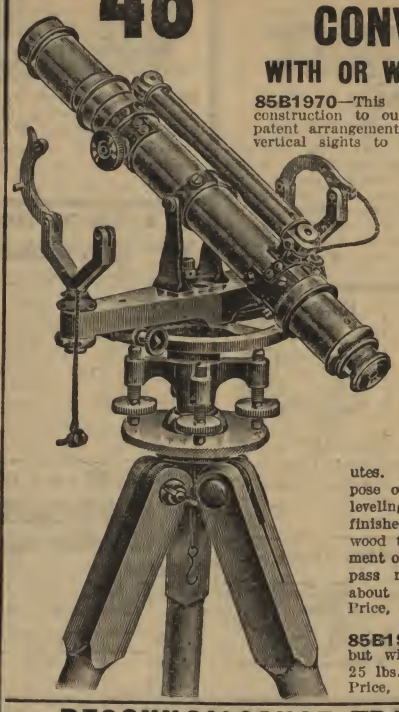


$22.10

85B1954—An instrument constructed for the use of farmers, ditchers, landscape gardeners, etc. Has a fine telescope, 12 inches long, magnifying power of 16 diameters; graduated level vial, same being sensitive enough to tell a variation of ⅜ inch in 100 feet distance after being leveled up. Instrument revolves on a spindle and is always kept in a level plane. Constructed of bronze metal and packed in neat hardwood box. Shipping wt., 22 lbs.
Each (complete with tripod) **$22.10**

85B1955—Drainage Level, like above, but with horizontal circle reading to degrees for turning angles. Shipping wt., 22 lbs.
Price, each (complete with tripod) **$25.50**

DRAINAGE OR FARM LEVEL
WITH SIGHTING TUBE



85B1951—For laying out farm lands, drainage ditches, roadmaking and similar uses. It is provided with 10¼-inch sighting tube, level vial mounted in the tube, pinhole eye-piece, front closed by a glass, with cross-hairs, 4-inch horizontal circle graduated to degrees. Clear directions, free from technical terms, are furnished with each level. Complete in neat wooden case, with lock, hooks and metal handle, plumb bob key for center, wood leveling rod, strong hardwood tripod. Shipping weight, about 10 lbs.
Price **$14.95**

SURVEYORS' HAND LEVEL

85B1960—Convenient in making preliminary surveys, building ditches or roads and is invaluable for this work in running lines or estimating elevations or depressions. Accurately made, with heavy bronze metal case. Length, 5 in. In neat leather case. Weight, 9 oz.
Price (with leather case) **$3.25**

$48.10 ARCHITECTS' CONVERTIBLE LEVEL
WITH OR WITHOUT TANGENT SCREW

85B1970—This instrument has tangent screw. Is similar in construction to our No. 85B1966, but with the addition of a patent arrangement by means of which it can be used for taking vertical sights to the extent of 45 degrees in either direction. Will also take horizontal angles between two points not in the same plane. Has various uses, such as leveling walls, laying out angles, giving lines and levels for buildings, grading tracks, streets, sewers, drains, etc. Architects and builders will find this additional device well worth the extra cost. Our instrument is constructed with an adjustable horizontal bearing which makes the instrument rigid and accurate, and also prevents the telescope from over-balance. This is an improvement over other instruments of this kind. It has a 12-inch telescope with a graduated level vial mounted on it, magnifying power 19 diameters; objective 1⅛ in. aperture, with rack and pinion movement, dust guard, sun shade, and dust cap. Eye-piece adjustable for focusing cross hairs. Horizontal circle 4½ in., divided to degrees reading by a vernier, attached to the spindle, to 5 minutes. The horizontal circle is reversible for the purpose of setting it at zero at any given joint. Four leveling screws. Instrument complete in mahogany finished box with plumb bob, adjustable pins, hardwood tripod, and metal trivit (for setting the instrument on a surface of wood or stone). There is no compass needle on this instrument. Shipping weight, about 25 lbs. Exceptional value.
Price, each (complete with tripod) **$52.50**

85B1971—Architects' Convertible Level, like above, but without tangent screw. Shipping weight, about 25 lbs.
Price, each (complete with tripod) **$48.10**

RECONNOISSANCE TRANSIT
FOR RAPID AND PRELIMINARY SURVEYING

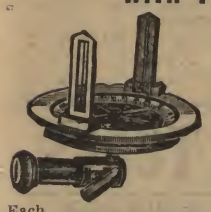
85B1975—This instrument is designed for light and moderately accurate work and recommended for rapid and preliminary surveying. Mining and all such work, where a light and portable instrument is desired. Erecting Telescope, 9 in.; magnifying power 28 diameter; lenses of best domestic make; stadia wires; graduated level vial to telescope; objective 1⅛ in. diameter, with rack and pinion movement; dust guard, sun shade and dust cap; spiral motion arrangement for focusing cross and stadia hairs; clamp and tangent screws to telescope axis; telescope reversible from both ends, vertical circle, 3½ in., graduated to degrees and numbered to quadrants with vernier reading to five minutes. Horizontal Limb, 5½ in., graduated to ½ degree, with two rows of figures reading in opposite directions from 0 to 360 degrees. One double vernier reading to single minutes. Vernier opening 30 degrees to the line of sight; clamp and tangent screws to horizontal limb; compass needle 3⅝ in. with variation plate, two plate levels; shifting center. Weight of instrument, 9½ lbs., with tripod, 16½ lbs. Instrument complete in mahogany finished box; plumb bob, reading glass, adjusting pins, etc. Extension tripod. Shipping weight, about 30 lbs. Price, each (complete with tripod) **$98.00**

ARCHITECTS' LEVEL
WITH OR WITHOUT TANGENT SCREW

$38.25

85B1965—This instrument is especially designed for Architects and Contractors, for leveling walls, laying out angles, giving lines and levels for buildings, grading streets, sewers drains, etc. It has 12-inch telescope, magnifying power, 19 diameters; objective, 1⅛ inch aperture, with rack and pinion movement, dust guard, sun shade and dust cap. Eye-piece adjustable for focusing cross-hairs. Graduated level vial; horizontal circle, 4½ inch, divided to degrees reading by vernier (which is attached to the spindle) to five minutes. The horizontal circle is reversible for the purpose of setting the same at zero at any given point. Four leveling screws. Instrument complete in mahogany finished box with plumb bob, adjustable pins, metal trivit (for setting the instrument on a surface of wood or stone), hardwood tripod. Shipping weight, 18 lbs.
Price (complete with tripod) **$38.25**
85B1966—Architects' Level, like above, but with tangent screw. Shipping wt., 18 lbs.
Each (with tripod) **$42.80**

FARMERS' OR CONTRACTORS' LEVEL
WITH SIGHTING TUBE



$9.63

85B1958 — Starrett's No. 101, Leveling Instrument. For architects, contractors, carpenters, millwrights, masons, surveyors, etc. Its lightness, simple construction, and extremely moderate price, combined with the wide range of work to which it can be applied, make it very desirable.

The tripod is of iron, and has improved extension legs, adjustable from 2½ to 4½ ft. The sight tube is brass, twelve inches long, and in one end is a small eye aperture, while the other end has the usual cross wires. Handsome nickel and japan finish. We have sold a great many of these instruments to farmers, for use on their ditches, sewers, etc. This instrument appeals to farmers, particularly, because of its strength and simplicity. It is adapted to all their needs without a lens, and is sold at a very moderate price. The distance through which a sight may be taken with this instrument is considerable, depending, of course, on the strength of the eye applied to it. Shipping weight, 14 lbs. Price (complete with tripod and directions for use, packed in neatly finished wood case) **$9.63**

FOLDING SIGHT COMPASSES WITH TWO LEVELS

Well made and finely finished. Have folding hook sights, jeweled bar needle with sliding stop and full raised circle divisions; two levels for adjustment. Can be used on either tripod or Jacob Staff as desired. Each Compass in case.
85B1984 — With 2½-inch needle. Weight, 1½ lbs.
Each **$6.30**
85B1985 — With 3½-inch needle. Weight, 2½ lbs.
Each **$7.90**

Jacob Staff for Above
85B1986—Single stick. Hardwood with metal shoe for use with either of above compasses. Length, 4½ ft. Weight, about 2 lbs. Price **90c**

Tripod for Above
85B1987—Well finished hardwood, with Jacob Staff top, for use with either of above compasses. Weight, about 5 lbs.
Price **$2.75**

FOLDING SIGHT COMPASSES

FOLDING SIGHT COMPASS
AN EXCELLENT POCKET COMPASS

Well made and durable. Intended for retracing lines that have once been surveyed, and may also be used as a pocket compass. Have full raised circle divisions and jeweled bar needle and sliding stop. Cases are nickel with hinged cover. In two sizes.
85B1980—Diameter, 2 in. Weight, 6 oz.
Each **$3.25**
85B1981—Diameter, 2¾ in. Weight, 10 oz.
Each **$3.70**

VERNIER COMPASS
WITH FOLDING SIGHTS

85B1991—For approximate work. Folding sights with hairline and slit value. Size of needle, 3½ in. Diameter of case, 5 in. On the inside ring, a second scale is given, for setting off either East or West magnetic variation. Vernier reading to 5 minutes. Fitted with bar needle, jeweled center and stop. Two sensitive spirit levels, and a ball and socket mounting for a Jacob Staff. Complete in case. Weight, 1⅞ lbs. Each **$12.50**

SURVEYORS' VERNIER COMPASS

$33.90

85B1992 — Constructed of bronze metal, graduated to ½ degrees and numbered in quadrants. Has a 5-in. needle. Diameter of plate 15 in. Two spirit levels. Detachable sights. The N sight is graduated on the right and left sides. Angles of elevations and depressions of 25 degrees each way can be taken with considerable accuracy. The sight has two eye-pieces for reading the graduations on the N sight. With an outkeeper (for keeping tally in chaining) variation plate inside the compass box, reading to five minutes. Thumb and clamp screw for setting the magnetic variation of the needle. The E and W letters are reversed from their positions on the map, because the needle is a fixed point, while the compass box is revolved in directing the sights to the object observed. Complete in mahogany finished box with tripod. Shipping wt., about 24 lbs.
Price (with tripod) **$37.50**
85B1993—With Jacob staff mounting. Shipping wt., 19½ lbs. Each **$33.90**

SURVEYORS' MEASURING CHAINS
BEST AMERICAN MAKE

Highest Grade American Iron Measuring Chain. With two round rings between links. With brass tallies and brass swivel handles. Made of extra quality, rust-resisting iron. Bright finish. Joints are very closely butted, but not brazed.
85B2000—Length, 33 ft. Weight, 4¼ lbs. Each **$1.85**
85B2001—Length, 50 ft. Weight, 5⅝ lbs. Each **$2.10**
85B2002 — Length, 66 ft. Weight, 8¼ lbs. Each **$2.80**
85B2003—Length, 100 ft. Weight, 10½ lbs. Each **$3.10**

SURVEYORS' ARROWS

85B2006—Best Steel Arrows, or marking pins. Length, 14 in. In sets of 11 arrows. Wt., per set, 11 oz. Per set **65c**

TIMBER SCRIBE

85B2008—Large, extra heavy hardwood handle. With steel scribers and steel gouging blade. Length, 7 in. Weight, 5 oz.
Each **95c**

SURVEYORS' LEVELING RODS

85B2012 — Light Philadelphia Rod. With vernier clamp and target. Length, 6½ ft., sliding out to 12 ft. Subdivided 100 parts to the foot. Weight, 6⅝ lbs.
Each **$8.40**
Architects' Rod. With clamp and target. Brass mounted. Length, 5½ ft., sliding out to 10½ ft. Weight, 3½ lbs.
85B2013—Divided in inches and ⅛ in. Each **$4.85**
85B2014—Divided in 10ths and 100ths ft. Each **$4.85**

SURVEYORS' $1.30 RANGING POLES
WITH STEEL SHOE

85B2018 — Tapered Octagon Ranging Poles. Made of best seasoned white pine, with metal shoe. Painted red and white alternately every foot, as shown in illustration. A strong and well made rod. Weight, each, 1½ to 3¼ lbs.
Length, 6 ft.
Each **$1.30**
Length, 8 ft.
Each **1.50**
Length, 10 ft.
Each **1.85**

LEVELING ROD RIBBONS, $1.00

85B2020—Can be used as a Pocket Leveling Rod or to reface the Philadelphia Rod. Clearly printed on a heavy, durable material. Width, 1 1/16 in. Graduated in feet, 10ths, and 100ths feet. Numbers run from the top down. Wt., 2 oz.
Length, 12½ ft. Each **$1.00**
Length, 16½ ft. Each **1.30**
Length, 20½ ft. Each **1.50**

LINEN AND STEEL MEASURING AND SURVEYORS' TAPES

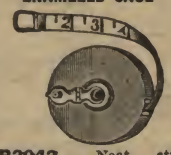
METALLIC LINEN TAPES
LEATHER COVERED CASE

Strong steel case, covered with hard leather, hand sewed. With flush handle, and nickel trimming. Tape is 9/16 in. wide. Best woven linen with bronze wires interwoven to prevent stretching and shrinking.
85B2035—Marked on one side in feet and twelfths, and on the other side in links.

Size Feet	Wt., lbs.	Each
50	¾	$2.10
75	1	2.60
100	1½	3.25

85B2036—Marked on one side in feet and tenths, and on the other side in links.

Size Feet	Wt., lbs.	Each
50	¾	$2.10
75	1	2.60
100	1¼	3.25



SURVEYORS' STEEL TAPES
HEAVY LEATHER CASE

85B2038—Steel Tapes, ⅜ in. wide in leather case, Nickel-plated trimmings. Designed for contractors, builders, masons, etc. Accurately marked in feet, inches, and eighths of inches.

Weight, about 5½ lbs. To 1 Kit, complete. **$2.10**

Riverside Tires and Tubes are built for mileage and service.

TASTEFUL, ARTISTIC — BUILDERS' HARDWARE — ECONOMICAL, DURABLE

Our Artistic Hardware is not expensive, and gives a finishing touch of refinement to the home. As the cost of hardware used in the construction of a house is a small item when compared with the entire cost of the building, it is generally considered advantageous to use the better grades of locks and trimmings. Comparison will show our prices to be extremely low. Quality and Finish considered. The knobs, escutcheons and all the trimmings are finely and attractively finished, all bolts are strong and easy working.

Our low prices make it possible for you to select Up-to-Date Hardware of elegant appearance for much less money than you would usually pay. In order to simplify as much as possible the ordering of Builders' Hardware in desired finishes, we have designated the various finishes with letters, from A to E for solid bronze, and from G to P for plated iron and steel. A harmonious, tasteful and elegant appearance is easily obtained by selecting all the trimmings of the same finish, whether all bronze, part bronze and part steel, or all steel.

The solid bronze goods, naturally are the most durable and satisfactory, especially in the case of lock sets, and present the richest appearance, as the plating takes best on a solid bronze surface. Much of our iron and wrought steel hardware is also very ornamental and finished to resemble the solid bronze hardware, the chief difference being in the danger of rust to steel hardware when exposed. We do not recommend any but solid bronze finishes for outside work.

DESCRIPTION OF FINISHES

SOLID BRONZE HARDWARE

- **A Finish**—POLISHED BRONZE, natural color, highly polished and lacquered.
- **B Finish**—RAISED SURFACES polished bronze finish; sunk background black finish.
- **C Finish**—POLISHED ANTIQUE COPPER, dark color, relieved by partial polish.
- **D Finish**—SANDED ANTIQUE COPPER, dark color, partially brightened, with dull sand blasted surface.
- **E Finish**—LEMON BRASS, rich brass color, dull satin finish; lacquered.

(C and E finishes are the most popular.)

IRON AND STEEL HARDWARE

- **G Finish**—GERMAN BRONZED. Lacquered brown color, not polished.
- **H Finish**—RAISED SURFACES polished bronze finish; sunk background black finish.
- **K Finish**—POLISHED BRONZE. Plated with bronze and highly polished and lacquered.
- **L Finish**—POLISHED ANTIQUE COPPER. Plated dark color, relieved by partial polish.
- **M Finish**—SANDED ANTIQUE COPPER. Plated dark color, partly brightened, with dull sand blasted surface.
- **P Finish**—LEMON BRASS. Plated brass color, dull satin finish.

(For Longest wear, choose the solid bronze hardware.)
